Reed & Corlett, architects, Oakland Bank of Savings Bldg., Oakland.

SAN FRANCISCO — Robert Roche, 1212 Willard, at \$19,185, awarded contract in connection with the construction of a six-story and basement class A hospital building. It is being erected on Buena Vista Ave. for St. Joseph's Hospital. Other contracts previously reported.

OAKLAND, Cal.—Masonic Crippled Children's Hospital will be erected in Oakland, according to Herbert W. Whitworth, illustrious potentate of Aahmes Temple, A. A. O. N. M. S. Financing of the proposed hospital will be via revenue accumulated from commercial portions of the new \$2,500,000 Masonic Temple to be erected in Oakland in the immediate future. "The East Bay Crippled Children's Hospital," says Mr. Whitworth, "must not be confused with the Shrine Hospitals for Crippled Children. The East Bay institution will be constructed and maintained entirely by the gifts of Masons and revenue from the new temple."

LOS ANGELES, Cal.—Wurster Construction Co., 1205 National City Bank Bldg., has been awarded contract at \$491,967 for the general construction of the new nurses' home and hospital (east wing) buildings at Sunset Blvd. and Vermont Ave. for the Children's Hospital Association. Lester H. Hibbard, architect, 622 Metropolitan Bldg. The nurses' home will be three stories, 252x60 feet, with stores in the first story and dormitory rooms for nurses in the upper stories. The hospital building will be 4-stories, 40x260 ft.

Both buildings will be Class A, reinforced concrete construction, stucco exteriors, composition roofing, steel sash, marble and tile work, steam heating, elevators.

SACRAMENTO, Cal. — Charles C. Hughes, city superintendent of schools, in report to Board of Education, recommends immediate steps for the construction of a fireproof school at Fourth and Q streets to replace the Lincoln Grammar School recently destroyed by fire, the purchase of a site for a second senior high school in the southwest section of the city, and that steps be taken for the removal of the Sutter Junior High School at 19th and

K Streets. Additions for standing school buildings are recommended as follows: Donner School, 8 class rooms, special rooms and auditorium; Bret Harte School, four class rooms and auditorium; Sierra School, four class rooms and auditorium; Stanford Elementary School, four class-room addition; Newton Booth School, four class rooms and auditorium; El Dorado School, eight class rooms; Coloma School, eight class rooms; John Muir School, four class rooms; Fremont School, auditorium. Construction of a new senior high school is recommended for city owner property in 25th St., between D and E Sts.

COLTON, San Bernardino Co., Cal.—Architects Allison & Allison 1005 Hibernian Bldg., are completing plans for two new grammar school buildings to be erected at Colton for Colton school district. One building will contain twelve rooms and will be of reinforced concrete or brick construction with stucco exterior and clay tile roofing. The other building will contain ten rooms and will be of frame construction with metal lath and plaster exterior and composition roofing. Bonds in the sum of \$140,000 have been sold.

SANTA ROSA, Sonoma Co., Cal. — Until May 23, 8 p. m., bids will be received by Sara J. Pryor, secty., Board of Education, for fencing at high school athletic field; to be equal to Cyclone Invincible, 7 ft. high, erected; end, corner, gate and line posts to be of tubular steel; top to be malleable iron and pressed steel carrying top-most barb wire 12 inches in or out from fence line at 45-deg. angle. Cert. check 5% payable to secty. required. Further information obtainable from city supt. of schools.

ELY, Nev. — Trustees of the Ely School District have indefinitely postponed construction of proposed new school building for which the State Legislature authorized a bond issue not to exceed \$50,000. When bids for construction were asked, the lowest was \$59,961 and the highest \$73,717.

LOS ANGELES, Cal.—Architects Allison & Allison, 1005 Hibernian Bldg., are preparing working plans for the auditorium and classroom building to be erected at Westwood campus for University of California at Los Angeles. It will be 280x300 ft. extreme dimensions, three stories and part two-story, with an auditorium to seat 2000 people. The construction will be of reinforced concrete for walls and floors, steel columns and roof trusses for the auditorium, face brick exterior, terra cotta or cast stone trim, clay tile roofing, steam heating. The cost will be about \$1,200,000. Plans will be completed and ready for figures in about six weeks.

O. Harris and associates; the theatre has been leased to the Associated Theatres, Inc., 649 S. Olive St.; seating capacity of 2000 with mezzanine floor balcony, 5 stores and 13 office suites; reinf. concrete construction, tile and composition roofing, stucco and terra cotta facing, mechanical ventilating system, gas heating, plate glass, basement, ornamental iron work, tile and marble, cement and pine floors, pine trim; \$250,000.

**PHOENIX, Ariz.**—Schmidt & Hitchcock have been awarded the contract for excavating for new \$500,000 theatre building to be erected for Rickards & Nace. Lescher & Mahoney are the architects and are completing the plans for the building.

**PHOENIX, Ariz.**—Architects Lescher & Mahoney, Phoenix, are completing plans for the class A theatre building to be erected at s. w. cor. of Adams St. and Second Ave., Phoenix, for Rickards & Nace. It will be three stories and basement, 138x150 ft., steel, concrete and brick construction, and will cost \$400,000.

WHARVES & DOCKS

**SAN FRANCISCO.**—M. B. McGowan, 666 Mission St., is taking steel bids in connection with the construction of reconstructing Ferry Slip "A" for the State Board of Harbor Commissioners, Frank White, engineer, Ferry Bldg.

**SAN FRANCISCO, Cal.**—Price-Teltz Co., 683 Howard St., at \$23,927, was awarded contract by the State Board of Harbor Commissioners, Ferry Bldg., for furnishing and installing steel rolling doors in connection with the construction of sheds on Piers No. 30 and No. 32.

MISCELLANEOUS BUILDING CONSTRUCTION

Plans Being Figured.  
**MARBLE WORK** Cost, \$30,000  
**LAWNDALE, San Mateo Co.** Cypress Lawn Cemetery.  
Interior marble work for mausoleum.  
Owner—Cypress Lawn Mausoleum Co., 995 Market St., S. F.  
Architect—B. J. S. Cahill, 357 Twelfth St., Oakland.  
**Bronze Gates**—Louie DeRome, 1076 59th St., Oakland.

**SELMA, Fresno Co., Cal.**—Selma Chamber of Commerce is considering plans for a new bandstand to be erected in Lincoln Park. The project will probably be financed jointly by the Chamber and the Woman's Improvement Club.

**LOS ANGELES, Cal.**—Until 10 A. M., May 25, bids will be received by county for the construction of a swimming pool and concrete water tank at Big Pines Recreation Camp (County Park). Plans and specifications may be obtained at the office of the County Architect, 10th floor, Hall of Records.

**SACRAMENTO, Cal.**—Holdener Construction Co., 2608 R St., Sacramento, at \$266,890 awarded cont. by city to const 8 rapid sand filters in connection with Municipal Filtration Plant. Project involves: 3000 cu. yds. conc.; 269 tons reinf. steel; 435 conc. piles, driving; 24,000 cu. yds. excav.; 200 ft. 24-in., 120 ft. 26-in., 460 ft. 42-in., 260 ft. 50-in. and 800 ft. 60-in. steel pipe; 8 hydraulic gate valves, 24-in.; 8 hydraulic sluice gates, 24-in.; 8 hydraulic sluice gates, 36-in.; 6 hydraulic sluice gates, 60-in.; 1 hand operated gate valve, 36-in.

**REDDING, Shasta Co., Cal.**—Until May 24, 7:45 p. m., bids will be received by M. E. Lutton, secy., Shasta Union High School District, to clean up rubbish and level that portion of new high school site for athletic field. Cert. cek 10% req. with bid. Specifications obtainable from secy.

**SAN FRANCISCO, Cal.**—F. W. Varney, 40 Rico Way, at \$1,457 submitted low bid to Board of Public Works for flood light housing and meteorological stations at Municipal Airport, near Millbrae, San Mateo county. Frank Dowsett bid \$2,064 and Elliot & Grant, \$2,091.

**SAN RAFAEL, Marin Co., Cal.**—The following bids were received by Oliver R. Hartzell, secy., Board of Education, for landscape gardening on portion of high school grounds:

<b>Landscaping</b>	
J. Karcano, San Rafael	\$3467.50
Fred Bullock, San Francisco	3454.00
Peter Sorensen, San Francisco	3403.00
<b>Gravel Walks, Etc.</b>	
Al. Biedenback, Berkeley	\$3400
Fred Bullock, S. F.	3487
Peter Sorensen, S. F.	3510
West End Nursery, San Rafael	5163
West Coast Nursery, S. F.	5950
<b>Terrace Fill</b>	
L. Biedenback, Berkeley	\$600
Fred Bullock, S. F.	725
Peter Sorensen, S. F.	787

**SACRAMENTO, Cal.**—American River Beach Co., plans to establish an amusement park on the American River at H St. bridge, involving facilities for swimming, boating, dancing and other concessions. The park will cover 32 acres.

**SAN FRANCISCO**—Board of Health seeks \$5000 budget appropriation from supervisors to finance erection of a shelter gate at the San Francisco Hospital.

**SAN FRANCISCO**—Haight and Ashbury Improvement Club has adopted resolutions requesting supervisors and Park Commission to take steps to secure a \$1,000,000 athletic stadium with a seating capacity of 180,000. A site suggested is located at the south of Buena Vista Park and in proximity to Roosevelt Way, bounded by Masonic Ave., Ashbury, Clayton and Clifford Sts. Geo. S. Hill, 36 Diamond St., civil engineer, has prepared preliminary plans for the project.

Contract Awarded.  
**MAUSOLEUM** Cost, appror. \$100,000  
**EUREKA, Humboldt Co., Cal.** Sunset Memorial PaPrk.

Reinforced concrete and steel mausoleum.  
Owner—Sunset Memorial Park Mausoleum Corp., Eureka, Calif.  
Architect—W. H. Hubbert, 110 Sutter St., San Francisco.  
Contractor—Mercer-Fraser Co., Eureka Calif.

Will contain 200 crypts, 120 of which will be standard type, 100 De Luxe, 20 couch type and 4 family rooms. Exterior will be executed in stone texture; main corridors and chapel will be vaulted Romanesque form, executed in marble and bronze. Structure is so laid out as to permit extensions at some future time.

**TURLOCK, Stanislaus Co., Cal.**—Until May 17, 8 p. m., bids will be received by A. P. Ferguson, city clerk, to erect comfort station in Crane Park. Cert. check 10% req. with bid. Plans obtainable from Horace Hall, city engineer.

BUSINESS OPPORTUNITIES

**SAN FRANCISCO, Cal.**—Further information regarding these opportunities may be obtained from the office of Larsen Advance Construction Reports, 818 Mission St., San Francisco, either by phone, letter or personal call. Requests for additional information should be made to the Business Opportunities Department. Such requests must be accompanied by the index number of each opportunity.

D-2439—Coquille, Ore. Suppliers of a good grade of myrtle and maple timber wish to get in touch with interested San Francisco purchasers of this material.

D-2110—Brooklyn, N. Y. Old established concern manufacturing steam, power and rotary pumps desires to appoint a suitable San Francisco individual or firm to represent it in San Francisco. Heretofore all its business with the Pacific Coast has been carried on by mail and they now wish to appoint a representative located in this territory.

11603—Marlemont, Belgium. Manufacturers of paving squares and marble mosaic flags seek markets for the sale of their goods in America.

11606—Charleroi, Belgium. Firm specializing in metals and building materials wishes to represent large American firms as buying agent on a commission basis, in Belgium, France and Germany.

11607—Brussels, Belgium. Firm engaged in the sale of bricks, particularly extra-resisting vitrified bricks, seeks connections among American buyers and importers.

11610—Port-au-Prince, Haiti. Firm handling the sale of machinery wishes to get in touch with manufacturers of deep well rotary pumps.

11617—Vancouver, B. C. Established sales agency for the purpose of representing manufacturers of high-grade products, desires to get in touch with firms not yet represented in western Canada and who manufacture hardware specialties and associated lines.

11627—Argentina. Several Argentina firms who already have well-established representations in various lines are open to accept further representations, such as lumber, office equipment, building materials, engineering supplies, paints and varnishes, hardware, etc.

11623—London, England. Company wishes to represent American manufacturers of engineering sundries, light type machinery, chemicals and imperishable food products.

11625 — Cairo, Egypt. Company wishes to establish connections in the United States for the purchase of construction material, particularly cast iron pipes and steel pipes and fittings. At present they are interested in hot rolled weldless steel tubes, 7-inch, 4-inch and 3-inch, coated inside and outside with asphalt solution.

QUARRY PROPERTY FINANCING

Public financing in connection with the consolidation of several marble quarry properties at Carthage, Mo., which is being directed by Freeman, Smith & Camp Co., and Taylor, Ewart & Co., is being effected with an offering of \$1,800,000 Carthage Marble corporation first mortgage 6½ per cent sinking fund gold bonds, series A. The bonds are dated March 1, 1927, mature March 1, 1942, and are priced at 100 and accrued interest to yield a minimum of 6½ per cent.

## TRADE NOTES.

(Continued from Page Five)

The State Railroad Commission has cancelled the low rate that had been proposed for the transportation of brick over the Southern Pacific and Western Pacific lines from Stockton to Marysville. The rate was to have been 7½ cents, and was for brick for the new high school at Marysville. The railroads withdrew the rate recently when a hearing was held in San Francisco, protest having been made by the Sacramento Brick Co. and by Marysville interests.

Geo. Walker, Clifford Hotel, Vancouver, B. C., is ready to serve California concerns who desire representation in western Canada for hardware specialties and associated lines.

V. D. Russo Co., manufacturers of interior and exterior building decorations, have opened quarters at 2227 Fourteenth street, Oakland. G. Fornaciari is associated with Russo.

Edwin C. Finley, Coquille, Ore., desires to get in touch with San Francisco purchasers of a good grade of myrtle and maple timber.

The Tynan Lumber Company, through its Oakland manager, L. M. Barker, announces that it has entered the building field and is now prepared to offer complete financial, building, and architectural service.

Aetna Hardwood Floor Company, formerly located at 221 Fell Street, has moved to new quarters at 507 Call Building, San Francisco.

Garnet B. Holmes and Wallace E. Craig will operate from 980 Harrison Street, under the firm name of Advance Electric Sign Company.

The Morning Star, published at Vancouver, B. C., under date of May 10, reports that the proposed merger of 65 leading Pacific Coast lumber companies "is well within sight of realization." Within the last few days, the newspaper says, outstanding lumbermen and financiers of the United States and Eastern Canada have been in Vancouver, Seattle and Portland, Ore., working on details of the merger. Logging and milling companies whose combined capitalization exceeds \$100,000,000 are reported to have signed a memorandum agreeing to enter the consolidation.

International Engineering Corporation, San Francisco, capitalized for \$200,000, has been incorporated. Directors are: W. H. Gorrill, E. S. Layman, R. L. Sale, I. C. Linehan and C. Heath.

Sale of the L. Anderson Lumber Company at Martinez to C. Elsworth of Alameda, is announced. Elsworth will conduct the business under the name of Martinez Lumber Company.

D. Zelinsky & Sons, 165 Grove St., San Francisco, have painting and decorating contracts for the following three buildings in Southern California: Twenty-seven story Class A City Hall at Los Angeles; United States Naval Hospital at San Diego, and the Medical-Dental Building at San Diego, a 14-story Class A structure.

Atkinson Window Fixtures Company of Oakland has been incorporated. Directors of the company are: Henry T. Atkinson, Hal M. Atkinson, Gilbert W. Atkinson and Robt. H. Atkinson, all of Oakland.

## Stewart Inso Board Plant To Start Operations In July

The Stewart Inso Board Company, with headquarters at St. Joseph, Mo., which was recently incorporated for the purpose of manufacturing insulating board, will begin operations about the first of July.

This mill, located within a few miles of the geographical center of the United States is the result of experiments conducted for years by such well known pulp experts as Dr. Sidney D. Wells. For years it has been known that straw had insulating qualities superior to other fibres, and the St. Joseph mill is a result of these experiments. The opportunity for building up a great commercial enterprise of this character is reflected in the proven ability and financial standing of the men behind it. The officers, directors and stockholders include men of national prominence in business affairs. Among the heaviest stockholders are the Henry L. Doherty interests of New York, operators of public utilities, refineries and oil properties throughout the United States; the Swift Estate interests, internationally known packers; William Albrecht, president of the Western Tablet & Stationery Company, St. Joseph, Mo.; Wm. Goetz, president, Goetz Brewing Company, St. Joseph, Mo.; I. A. Vant, president, Stockyards National Bank, St. Joseph, Mo.; J. J. Lynn, president of the U. S. Epperson Underwriters Co., the largest lumberman's reciprocal insurance company in America, Kansas City, Mo.; H. E. McLeod, president, American National Bank, Hutchinson, Kans.; L. T. Child, banker and merchant, Hutchinson, Kans.; Ed. S. Lindas, lumberman, Wichita, Kans.; Chas. Waddles, New York Life Ins. Co., St. Joseph, Mo., and A. D. Stewart.

### Officers of Company

The officers of the company are: President and general manager, A. D. Stewart; Vice-President and Treasurer, H. K. McLeod; Secretary, L. T. Child; Assistant Secretary and Treasurer, I. A. Vant. Directors—Ed. S. Lindas, J. J. Lynn, William Albrecht, William Goetz and Charles Waddles.

Mr. Stewart is admirably equipped for the duties of president and general manager of the company by a long, varied and uniformly successful business experience. He has had years of practical experience in the paper manufacturing business.

### Plant Officials

E. S. Sheperd who has spent more than 40 years in the straw pulp business will be general superintendent for the new company and in charge of operations. Mr. Sheperd is recognized as being one of the highest authorities on straw in the country.

The chemical and research work of the company will be in charge of Dr. Sidney D. Wells, who was for many years in charge of the Forest Products Laboratory of Madison, Wis., operated by the U. S. Dept. of Agriculture. Dr. Wells is probably the best known authority on pulp and various vegetable fibres that there is in the country, and while in the Government Service he was in a way instrumental in the development of several nationally known building and insulating boards, as well as numerous semi-rigid insulating boards on the market.

R. E. Blackburn, who has been in charge of production for The Insulate Company, will be production manager.

### Modern Facilities

Embracing as it does such strong financial backing and officered by men of experience and ability the Stewart Inso Board Company enters the insulating building board field adequately equipped to meet in every way any and all trade demands that may be made upon it. A modern plant of concrete and steel, 935 feet long and 200 feet wide, is now building, and with its equipment it is the most modern plant of its kind in the world.

The plant is located on a 52-acre tract of ground in South St. Joseph, Mo., on the Terminal Railroad. The most modern type of machinery will be installed not only to facilitate the production capacity but to enable the company to produce the highest possible grade of insulating building board. The board machine will be of special construction and the drier is the latest indirect heater type, 600 feet long. The capacity of the plant will be an output of more than 100,000 square feet of finished insulating board per day. The plant will consume about 20,000 tons of straw annually.

### High Rated Product

The process of using straw in the manufacture of insulating boards is a variation from the old practice in which straw was used merely as an insulating material. Insulating board is used extensively for building purposes and in the manufacture of refrigeration devices. The greater amount of that manufactured at the present time is made of sugar cane, flax and other fibers. The American Society of Refrigerating Engineers, in their recent annual report, gives a higher rating for straw fibres as an insulating material than that of the fibres used in the manufacture of other insulating boards. The wisdom of locating the Stewart Inso Board plant in such close proximity to the great wheat growing section of the United States is apparent at a glance. Here, close at hand, is a virtually limitless supply of the basic material used in making Inso Boards, with transportation facilities adequate to every need. St. Joseph is served by seven trunk lines radiating in every direction.

The advantages of Inso Boards are not confined to its insulating powers alone. Rigid and tough it retains its original form and effectiveness as long as the buildings in which it is used stands. Permeated throughout its surface with millions of tiny dead air cells it is a non-conductor of heat and cold, and a fire resistant of high power. It has been computed that an inch thickness of staw insulating board is equal in resistance to 16 to 32 inches of brick or concrete, due to the presence of the multitude of dead air cells in its composition.

John Roberts, for eleven years plastering inspector for the city of Minneapolis, has been added to the staff of the Associated Metal Lath Manufacturers to aid in the campaign for "Better Plastering" in the matter of enforcing ordinances to eliminate cheap and shoddy work.

# Official Proposals

## CALIFORNIA HIGHWAY COMMISSION

### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, California, until 2 o'clock p. m., on June 6, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

Shasta County, a reinforced concrete girder bridge 183 feet long, across Slate Creek at La Moine (II-Sha-3-C), consisting of six spans varying in length from 15 feet to 56 feet.

Shasta County, between La Moine and Shotgun Creek (II-Sha-3-D), about six and seven-tenths (6.7) miles in length, to be graded and surfaced with crushed gravel or stone.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection to be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,

J. P. BAUMGARTNER,

M. B. HARRIS,

Cal. Highway Commission.

R. M. MORTON,

State Highway Engineer.

E. FORREST MITCHELL,

Secretary.

Dated May 9, 1927.

### NOTICE TO BIDDERS

(Painting—Alhambra Union High School District)

Office of the Clerk of the Board of Trustees of the Alhambra Union High School District, Martinez, California.

NOTICE IS HEREBY GIVEN that sealed bids will be received by L. W. Beede, Clerk of the Board of Trustees of the Alhambra Union High School District, at the office of the Principal of said High School, at the High School Building in Martinez, until 7:30 o'clock P. M. on June 1st, 1927, for the furnishing of all labor and materials necessary for painting the Alhambra Union High School Buildings in accordance with the specifications for this work, which specifications are on file in the office of the Clerk of the Board of Trustees, to which bidders are hereby referred.

Bids shall be marked "Bids for

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

Painting the Alhambra Union High School Buildings."

NOTICE IS HEREBY FURTHER GIVEN that preference will be given first to bidders using materials manufactured or produced in County of Contra Costa, and second that preference will be given to local bidders residing in County of Contra Costa, where bids are equal.

All bids must be accompanied by a certified check on some solvent bank or a cash deposit in a sum equal to ten per cent of amount bid on whole contract, conditioned that if the contract is awarded to party submitting the accepted bid, he will enter into a contract or contracts and furnish such bond as may be required by said Board, within five days after notice of such award, or failing so to do, the amount of such cash deposit or certified check, will be forfeited as liquidated damages for such failure.

All checks to be made payable to the order of the Clerk of the Board of Trustees of Alhambra Union High School District.

The Board reserves the right to reject any and all bids and to waive any informality in any bid received.

By order of the Board of Trustees of Alhambra Union High School District.

Dated: Martinez, California, May 5, 1927.

L. W. BEEDE,

Clerk of the Board of Trustees of Alhambra Union High School District.

### NOTICE TO CONTRACTORS

Approach to Underpass, Pacific Colony

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to 2 o'clock P. M., Thursday, June 2nd, 1927, said bids then and there to be publicly opened and read, for furnishing all plant, materials, and labor required for the construction and completion of the Approach to Underpass, Pacific Colony, near Pomona, California, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

### MASTER QUANTITY SURVEYOR

For Contractors

GENERALS AND BRANCHISTS

ARTHUR PRIDDLE, A. I. Q. S.

693 Mission St., at Third

San Francisco, Calif.

Telephone Douglas 8493

Valuation Engineer

Accredited Appraiser

GENERAL LISTING BUREAU

ment of Public Works, Forum Building, Sacramento, California.

In general the work consists of excavating, filling and grading, concrete retaining walls, pavement and sidewalks and a small amount of macadam surfacing.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five (\$25.00) dollars will be required on plans and specifications, the deposit to be returned immediately upon the return of the plans and specifications to the Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for Approach to Underpass, Pacific Colony, California."

## CALIFORNIA HIGHWAY COMMISSION

### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the California Highway Commission, at the office of the Division Engineer, Bank of Italy Building, San Luis Obispo, California, until 10:00 A. M. on May 20th, 1927, at which time they will be publicly opened and read, for performing work as follows:

Cleaning and painting in accordance with the specifications therefor, to which special reference is made, the following four bridges located on the Cholame Lateral in the County of San Luis Obispo (V-SLO-33-A & B), between Paso Robles and a point about eighteen miles east:

Salinas River Bridge: Three 160' through truss spans.

Huer Huero River Bridge: One 154' through truss span.

Estrella River Bridge: One 154' through truss span.

San Juan River Bridge: One 120' through truss span.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the above address.

No bid will be received unless it is made on a proposal form furnished by the Commission. Each bid must be accompanied by cash or a certified check made payable to the "Secretary, California Highway Commission," for an amount equal to ten (10) per cent of the amount bid, such guaranty to be forfeited should the bidder to whom the contract is awarded fail to enter into the contract.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

CALIFORNIA HIGHWAY COMMISSION.

State Highway Engineer.

By L. H. GIBSON,

Division Engineer, Div. V.

Dated: April 29th, 1927.

May 7 and 13

### NOTICE TO CONTRACTORS (Nevada Irrigation District)

Sealed proposals will be received by the Directors of the Nevada Irrigation District, at their office in Grass Valley, Nevada County, California, up to two o'clock P. M. (2:00 P. M.), June 3, 1927, for the construction of the Milton Diversion Dam and Pipe Line, at which time bids will be publicly opened.

**CONTRACT NO. 19**—Construct Milton Diversion Dam at Milton, including 380 cu. yds. of solid rock excavation, 2670 cu. yds. of loose excavation, 1700 cu. yds. of concrete and the furnishing and installing of a trash rack, an outlet pipe, a 24" slide gate, and air vents.

**CONTRACT NO. 20**—Construct Milton Pipe Line from the Milton Diversion Dam to connect at the North Portal with the Milton-Bowman Tunnel, including under:

Proposal A—2.2 acres of clearing, 3575 cu. yds. of solid rock excavation, 2500 cu. yds. of loose excavation, 7 M. B. M. of lumber in substructures, furnishing 3415 lineal feet of 84-in. wood stave pipe, laying 2390 lineal feet of wood stave pipe, and furnishing an 84-in. steel pipe manifold connection to the tunnel.

Proposal B—1.1 acres of clearing, 2670 cu. yds. of solid rock excavation, 1640 cu. yds. of loose excavation, 5 M. B. M. of lumber in substructures, furnishing 3440 lineal feet of 88-inch steel pipe and laying 2415 lineal feet of steel pipe.

Bidders may bid on any or all of the contracts but no contract will be subdivided. The contracts will be let to the lowest responsible bidder for each contract. The District reserves the right to reject any or all bids.

Plans, specifications and contracts are on file and can be inspected at the District's office in Grass Valley, or at the office of the District's Engineer, Fred H. Tibbetts, Alaska Commercial Building, San Francisco, California. Full sets of plans, specifications and contracts may be obtained at the Engineer's office or at the District's office, on deposit of \$10.00 for each set, which will be repaid if the set is returned in good condition on or before June 10, 1927.

All proposals shall be accompanied by a certified check or bid bond in the amount of at least 5% of the total amounts of the bids submitted. Where bids are submitted on alternative contracts or proposals, the highest of the alternatives shall be used in computing this total amount. Certified checks and bid bonds should be made out in favor of the Nevada Irrigation District. All certified checks or bid bonds accompanying rejected bids will be returned. They will be returned to successful bidders, conditioned on their executing the contracts and furnishing bonds required, within the time stipulated in the proposal. In case of failure to execute the contract or furnish the required bonds within the stipulated time, the certified check or bid bond and the proceeds thereof, will become and remain the property of the Nevada Irrigation District.

By order of the Board of Directors of the Nevada Irrigation District.

B. W. BALDWIN,

Secretary of the Board of Directors.

### NOTICE TO BIDDERS

(C. I. Pipe—Healdsburg)

Notice is hereby given that the City of Healdsburg, Sonoma County, California will receive sealed bids up to 1:30 o'clock p. m., on the 23rd day of May, 1927, and thereafter open the same, for the supplying of the following material, in accordance with the action taken by the Board of Trustees of the said City of Healdsburg, Sonoma County, California, on the 2nd day of May, 1927.

To-wit:

1000 feet 1" Class B, Vertical Cast-Iron Pipe.

The City of Healdsburg, through its Board of Trustees, reserves the right to reject any or all bids, waive defects, or accept any bid.

All bids must be made on forms to

be obtained at the office of the City Clerk of the City of Healdsburg, together with specifications for same, and shall be enclosed in a sealed envelope, directed to the City Clerk of the City of Healdsburg, Sonoma County, California, and endorsed on the outside of the envelope "Proposal for furnishing Water Pipe for the City of Healdsburg."

Dated, May 4th, 1927.

D. A. BANE,  
City Clerk of the City of Healdsburg,  
Sonoma County, California.

### INVITATION FOR PROPOSALS

SEALED PROPOSALS will be received at this office until 2:00 o'clock p. m., May 18, 1927, and then opened for miscellaneous exterior repairs and painting at the U. S. Post Office Building, San Francisco, California, in accordance with the specification, copies of which may be obtained at this office in the discretion of the District Engineer.

E. W. ROBERTS,  
Construction Engineer.

### NOTICE TO CONTRACTORS

#### GENERAL WORK

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to 2 o'clock P. M., Tuesday, May 31st, 1927, said bids then and there to be publicly opened and read, for furnishing all plant, materials, and labor required for the erection and completion of the **General Work**, Gymnasium Building, Chico State Teachers' College, Chico, California, in accordance with plans and specifications therefor, copies of which may be obtained upon application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

**General Work** includes all manner of work except Plumbing, Heating and Electrical Work.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five (\$25.00) dollars will be required on plans and specifications, the deposit to be returned immediately upon the return of the plans and specifications to the Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for General Work, Gymnasium Building, Chico, California."

STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

GEO. B. McDOUGALL,  
State Architect.  
PAUL BAILEY,  
Director of Public Works.

#### MECHANICAL WORK

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to and including 2 o'clock P. M., Tuesday, May 31st, 1927, said bids then and there to be publicly opened and read, for furnishing all plant, materials and labor required for the **Mechanical Work**, Gymnasium Building, Chico State Teachers' College, Chico, Cali-

fornia, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

**Mechanical Work** includes Plumbing, Heating and Electrical Work. Separate bids will be received for "Electrical Work" and for "Plumbing and Heating." Combined bids will also be received covering all three branches of the work. Bids must be submitted on forms prepared and furnished by the Division of Architecture.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five dollars (\$25.00) will be required on plans and specifications, the deposit to be returned immediately on the return of plans and specifications to the said Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for Mechanical Work, Gymnasium Building, Chico, California."

STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

GEO. B. McDOUGALL,  
State Architect.  
PAUL BAILEY,  
Director of Public Works.

## BRIDGES

**MARTINEZ, Contra Costa Co., Cal.**—Until June 6, bids will be rec. by J. H. Wells, county clerk, to const. steel bridge over Walnut Creek on Hooker-Concord Highway, involv. 29 tons struct. steel; 3 tons reinf. steel; 57 cu. yds. conc. in bridge deck. Plans obtainable from County Surveyor R. R. Arnold.

**SANTA ANA, Cal.**—Until 11 a. m., May 24, bids will be rec. by county to const. rein. conc. bridge, consisting of eight 54-in. spans, on state highway over San Juan Creek. Plans obtainable from county surveyor, Warren K. Hilliard. Certified check or bond, 5%. J. M. Backs, clerk.

**MARIPOSA COUNTY, Cal.**—H. C. Whitty, Sanger, at (a) completed in 220 days, \$142,535 and (b) completed in 300 days, \$138,678 sub. low bid to U. S. Bureau Public Roads, San Francisco, to const. 5 reinforced conc. bridges and earth approach fills in Yosemite National Park. Other bids: Rocca & Caletti, San Francisco, (a) and (b), \$157,765; Johnson & Atkinson, Los Angeles (a) and (b), \$159,058; Gutleben Bros., San Francisco, (a), \$166,334; (b), \$164,394; J. F. Shepard, Stockton, (a) and (b), \$168,409; A. J. and J. L. Fairbanks, South San Francisco, (a), \$175,460; (b), \$173,795; Noble Bros., San Jose, (a), \$189,593; (b), \$185,429; Allied Contractors San Francisco, (a), \$198,633. Engineer's est. (a), \$162,824; (b), \$157,103. Referred to Washington for award of contract.

**OAKLAND, Cal.**—Until May 31, 10:30 A. M., bids will be rec. by Geo. A. Gross, county clerk, to underpin center pier of Fruitvale Ave. bridge across Oakland-Alameda Tidal Canal. Cert. check 10% payable to clerk req. Plans obtainable from Geo. A. Posey, county surveyor, on deposit of \$25, returnable.

**OAKLAND, Cal.**—Until May 31, 10:30 A. M., bids will be rec. by George E. Gross, county clerk, to underpin center pier of Park Street Bridge across Oakland-Alameda Tidal Canal. Cert. check 10% payable to clerk req. Plans obtainable from County Surveyor Geo. Posey on deposit of \$25, returnable.

**SAN MATEO COUNTY, Cal.**—Chas. Josef Carey, (attorney), 1016 American Bank Bldg., San Francisco, has filed application for a franchise with the San Mateo county supervisors for a \$50,000,000 bridge over San Francisco Bay from Candlestick Point, just over the San Francisco county line to Bay Farm Island, Alameda county. The proposed structure would be 45,500 ft. long of which 15,000 ft. would be structural steel; would be 60 ft. wide, providing for automobile and pedestrian traffic. N. A. Gray, consulting engineer, who presented the application for franchise with Carey, announced that preliminary work toward construction of the bridge was based on findings of the Navy Department in charting San Francisco Bay relative to the establishment of the Navy Yard at Mare Island. The franchise application will be considered by the supervisors June 6.

**SHASTA COUNTY, Cal.**—Until June 6, 2 P. M., bids will be rec. by State Highway Comm., Strub Bldg., Sacramento, to const. reinf. conc. girder bridge 183 ft. long, over Slate Creek at La Moine, consisting of 6 spans varying in length from 15 ft. to 56 ft. R. M. Morton, State Highway Engineer. See call for bids under official proposal section in this issue.

**OROVILLE, Butte Co., Cal.**—Until June 6, 1:40 P. M., bids will be rec. by C. F. Belding, county clerk, to const. bridge over Hodapp Creek on Nelson Bar County Rd. Plans obtainable from County Rd. Eng. Harry H. Hume.

**SAN LUIS OBISPO COUNTY, Cal.**—Until May 20, 1927, 10 A. M., bids will be rec. by L. H. Gibson, Dist. Eng., California State Highway Commission, Bank of Italy Bldg., San Luis Obispo, to clean and paint in accordance to specifications the following four bridges located on Cholame Lateral in San Luis Obispo County (V-SLO-33-A & B), bet. Paso Robles and point about 18 miles east. Salinas River Bridge: three 160' thro. truss spans, Huero River bridge, one 154' thro. truss span, Estrella River bridge, on 154' thro. truss span and San Juan River bridge two 120' thro. truss spans. See call for bids under official proposal section in this issue.

**LOS ANGELES COUNTY, Cal.**—Until June 2, 1927, bids will be rec. by Geo. B. McDougall, State Architect, Chief Division of Architecture, Forum Bldg., Sacramento, to fur. all plant materials and labor to construct Approach to Underpass Pacific Colony near Pomona, Cal., involv. excavation, filling and grading, concrete retaining walls, pavement and sidewalks and some macadam surfacing. Plans and specifications obtainable from Division of Architecture on deposit of \$25. See call for bids under official proposal section in this issue.

**PIEDMONT, Alameda Co., Cal.**—Until May 24, 8 P. M., bids will be rec. by Harriet Hass, Secty., Board of Education, to const. culvert in Bushy Dell Creek through Piedmont High School and Piedmont School Dist. grounds. E. C. Prather, engineer, Syndicate Bldg., Oakland. Cert. check 10% req. with bid. Plans obtainable from engineer.

**THE CONTRACTORS' ROOM**

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room where plans and specifications may be filed by Architects, Engineers and Owners for the convenience of bidders in San Francisco and the Bay Counties.

Architects, Engineers and Owners are invited to forward plans of their projects to BUILDING AND ENGINEERING NEWS. No charge for this service. The plans will be returned in good condition when the contract for work is let.

## FEDERAL BUILDING PROGRAM LACKS ARCHITECTS

The United States Civil Service Commission states that it has not received enough applications for positions of architects and engineers to meet the needs of the Supervising Architect in connection with the \$165,000,000 public buildings program recently authorized by Congress.

Examinations are open for assistant architects, associate architects, assistant structural engineers and assistant architectural engineers. Entrance salaries range from \$2400 to \$3000 a year. Higher-salaried positions are filled through promotion. Applications for the positions named will be received by the Commission until June 30.

The Supervising Architects' Office reports considerable progress in the execution of the authorized program. A number of buildings in various parts of the country are under construction and plans are being made for others.

Of the \$165,000,000 authorized, \$50,-000,000 is to be spent in Washington, D. C., for much needed buildings. It is expected that the next Congress will authorize the purchase of the entire triangle between Pennsylvania Avenue and the Mall, approximately a mile in length, for the erection of public buildings along the south side of Pennsylvania Avenue from the Capitol to the Treasury. The consummation of this plan will make Pennsylvania Avenue a grand boulevard, as it could be. Now it is a distinct disappointment to those who visit the National Capital for the first time.

## CITY BUILDING IN THE NEW BUSINESS ERA

"City planning and building is rapidly erasing the imaginary corporate boundaries," said Robert Kingery, secretary and assistant treasurer of the Chicago Regional Planning Association, at the annual meeting of the Chamber of Commerce of the United States in Washington, May 3. "The region, whether it be for a few miles around each small community or 50 or 60 miles around a metropolitan city, is now the unit for planning instead of the city itself.

"Almost over night have sprung up a number of regional planning bodies which are solving many of the planning problems in the great metropolitan centers throughout the United States. In the Region of Chicago a different science from the usual city planning scheme is being evolved and in two years has operated most successfully.

"Here the regional planners have forecast, first, the expected population in all parts of the region as far ahead at 1950; next, they have brought together the federal, state, county, city and village highway authorities to perfect a master highway and street plan which is being designed scientifically to care for the expected population.

"Similarly, subdividers, local city planners, surveyors and others have put into effect in over half of the eight thousand square miles in the region, a requirement that these broad rights of way be dedicated by the subdividers when the land is platted.

"Discovering that the amount of business property in use is directly in proportion to the population, the standard of fifty front feet of business property per 100 people has been adopted by subdividers and by zoning authorities to prevent the excess platting of retail business property and to keep it in relation to the expected population.

"Park areas are being located and playground areas designed in the right location for the expected population. These general facts have been assembled by the Regional Planning Association and are being made available to every community as they fit their individual plans together into a master regional plan.

## ORDINANCE ADOPTED

The Monterey City Council has adopted the following ordinance with regard to building construction: "All brick, hollow tile thermotite or bubblestone walls of any building hereafter erected or altered for a one-story building shall be at least eight inches in thickness; for a two-story building at least twelve inches thick for the first story and eight inches for the second story; for a three-story building at least sixteen inches thick for the first story, at least twelve inches thick for the second story and at least eight inches thick for the third story, and for higher buildings in proportion."

## BAY PAINTERS CLAIM AWARD IGNORED

Painters' union 127, Oakland, has issued a statement declaring that the East Bay Master Painters' Association has refused to accept the wage schedule set by the impartial wage board.

While the impartial board headed by Archbishop Hanna fixed the wages of journeymen painters at \$9 per day, members of the East Bay Master Painters' Association have refused to pay more than \$8, according to Business Agent H. C. Albers of Painters' union 127.

The impartial wage award as regards painters is being observed by all members of the San Francisco Master Painters' Association, the Oakland union declares, offering this as evidence that the painting industry in the bay district can carry the \$9 schedule.

Efforts of Painters' union 127 to bring about a conference with the East Bay Master Painters' Association have failed, according to Business Agent Albers.

"There are some 1500 journeymen painters in the East Bay district," said Albers, "and all but 200 of these, employed by independent contractors, are being paid \$1 less per day than the impartial wage award calls for.

## SOCIETY OF ENGINEERS HOLD ANNUAL DINNER

The annual dinner of the Society of Engineers was held in the roof lounge of the Clift Hotel, Tuesday evening, May 10. Speakers for the evening were members of the society's public speaking class. Music was furnished by the society's own orchestra. Regular business was omitted while all enjoyed a pleasant evening of entertainment.

On Saturday, May 14th, the Society members and friends were guests of the Market Street Railway Company. They were conducted through the company's shops at San Jose and Geneva Avenues. It is in these shops that all the electric and cable cars of the company are built and repaired. (This is quite an item in construction in San Francisco when it is considered that the company operates approximately 750 electric and 70 cable cars in this city.)

The visitors were then taken in a special car to the company's new automatic substation where a practical demonstration was given to show the method of operation.

## BUILDING LAW AMENDED

The Richmond (Contra Costa County) city council has passed an amendment to the city building laws regarding the classification of buildings within the fire limits. The amendment provides that garages, service stations, automobile repair shops and cleaning and dyeing establishments may be constructed entirely of metal. The old law provided for structures of Class A B or C construction.

## Novel Concrete Plant Used On Alta Bates Hospital Project

A new type of concrete plant has been installed by N. Lena, concrete sub-contractor for the Alta Bates Hospital, Webster and Regent Streets, Berkeley. The unusual feature is a batcher plant, for the accurate measurement of materials for the concrete, with ramp-served storage bins. The equipment of especial interest is a Blaw-Knox Inundator, furnished by Harron, Rickard & McCone Company of San Francisco, for the measurement of sand by the volumetric water inundation method.

The manufacture of concrete of quality depends upon accurate measurement of aggregates, cement and water, but, due to its varying water content and consequent variable bulking, the sand is by ordinary volume measurement difficult to control with uniform accuracy. The established principle of sand measurement by inundated volume, as provided for by the Blaw-Knox Inundator, is that it automatically corrects the variable moisture content and thus corrects variable bulking of sand by moisture, thereby effecting uniform measurement of the sand and water volumes for each batch. Extra water, required for mixing, and compensation for the small variance of amount of moisture in the coarse aggregates, is provided for by an adjustable additional water

measuring tank—a part of the inundator equipment.

The inundator consists of a cylindrical, pivoted, self-dumping, self-righting, adjustable volume sand container provided with an overflow lip, a strike-off and sand sifter, also an adjustable volume tank for water for inundation, an adjustable volume extra water tank, and necessary valves and piping.

Inundation is effected by partially filling the container with the water from the tank for that purpose (a slight excess of water being provided). The strike-off gate is then opened and the sand sifted into the water until the container is full, when the strike-off gate is closed. The excess water wastes over the overflow lip of the container. The container may then be tripped to dump, tripped again and it rights itself.

The plant effects a considerable economy of labor, as only three men are required, including the concrete hoist operator. Daily tests of the concrete show uniform results of quality above requirements.

C. C. Cuff, Oakland, is the architect. Kitts and Tuthill, San Francisco, are the concrete technologists. Harry C. Knight, Oakland, is the general contractor.

## Financing The Project— From The Bankers' Viewpoint

C. A. Rude, vice-president of the Citizens National Bank of Los Angeles, in the current issue of the California Constructor, in speaking of financing the building industry, says:

The existing highly competitive conditions in the construction industry have been brought about by the ease with which contractors could enter business. They are indicated not only by the lower price for contracting service, but by the growth of improper financing of work. This in turn has materially lessened the contractor's profit, has embarrassed the building material dealer, and has made the owner dissatisfied with the lower standard of work.

When the merchant has merchandise to sell, he is naturally anxious to find prospective buyers. Likewise the contractor, having a certain service to sell, desires to find purchasers for that service. When the merchant uses installment sales, he is financing the buyer. He must have capital. His own capital will last for a short time, but sooner or later he will have to borrow it. Unless he can receive for his product a price sufficiently high to pay for the interest on the capital he has borrowed (or for the loss of potential interest on his own capital), plus compensation for the extra risks, the extra cost of handling credit sales, he will fail. When competition is keen, prices cannot be maintained, and a loss ensues.

So it is with the contractor. His practice of financing the owner is similar in principle to installment selling by the merchant. The price for his services must at least cover his payroll, materials, overhead, depreciation on equipment, wages for himself and profit. If he finances the owner, his price must include interest on capital,

whether his own or borrowed, plus compensation for risk, plus a charge for the use of the money, a compensation for tying it up. Where the merchant's contracts extend for a year at most, those of the contractor extend for three to ten years. Before the end of that period, he must have new capital to continue in business. He must discount his contracts. But that operation costs money, and that cost must be added to the price of his service. When there is great competition, as at the present time, the market for his services will not allow a high price, and he consequently goes to the wall.

Each industry has its own advantages and calls for specialized skill. It is a rare occurrence, indeed, to find a man capable of managing a bank, a department store and a manufacturing plant. It is likewise difficult to find a man who can, with equal skill, manage a contracting company, a finance company, a mortgage company, and run an apartment house or a building. And yet there are many contractors endeavoring to do that very thing. Even if we assumed a man may have this rare ability, he is far from likely to have the proper capital.

Contracting is a man sized business. It should call for all the special knowledge and skill, the judgment and attention a man can give. Financing is another type of business; it demands different training, different ability. It, too, demands all a man's attention and time.

A large contract requires considerable capital for equipment and payrolls, and more for material. The proper source of that capital is the owner, and not the contractor or the material dealer. If the contractor contemplates

becoming the owner, there is, no reasonable objection, but if his business is contracting there is no economic ground for his tying up his capital in the building he constructs. He is trying to run two businesses, either one of which is enough in itself. He can scarcely hope to hold his own, and he certainly will not progress.

In recent months many old, established contracting firms have been forced to pass up contract after contract because of improper financing. They have refused to take second and third liens on the property as payment for their services, and properly so.

Progress in contracting means an ever-increasing ability to handle more work and larger contracts. It requires cash to buy new equipment and to meet payrolls. Second and third liens cannot readily be converted into cash. They are frozen assets to him.

To the legitimate contracting firm demanding cash for its services and watching contracts slip away because it does not desire to become an investor, there is little encouragement. However, by watching overhead carefully and operating a small organization, it will see competitors gradually withdrawing from the field due to lack of capital because the existing capital is tied up in long time paper.

If the contracting business can be given the capital structure necessary for a mortgage company, as well as for its own needs, well and good. The present conditions, however, are similar to requiring a ten horsepower motor to carry a one hundred horsepower load. Let the contractor turn his ability to cutting costs, improving methods and increasing efficiency. Leave the banking activities to the banker.

### MASTER BUILDERS COMPANY LAND BIG CONTRACTS

The Master Builders Company of Cleveland has just been awarded contracts for supplying large quantities of admixtures for the floors of three of the largest construction jobs now in progress in the country, according to S. W. Fleshelm, president of the firm.

More than forty thousand pounds of the firms metallic hardner will be used in the new Erie, Pennsylvania terminal of the New York Central Railroad.

A like amount of the Cleveland-Made concrete floor hardner has been ordered for use in the new structure of the John Van Range Company at Cincinnati, Ohio.

Two carloads of Master Builders Metallic Hardner is to be shipped for the floors in the new building of the Lasher Printing Company of Philadelphia, Pennsylvania.

"The significance of the large orders from these three firms is not so much in their size but rather in the fact that the orders were placed after a thorough examination had been made to determine how like Master Built floors laid as long as fifteen years ago had stood up," says the official statement of the Cleveland firm. "More and more owners and builders are recognizing that it is essential to the permanence of building quality to provide for such admixtures as we make in all concrete floor jobs."

Chicago manufacturers of wood-working machine combining 28 operations in one machine wish to establish a warehouse and agency to cover San Francisco territory. Catalog describing the woodworker is available here. If interested, advise "The Observer."

# Economic Building Heights— As Viewed By An Architect

(Address of Harvey Wiley Corbett of Helmle, Corbett & Harrison, N. Y. Architects, Before the Civic Development Session of the U. S. Chamber of Commerce in Fifteenth Annual Meeting in Washington, May 3)

The opponents of the skyscraper have become so thoroughly imbued with a fanatical zeal that, like most reformers, they are totally blind in one eye. Their distress over the plight of the poor pedestrian and the still more unfortunate motorist at rush hours makes them see the skyscraper problem only in its length and breadth—never in its height. And height, strange to say, is the most interesting thing about the skyscraper. The fact that the tall building, eight hours per day, renders an economic service in concentration and efficiency never before possible in the history of man, escapes their notice entirely.

I am perfectly willing to admit that the first tall building may have had its origin in some landowner's desire to make a handsome profit out of a small plot in some commercially valuable district. I might even go so far as to say that some of the earliest skyscrapers were little more than stunts—and pretty bad ones, at that.

But as all your economic text books will tell you, a stunt cannot survive if it is not economically and practically sound. And what business man or architect would dare say now-a-days that the skyscraper is any longer an experiment? To be sure, we architects are still experimenting, and you business men are doing everything you can to stop us from putting too many Chinese pagodas on top of your office buildings, but somehow we always manage to come to an amicable conclusion in the end.

In modern business, concentration is all-important because, in the final analysis, all business deals, no matter how vast or how complicated, are based on the simple law of barter and sale. Now barter and sale mean personal contact. "Putting the signature on the dotted line in the presence of witnesses" is no mere phrase. So it will be a long time before television will take the place of that comforting feeling that you have when your victim has screwed the cap on his fountain pen, had a good luck drink from your private stock "just off the ship," and closed the door of your private office. Such being the case, the skyscraper has not outlived its usefulness yet. Anything that helps to consummate a deal quickly and with the least waste of motion is a boon in this day and age.

From the twenty-eighth story of the Equitable Building to the tenth floor of the Banker's Trust is a quick jump

because the travel is mostly vertical. Flatten out the financial district to eight or ten stories and those offices might be ten or twelve blocks apart, and the traffic on the surface would be just that much more congested.

If the die-hard opponents of the skyscraper, such as my friends Mr. Curran and Mr. Mumford, would only talk of regulation and control of tall buildings, I would be with them heart and soul. Perhaps they don't know it, but I always have been. But when they talk about flattening out Manhattan Island to a level ten stories throughout its area, I can do nothing but groan. They seem to have forgotten all about the elevator.

Perhaps they do not realize that there is as much vertical traffic as horizontal in New York's financial district during business hours. Maybe more. In fact it would not be difficult to prove by means of a careful survey that in this section of the city there is less traffic congestion, both pedestrian and vehicular, during the important hours than in sections where the average building height is less than one-third what it is down town.

When our forefathers laid out the lower end of Manhattan Island in country lanes and cow paths, they could hardly have foreseen its present aspect. We cannot blame them for that, and I agree with the critics of the skyscraper when they bemoan the fact that Wall Street is barely wider than a wall and that Dey Street is not much longer than its name.

But in spite of the inadequacy of its original plan, New York has become the greatest city in the world chiefly because of that group of skyscrapers which have made history. Perhaps if the entire area of Manhattan Island were allowed to grow up in 40-story skyscrapers of the cracker-box type, without regard to transportation, traffic, light or air, it would be disastrous to the business of the city. But it is hardly likely that the men whose ingenuity and common sense created the present-day marvel of the skyscraper will kill the goose that laid the golden egg.

In 1916 we began the necessary regulation of building height. And now we are at it again, trying to govern the city's growth so that it will function with a maximum of efficiency, a minimum of traffic trouble, and, last but not least, so as to give it the utmost in beauty and strength.

bitrary and discriminatory.

The allegation was made by the plaintiffs that they have been engaged in active competition with steam railroads. . . . and charging rates of traffic which, unless the appellants can use trucks combined with loads of 22,000 pounds, will prevent their doing business except at a loss.

The Court stated that the acts of Congress disclose no provision, express or implied, by which there is withheld from the State its ordinary police power to conserve the highways in the interest of the public and to prescribe such reasonable regulations for their use as may be wise to prevent injury and damage to them.

In this connection it was said:

"In the absence of national legislation especially covering the subject of interstate commerce, the State may rightly prescribe uniform regulations for their use as may be wise to prevent injury and damage to them."

"In the absence of national legislation especially covering the subject of interstate commerce, the State may rightly prescribe uniform regulations adapted to promote safety upon its highways and the conservation of their use applicable alike to vehicles moving in interstate commerce and those of its own citizens."

It was pointed out that the mere fact that a truck company may not make a profit unless it can use a truck with load weighing 22,000 or more pounds does not show that a regulation forbidding it is either discriminatory or unreasonable.

With regard to the allegation of impairment of obligation of contract it was said:

"Nor is there anything either in the Federal or State legislation to support the argument that the agreement between the National and State Governments requires that the weight or truck and load which was permitted by the State when the agreement was made binds the State contractually to continue such permission."

It was held that the regulation was neither so arbitrary or unreasonable as to defeat the useful purpose for which Congress made contribution to bettering the highway systems of the Union.

The decision of the lower courts was affirmed, in refusing to grant an injunction against the carrying of the regulations into effect.

## McCLOUD LUMBER COMPANY SUES P. G. & E.

The McCloud River Lumber Company has brought suit at Redding against the Pacific Gas & Electric Company for damages aggregating \$31,129.90. The complaint alleges that the power company owns certain bodies of land along the line of its railroad extending from Bartle to the Pit River power plants and that on June 29, 1924, when its employees were burning brush, they carelessly let the fire get away from them. The fire burned 1,754,520 board feet of pine timber worth \$6.93 a thousand or \$12,158.82, the complaint alleges. As the fire was started without any permit from the state forester, the McCloud Company asks for double damages as provided by the law, or \$24,317.64. For items of timber cut on its land by the power company the lumber company asks for additional damages in the amounts of \$6,037.91 and \$774.35, thus making the total bill \$31,129.90.

## Right Of State Upheld To Control Highways

Right of a State to regulate maximum loads to be carried by motor vehicles within the State over roads constructed with both State and Federal funds was upheld by the Supreme court of the United States on April 18, 1927, in the decision rendered in the case of Morris et al v. Doby et al.

Previous regulations of the State of Oregon required that motor trucks should not carry a combined maximum load exceeding 22,000 pounds. The Highway Commission, under au-

thority of Oregon laws, reduced the maximum to 16,500 pounds by an order, in which the Commission recited that the road was being damaged by heavier loads.

The plaintiffs filed a bill to enjoin enforcement of the order, on the ground that it invades their Federal constitutional rights. Damage to the road, as found by the Highway Commission, was denied by the plaintiff, who contended that the reduction of the load limit would be unreasonable, ar-

# THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

The American Institute of Architects doubts that erection of very large school buildings serves the best interests of education. In a report submitted to the annual convention of the institute a committee declared that, while mass education may lower per capita expense, many teachers are protesting that "modern drift toward Jumbomania tends to nullify their efforts." "In the larger schools, at least," says the report, "it is clear that, as its business organization approaches perfection, there is a noticeable slump in the quality of the product." The size of a junior or senior high school, the report added, should not exceed 1500 pupils.

A warning that the White House and other historic buildings soon will be surrounded by an "architectural hodge-podge" unless congress can be made to see that a broad-visioned plan of restrictive building and improvements must be adopted, was laid before the annual convention of the American Institute of Architects in Washington, D. C., by one of its committees. The report called for the support of the institute's fifty-seven chapters in a move to insure the future architectural beauty of Washington in keeping with her place among the great cities of the world.

Forty-seven water division applications filed with the state division of water rights during April revealed twenty-six entailing expenditure of \$30,314,424 in development work, according to Edward Hyatt Jr., chief of the department. Twenty-nine permits were issued during the month. These call for expenditure of \$401,335 to perfect. A. R. Heron, State Board of Control chairman, filed on twelve locations as a trustee for the state in order to protect the public's interest in the streams until the new water reclamation law goes into effect, about August 1.

Two suits aggregating \$62,340 have been filed in Superior Court at Seattle, by the McCormick Lumber Company, whose plant is at McCormick, Wash., against the Foster Wyman Lumber Company, subsidiary concern organized by the McCormick company sales manager, E. A. Foster. The parent company charges that Foster so manipulated sales of lumber as to cause the McCormick company to lose large sums of money, and that Foster arbitrarily took more than \$30,000 from the plaintiff's coffers on one occasion to reimburse his own company for a loss which the McCormick Company had declined to sustain.

J. E. Wheeler, president of the Telegram Publishing Company, has filed a voluntary bankruptcy petition for the Wheeler-Olmstead Company of Portland Ore., timber owners and lumber manufacturers. The Telegram Company is in process of liquidation in bankruptcy court.

Final action on the new sprinkler ordinance, covering the installation of automatic sprinklers in business houses, has been indefinitely postponed by the city commissioners of Fresno.

Appraisal Procedure for Building Projects is the title, self-explanatory, of a concisely written booklet ready for circulation by the American Appraisal Company of Milwaukee. The booklet (No. 994) will be sent on request without charge.

An illustrated 4-page folder being mailed to the trade announces the firm name change of the Edward L. Soule Company to the Soule Steel Company, carrying a complete line of iron and steel products. The Edward L. Soule Company of San Francisco and the American System of Reinforcing in Southern California have joined, and will hereafter operate under the firm name of Soule Steel Company. San Francisco offices are maintained in the Rialto Building and in the Washington Building, Los Angeles.

A firm in Brussels, Belgium, manufacturing ready-mixed paints and varnishes, also anti-rust paints, wishes to get in touch with San Francisco buyers and importers. They will consider appointing agents to work on a commission basis. If interested, advise "The Observer."

Governor Young started the ball rolling on the \$358,000,000 water conservation program of State Engineer Paul Bailey by signing a bill by Senator Charles H. Cobb of Fresno, appropriating \$200,000 to be spent by the department of finance in purchasing for reservoir sites under the Bailey program. A. R. Heron, chairman of the state board of control, has already filed on sites for the various reservoirs under the Bailey plan, which proposes to boost surplus water from the Sacramento River to the San Joaquin River during the low water period, supplying irrigation for the lands of the lower San Joaquin Valley.

Fifty mills were closed in Chicago, May 10, as the result of a strike of 2550 workers, when efforts at wage arbitration between the employers' association and the mill workers' union failed to reach an agreement. The strike affects about 85 per cent of Chicago mill workers.

More than 100 dangerous grade crossings have been eliminated by the Railroad Commission since 1912, according to a statement issued by the commission. The estimated cost of all grade crossings ordered eliminated, according to the commission's statement, by means of overhead or undergrade crossing structures, is \$9,031,308, of which \$6,186,999 has actually been expended leaving \$2,844,309 of grade separations ordered by the commission but not actually built.

April lumber cargo arrivals at Southern California ports totalled 150,400,000 ft., of which 136,200,000 ft. was fir and 14,200,000 ft. redwood. For May to the night of the 5th, 22 cargoes carrying 31,025,000 ft. were reported; 17 fir with 26,850,000 ft. and five redwood with 4,175,000 ft. The total for the year is now \$534,933,000 ft.

Bids will be received by the East Bay Municipal Utility District, Oakland, on July 15 for the construction of the Lafayette Reservoir. The reservoir will be constructed two miles west of Lafayette, Contra Costa County, and will have a capacity of 5,000,000,000 gallons. Construction will be of the rolled earth-fill type with puddled clay core, 170 feet maximum height, 1855 feet crest length with 6-inch concrete face.

California voters will be asked to vote bonds of \$17,000,000 at the November, 1928, election. The bonds will provide \$1,000,000 for financing preparations and exploitation of the Olympic Games to be held in Los Angeles in 1932; \$6,000,000 for purchase and development of California State parks, and \$10,000,000 to reduce the death toll at grade crossings by providing for overhead crossings in the State.

## TRADE NOTES

The Richmond Independent, under date of May 12, reports negotiations are in progress for the consolidation of the Certain-teed Products Corporation with the Congoleum Nairn Company and the Glidden Paint Company. Officials of the Certain-teed interests at Richmond, however, state they have no official data confirming the merger.

Barrett & Co. of New York and with a branch plant at Los Angeles will shortly start the erection of a plant in South San Francisco for the manufacture of chemicals and roofing materials. The plant will comprise five storage tanks for benzol and other coal by-products in addition to three building units. The construction expenditure will approximate \$20,000.

Reed-Prentice Corp., Worcester, Mass., has appointed the following Pacific coast distributors for its portable link sawing machine: Shaw-Palmer-Bakewell Co., Los Angeles; A. L. Young Machinery Co., San Francisco; P. Slincock & Co., Portland, Ore.

Johnson Construction Co. of San Francisco, capitalized for \$250,000, has been incorporated. Directors are: W. S. Brann, W. A. Roedel, O. M. Van Duyn, E. H. Rowe Jr. and J. R. Robinson.

(Continued on Page 20)

## ALONG the LINE

Street improvements costing \$255,000 will be undertaken this summer by the city of Berkeley, according to City Engineer A. J. Eddy. Solano, Euclid and Ashby avenues are the streets to be improved under the present plans.

Western Pipe & Steel Company of Sacramento, bidding \$104,683.20 submitted lowest bid to the Sacramento city commissioners to furnish and install lock-bar steel pipe for the first unit of the new water system. H. Gould of Sacramento was the only other bidder at \$119,762 to furnish and install riveted steel pipe or \$124,055 to furnish and install lock-bar pipe. City Engineer Allen J. Wagner has recommended the acceptance of the Western bid.

Edwin W. Houghton, 71, Seattle architect, was found dead at his desk May 16. Death was attributed to heart failure.

Robert D. Farquhar, Reginald D. Johnson and Pierpont Davis, Los Angeles architects, have been selected as judges of the exhibits of the Northern California Chapter of the American Institute of Architects, on display at the De Young Museum. The committee will spend four days judging the works and will make a written report submitting their awards after returning to Los Angeles.

Arthur A. McLauren, 40, former engineer with the California State Railroad Commission, died in Chicago, May 16. He was a naval lieutenant during the world war and following the close of the war became a consulting engineer in Chicago. A widow and three children survive.

John Gelder, pioneer building contractor of Albany, Alameda County, died in the Berkeley General Hospital May 12, following an extended illness. He was 43 years of age and active in East Bay politics.

H. C. Bortorff, city manager of Sacramento, has been asked by the International Association of City Managers to handle a portion of the program at its convention to be held next September at Dubuque, Iowa. If he accepts he will preside at one of the sessions of the convention.

The Arizona State Lumbermen's Club will hold its annual meeting at Flagstaff June 17 and motor to the Grand Canyon June 18, with a dance that evening at the El Tovar.

Negligence on the part of Tieslau Brothers, road contractors, was responsible for the death of James Chiarella at Crockett ten days ago, a corner's jury in Contra Costa County has decided. Chiarella was smothered to death when a tractor caused a drainage ditch cave-in. Henry Tieslau, one of the contractors, was partially buried at the same time.

The 45th annual convention of the National Association of Stationary Engineers will be held in Los Angeles Aug. 22 to 27 inclusive. William Mulholland, chief engineer to the Los Angeles water department, will be one of the principal speakers.

## Economic Height Of Structures Illustrated By Office Buildings

(Abstract of an address by Major Henry Curran, Counsel, New York City Club, before Civic Development Session Luncheon, U. S. Chamber of Commerce Meet., Washington, May 3)

It is time Mussolini came over here and took a hand with our American cities. His masterful appreciation of spaghetti is what marks him as the very man we need. For our American cities are rapidly being resolved, by their crowd-collecting skyscrapers, into such lively bowls of human spaghetti, wriggling through the crowded streets and subways, up and down inside the skyscrapers, in and out and all about, that we need a new kind of a leader to handle the mess. I think Mussolini is the man.

In New York we are already so engulfed by these clumps of giant skyscrapers, that it is past all comfort and decency for men and women to try and get about at all. Long ago we lost our light and air, hither and yon, in New York. The skyscraper is an old thief of those commodities. We are a City of Shadows. But now we are also a city of the most closely interwoven crowds of human beings ever known in Christendom.

And yet almost every other American city is copying New York and putting up its own crowd-collecting skyscrapers. Why do they copy New York? When they see the mistake New York has made, why don't they let the populace of that poor giant city squirm in its own sauce, and keep their own buildings down to a sensible height and properly spaced? Or do they want to suffer from the vertical convergence of everybody trying to work in the same place at the same time, which has already abolished New York as a city of safety and sanity, and turned the old town into the bowl of human spaghetti, that it now is?

In New York we have 100,000 people

going to the theatres at the same time, at the same crossroads, at 42nd Street and Broadway. That is bad enough. But we also have a million people going to work in the same marketplace of middle Manhattan at the same time in the morning and trying to get away from it at the same time in the evening. They all live somewhere else. They work in the middle of Manhattan because that is where the city's jungle of giant skyscrapers stands. The streets are impassable and the subways are impossible. The demonstration is complete. Our Frankenstein monster, the collective skyscraper, has overcome us.

Surely we cannot centralize indefinitely. To many high buildings, built too near together, bring a vertical centralization which can never be decently handled by the horizontal streets and subways below. New York has already proved it.

Nor can any city act indefinitely as financial handmaid to a thicket of skyscrapers. No set of taxpayers has enough money to supply enough streets and subways for these skyscraper thickets and have a penny left for schools, parks, playgrounds and all the other insistent needs of a great modern city. Even New York, the richest city in the country, finds she cannot do this.

There is still time for the other great American cities to enact zoning laws that will decentralize their workaday population by providing a low general level of buildings, pierced here and there by beautiful towers. But will the other cities do this? Or will they still copy New York, for better or for worse? Do they really think that New York is always right?

## Fire Resistance Of Hollow Tile

The Bureau of Standards has completed its fire tests of hollow load-bearing wall tile. Some of the results of the extensive tests follow:

**Effect of Grog**—The walls of tile with no grog or only small amounts withstood longer fire exposures than those built of tile having 5 or 10 per cent grog.

**Combustible Filler**—Additions of combustible filler (sawdust) up to 15 per cent, especially to the dense burning clays, increase fire resistance. However, too large amounts may too greatly decrease the strength for load bearing tile.

**Shell Thickness**—Tests did not show appreciable difference in fire effects with an increase of shell thickness over that normally used, namely,  $\frac{3}{4}$  to  $\frac{7}{8}$  in.

**Hardness of Burning**—There is no advantage from the fire resistance standpoint in under-burning.

**Effect of Plaster**—Properly applied gypsum plaster and cement plaster with lime substitutions of 50 per cent or less by volume, will stay in place throughout fire exposures up to the fusion point of the plaster.

**Number of Cells**—In the few cases where the shells were loosened the damage did not extend beyond the web adjacent to the shell so that with a larger number of cells there was a greater residual wall strength after

fire exposure, damage being confined to the exposed surface of the wall.

**Change of Design**—Double shell tile was developed, the outer shell being as thin as possible, the inner one serving to carry the load. Tests showed that the fire damage resulted in merely loosening the outer shell. Repairs could then be made by removing loosened shells and replastering.

**Load Carrying Ability**—The ability of tile walls to carry load under fire exposure is governed by the kind of clay used for the tile and the design of the units.

**Deflection**—The deflection of walls unrestrained at the top or vertical edges was away from the fire, being about 5 in. maximum at the top of an 8-in. wall and 3 in. at the top of 12-in. walls. In cooling, all of the test walls returned to within 2 in. of their original position. The deflection of a restrained or loaded wall was toward the fire, being a maximum at the center of the wall. For 8-in. walls the movement at this point during the fire varied from  $\frac{1}{2}$  to 2 in. and in cooling they returned to within less than  $\frac{1}{2}$  in. from the original undeflected position. The amount of deflection decreased with increased wall thickness.

### COPPER AND BRASS MARKET INCREASING

The following statement of Thomas D'Arcy Brophy of the Anaconda Copper Company in an address before the American Mining Congress, shows the tremendous advances in the use of copper and brass in building and the potential market.

"Perhaps of all the markets that have shown a substantial increase in the use of copper and brass, none can compare with the building industry. Prior to 1921, the consumption of brass pipe for underground service connection was practically unknown. The same was true of copper downspouts, eaves trough and roof flashings as well as copper and bronze weather stripping. In 1922, with a total building volume of \$4,920,000,000, the building industry consumed 164,000,000 pounds of copper. In 1926, with an estimated building volume of \$5,500,000,000, copper consumption will increase to at least 275,000,000 pounds, a growth in five years of 111,000,000 pounds, or 68 per cent.

"As an example of the tremendous possibility for still further increase of copper, brass and bronze in the building industry, analysis of the potential market for brass pipe will be interesting. There are not less than 12,000,000 residences available for brass pipe installations in the United States and each residence can use from 200 to 1000 pounds of brass pipe, with 400 pounds a fair average.

"With allowance for obsolescence of residences before present plumbing needs replacement, it is over 2,000,000,000 pounds, and that the annual potential market in new house construction is over 100,000,000 pounds. A fair estimate of the amount of copper required for equipping the average house with eaves trough, downspouts and roof flashings is 200 pounds, which makes the potential market, roughly, half the market for brass pipe."

### LUMBER CUT OF 938 MILLS IN 1925-1926

The Department of Commerce announces that, according to data collected at the annual census of forest products, taken in co-operation with the Department of Agriculture, the lumber cut of 938 large mills—each mill sawing five million feet, board measure, or more in either 1926 or 1925 decreased from 21,606,402,000 feet in 1925 to 21,196,413,000 feet in 1926, the rate of decrease being 1.9 per cent. It is probable, however, that the actual rate of decrease for the industry as a whole was somewhat greater, since the canvass in the most important timber regions which reported for 1926 as compared with 1925, namely, the North and South Pacific Coast States, is further advanced at this time than the canvass in the Southern States and the North Carolina Pine States, which show decreases.

### STREET BOND BOOKLET

Elliott-Horne Co., street improvement bond house, of Oakland and Los Angeles, has issued an interesting booklet on street improvement bonds. The booklet explains what the bonds are, the factors of safety surrounding them and the yield that may be expected. The liquidity of the bonds also is emphasized. The discussion of street bonds is briefly yet comprehensively done.

## April Building Figures Show Year's Greatest Activity On P. C.

A greater building activity in the Pacific Coast cities than has been in evidence since the beginning of the year is indicated by the reports of building permits issued during April in 95 cities tabulated in the National Monthly Building Survey of S. W. Straus & Co.

New construction to cost \$46,463,251 is authorized by the 13,777 building permits reported. This is \$334,599 in excess of the March total of this year and is but 3% below the April figure of 1926. It is nearly 40% above the January total and more than 47% above that of February of this year.

Increases over April of last year are noted in 47 of the 95 cities and 41 show gains over March of this year. Of the larger cities, however, gains over last year's records are reported only from Portland, Seattle, Long Beach, San Diego, Phoenix, Stockton, Fresno, Beverly Hills, Riverside, Santa Barbara and Spokane.

Los Angeles, issuing 3296 permits for buildings to cost \$10,458,622, shows a 5% reduction from the March figure and a 6% reduction from that of last April. The Los Angeles metropolitan area, exclusive of Los Angeles, shows a reduction of but 3% from the April record of 1926.

San Francisco, issuing 963 building permits involving \$4,939,212 in construction costs, shows 32% reduction from the April total of a year ago, but a 5% increase over the March figure of this year. The San Francisco Bay area, exclusive of San Francisco, shows a 9% reduction from last April.

Portland, with an April record of 1085 permits issued for \$4,022,170 of new construction, shows a gain of 63% over the March total and a gain of 26% over April of last year. The seven Oregon cities reporting, as a whole, show a 13% increase over last April, notably Astoria, Klamath Falls and Medford.

Seattle issued 962 permits for buildings to cost \$3,181,555, which is 8% less than the March figure, but 25% greater than the April total for last year. Six of the twelve Washington cities reporting show April gains—Hoquiam, Longview, Walla Walla, Wenatchee and Spokane.

San Diego's April total, 555 permits for \$2,008,444 of new construction, is 1% below the March record, but shows a gain of 25% over that of April, 1926.

Long Beach gained 131% over the April record for last year with 453 permits involving \$1,133,440 in construction costs issued during April. This is, however, 25% below the figure for March of this year.

Oakland's April total of 796 permits involving \$1,891,716 in building costs is 11% below the figure for last April, but 22% above that of March of this year.

Following are the official April, 1927, construction cost figures as reported by building department executives from 95 cities comprised in the Pacific Coast Section:

CALIFORNIA		April, 1927			
City	No.	Cost	April, 1926	March, 1927

## Floor In Concrete Building Is Poured From Top Downward

A construction job which reverses the long established practice in erection of reinforced concrete buildings is now under way at 47th and Hoover Sts., Los Angeles. Walls and interior columns of a 5-story warehouse are being poured up to the full height. Contrary to custom the roof slab will be poured first and the floor slabs will be poured in succession from the top downward. The walls, interior frame and roof will be completed in 14 days, and the entire job will be finished in 54 days, according to the schedule of the contractor and engineer, H. J. Kimmmerle.

The building under construction is designed with flat slab floors. It is 52x55 ft. Floors are omitted from the bay in the southwest corner of the structure to provide a shaft for the elevator. Provision is being made for a future addition on the rear of the lot.

"Keller system" sliding forms are being used in the construction of the walls and columns. Hooked up to the slip forms is a wooden platform or deck covering the entire area of the building. This platform travels upward with the slip forms and is used as a working platform while the walls and

columns are being poured. At the top it will be suspended by cables and will be used as the form for the roof slab. It will then be dropped down from story to story and will be used as a form for the floor slabs. This deck is framed with beams and joists figured to carry in dead weight of the floors which will be 6½ in. thick, with an ample factor of safety. It is covered with 1x6-in. oiled boards.

Special slip forms of sheet iron have been designed for the columns which are round, with mushroom heads, to support the floors. The columns vary from 2 ft. diameter at the bottom to 18-in. at the top. The slip form consists of a sheet iron cylinder 3 ft. long with a funnel top spreading to 4 ft. diameter, supported by 4 heavy boards which serve as guides to keep the column plumb as the form moves upward. At each floor these special forms remain in place after the column head has been poured. Openings in the deck allow it to pass these forms after they have become stationary.

At each floor level the column steel which ties into the floor is left exposed so that it can be easily bent into place.

Key-ways for the floor slabs are also provided in the walls. Vertical steel dowells 15 in. on centers pass through these key-ways extending into the concrete above and below and the reinforcement of the floor slabs will be hooked up to them and also to a rod behind the dowells. What amounts to practically monolithic construction will thus be obtained.

Pouring of the walls and columns is a continuous operation, three shifts of 12 men each being employed. Under the special permit granted by the building and safety commission 10 days is the estimated time allowed for each floor. Concrete must stand 7 days before the deck can be pulled away and 3 days will be required to get ready, put in the necessary shoring and pour the next floor. Shoring will be set up from the column heads on the floor below.

The deck will be lowered by a system of ½-in. steel cables attached near each of the 16 columns in the structure. These cables will be collected over a double snatch block and will be connected to a large block and tackle connected to a hoist. One man operating the hoist will be able to lower the deck from floor to floor.

A 1-sack mixer is being used on the job. Concrete is hoisted in a trip bucket and distributed in a buggy. The mix is 1:2½:3½ with 7 gallons of water to 1 sack of cement and 3 pounds of Celite to a hatch. Close attention is being given to the water cement ratio and frequent tests of the concrete are being made. Some of the early reports show a test as high as 700 lbs. per sq. in. on concrete 3 days old, and 1100 lbs. in 7 days, much higher than was figured necessary for the speed desired in this construction.

The system which Mr. Kimmmerle is applying to the construction of the Argonne Transfer & Storage building is an extension of the "Keller System" sliding form. Originally the system was used only for straight wall work. A couple of years ago it was extended to beams and girders, making a complete structural frame in a building at the Globe Ice Cream Co.'s plant in Los Angeles. Patents have been applied for covering the extension of the system to floor construction. The savings possible in construction if the system works out as contemplated by the inventor can well be understood and appreciated by any one familiar with concrete construction.

The Argonne Storage Company, W. L. Carpenter, owner, is erecting the building now under construction. J. M. Cooper of Los Angeles is the architect and general contractor. Mr. Kimmmerle has a contract for the structural work above the foundation.—(S. W. Builder & Contractor).

### TIMBER CUT

Although the country as a whole showed less lumber cut last year than in 1925 the three West Coast States showed an increase in lumber production. The decrease for the entire country amounted to 400,000,000 feet, or 1.9 per cent. On the other hand, Washington and Oregon gained nearly 400,000,000 feet in production or 5.9 per cent, and California gained nearly 100,000,000 feet or 6.4 per cent. The 938 large mills produced 21,196,000,000 feet of lumber last year, compared to 21,600,000,000 feet in 1925. Most of the decrease was reported from the Northeastern States.

## APARTMENTS

### Owner Taking Figures

APARTMENTS Cost, \$35,000  
SAN FRANCISCO. W Third St 100 S Bayview.

Three-story and basement frame and stucco store and apartment bldg. (1 store and 12 two and three-room apts.)

Owner—James and Mary Joyce.  
Architect—J. C. Hladik, Monadnock Bldg.

### Owner Taking Figures

APARTMENTS Cost, \$45,000  
SAN FRANCISCO. W 24th 100 S Lake.

Three-story and basement frame apt. bldg. (16 two, three and four-room apts.)

Owner—Anker & Schefski.  
Architect—J. C. Hladik, Monadnock Bldg.

### Contractor Taking Sub-Figures

APARTMENTS Cost, \$50,000  
SAN FRANCISCO. S W Divisadero & Francisco Sts.

Three-story and basement frame and stucco (18) apartments.

Owner—Mrs. Bessie Cooley, 80 Sotelo Ave.  
Architect—J. C. Hladik, Monadnock Bldg.

### Contractor Taking Sub-Figures

APARTMENTS Cost, \$50,000  
SAN FRANCISCO. N W Beach & Scott.

Three-story frame and stucco apts. (6 three-room and 12 two-room apts.)

Owner—Mrs. Bessie Cooley, 80 Sotelo Ave.  
Architect—J. C. Hladik, Monadnock Bldg.

Contractor—H. C. Cooley, 80 Sotelo Av.

### Contract Awarded

APARTMENTS Cont. price approx. \$250,000  
SAN FRANCISCO. Jones and Washington Streets.

Eight-story Class A apartment building to contain 16 apartments.

Owner—1360 Jones, Incorporated.  
Architect—W. E. Schirmer, Thayer Bldg., Oakland.

Contractor—Chas. W. Heyer, Jr., Mills Bldg.

Sub-bids are now being taken.

### Contract Awarded

APARTMENTS Cont. price, \$17,566  
SAN FRANCISCO. S E Turk & Baker Streets.

Two-story and basement frame and stucco apartments.

Owner—Mrs. Norine M. Feigenbaum, 901 Broderick St.  
Architect—None.

Contractor—H. S. Melnberger, 343 4th Street.

### Sub-Contracts Awarded

APARTMENTS Cost, \$200,000  
SAN FRANCISCO. N Filbert St 100 E Van Ness Ave.

Six-story and basement Class C apartment building (72 apts., 2 and 3 rooms).

Owner—E. V. Lacy, 708 Hearst Bldg., San Francisco.

Architect—C. O. Clausen, Hearst Bldg., San Francisco.

Concrete—W. A. Newsom, Jr., 625 San Jose Ave.

Lumber—Reinhardt Lumber & Planing Mill Co., Jerold and Barneveld St.

Steel—Frederick Steel Co., Webster & Standard Sts.

Owner Taking Sub-Figures  
APARTMENTS Cost, \$150,000  
SAN FRANCISCO. Cal. S Pine, E Stockton.

Ten-story, Class B Apartment Building (40 two-room apartments).

Owner—E. V. Lacey, Hearst Bldg.

Architect—Clausen & Amandes, Hearst Bldg.

### Segregated Bids Being Taken

APARTMENTS Cost, \$300,000  
OAKLAND, Lake and Madison Streets.

Six-story and basement reinforced concrete apartment bldg., stucco exterior (120 rooms).

Owner—Madison-Lake Corp., Dr. David and Edith Haddon.  
Architect—W. H. Weeks, 369 Pine St., S. F., and Ray Bldg., Oakland.

### Sub-Bids Being Taken

APARTMENTS Cost, \$55,000  
SAN JOSE, Santa Clara Co., Cal.

Three-story frame and stucco apartment bldg.

Owner—J. A. Valpey.  
Architect—W. H. Weeks, 369 Pine St., S. F., Ray Bldg., Oakland, and San Jose.

Contractor—Willis F. Lynn, Richfield Oil Bldg., Oakland.

### Plans Being Figured.

ALTERATIONS Cost, \$6000  
SAN FRANCISCO. NW Eighth Ave. and Fulton Street.

Alter six 4-room apartments in five-story reinforced concrete apartment building into 12 two-room apts.

Owner—Chris Cannellos.  
Architect—Henry Shermund, Hearst Bldg., San Francisco.

### Plans Completed.

APARTMENTS Cost, \$150,000  
SAN FRANCISCO. N W Turk and Webster Streets.

Seven-story reinforced concrete apartment building (48 two and three-room apts.)

Owner—J. D. Hannah and H. Kohlweh, 825 Sansome St., San Francisco.

Architect—E. E. Young, 2002 California St., San Francisco.

Sub-bids will be taken by the owner in ten days.

Previously reported for a six-story building.

### Contract Awarded

APARTMENTS Cost, \$55,000  
BERKELEY, Cal. 2808 Telegraph Ave., Berkeley.

Three-story, 42-room store and apartment building.

Owner—Donald L. Patch, 449 Oakland Ave., Oakland.

Architect—E. W. Cannon, 1924 Broadway, Oakland.

Contractor—E. T. Leiter & Son, 3601 West St., Oakland.

APARTMENTS Cost, \$200,000  
SAN FRANCISCO, Cal. S W Green and Jones.

Ten-story, basement and sub-basement apartment building (24 four-room apartments).

Owner—R. J. Stempel, 800 Sotelo St.  
Architect—J. C. Hladik, Monadnock Bldg.

### Completing Plans

ADDITION Cost, \$—  
SAN FRANCISCO. Mason and California Sts.

Six-room steel, concrete and tile addition on roof of Fairmont Hotel.

Owner—LeRoy Linnard, Fairmont Hotel.

Architect—Lewis P. Hobart, Crocker Bldg.

### Plans to Be Prepared

APARTMENTS Cost, \$10,000 each  
SAN MATEO.

Six 2-story frame and stucco store & apartment buildings.

Owner—Thos. F. Bell and E. H. Denke.  
Architect—E. H. Denke, 1317 Hyde St., S. F.

### Plans Complete

APARTMENTS Cost, \$75,000  
SAN FRANCISCO. N W Geary and 32d Ave.

Six-story and basement class C (11) apartments.

Owner—Mrs. Ella C. Graham.  
Architect—Edward E. Young, 2002 California St.

Permit applied for.

Contract Awarded  
APARTMENTS Cont. price, \$22,500  
SAN FRANCISCO. N E Green & Montgomery Sts.

Three-story and basement frame (8) apartments.

Owner—Joe Poppoli, 15 Castle St.

Architect—P. Righetti, 12 Geary St.

Contractor—Folliotti & Murrer, 597 Greenwich St., S. F.

Contractor Taking Sub-Figures  
APARTMENTS Cost, \$50,000  
SAN FRANCISCO. NE Jackson & Adele Place.

Four-story and basement concrete (39) apartments.

Owner—Zellerbach & Levenson Company, 1540 California St.

Architect—F. W. Dakin, 310 California Street.

Contractor—Theo. S. Hohn, 1802 Cabrillo St.

Contractor Taking Sub-Figures  
APARTMENTS Cost, \$50,000  
SACRAMENTO. 916 26th Street.

Two-story frame and stucco apartment bldg. (18 two-room apts.)

Owner—Lena M. Hill, 2601 J St., Sacramento.

Architect—A. R. Widdowson, 1224 Dolores St., Sacramento.

Contractor—Herrndon & Finnigan, 1814 17th St., Sacramento.

May 16, 1927  
Ready for Bids May 20th.  
APARTMENTS Cost, \$177,000  
SAN JOSE, Cal.

Five-story reinforced concrete apartment building (50 two-room apartments) all modern conveniences.

Owner—Withheld.  
Architect—Oscar R. Thayer, 110 Sutter St., San Francisco.

Sub-Figures Being Taken  
APARTMENTS Cost, \$18,500 each  
SAN FRANCISCO. S W Bay and Broderick Sts.

Three 2-story and basement frame & stucco apartment bldgs. (four 4-room apts each).

Owner and Builder—Haley Bros., 5000 Geary St.

Plans by Owner.

BONDS

VENTURA, Cal.—Petitions calling for the submission to a vote of the people of Ventura county of the proposition to establish a county-wide junior college have been sent to the state board of education at Sacramento.

SHASTA, Shasta Co., Cal.—Shasta Grammar School District contemplates bond issue or direct tax levy to finance erection of a new school to replace building destroyed by fire.

FRESNO, Fresno Co., Cal.—Election will be held June 7 in Easterby Grammar School District to vote bonds of \$35,000 to finance erection of a new grammar school.

GUSTINE, Merced Co., Cal. — City plans bond election to secure funds to finance erection of combined city hall and fire house.

SAN LORENZO, Alameda Co., Cal.—Election will be held June 6 in San Lorenzo School District to vote bonds of 45,000 to finance erection of a new school building. Trustees of district are: Robert P. King, W. Z. Smith and W. S. Perkins.

REDWOOD CITY, San Mateo Co., Cal.—Election will be held June 7 in Ravenswood School District to vote bonds of \$15,000 to finance erection of new school. Trustees of district are: J. P. Nelling, E. R. Tait and Edith C. Follett.

INGLEWOOD, Los Angeles Co., Cal.—The trustees of Inglewood school district have called another special election for June 7 to vote bonds in the sum of \$150,000 for school improvements. Architects Norman F. Marsh & Co., 1011 Broadway Central bldg., L. A., have been selected to design a 16-room building to be erected at Queen St. school site. Other work will include alterations and additions to existing schools.

MONROVIA, Los Angeles Co., Cal.—The trustees of Monrovia City High School District has called a special election to be held June 14 to vote bonds in the sum of \$625,000 for purchasing a site and erecting new high school buildings.

## GOVERNMENT WORK AND SUPPLIES

**WASHINGTON, D. C.**—Until June 10,  
 11 A. M., bids will be received by Office  
 of Supply Division, Purchase and  
 Issue Subdivision, U. S. Veterans'  
 Bureau, Arlington Bldg., Washington,  
 D. C., for radio head sets of the follow-  
 ing specifications, in such quantities as  
 may be ordered from time to time  
 during the six months period ending  
 Dec. 31, 1927: Each head set shall be  
 not less than 2000 ohms resistance or  
 15,000 ohms alternating current im-  
 pedance and each shall be equipped  
 with not less than 8 ft. of parallel  
 mercerized cord. Ends of cords shall  
 be equipped with an eyelet to fit under  
 a #4 flat head binding screw. Each set  
 shall be stamped "Property of the U. S.  
 Veterans' Bureau." Samples of head  
 sets bid upon must be submitted for  
 inspection and to show workmanship,  
 which will be given consideration in  
 making award. Quantity estimated to  
 be purchased under this proposal is  
 1000. This estimate, however, is given  
 for information only and will not re-  
 lieve the U. S. Veterans' Bureau of its  
 obligations to order from the success-  
 ful bidder all that may, in the judg-  
 ment of the ordering officer, be needed,  
 and shall not in any case relieve the  
 successful bidder of his obligation to  
 fill all such orders for articles which  
 he has agreed to furnish.

**HONOLULU, T. H.**—Until July 28, at  
 3 p. m., bids will be received by Su-  
 pervising Architect, Treasury Depart-  
 ment, Washington, D. C., to paint the  
 plaster, etc., in postoffice at Honolulu.  
 Specifications obtainable from District  
 Engineer, 403 Postoffice Building, 7th  
 and Mission Sts., San Francisco. See  
 call for bids under official proposal  
 section in this issue.

**WASHINGTON, D. C.**—Bids are being  
 received by Bureau of Supplies and Ac-  
 counts, Navy Department, to furnish  
 and deliver materials to Navy Yards  
 and Stations, the date of opening bids  
 as noted at close of each paragraph.

Segregated Bids Wanted—Close May 26  
ALTERATIONS Cost, Approx. \$15,000  
OAKLAND, Alameda Co., Cal. Eleventh and Franklin Sts.  
Remodeling present bank building (new fixtures, tile and marble finish, safe deposit vaults, etc.)  
Owner—American Trust Co., 465 California St., San Francisco.  
Designer and Manager of Construction—C. R. Collupy, 465 California St., San Francisco.

Plans Being Prepared  
STORE BLDG. Cost, \$—  
SAN LEANDRO, E 14th St.  
Store bldg. (height and type of construction not decided).  
Owner—Withheld.  
Architect—Chas. McCall, 1404 Franklin St., Oakland.  
The building will probably be a 2-story brick building.

May 17, 1927  
Contract Awarded  
MARKET BLDG. Cost, \$26,000  
SAN FRANCISCO, S Union St W of Van Ness Ave.  
One-story reinforced concrete market building.  
Owner—H. Wissman (Great Western Grocery Co., 3040 Geary St.)  
Architect—Pring & Lesswing, 58 Sutter St.  
Contractor—Louis Cohn, 117 Montgomery St.  
Grading has been started.

BURLINGAME, San Mateo Co., Cal.  
—Clarence Fowler, \$29 Edgchill, Burlingame, at approx. \$10,000 awarded contract by Herman Rumpf to erect a one-story reinforced concrete store in California Drive bet. Burlingame and Howard Aves.; will contain 2 stores.

SAN FRANCISCO — The Dinwiddle Construction Co., Crocker Bldg., awarded the marble contract to Elsie & Dondero, 2895 Third St., in connection with the construction of a two-story and basement Class B reinforced concrete store and dance pavilion building. It is being erected on Van Ness and Market Streets for B. S. Schlessinger, Mortimer and Herbert Fleischhacker, from plans prepared by Architect Clarence A. Tantau, Shreve Bldg. Cost \$200,000.

PLACERVILLE, El Dorado Co., Cal.  
—Until June 4, 10 a. m., bids will be received by R. W. Browne, secretary, El Dorado Irrigation District, to erect office building. Cert. check 10% req. with bid. Plans obtainable from secretary, 9 Coloma St., Placerville.

**HUNTINGTON PARK, Los Angeles Co., Cal.**—Bankers Equipment Co., 722 S. Los Angeles St., is taking bids to erect a two-story class A bank and office building at the northwest corner of Pacific Blvd. and Clarendon Ave., Huntington Park for Pacific Southwest Trust & Savings Bank. The bank will occupy the entire ground floor and the upper story will contain offices; dimensions, 50x110 ft., reinforced concrete and steel construction.

**SAN FRANCISCO, Cal.**—See Halls and Society Buildings, this issue.

**SANTA MONICA, Los Angeles Co., Cal.**—Architect M. Eugene Durfee, 221 Commercial Exchange Bldg., Los Angeles, will take bids in two weeks for a 3-story Class C store and office building to be erected at the corner of 4th St. and Broadway, for A. P. Creel; the two upper floors will be occupied by the Bay Builders' Exchange and the first floor will contain several stores; 60x100 feet, brick walls.

**SAN FRANCISCO**—It is rumored that the Bank of Italy has purchased the property on Pine and Montgomery Sts., known as the Stock Exchange, and the property occupied by the California Market running from California to Pine Streets between Montgomery and Spring Streets. This would give the Bank of Italy a half block of property, as it now owns the Clunie Building on the southwest corner of California and Montgomery. The rumor is that a large building will be erected within two years when the leases in the market expire. This, however, could not be verified.

## THEATRES

**RIVERSIDE, Cal.**—West Coast Theatres, Inc., C. A. Howe, Riverside, representative, have several sites under consideration and are planning the erection of a Class A theatre building to cost \$250,000.

**Plans Being Figured—Bids Close May 23, 1927**  
**ALTERATIONS** Cost, \$—  
**SAN FRANCISCO.** 1529 Polk St. Alter theatre building.  
 Owner—Royal Theatre, premises.  
 Architect—Miller & Pfeiffer, 580 Market St.

Smith, Film Exchange Bldg., Washington St. and Vermont Ave., Los Angeles, is taking bids from a selected list of contractors for a 3-story theatre, store, office and hotel building to be built at Main and Chestnut Sts., Ventura, for the American Amusement Co.; theatre auditorium to seat 1500 people, 4 stores, 22 offices, and a number of hotel rooms; reinforced concrete construction; \$300,000.

## MISCELLANEOUS BUILDING CONSTRUCTION

**SAN FRANCISCO**—F. W. Varney, 40 Rico Way, at \$1457 awarded contract by Board of Public Works for flood light housing and meteorological stations at Municipal Airport, near Millbrae, San Mateo County.

**SALINAS, Monterey Co., Cal.**—Directors of California Rodeo Association vote to erect additional bleachers at Rodeo grounds with seating capacity of 1000 persons.

**MERCED, Merced Co., Cal.**—C. E. Welch of the firm of Welch & Griffin, general directors, has let a contract to J. H. Sanders and C. A. DeLong of San Jose to erect a \$75,000 mausoleum in Evergreen Cemetery. Will be reinforced concrete construction and will comprise the first unit of a 300-crypt structure. Considerable landscape work is involved in the project which will bring the ultimate expenditure to \$5,000.

**Contract Awarded**  
**LOSTOFFICE BLDG.,** Cost, \$12,000  
**MARTINEZ, Castro and Ward Street.**  
 One-story brick post office bldg.  
 Owner—Mr. Hilson, Oakland.  
 Lessee—U. S. Government.  
 Contractor—Paul Jones, 666 Mission St. S. F.

**OAKLAND, Cal.**—The following bids were received by G. B. Hegardt, secretary, City Port Commission, 424 Oakland Bank Bldg., to grade, level and roll landing field at Municipal Airport.  
 P. Hoare, Redwood Road, Hayward ..... \$ 5,100  
 James M. Smith, S. F. .... 5,500  
 Kaiser Paving Co., Oakland ... 9,750  
 Municipal Improvement Company, Oakland ..... 14,900  
 All bids taken under advisement for one week.

**EL CERRITO, Contra Costa Co., Cal.**—Mahony Bros., Flood Bldg., San Francisco, recently awarded the rock, sand and gravel contract to James H. Davis, El Cerrito, in connection with the construction of a concrete mausoleum, with bronze and marble interior. It is to be erected in the Sunset View Cemetery, El Cerrito, for the Sunset View Mausoleum Co., Room 1211, 1 Montgomery St., San Francisco. Plans prepared by Architect Wallace A. Hubbert, Room 808, 110 Sutter Street, San Francisco.

As previously reported: Reinforcing steel to Gunn-Carle & Co., 444 Market St., San Francisco; plumbing to Geo. Zara, 1311 Harrison St., S. F.

**LOS ANGELES, Cal.**—It is probable that elections will be called this summer to vote bonds for erecting an emergency hospital, for installing a fire alarm system and for constructing pedestrian tunnels. The estimated amount for the three projects is \$200,000.

**BERKELEY, Alameda Co., Cal.**—Bids will be taken shortly for alterations to the pipe organ in the California School for the Blind, Warring and Parker Sts., Berkeley. Estimated cost \$10,000. Owner, State of California.

## BUSINESS OPPORTUNITIES

**SAN FRANCISCO, Cal.**—Further information regarding these opportunities may be obtained from the office of Larsen Advance Construction Reports, 818 Mission St., San Francisco, either by phone, letter or personal call. Requests for additional information should be made to the Business Opportunities Department. Such requests must be accompanied by the index number of each opportunity.

**D-2445—Chicago, Ill.** Manufacturers of a woodworking machine combining twenty-eight operations in one machine wish to establish a warehouse and agency to cover the San Francisco territory. Catalog describing the woodworker is on file with the Foreign and Domestic Trade Department.

**D-2447—Detroit, Mich.** Inventor of a patented parking device for automobiles (combined jack and shifting truck for vehicles) wishes to sell the patent on his device. The parking device makes parking possible if there are two inches clearance on both ends of the car; also allows a driver to get his car out of a parking space easily if it is blocked in from front and rear by other machines. Copy of patent is on file with the Foreign and Domestic Trade Department.

**11627—Vahagnies, France.** Producers of floor, wall, glazed colored tiles; roofing tiles (all sorts and shapes); dull, varnished and glass tiles, etc., very large line, seek commission agent or sole importer for the Pacific Coast or the territories of Los Angeles, San Francisco or Seattle. Soundness and reliability essential. Samples and prices available in San Francisco.

**11628—Paris, France.** An extremely wide range of subjects in ornamental art plasters (stucco and stone cardboard) for interior and exterior work, are offered for exclusive agency on the Pacific Coast. Catalogs at prices available in San Francisco.

**11631—Antwerp, Belgium.** Producers of hand-made tapestries and "Gobelins" for furnishing and decorative panels seek outlets for these goods in the United States among direct buyers and importers.

**11632—Brussels, Belgium.** Manufacturers of ready-mixed paints and varnishes; also anti-rust paints, wish to get in touch with San Francisco buyers and importers. They would consider appointing agents to work on a commission basis.

**11637—Athens, Greece.** Manufacturers of oriental carpets wish to establish connections with interested San Francisco importers and dealers in this line.

**11645—Gary, Ind.** Party having rich iron ore deposits in Peru, South America, wishes to dispose of these deposits in the United States and would appreciate hearing from interested San Francisco firms or individuals.

**11650—Barcelona, Spain.** Concern wishes to get in touch with American importers of glazed and enameled tiles.

**11651—Cataluna, Spain.** Company wishes to get in touch with American importers of cork products, especially cork floats for fishing nets.

31

## ARISTOCRATS SHOULD TAKE UP PLUMBING TRADE

Plumbing as a career is recommended to members of the British aristocracy by Arthur Weigall, noted Egyptologist, who points to the new fad of having expensively fitted bathrooms even in the smallest houses. There is no better paying business today, he declares.

Weigall was formerly inspector general of antiquities to the Egyptian government and keeps up with the times by following modern plumbing. Women in particular, he contends, appear to take five or six times as many baths a week as they did a few years ago.

There is no limit to the decorative ingenuities which might be injected into the plumbing business, he believes.

## 1926 ASBESTOS PRODUCTION

The total quantity of asbestos sold or used by producers in the United States in 1926 was 1358 short tons, valued at \$134,731, according to figures compiled by the United States Bureau of Mines, Department of Commerce, from individual reports furnished by producers. Those figures represent chrysotile asbestos mined in Arizona, and amphibole asbestos mined in Georgia and Maryland. The sales of chrysotile asbestos were much larger both in quantity and value than those of 1925, and the sales of amphibole asbestos showed a decrease in quantity, but an increase in value.

Imports of unmanufactured asbestos for consumption amounted in 1926 to 257,621 short tons, valued at \$8,142,505, and the exports were 1104 short tons, valued at \$85,922. Corresponding figures for 1925 were: Imports, 230,520 tons, valued at \$7,134,302; exports, 1109 tons, valued at \$70,846.

For a revision of the Chicago building code, to bring it in line with modern conditions, the city commissioner of buildings has called a conference of about twenty engineers, architects and contractors, to organize a committee for the study of the present code and suggestion of changes. These changes will then be considered by the committee as a whole and finally discussed with the officials of the building department.

## TRADE NOTES.

(Continued from Page 4)

Philip Newman will operate under the firm name of Richmond Hardware Store at 5637 Geary street, San Francisco.

Magner Bros. Paint Co. of San Francisco, capitalized for \$250,000 has been incorporated. Directors are: Frances L. Schioldager, E. F. Sutherland, Chas. Long, J. C. Donnelly and E. L. Culver.

Hildebrand Planing Mill of Oakland, capitalized for \$150,000 has been incorporated. Directors are: D. A., A. L. and H. V. Hildebrand, all of Oakland.

C. J. Thelen will operate from 1066 Howard street, San Francisco, under the firm name of Thelen Electric Supply Company.

Wm. H. Bowie will operate from 1566 Howard street, San Francisco, under the firm name of Acme Stucco Company.

San Luis Brick Works, operated by Faustich Brothers at San Luis Obispo, will resume operations May 16, it is announced by Fred Faustich, general manager of the plant.

### STEEL TREATING CONFERENCE

The Conference on Steel Treating will hold its first meeting at Purdue University, Lafayette, Ind., May 26 and 27. This conference has been arranged by the Engineering Extension Department of Purdue University in response to requests which had been received asking for a conference on the problems of steel treating. The program will include addresses by speakers of national reputation and demonstrations of treating processes and tests, and there will be inspection trips. For programs address Prof. W. A. Knapp, of the Engineering Extension Department, Purdue University.

### FEATHER RIVER PINE MILLS FILES ARTICLES

Another step in the re-organization of the Hutchinson Lumber Company was taken when articles of incorporation of the re-organized company, known as the Feather River Pine Mills, Inc., were placed on record at Oroville.

The new company is incorporated under the laws of Nevada. Reno is made the principal place of business, with a provision, however, that the board of directors can designate a place outside of Nevada where the business of the company may be transacted.

The articles of incorporation authorize the issuance of 100,000 shares of preferred stock with a par value of \$25 a share and a total value of \$2,500,000, and of 40,000 shares of common stock without par value. It is provided that the voting control vests in the preferred stock.

A deed has also been placed on record here conveying to the Feather River Pine Mills, Inc., the property of the Hutchinson Lumber Company in both Butte and Plumas Counties.

D. M. Crooks, architect, formerly occupying offices at 532 Sixteenth Street, Oakland, has moved to larger quarters in the Thayer Building, that city.

## Growth Of Copeland Products— Is Told By Company Executive

"General acceptance of electrical refrigeration by the general public in the past two years is one of the outstanding facts of the decade," said William Robert Wilson, president of Copeland Products, Incorporated, Detroit, in making a statement regarding the growth of the company.

"Indicative of the favor in which the industry is held by the public are the facts pertaining to the expansion and development of our company which since early in 1926 has been little short of phenomenal. In some ways the record is unique.

"The first quarter of 1927 was better than the company's budget foretold and its operations showed a net profit. Our business, during this period, was 204% greater than for the first three months of 1926. Judging from orders on hand and reports from the field, we expect that the second quarter of this year will produce business 250% greater than that of the first three months of the year.

"Shipments during 1926 were several hundred per cent greater than in 1925 and shipments for the first quarter of the present year were more than 200 per cent greater than for the same period of 1926. The shipments for the second quarter we expect will be more than two and one-half times as great as the first three months.

"On January 1, 1927, our company had three and a half time as many outlets throughout the country as on January 1, 1926. Since January 1st of this year new distributors and dealers have been added to the list at a more rapid rate, and at this particular time new outlets are being established at the rate of approximately 50 a week.

"The more remarkable growth of Copeland Products, Incorporated, dates back to the reorganization of the personnel which was effected in March 1926. At that time George W. Mason, formerly works manager for Chrysler

came to us as vice-president and general manager. W. D. McElhinny, formerly commercial sales manager for Frigidaire and for years recognized as an authority in electric refrigeration was appointed our vice-president in charge of sales. C. W. Hadden, general sales manager of the Velie Motor Company came to us as one of the executive staff.

"Under the direction of these officers immediate and far-reaching changes were made effective. Factory processes were changed until today the Copeland factory has been declared by experts to be able to produce more refrigerating machines per square foot than any other factory in America. The quality of product has been most carefully guarded at the same time as the efficiency of shop practices improved. We work to much finer tolerances and closer limits than are used in the finest motor car manufacturing.

"An aggressive sales force has been built which covers the country and this is being strengthened and enlarged to such an extent that we are justified in looking for greater increases in the future than in the past.

"Electric refrigeration is in its infancy. It is destined to become as well known a household and commercial factor as electric lights, gas ranges and electric fans. Modern science has revealed the fact that proper care of food is of vital importance in maintaining health. Culinary experts have added as many new dishes through the use of refrigeration as they have through the application of heat by means of gas and electricity.

"Another noteworthy fact is that many men, not only of our own organization but of other electric refrigeration companies have been recruited from the automotive field and have come into it through their belief in the great possibilities of the industry."

## G. R. Bent Investigates Merits Of "Alkagel"—A Waterproofing

G. R. Bent of Bents Distributors, maintaining displays at both 77 O'Farrell street and Universal Exhibits in the Monadnock building, has just returned from a trip to Duluth, Minn., where he has been investigating the merits of Alkagel—claimed to be an absolute waterproofing for mass concrete, stucco, gypsum and Plaster of Paris.

Mr. Bent states that he visited one paper warehouse built below the level of Lake Superior of Alkagel treated concrete and that after three years the basement as well as the entire building is perfectly dry and that the basement is used for storing paper, which product is easily affected by moisture.

The new Duluth Hotel was built of Alkagel treated concrete as well as numerous other large buildings and in every case results were one hundred per cent satisfactory. Some buildings Mr. Bent inspected have been erected for over five years.

"Alkagel is an entirely new product and is not to be confused with other dampproofings," says Mr. Bent. "It is

used integrally, but can be used in a groat for surfacing leaking basements. Beside being a waterproofing, some grades of Alkagel are used as acid proofing, as concrete so treated will resist the action of buttermilk and salt water acids such as attack creamery floors. In fact, concrete so treated is only affected by concentrated sulphuric. Other Alkagel preparations are used as a binder for wood pulp, carbon dust, ground mica and other mill waste for the forming of insulating slab. Such slab is used for electric panels, as it will take a high polish and is a non-conductor of electricity."

A firm in Barcelona, Spain, wishes to get in touch with American importers of glazed and enameled tiles. If interested, advise "The Observer."

For April the square yardage included in concrete pavement contract awards according to the Portland Cement Association was: 10,264,336 for roads; 4,331,954 for streets; and 285,924 for alleys; or a total for the month of 15,482,214 square yards.

# Official Proposals

## NOTICE TO BIDDERS

(Concrete Work, Fencing, Etc.—San Rafael)

Bids will be received for grading, concrete work, and fencing of the grounds of the San Rafael Grammar School at Fourth and E Streets, San Rafael, in accordance with plans and specifications on file with the Secretary.

All bids must be accompanied by a certified check for ten per cent of the amount bid and be filed with the Secretary no later than eight o'clock P. M., June 14, 1927, at the office in the San Rafael High School Building.

OLIVER R. HARTZELL,  
Secretary Board of Education City of San Rafael, California.

## NOTICE TO CONTRACTORS

(County of Alameda)

Office of the Clerk of the Board of Supervisors of Alameda County, California.

Sealed bids will be received by the Clerk of the Board of Supervisors of Alameda County, California, at his office until Monday, June 13th, 1927, at 10:30 o'clock a. m. (the day when said bids will be opened and said contract awarded) for the construction of pile caps, girders, and additional reinforcing steel for the Alameda Approach, Estuary Subway, Webster Street, Alameda, California.

Plans and specifications for said work are on file in the office of the County Clerk of Alameda County in the Hall of Records Building in the City of Oakland, County of Alameda, State of California, where copies may be obtained by depositing with the County Clerk the sum of twenty-five (\$25.00) dollars.

Contractors will be restricted as to the length of time they may retain said plans and specifications to fifteen (15) days.

Deposits of contractors failing to return said plans and specifications within said fifteen (15) day period, will immediately become forfeited to the County of Alameda.

Each bid must be accompanied by a check for at least ten (10%) per cent of the total amount of the bid or proposal, certified to by some responsible bank and made payable to Geo. E. Gross, Clerk of the Board of Supervisors, to be forfeited to the County of Alameda as agreed and liquidated damages should the party or parties to whom the said contract shall be awarded fail to enter into the contract after the award or give bond required by the Board for the faithful performance of the contract.

The Board of Supervisors reserve the right to reject any and all bids.

GEO. E. GROSS,  
Clerk of the Board of Supervisors,  
of Alameda County.  
Dated May 16th, 1927.

## NOTICE TO CONTRACTORS

(General Work)

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to 2 o'clock p. m., Tuesday, June 14th, 1927, said bids then and there to be publicly opened and read, for furnishing all plant, materials and labor required for the erection and completion of the General Work, Gymnasium Building, San Jose State Teachers' College, San Jose, California, in accordance with plans and specifications therefor, copies of which may be obtained upon application to the Division of Architecture, State Department of Public

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

Works, Forum Building, Sacramento, California.

General Work includes all manner of work except Plumbing, Heating and Electrical Work.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer," Department of Public Works, in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five (\$25.00) dollars will be required on plans and specifications, the deposit to be returned immediately upon the return of the plans and specifications to the Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for General Work, Gymnasium Building, San Jose, California."

STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

GEO. B. McDOUGALL, State Architect.  
PAUL BAILEY, Director of Public Works.

## NOTICE TO CONTRACTORS

MECHANICAL WORK

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to and including 2 o'clock p. m., Tuesday, June 14th, 1927, said bids then and there to be publicly opened and read, for furnishing all plant, materials and labor required for the Mechanical Work, Gymnasium Building, San Jose State Teachers' College, San Jose, California, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

Mechanical Work includes Plumbing,

Heating and Electrical Work. Separate bids will be received for "Electrical Work" and for "Plumbing and Heating." Combined bids will also be received covering all three branches of the work. Bids must be submitted on forms prepared and furnished by the Division of Architecture.

Cash, a bidder's bond, made payable to the State of California, or a certified check made payable to the "State Engineer," Department of Public Works, in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five dollars (\$25.00) will be required on plans and specifications, the deposit to be returned immediately on the return of plans and specifications to the said Division of Architecture, at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids, and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for Mechanical Work Gymnasium Building, San Jose, California."

STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

GEO. B. McDOUGALL, State Architect.  
PAUL BAILEY, Director of Public Works.

## NOTICE TO CONTRACTORS

(Bridge—State of Arizona)

Sealed bids marked upon outside of envelope "State Highway Contract, Grand Canyon Bridge near Lee's Ferry," and addressed to W. C. Lefebvre, State Engineer, Phoenix, Arizona, will be received and opened at 2 p. m., June 7, 1927, at the office of the State Engineer, Phoenix, Arizona, upon the Grand Canyon Bridge near Lee's Ferry.

The work consists of approximately:

9,000 cu.yds. Foundation in excavation  
2,300 lbs. Steel in foundation  
183 cu.yds. Concrete in foundation  
1,887,000 lbs. Structural steel  
315 cu.yds. Concrete in deck  
80,000 lbs. Rein. steel in deck.

or  
80 M.B.M. Timber in deck  
And other incidental items.

All bids shall be accompanied by an unendorsed, certified or cashier's check for 5% of the gross amount of the bid, payable to the State Treasurer of Arizona.

The State Engineer reserves the right to reject any and all bids.

Copies of the plans and specifications may be seen at the office of the State Engineer, Phoenix, Arizona, or may be obtained upon payment of Ten (\$10.00) Dollars, to W. C. Lefebvre, State Engineer. The plans and specifications are not returnable and the deposit will be retained by the State.

A satisfactory bond will be required of the contractor to whom the award is made.

All proposals shall be made on blanks furnished for that purpose.

W. C. LEFEBVRE,  
State Engineer.

GENERAL LISTING BUREAU

June 13, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

**San Mateo County**, between Colma and Cypress Lawn Cemetery (IV-S.M.-2-A), about one and five-tenths (1.5) miles in length, to be paved with Portland cement concrete.

**San Diego County**, at Del Mar (VII-S.D.-2-A), about eight-tenths (0.8) mile in length, to be graded and paved with Portland cement concrete and macadam.

**San Joaquin County**, a reinforced concrete girder bridge across Stockton Slough on Canal about 1 1/2 miles north of Stockton (X-S.J.-4-C), consisting of 25 foot spans.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,  
J. P. BAUMGARTNER,  
M. B. HARRIS,

California Highway Commission.  
R. M. MORTON,  
State Highway Engineer.

E. FORREST MITCHELL,  
Secretary.

Dated, May 16, 1927.

#### NOTICE TO CONTRACTORS

OFFICE OF THE SECRETARY OF THE BOARD OF EDUCATION OF THE CITY OF OAKLAND.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland High School District of Alameda County, hereby call for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Thursday, the 2d day of June, 1927, at 4:15 p. m., at which time and bid will be opened for the erection and completion of the SAN LEANDRO JUNIOR HIGH SCHOOL GYMNASIUM AND SHOP BUILDING of the Oakland High School District, located on the north side of Estudillo avenue, approximately 2,285 feet west of Pothill Boulevard, in the City of San Leandro, County of Alameda, State of California. These bids shall be presented in accordance with the plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th street, Oakland, California.

On a deposit of Twenty-five (\$25.00) dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned. Plans taken out on or before June 2d shall be returned June 2d, to the Superintendent of Buildings. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School

District as agreed and liquidated damages for said mutilation or detention. There must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder, and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland High School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not exceed Five Thousand (\$5,000.00) Dollars, but for all bids of less than Fifty Thousand (\$50,000.00) Dollars, said check shall be for at least ten (10%) per cent of the amount of the bid. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Thursday, the 2d day of June, 1927, at 4:15 p. m., in the Board Room, 211 Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDGEWORTH,  
Secretary of the Board of Education of Oakland, California.

#### NOTICE TO CONTRACTORS

(Veterans' Hospital—Livermore)

SEALED BIDS in triplicate, subject to the conditions contained here, will be received until 11 a. m. June 10, 1927, and then publicly opened for furnishing all labor and materials and performing all work for construction of buildings and utilities, including walks at U. S. Veterans' Hospital No. 102, Livermore, California. This work will include excavating, reinforced concrete construction, hollow tile, brickwork, marble work, iron work, built-up roofing, roof ventilators, metal lathing, plastering, carpentry, insect screens, hardware, painting, glazing, plumbing, heating, electrical work and outside sewer, water, heat and electric connections, all as set forth on bid form. Bids will be considered from individuals, firms or corporations possessing satisfactory financial and technical ability, equipment and organization to insure speedy completion of the contract, and in making awards, the records of bidders for expedition and satisfactory performance on contracts of similar character and magnitude will be carefully considered. At the discretion of the Director, drawings and specifications may be obtained upon application to the Construction Division, Room 791, Arlington Building, Washington, D. C., and at the office of the Supervising Superintendent of Construction, care of U. S. Veterans' Hospital, Palo Alto, California. Deposit with application of a check or postal money order for \$25 payable to the TREASURER OF THE UNITED STATES is required as security for safe return of the drawings and specifications within ten days after date of opening bids.

FRANK T. HINES,  
Director.

May 10, 1927.

#### NOTICE TO CONTRACTORS

(Standard School District)

Notice is hereby given that sealed bids will be received by the Board of Trustees, Standard School District, Oildale, California, up to 7:30 p. m., of May 24th, 1927, for furnishing all materials and labor necessary for the erection and completion of the Primary Building, Standard School, Oildale, California. In accordance with plans and specifications for same prepared by Charles H. Biggar, architect, 405 Bank of Italy Building, Bakersfield, California.

Copies of said plans and specifications may be had upon deposit of Ten

Dollars (\$10.00) at the office of Charles H. Biggar, architect, 405 Bank of Italy Building, Bakersfield, California, and the work done under his supervision. Deposit will be returned upon receipt of plans and specifications in good condition previous to the time bids are received.

Bid must be accompanied by certified check in the amount of at least ten per cent (10%) of the amount bid, such check to be made payable to the Board of Trustees, Standard School District, Oildale, California, and be submitted as a guarantee that the bidder, if successful, will enter into a contract satisfactory to said Board of Trustees, and in addition thereto, will furnish good and sufficient bonds therefor.

The Board reserves the right to reject any or all bids not deemed advantageous to the said Standard School District, and to waive any informality in any bid received.

By order of the Board of Trustees, Standard School District, Oildale, California, May 14th, 1927.

JAS. SLATER, Clerk.

#### NOTICE TO CONTRACTORS

(New Jerusalem School District)

Bids Wanted for New Jerusalem School Building.

Sealed bids will be received by the Clerk of the Board of Trustees of the New Jerusalem School District up to the hour of 2 p. m., May 31, 1927, at the office of Glenn Allen & Charles H. Young, located at 41 South Sutter St., Stockton, California.

Plans and specifications for the aforesaid work may be obtained at the office of Glenn Allen & Charles H. Young, architects for the board, at 41 South Sutter St., Stockton, California, upon deposit of Twenty-five (\$25.00) dollars. All bids must be upon forms obtained from the architects.

All bids must be accompanied by a certified check for 10 per cent of the amount of bid, payable to Herman Walters, clerk of the Board of Trustees, to be forfeited should the accepted bidder fail within five (5) days of the acceptance of his bid to enter into a contract and give satisfactory bonds for the faithful performance of the contract and for the protection of persons furnishing labor and materials for the construction of said building.

The Board reserves the right to reject any or all bids or waive any formality that may be deemed in the interest of the owner.

By order of the Board of Trustees,  
HERMAN A. WALTERS, Clerk  
HENRY T. OHM  
WALTER PETERMAN.

#### NOTICE TO CONTRACTORS

(Turlock Union High School District)

Notice is hereby given that Sealed Bids will be received and opened by the Board of Trustees of the Turlock Union High School District, Stanislaus County, State of California, in the High School Building, at Turlock, California, at 7:30 p. m., Tuesday, May 31, 1927, for the finishing of the second story of the Administration Building of the present High School Building for the Turlock Union High School District, in accordance with plans and specifications made for the same by W. H. Weeks, Architect, 369 Pine Street, San Francisco and 1924 Broadway, Oakland, California, for the

GENERAL CONTRACT  
HEATING

Plans and specifications may be seen at the offices of the Architect before mentioned, or at the office of the Board of Trustees, Turlock Union High School Building, Turlock, California.

Each bid must be accompanied by a certified check on some responsible California bank in a sum not less than five per cent (5%) of the amount of the bid, and made payable to A. G. Crowell, clerk of the Board of Trustees of the Turlock Union High School District; said check to be forfeited to the School District if the successful bidder fails to sign the contract and give a good and sufficient bond, as required by law, within 10 days after the awarding of the contract. A bidders' bond

will be acceptable in place of a certified check.

Each bid must be made out on Bid Forms obtained from the Architect, enclosed in a sealed envelope which is endorsed "Proposal" for "General Contract," "Heating," and must be delivered to A. G. Crowell, clerk of the Board of Trustees, Turlock, California, prior to the date and time set for the opening of bids.

Owner reserves the right to reject any or all bids.

(Signed) A. G. CROWELL,  
Clerk of the Board of Trustees, Turlock Union High School District, Turlock, Calif.

#### NOTICE TO BIDDERS

(Madera Union High School District)

The Board of Trustees of the Madera Union High School will receive bids up to 7 p. m. of Monday, June 6, 1927, for the following construction work:

1. A building to house the heating plant, in accordance with plans and specifications prepared by Swartz & Ryland, architects, Rowell building, Fresno, California. Copies of the plans and specifications may be obtained by contractors on application to Swartz & Ryland.

2. The installation of a heating plant for the Madera Union High School in accordance with plans and specifications prepared by F. Hudson, care of B. A. Newman Co., 320 North H Street, Fresno, California. Copies of these plans and specifications may be obtained by contractors on application to F. Hudson at the above address.

Bidders will bid separately on these two items. All bids will be submitted sealed and accompanied by certified checks to the amount of 10 per cent of the bid, in favor of the Madera Union High School District. Bids will be submitted to B. A. Harrington, secretary of the Board of Trustees, Madera, California.

The Board of Trustees reserves the right to reject any and all bids.

Signed:  
H. G. RODGERS, President.  
B. A. HARRINGTON, Secretary.  
Board of Trustees Madera Union High School.

#### BIDS WANTED

TREASURY DEPARTMENT, Office of The Supervising Architect, Washington, D. C., May 10, 1927.—SEALED BIDS will be opened in this office at 3 P. M., July 28, 1927, for painting of plaster, etc., in the U. S. P. O. (New) 2nd, Honolulu, H. T. Drawings and specifications may be obtained from the Custodian of the Building, or from the District Engineer, Room 403, Post Office Building, San Francisco, Cal., or at this office in the discretion of the Supervising Architect, JAS. A. WETMORE, Acting Supervising Architect.

#### NOTICE TO CONTRACTORS

(Klamath School District)

Notice is hereby given that sealed bids will be received by the Trustees of the Klamath School District of Del Norte County at Requa, California, until May 27th at two o'clock P. M., for the construction of a two-story frame school building near Requa, California.

Plans and specifications for this work are on file at the office of Newton Ackerman, architect, Fourth and Commercial Streets, Eureka, California, and at the office of the Superintendent of Public School at Crescent City, California, to whom contractors are hereby referred to W. S. Fisher, Requa Clerk of School Board. A deposit of \$10.00 will be required with each set of plans.

Each bid must be accompanied by a certified check for at least 5 per cent of the amount of the bid as a guarantee of good faith and the School Board of the above stated district reserves the right to reject any or all bids.

By order of the Board of School Trustees,

W. S. FISHER,  
Clerk.

#### CALIFORNIA HIGHWAY COMMISSION

##### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, California, until 2 o'clock p. m., on June 6, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

Shasta County, a reinforced concrete girder bridge 183 feet long, across Slate Creek at La Moine (II-Sha-3-C), consisting of six spans varying in length from 15 feet to 56 feet.

Shasta County, between La Moine and Shotgun Creek (II-Sha-3-D) about six and seven-tenths (6.7) miles in length, to be graded and surfaced with crushed gravel or stone.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection to be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,  
J. P. BAUMGARTNER,  
M. B. HARRIS,  
Cal. Highway Commission.  
R. M. MORTON,  
State Highway Engineer.  
E. FORREST MITCHELL,  
Secretary.

Dated May 9, 1927.

#### NOTICE TO CONTRACTORS

##### GENERAL WORK

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to 2 o'clock P. M., Tuesday, May 31st, 1927, said bids then and there to be publicly opened and read, for furnishing all plant, materials, and labor required for the erection and completion of the General Work, Gymnasium Building, Chico State Teachers' College, Chico, California, in accordance with plans and specifications therefor, copies of which may be obtained upon application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

General Work includes all manner of work except Plumbing, Heating and Electrical Work.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five (\$25.00) dollars will be required on plans and specifications, the deposit to be returned immediately upon the return

of the plans and specifications to the Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for General Work, Gymnasium Building, Chico, California."

#### STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

GEO. B. McDOUGALL,  
State Architect.  
PAUL BAILEY,  
Director of Public Works.

#### NOTICE TO CONTRACTORS

##### MECHANICAL WORK

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to and including 2 o'clock P. M., Tuesday, May 31st, 1927, said bids then and there to be publicly opened and read, for furnishing all plant, materials and labor required for the Mechanical Work, Gymnasium Building, Chico State Teachers' College, Chico, California, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

Mechanical Work includes Plumbing, Heating and Electrical Work. Separate bids will be received for "Electrical Work" and for "Plumbing and Heating." Combined bids will also be received covering all three branches of the work. Bids must be submitted on forms prepared and furnished by the Division of Architecture.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five dollars (\$25.00) will be required on plans and specifications, the deposit to be returned immediately on the return of plans and specifications to the said Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for Mechanical Work, Gymnasium Building, Chico, California."

#### STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

GEO. B. McDOUGALL,  
State Architect.  
PAUL BAILEY,  
Director of Public Works.

Plumbers of Reno, Nevada, are back to work following their request for an increase of \$1 a day. The scale is now \$11. An agreement was signed by the journeymen, however, that the rule forbidding a master plumber to use tools be abandoned.

## BRIDGES

**CALIFORNIA** — See "Streets and Sewers," this issue. Construction authorized by State Highway Commission

**EUREKA, Humboldt Co., Cal.**—Gardner & Gardner, Eureka, at \$15,371, awarded cont. by county to const. four wooden bridges on Green Rd. in Upper Mattole, also at \$2987 for a conc. bridge over Singley Creek on Ferndale-Petrolia Rd. near Ocean House. Frank Bryant at \$3297 awarded cont. for conc. bridge over Wood Creek in Upper Mattole.

**EUREKA, Humboldt Co., Cal.**—Until June 14, bids will be rec. by Fred M. Kay, county clerk, to const. reinforced conc. bridge over Warren Creek and Webster Creek and for the const. of a conc. retaining wall on Ryan Slough Hill. Plans on file in office of clerk.

**EUREKA, Humboldt Co., Cal.**—County Supervisors, Fred M. Kay, clerk, agree with State Highway Commission to pay the cost of a new bridge over Redwood Creek at Orick on the Redwood Highway. The cost is placed at \$105,000, the county to pay \$50,000 on Sept. 15 and the balance of \$55,000 upon completion of the structure. Structure will have 2 steel spans, 152 feet each, and 9 conc. approach spans of 32 feet each.

**SAN BENITO COUNTY, Cal.**—Geo. J. Ulrich, Modesto, awarded cont. by state highway commission at \$24,712 to construct reinf. conc. girder bridge across Pacheco Creek, 6 miles north of Hollister, consisting of three 60-ft. spans and two 28-ft. spans.

**SANTA BARBARA, Cal.**—Chas. W. Pettit, county engineer, has completed plans for a \$15,000 bridge on the Maricopa-Carpinteria Road. The bridge will be built by joint expenditure by Santa Barbara and Ventura counties. Plans call for a 60-ft. span, with broadening and widening of Rincon Creek. The river work will be paid for by Ventura county, and the cost of the bridge shared jointly.

**OAKLAND, Cal.**—Bids were to have been opened May 16 by county to underpin center pier of High Street bridge, involv. 135 cu. yds. conc.; 310 lin. ft. sheet piling. Federal government refused to permit the county to undertake the improvement.

**OAKLAND, Cal.**—Until June 13, bids will be rec. by Geo. E. Gross, county clerk, to const. Mission bridge over Calaveras river in Washington township; reinf. conc. construction. Plans obtainable from Geo. A. Posey, county surveyor.

**SANTA ANA, Cal.**—Until 11 A. M., May 31, bids will be rec. by county to const. two reinf. conc. girder spans addition on North End of Tustin Ave. bridge across Santiago Creek in the Fourth Road District, Orange county. Cert. check or bond, 5%. Plans obtainable from county supt. of highways on deposit of \$10. J. M. Backs, clerk.

**SAN GABRIEL, Cal.**—Election will be held May 23 to vote on a bond issue for bridges and flumes. Proposed issue will include: \$8000 for bridge on Hermosa Dr.; \$8000 for a bridge on Live Oak St., and \$12,000 for reinforced concrete flumes and certain other works for storm drain purposes. Ira H. Steuffer, city clerk, Wright Engineering Co., Pacific Electric Bldg., Los Angeles, engineer.

**SAN JOAQUIN COUNTY, Cal.**—Until June 13, 2 P. M., bids will be rec. by State Highway Commission, to const. reinf. conc. girder bridge across Stockton Diversion Canal, 1½ mi. north of Stockton, consisting of eight 35 ft. spans. See call for bids under official proposal section in this issue.

**SAN JOSE, Santa Clara Co., Cal.**—Until June 6, 11 A. M., bids will be rec. by Henry A. Pfister, county clerk, to const. reinf. conc. bridge on Santa Clara and Alviso Rd. over Guadalupe river in Sup. Dist. Nos. 3 and 4. Cert. check 10% payable to clerk req. with bid. Plans obtainable from clerk on deposit of \$5, returnable.

**Contract Awarded**  
**BRIDGE** Cost, \$3500  
**BURLINGAME, New Place.**  
Reinforced concrete bridge (100x18)  
Owner—Wm. H. Crocker, New Place, Burlingame.  
Engineer — T. Ronneberg, Crocker Bldg., S. F.  
Contractor — Dinwiddie Construction Co., Crocker Bldg., S. F.

**OAKLAND, Cal.**—Until June 13, 10:30 a. m., bids will be rec. by Geo. E. Gross, county clerk, to const. pile caps, girders and additional reinforcing steel for Alameda Approach, Estuary Subway at Webster St., Alameda. Cert. check 10% payable to clerk req. Plan 2 obtainable from clerk on deposit of \$25, returnable. Geo. A. Posey, county surveyor. See call for bids under official proposal section in this issue.

**RIVERSIDE, Cal.**—Until 10:30 a. m., June 6, bids will be rec. by county to const. two reinf. conc. bridges across San Jacinto River bet. Perris and Hemet. Plans by R. V. Leeson, San Fernando Bldg., Los Angeles, consulting eng. A. C. Fulmor, county surveyor.

**PHOENIX, Ariz.**—Until June 7, 2 p. m., bids will be rec. by W. C. Lefebvre, state engineer, to const. Grand Canyon Bridge near Lee's Ferry, involv. 9000 cu. yds. excavation in foundation; 2300 lbs. steel in foundation; 183 cu. yds. conc. in foundation; 1,887,000 lbs. structural steel, with alt. bids for 315 cu. yds. conc. in deck; 80,000 lbs. reinf. steel in deck or 80 M. B. M. timber in deck and other incidental items. See call for bids under official proposal section in this issue.

**RIVERSIDE, Cal.**—H. G. Klusman, Cucamonga, sub. low bid to county at \$24,995 to const. reinf. conc. arch bridge 260 ft. in length with a 24-ft. roadway over the Temecula river on Riverside

county highway Route 12-C. Other bids: Houghton & Anderson, \$26,395; Paul M. White, \$26,451; Western Construction Co., \$26,889; Franklin B. Gridley, \$26,720; I. P. Lipp, \$28,444; de Waard & Son, \$28,659; A. V. Perkinson, \$28,900; Richard R. Bishop, \$28,900; Mercereau Bridge & Construction Co., \$29,500; C. T. Hancock, \$29,425.

## LIGHTING SYSTEMS

**PALO ALTO, Santa Clara Co., Cal.**—City authorizes installation of electroliters in Bryant St., bet. University Ave. and Hamilton Ave. J. F. Byxbee Jr., city engineer.

**THE CONTRACTORS' ROOM**

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room where plans and specifications may be filed by Architects, Engineers and Owners for the convenience of bidders in San Francisco and the Bay Counties.

Architects, Engineers and Owners are invited to forward plans of their projects to BUILDING AND ENGINEERING NEWS. No charge for this service. The plans will be returned in good condition when contract for work is let.

## QUANTITY SURVEYORS TO CON- VENE NEXT MONTH

The secondary annual convention of the American Institute of Quantity Surveyors will be held at the Grace Dodge Hotel, Washington, D. C., June 6, 7 and 8. The opening session will be held at 10:30 a. m. Monday, when the president, W. F. Jackson, will deliver his address and reports will be made by Secretary C. T. Burman and Treasurer G. Szmak. Proctor L. Dougherty, commissioner of the District of Columbia, will welcome the delegates.

Monday afternoon E. W. Ely of the U. S. Department of Commerce, will make the principal address on "Simplified Practice Applied to Construction."

At the Tuesday morning session A. Peterson will speak on "Benefits of Quantity Surveying."

## MASTER PAINTERS HOLD MEET AT SAN JOSE

Harry McManus of Oakland, general chairman of the executive committee of the California State Master Painters' Association was the principal speaker at the banquet meeting of the Santa Clara Valley Master Plumbers' Association, at the Hotel Vendome, San Jose, Friday evening, May 20. In addition to the master painters, all Santa Clara Valley deacons attended the meeting at which Harry E. Loos, president of the Santa Clara Association, presided.

Chas. Scarper, George H. Smith and Charles Dieter comprised the committee in charge of the event.

Plans are now being made for the state executive board convention at Santa Barbara, on May 28, and the district zone convention at Reno on July 10.

## FUTURE CONDITIONS IN THE BUILDING TRADE

Big building programs in Europe have cut down the immigration of laborers to his country, according to Frederick Horridge of the University of California. Due to the World War, the European building schedule was completely stopped for five years and also many buildings were wiped out.

The increased demand in the trade over there has brought about a consequent rise in wages, which will cut down the number of artisans coming to this country and also cause many of our laborers to immigrate to the homeland. There is, of course, a possibility that it may enable some workers to come to this country who might not be able to afford it otherwise.

"It will not pay the business men of the United States to continue to follow their old policy of considering the apprentice as an 'expensive inconvenience,'" says Horridge. Their attitude in the past has been "Why bother with training apprentices as long as there is a continuous supply of highly skilled workers coming into the country?"

The immigration conditions will affect the northern states and the larger cities, for a study of labor in this country reveals that our foreign workers in the building trades concentrate in the larger cities, and particularly in the northeastern and north-central states. From this fact it follows that the greatest attention must be given to apprenticeship in these sections of the country.

"The future supply of trained workers for the constructive industry is in a precarious state from the standpoint both of quality and quantity," says Horridge. "This is due to the cutting off of the supply of immigrant workers, to the present laissez-faire attitude towards apprentice training, together with the increasing demands from the growing population."

Dr. Frederick Horridge has made a study of the problem of apprenticeship in the six basic building trades, which appeared in a Division of Education bulletin recently published by the University of California Press.

## "KIDDIES" APARTMENT HOUSE NEARING COMPLETION

Apartment for rent—families with children preferred.

That's the plan of Mrs. H. Staub, who is completing the first unit of an apartment house at 42 Valley street, which eventually will be able to offer special recreation inducements to children as tenants.

"When we came here, it was certainly discouraging to try to find a place to live, when the landlords found we had children," says Mrs. Staub. "And I determined then that if ever I could, I would build an apartment where children would be welcome."

"The second unit of my place will have a swimming or wading pool, a gymnasium and playroom in the basement, and a roof garden playground. And the yard is now ready for youngsters to play around in. There will be no 'Keep Off the Grass' signs, and no objection to a little slamming of doors and dragging of muddy feet."

Mrs. Staub also plans an arrangement whereby mothers who are employed can leave their children at the apartment to be looked after while the mothers are at work.

## STEEL INDUSTRY PROSPEROUS

The iron and steel industry of the United States is in a strong condition, the country is prosperous, national resources are large and money is cheap. Elbert H. Gary, chairman of the United States Steel Corporation, assured members of the American Iron & Steel Institute at their semi-annual meeting in New York, May 20.

"The steel industry for three years has enjoyed considerable activity, a steady volume of business without a boom," he said. "So far as we can see, there have been no changes in fundamentals nor indications of any changes interfering with the normal flow of business. There were no banked-up inventories of unusual size," he asserted, and expressed the opinion that the falling off in demand was only temporary. Competition was very keen, he said, and at times there had been a drop in the demand for some products, but it had not been desirable to drive mills at full capacity.

## STEPS TAKEN TO FORM PUBLIC UTILITIES COMMISSION

First steps were taken by the San Francisco Board of Supervisors for the creation of a public utilities commission of three to supervise water, power and light and transportation, following the adoption of a resolution submitting a charter amendment to the voters at the 1928 general election. The commission would consist of three members, instead of five as first outlined, to be appointed by the mayor, subject to confirmation by the supervisors, for terms of six years. They would receive \$20 for each meeting with a maximum of \$2000 a year. The commission would appoint managers to head the various utilities.

## SEWER LICENSE ESSENTIAL

An ordinance has been adopted by the Los Angeles county supervisors requiring all persons, firms and corporations laying sewers on private premises in any sanitation district to be registered at the office of the county surveyor. The fee for issuance of a license will be \$30 and the license will be good for one year. Every application for a license must be accompanied by a bond of \$1000 to protect any person who may suffer damage by reason of violation of the provisions of the ordinance or any amendment thereto.

## BAY BRIDGE REPORT APPROVED BY S. F. SUPERVISORS

The San Francisco Board of Supervisors has voted approval of the report bridge engineers, recommending the trans-bay bridge site from Rincon hill to the Alameda mole. The board also voted to send a delegation to Washington, D. C., to present the report to the war department and ask the department's sanction for a bridge north of Hunter's Point. The war department interest consists in preventing the building of bridges which would block the bay if blown up in war time.

## California Cities Invest More Per Capita Than Eastern Cities

THIS CHART SHOWS THE RELATIVE INVESTMENT IN NEW BUILDINGS PER CAPITA RESIDENT IN 1922 DURING THE LAST 5 YEARS.

In their effort to make their building program keep pace with population increase, the people of Pacific Coast cities, during the past five years, have invested in new buildings an amount of money, per capita, which is more than 35 per cent greater than that of citizens of the eastern cities of the United States.

An analysis of building activity in 25 leading cities of the Pacific Coast and 45 leading cities of the Eastern States, during the years 1922 to 1926, inclusive, just completed by S. W. Straus & Co., discloses that the average western per capita investment is \$685, while that of the east is \$505, computed on the basis of United States

Census population estimates of 1922 and the five years total of building permits issued.

The accompanying chart illustrates the relative standing of ten eastern and ten western cities which reflect the heaviest per capita investments in new building which have taken place during the past five years. It is notable that the greatest per capita expenditures for new buildings have been made in those cities where the population increases since 1922 have been relatively greatest. The ten eastern cities, as a group, have increased in population by 10.5 per cent and the ten western cities by 54.7 per cent during the past five years.

## Save Shingle and Lumber Industry Via Fireproofing

(By the Observer)

There is now pending before the San Francisco Board of Supervisors a measure to prohibit the use of wood shingles within the city limits.

A. J. Norris Hill Company of San Francisco seeks to save the shingle via the fireproofing method. The company announces it has perfected a liquid which, when wood is once penetrated with it, will not blaze or spread fire or support combustion any more than a piece of steel.

The liquid, the company declares, is not expensive, inasmuch as \$100 or \$150 would cover the cost of the average home and make it fireproof and rot-proof.

"There has been a steady and increased opposition to the use of wood shingles, as well as lumber, on account of the fire hazard," says A. J. Norris Hill. "Over one hundred and fifty cities in the United States have passed laws prohibiting their use entirely or in certain districts.

"This opposition has not only greatly injured the shingle industry and crippled it financially, but the lumber industry as well has felt the effects of the fire zones and will eventually follow the same path as the shingles if something is not done to stop it," Hill continued.

As a solution to the fire menace as regards shingles, Hill urges that the city and county of San Francisco establish a municipal fireproofing plant, not only to fireproof shingles but the sheathing under the shingles and the siding on the walls that is put up between the homes and sub-floors. This, Hill claims, would remove all the danger of spreading fires and make it a steadily decreasing expense for the fire department to control, instead of a growing danger. Such a move, Hill says, would be the salvation of the shingle and the lumber industries.

The Hill Company has offered to give the liquid to the city of San Fran-

cisco without cost save a small royalty.

To substantiate his statements as to the quality of his fireproofing liquid, Hill produces a letter from the U. S. Department of Agriculture, Forest Service, Forest Products Laboratory, over the signature of Geo. M. Hunt, in charge of the Section of Wood Preservation, wherein he states, "We have not been able to make anything but a very superficial test of the material and the samples tested indicate that the wood does not carry flame at all." Further tests are to be made on the samples, Hunt declared.

Roy S. Risdon, representing the San Francisco Brazing and Welding Works of San Francisco, testifies to a test wherein he put treated samples under a welding torch of about 6300 degrees Fahrenheit.

"At no time did any of these wood samples show any sign of blazing or spreading fire," says Risdon. "With the flame used in the test I would burn a hole through an ordinary brick the same thickness as the wood that was treated with the Norris liquid."

### RHODES-JAMIESON REPORT PROFITABLE YEAR

The annual report of Rhodes-Jamieson Company, made public, shows operating profits of \$100,527 for the year 1926. The profit is equal to nearly three times interest requirement on the \$500,000 first mortgage bonds floated in 1925. About \$40,000 of these bonds were retired during the year, according to George G. Jamieson, president.

The building strike in Oakland retarded business for about two-thirds of the year according to Jamieson. He is optimistic about the present year. Profit for the first quarter was approximately 2½ times profit for the same period of 1926.

### IMPORTANCE OF LIME

An alfalfa field in Lawrence county, Missouri, seeded last spring, made an excellent growth during the summer and fall. What would have happened to the entire field had it not been limed was shown by a small strip receiving no treatment on which the alfalfa died as soon as the hot weather struck it. Two tons of lime to the acre were used on all the field except the small strip.

### DECREASE IN MAGANESE OUTPUT IN 1926

The shipments of high-grade manganese ore, containing 35 per cent or more of manganese, from the mines in the United States in 1926 were slightly less than half as large as similar shipments in 1925, according to the United States Bureau of Mines, Department of Commerce. The shipments in 1926 by 45 producers amounted to 46,258 long tons as compared with 98,324 long tons by 42 producers in 1925. This decrease was due to the falling off of the shipments from Montana.

### CHANGES IN PERSONNEL OF LUMBER ASSOCIATION

The following changes in the personnel of the California Retail Lumberman's Association are effective: R. F. Wells of Turlock, elected vice-president of the Northern district, vice Elmore King of Bakersfield, resigned. W. R. Vanderwood of the Fox-Woodson Lumber Co. of Glendale, elected a director for the Southern District, vice Frank Fox of the same firm, resigned account of ill health. Henry L. Wills, Central Lumber Co. Gilroy, elected to fill a vacancy in the northern directorate.

# Amendments to State Housing Laws Await Governor's Signature

A number of amendments to the state housing act were made by the California legislature at its session. They were contained in Assembly Bill 829, by Messrs. Williamson and Jacobson. This bill has not yet been signed by the governor but it is expected he will approve it. The amendments were sponsored by the state commission on immigration and housing. They will become effective 90 days after being signed by the governor.

Section 5 of the state housing act is amended to make the last sentence read: "A hotel classification of any building shall not be construed to allow rooms in apartments to be reduced in size;" cutting out the remainder of the paragraph which read: "or allow exhaust ventilation for water closet, toilet, bath or shower compartments which are required by this act for apartment houses and for apartments located therein."

Section 10 is amended by including two new paragraphs defining private and public garages as follows:

"A 'private garage' is a portion of a building in which not more than six automobiles may be kept or stored or which is not used or intended to be used for the sale, painting, repairing or rebuilding of automobiles for a fee or other compensation or for the sale of gasoline or oil.

"The term 'public garage' and the term 'public automobile repair shop' shall be understood to mean and include any portion of a building used or intended to be used for the housing or storage of more than six automobiles, or used or intended to be used for the sale, painting, repairing or rebuilding of automobiles for a fee or other compensation."

Section 26 is amended to permit the construction of a duct of specified area in lieu of a passageway to an inner court. The first paragraph of this section as amended now reads as follows, the new matter being indicated by black face type:

"Section 26. Every inner court, including inner courts bounded on one side for their entire length by a lot line in an apartment house hereafter erected shall be provided with a horizontal intake at the bottom of such court. Every such intake shall always extend directly to the front of lot or front or rear yard or to a side yard or to a street or to a public alley or public park. Each such intake shall consist of an unobstructed duct or passageway having a minimum width of 3 ft. in all its parts and a minimum height of 6 ft. 6 in.. In lieu of such passageway there shall be an unobstructed open duct to contain an interior aggregate area of not less than nineteen and one-half square feet, and in no dimensions be less than three feet and covered at each end with a wire screen with a mesh of one-half inch in diameter; provided, however, in case the inner court in an apartment house does not extend below the second floor level, then each such air intake may consist of an unobstructed open duct or ducts, constructed of materials as hereinafter set forth and contain an interior aggregate area of not less than 10 square feet, and in no dimensions be less than 12 inches, and covered at each end with a wire screen with a mesh of one-half inch in diameter."

The last paragraph of Sec. 26 is amended to read as follows, the new matter being indicated by black face type: "The provisions of this section shall not apply to apartment houses and hotels of not more than two stories in height from the lowest floor which is used for living and sleeping apartments."

Section 31 is amended to permit the ventilation of bath and toilet rooms and kitchens in fireproof apartment houses more than 4 stories in height by an exhaust system. As amended the last paragraph of this section now reads as follows:

"In a hotel, water-closet or shower compartments, bath, toilet, kitchens,

sculleries, pantries or other rooms used for cooking, storing or preparing of food, general amusement rooms, reception rooms, public dining rooms and general utility rooms, and in a fire-proof apartment house more than four stories in height the water closet compartments, bath or toilet rooms, general amusement, entertainment or reception rooms, and general utility rooms in lieu of windows may be ventilated by an exhaust system of ventilation installed, constructed and maintained as hereinafter prescribed by section 60 hereof."

Section 36 is amended to require one sink in every dwelling, paragraph three being changed to read as follows: "Every dwelling hereafter erected shall be provided with one water closet and sink for each family living therein."

Section 45 is amended to require two means of egress in apartment houses having more than four apartments above the first floor and in hotels having more than six guest rooms above the first floor, the first paragraph being changed to read as follows:

Sec. 45. Every apartment house hereafter erected, two or more stories in height and in which there are more than four apartments above the first floor thereof, and every hotel hereafter erected two or more stories in height and in which there are more than six guest rooms above the first floor thereof, shall be so designed and constructed that every apartment in the case of an apartment house, and every guest room in the case of a hotel, shall have not less than two means of egress, either by stairways or fire escapes, constructed in accordance with the provisions of this act. Such means of egress shall be accessible from every apartment or guest room, either directly or through a public hallway, and so located that should one egress be or become blocked, the other egress shall be available."

Section 48 is amended to require that the stairway from the topmost story to the roof shall be not less than 2 ft. 6 in. in width. The first paragraph now reads as follows:

"Sec. 48. In every apartment house hereafter erected, designed and built to accommodate three or more families above the first story thereof, and in every hotel hereafter erected more than two stories in height, the stairway nearest to the main entrance of the building shall be carried to the roof level and shall give egress to the roof through a penthouse or roof structure if the pitch of the roof makes it practicable to construct such a penthouse or roof structure with safety to the occupants that may have occasion to use such egress, otherwise in such building there shall be constructed a scuttle in the public hallway over the stairway. The stairway from the topmost story of roof level shall not be less in width than two feet six inches. The scuttle shall not be less than two feet by three feet in area and shall be cut through the ceiling and the roof."

Section 49 is amended to require a ceiling height of 8 ft. in public halls and corridors. It now reads as follows:

"Sec. 49. Public hallways and corridors from stairways shall be measured in the same manner as the stairways and be not less than three feet six inches in width, with a ceiling height of not less than eight feet, measured from the finished floor to the finished ceiling."

"This section shall not apply, however, to furred beams or occasional structural beams with a minimum height of seven feet, six inches."

Section 56 is amended by including in the sixth paragraph the words "and hotel" following the words "apartment house" in the first line and the following two paragraphs are substituted for the seventh and last paragraph of the section:

"The provisions of this section as to air intakes shall not apply to apartment houses and hotels of not more than two stories in height from the lowest floor,

which is used for living and sleeping purposes.

"Every vent shaft by this act provided for a dwelling, hereafter erected, shall not be less than eighteen inches in its least dimension and shall be open and unobstructed to the sky."

Section 58 is amended to require vents to gas water heaters both in existing buildings and in buildings hereafter erected. Two new paragraphs are added to this section as follows:

"Every gas water heater, or oven of gas range, installed in a building hereafter erected, and every gas water heater in a building heretofore erected, shall be provided with a vent pipe which may be of sheet metal not less than two and one-half inches internal diameter, and in all cases connected to a vertical flue, vent or chimney leading to the outer air. Such vertical flue, vent or chimney shall be constructed of brick, terra cotta, tile, terra cotta patent chimney, masonry, or of other similar material which will not disintegrate from the effects of gas fumes and other products of combustion. The internal area of any such flue, vent or chimney shall not be less than 12 square inches and any such flue, vent or chimney of a rectangular shape shall not be less than two inches in any internal dimension.

"All gas vents, gas water heaters and other gas appliances now installed, and hereafter installed, shall be maintained in good repair."

Section 59 is amended to provide for public garages and automobile repair shops and oil stations in apartment buildings under the same conditions as in hotel buildings. The following is substituted for the third paragraph of this section:

"In every apartment house or hotel hereafter erected, if any portion of the building is used as a public automobile garage, automobile repair shop or machine shop, gasoline or oil station, auto salesroom, auto top and upholstering shop, wrecking shop, accessory shop, vulcanizing shop, battery repair shop, it shall be a room, the enclosing partitions and walls of which shall be built of concrete, reinforced concrete, brick, stone, concrete tile or clay tile, not less than eight inches thick, and the ceiling thereof shall be constructed of a double ceiling, and each such ceiling lath only with metal lath and plastered not less than three-fourths of an inch thick, and with a space between the two ceilings of not less than six inches, measured vertically, and the lower ceiling shall be suspended with metal; or in lieu of metal laths and plastered ceilings, such ceiling may be constructed of masonry not less than 2 inches thick. The floor of every such room shall be of masonry not less than 3 inches thick. The floor of every such room shall be of masonry not less than two inches thick."

"No door or other opening in interior enclosing partitions or walls shall be allowed."

Section 60 is amended to permit fan exhaust system of ventilation in certain rooms in fireproof apartment houses more than four stories in height by inserting the following paragraph after paragraph one:

"In every fireproof apartment house more than four stories in height hereafter erected the water-closet compartments, bath or toilet rooms, general amusement, entertainment or reception rooms, and general utility rooms, in lieu of being provided with windows, as in this act prescribed, may be provided with an approved fan exhaust system of ventilation so designed and operated as to provide a complete change of air in not to exceed fifteen minutes for each room used for the following purposes: General amusement, entertainment and general utility rooms or rooms used for similar purposes; and the said fan exhaust system of ventilation shall be so designed and operated as to provide a complete change of air in not to exceed five minutes for each room used for the following purposes: Water-closets; shower compartments; bath or toilet rooms."

# THE OBSERVER

## WHAT HE HEARS AND SEES ON HIS ROUNDS

Following an investigation of the condition of bridges on the state highway system, which was launched as a result of charges by San Joaquin valley residents that many of the spans are unsafe, State Highway Engineer R. M. Morton declared that "few of the bridges are capable of carrying the maximum load allowed by law with complete safety." Morton declared that the results of the survey, together with his recommendations, would be presented to the state highway commission at its next meeting.

The comment of economic service bureaus on present and prospective conditions are favorable. Babson sums them up by stating that "business volume is not far from 1926 level" and looks for "an upward trend in June."

An Ohio State University professor urges teachers and parents to encourage boys to train for jobs in the building trades. He states that only a small proportion of the apprentices needed are being trained. This is partly due to immigration restrictions and partly to the fact that too few American boys are interested in such training. "Every year," he says, "we should have new men entering the trades equal to one-seventh of those already engaged, merely to keep up the industry and allowing nothing for growth."

Architecture and the Black Bottom have more in common than is apparent to the uninitiated, says Adolphe Loos, eminent architect of Vienna. Loos brought his pupils to Paris as much to let them learn the new dances as to make them familiar with the trends in design. "The Black Bottom and the Charleston typify the new rhythm of modern life," he says. "An architect or today to be successful must be able to translate that rhythm into something of beauty in brick and stone."

Production of Portland cement in April totaled 14,048,000 barrels, compared with 12,440,000 barrels in the month of April, 1926; shipments were 14,350,000 against 12,965,000, and stocks at the end of April, totaled 23,620,000 barrels against 22,710,000 barrels at the end of April, 1926, Bureau of Mines states.

Indicating a growing spirit of harmony and co-operation between employer and employe in the East Bay building industry, a working agreement has been consummated between the newly organized Sheet Metal Contractors' Association of Alameda and Contra Costa counties and Sheet Metal Workers' Union No. 216. The agreement deals with wages and hours in the two counties for a period of one year.

Alleging a number of irritating and uncalled for interferences with work now under way, the building division, an executive board of the Associated General Contractors, Portland, Ore., Chapter, voted (1) that the Building Laborers Local No. 296 shall not be recognized; (2) that its business agents are forbidden access to the jobs or interference with the men; (3) no reduction in wages is contemplated as to individuals now employed.

City Commissioner of Public Works Andrew M. Jensen announces a new ordinance governing electrical installations within the Fresno city limits is progressing. The ordinance is being drafted by Commissioner Jensen in conference with George Bowman, electrical engineer, and C. T. Coyle, electrical inspector.

Thebo, Starr and Anderton, general contractors of San Francisco, will establish offices in Oakland with Wm. H. Henning of Alameda in charge. The firm is now working on a 12 story structure at Seventeenth and Franklin streets, Oakland, the estimated cost of which is placed at \$600,000. Recent hydro-electric contracts of the firm include a \$30,000,000 project in Japan and a \$2,000,000 power project near Port Angeles, Wash.

Ventura County Chapter, Associated General Contractors of America, is urging the enactment of ordinances to license and bond contractors in the cities of Ventura, Oxnard, Santa Paula, Fillmore and Ojai.

C. D. Henderson, city engineer of Merced, has tendered his resignation to the city trustees. Mr. Henderson was forced to resign due to poor health and will probably spend the summer in Oakland in an effort to improve his health. Edgar Winton will succeed him as city engineer of Merced.

Floyd G. Dessery, consulting engineer, and for many years secretary of the Los Angeles Section, American Society of Civil Engineers, died in that city, May 13, at the age of 48 years. He had been in ill health for several years before his death. A widow and two children survive.

Harry A. Encell, attorney for the California State Highway Commission, announces the appointment of George Geiger of San Francisco to the post of general right of way agent of the commission, succeeding Charles Fanning.

Edward T. Foulkes, architect, has moved his offices from the Crocker Building to 110 Sutter St., San Francisco.

H. A. Kluegel, consulting engineer, has opened offices in the Balfour Building, San Francisco.

Elmer H. Babel, mechanical engineer of San Francisco, has become associated with E. B. Maloon, and opened consulting engineering offices in the Federal Telegraph Building, Oakland.

Governor Young has signed Senate Bill No. 876, granting the state board of harbor commissioners power to extend wharfs or piers into San Francisco Bay and lease extensions.

Geo. D. Macomber, formerly resident engineer on the construction of the Melones Dam, has reopened his private offices at Oakdale, Cal.

Architect Nathaniel Blaisdell has turned his practice and office over to Edward B. Seeley, who will continue to carry on the business at 255 California street, San Francisco.

Perfection Plaster Board Company of Richmond has been incorporated with a capital stock of \$50,000. Directors are: John F. Makowski of Stockton; Elmer K. Roobar of San Francisco and B. H. Somers of Stockton.

The New York Stock Exchange has admitted to the list 93,000 shares of additional common stock of the Certain-Teed Products Corp., which is under option to banking interests at \$4,650,000 for the entire block of new stock. The company stated in its listing application that the money would be used for acquiring the stock or assets of other corporations, for reimbursing the treasury for money already spent on additional plants and equipment or for general corporate purpose. Company officials report April sales 6% ahead of March, with profits 10% ahead of that month and 25% ahead of April, 1926. Plants are operating 90% to 95% on practically all lines and the gypsum board mill is running 100%. Officials also report a large jobbing demand from the Mississippi flood area, not only for construction of temporary camps for refugees but for permanent reconstruction of damaged or destroyed buildings. Further substantial orders from that area are expected. The Spring demand from all sections is unusually heavy.

W. E. Woolworth, 1690 Sixty-ninth avenue, Oakland, will operate under the trade name of Woolworth Paint Company with headquarters at 8801 East Fourteenth street, Oakland.

A meeting of stockholders of the Calaveras Lumber Company will be held at 709 Peralta Way, Fresno, June 4, it is announced by George S. Lane, president of the company.

After three months of leisure touring of the Pacific Coast states, Frank Curran, in an effort to regain his health, has returned to his desk as general manager of the Southern division of the E. K. Wood Lumber Company, his jurisdiction covering Southern California and Nevada. Curran has been in the lumber business for 25 years and is one of the most widely known men in the industry in the Pacific Southwest.

Summertime Heating Co., Inc., has leased quarters at 365 Fifth street, Oakland, and will manufacture a small, fire-place type, gas heater which combines radiant and furnace heat. J. Choenfeld is manager of the company. Other officers are: F. A. Holfrecht, T. Castbery, H. E. Kennedy and W. S. Graham.

The Royal Lite Company of Los Angeles announces the appointment of the Coast Electric Supply Company, 935 Folsom street, San Francisco and C. H. Carter Company, 1317 Eighth street, Sacramento, as distributors for "Royal Monax Lighting Units" in Northern California. Both concerns will carry large stocks to meet the demands of electrical dealers and contractors in this section.

Harry J. Charest and Archie J. Charest will operate from 116 Shannon street, San Francisco, under the firm name of Charest Elevator Company.

to succeed Glen H. Bronson in charge of the Hayward Lumber Company's yard at Hollister.

# PRATT'S CONCRETE MIX

Clarence  
by Sand  
Pratt

ROSEVILLE, California, April 22, 1927.—The Southern Pacific Railroad crews running over the Sierra Nevadas, have seen numerous deer in the past few days. The deer appear to be flocking into the higher Sierras in large numbers.

One engine crew, a few nights ago, discovered eleven deer scattered in the district between Blue Canyon and Cape Horn, three miles above Colfax. In one bunch there were four deer.

The salt drippings on the railroad ties from the refrigerator cars draw the animals to the tracks. At night the engine lights blind them so that they stand and tremble until the lights are put out, when they dash away through the trees and brush. If the lights are not put out, the deer are frequently killed. As most of the enginemen are good sportsmen, this rarely happens.—From Sacramento Bee.

CLARENCE (SANDY) Pratt, President.

OF THE Pratt Building Material Co.

CENTRAL OFFICE—San Francisco.

AND PRODUCER of clean sand.

ALSO CLEAN rock and gravel.

AT SACRAMENTO, Marysville.

PRATT ROCK (NEAR Folsom).

MAYHEW (SACRAMENTO County).

AND PRATT CO (Monterey County).

IS ACQUAINTED.

WITH MANY railroad men.

AND SANDY knows.

OF MANY, many occasions.

WHEN THEY have displayed kindness.

ESPECIALLY TO dumb animals.

ON TWO different times.

AT SANDY'S sand plant.

ON THE American River.

AT SACRAMENTO.

THE SACRAMENTO Northern Railroad engineers.

HAVE STOPPED their trains.

ON THE big railroad bridge.

SO THAT the sand washers.

AT SANDY'S sand plant.

COULD RESCUE some puppies.

FROM THE rails.

OVER THE high water.

OF THE American River.

"I THANK you."

At Sandy Pratt's sand and gravel plant on the American River at Sacramento (one mile from the State Capitol Building), the boys and girls are surely good to animals (see above K.C.B. part of Sandy's near-comedy—"Pratt's Concrete Mix.")

be reinforced concrete construction; est. cost \$65,000. P. Ivan Smith, architect, Los Angeles. Will have elevator, cooling system and other hotel conveniences.

## ICE AND COLD STORAGE PLANTS

Working Drawings Being Prepared  
STORAGE PLANT Cost, \$200,000  
WATSONVILLE, Santa Cruz Co., Calif.  
storage plant (sheet cork insulation).

Owner—Growers' Cold Storage Co.

## "Gold Medal" Safety Scaffolding

for use on steel and concrete frame buildings saves lives,  
 time and money.

It pays to use the best Scaffolding Equipment  
 whenever a Scaffold is required. The risk is  
 always great.

### The Patent Scaffolding Company

270 13th Street, San Francisco Phone Hemlock 4278

Lessor of Suspended and Swinging Safety "Gold Medal" Scaffolding.

**PITTSBURG, Contra Costa Co., Cal.**—The following bids were received by A. V. McPaul, clerk, Pittsburg High School District, to erect high school at Black Diamond and Eighth Sts.; est. cost, \$180,000. Louis S. Stone and Franklyn E. Warner, architects, 354 Hobart St., Oakland. Plan will comprise a two-story brick class C academic building with steel frame in corridors; one-story frame and brick veneer gymnasium and a one-story frame and brick veneer shop building. Academic building will contain twenty rooms and temporary auditorium.

Alternate A—For all work called for in plans and specifications.

Alternate B—Amount to be added to Bid "A" if best quality of Roman face brick as per sample in office to be used in place of Port Costa.

Alternate C—Amount to be added to Bid "A" if exterior walls of shops, cafeteria and gymnasium buildings, shown as stucco, are veneered in Port Costa ruffled brick.

Alternate D—Amount to be added to Bid "A" if shops, cafeteria and gymnasium buildings be faced with Roman face brick in place of stucco.

Alternate E—Amount to be deducted from Bid "A" if cafeteria is omitted.

Alternate F—If Sterling blackboards are substituted for slate, deduct.

Alternate G—For additional concrete per cubic foot.

Alternate H—For additional excavations per cubic yard.

Alternate I—If roofing slate in size 8-inch to 12-inch by 20-inch be used in place of Johns-Manville asbestos shingles, as per sample in architect's office.

California Cement Coat Co. of Santa Monica has been incorporated with a capital stock of \$20,000. Directors are: I. F. Nance, Ralph F. Bogley and E. H. Ford.

# Official Proposals

## STANDARD GOVERNMENT FORM OF INVITATION FOR BIDS (Construction Contract) UNITED STATES DEPARTMENT OF AGRICULTURE—BUREAU OF PUBLIC ROADS

San Francisco, Calif., May 23, 1927  
SEALED BIDS, in single copy only subject to the conditions contained herein, will be received until 10 a. m. on the 15th day of June, 1927, and then publicly opened, for furnishing all labor and materials and performing all work for constructing a timber bridge over William Creek on the Covelo Section of the Mendocino Pass National Forest Highway, located in the California National Forest, State of California, County of Mendocino.

The work consists of the construction of a 75-ft. timber deck truss and two forty-five (45) ft. timber trestle approaches. The principal items of work are approximately as follows:

Unclassified Excavation for Structures, 100 cu. yds.

Untreated Timber in place, 23 M.B.M. 75 ft. span timber truss in place, one. Class B. Concrete, 32 cu. yds.

Bituminous wearing surface for timber floors, 342 sq. yds.

Plans and specifications may be examined at 807 Sheldon Bldg., 461 Market St., San Francisco, or at office of Resident Engineer, Covelo, Calif.

Where copies of plans and specifications are requested, a deposit of \$10 will be required to insure their return. If these are not returned within 15 days after opening of bids the deposit will be forfeited to the Government. Checks should be certified and drawn to the order of the Federal Reserve Bank of San Francisco.

Quarantine will be required with each bid as follows: In the amount of five (5) per cent of the bid.

Performance bond will be required as follows: In the amount of fifty (50) per cent of the total contract price. Performance shall begin within 10 calendar days after receipt of notice from the District Engineer to proceed and shall be completed within 90 calendar days from that date.

Liquidated damages for delay will be the amount stated in the Special Provisions for each calendar day of delay until the work is completed and accepted.

Partial payments will be made as the work progresses for work and material delivered if such work and material meet the approval of the contracting officer.

Article on patents will be made a part of the contract.

Bids must be submitted upon the Standard Government Form of Bid and the successful bidder will be required to execute the Standard Government Form of Contract for Construction.

The right is reserved, as the interest of the Government may require, to reject any and all bids, to waive any informality in bids received, and to accept or reject any items of any bid, unless such bid is qualified by specific limitation.

Envelopes containing bids must be sealed, marked and addressed as follows:

Bid for Bridge Construction, Williams Creek Bridge, to be opened 10:00 A. M., June 15, 1927, 807 Sheldon Bldg., 461 Market St., San Francisco, Calif.

C. H. SWEETSER, District Engineer.

NOTE—See Standard Government Instructions to Bidders and copy of the Standard Government Form of Contract, Bid Bond, and Performance Bond, which may be obtained upon application.

STANDARD GOVERNMENT FORM OF  
INVITATION FOR BIDS  
(Construction Contract)  
UNITED STATES DEPARTMENT OF  
AGRICULTURE—BUREAU OF  
PUBLIC ROADS  
San Francisco, Cal.  
May 12, 1927

SEALED BIDS in single copy only, subject to the conditions contained herein, will be received until 10:00 o'clock A.M.

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published.

on the 1st day of June, 1927, and then publicly opened, for furnishing all labor and materials and performing all work for grading the Spring Garden-Cromberg section of the Blairsden-Quincy National Forest Highway Route No. 23, located partly within the Plumas National Forest, State of California, County of Plumas.

The length of the project to be graded is 7.58 miles and the principal items of work are approximately as follows:

Clearing 56 acres.  
Excavation, unclassified, 102,550 cu. yds.  
Excavation, uncl. for structures, 555 cu. yds.

Overhaul, 22,150 sta. yd.  
Placing untreated timber, 17 M.B.M.  
Class A Concrete, 482 cu. yds.  
Class B. Concrete, 114 cu. yds.  
Class D Concrete, 3 cu. yds.  
Reinforcing steel, 51,000 lbs.  
C.M.P. hauling and placing, 2372 lin. ft.  
Structural Steel, 5500 lbs.  
Hand placed rock embankment, 188 cu. yds.

Removing and relaying railroad track, lump sum.

Plans and specifications may be viewed at the following addresses: 807 Sheldon Bldg., 461 Market St., San Francisco; Resident Engineer, camp on project.

Where copies of plans and specifications are requested, a deposit of \$10.00 will be required to insure their return. If these are not returned within 15 days after opening of bids the deposit will be forfeited to the Government. Checks should be certified and drawn to the order of the Federal Reserve Bank of San Francisco.

Guarantee will be required with each bid as follows: Five (5) per cent of the amount of the bid.

Performance bond will be required as follows: In the amount of fifty (50) per cent of the total contract price. Performance shall begin within 10 days after receipt of notice from the District Engineer to proceed and shall be completed within 175 calendar days from that date.

Liquidated damages for delay will be the amount stated in the Special provisions for each calendar day of delay until the work is completed and accepted.

Partial payments will be made as the work progresses for work and material delivered if such work and material meet the approval of the Contracting Officer.

Article on patents will be made a part of the contract.

## NOTICE TO BIDDERS

(Steel Rolling Doors—Oakland Port Commission)

The Board of Port Commissioners of the City of Oakland will receive sealed bids on Monday, June 6th, 1927, between the hours of 4:30 and 5:30 p. m. for furnishing, delivering and erecting twenty-four rolling steel doors on the Fourteenth Street Wharf Shed, Oakland. Plans, specifications and blank form of proposal will be furnished bidders at the office of the Board, 421 Oakland Bank on deposit of Five Dollar check. Bond in full amount of the contract price for faithful performance of contract to be given by successful bidder. Certificate check for 10% of the bid shall be submitted with the bid. Contract to be entered into within five (5) calendar days after award. Work to commence within 3 calendar days after date of contract and completed within 70 calendar days from date of contract.

G. B. HEGARDT,  
Secretary, Board of Port Commissioners.

## STATE OF CALIFORNIA

### CALIFORNIA HIGHWAY COMMISSION

## NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock P. M., on June 20, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

Alameda County (IV-Ala-5-B), three bridges as follows:

Across Arroyo Las Positas about 2 miles northwest of Livermore, a reinforced concrete girder bridge, with 34 foot roadway, consisting of three 38 foot spans.

Across Tassajero Creek about 3 miles east of Dublin, a reinforced concrete girder bridge, with 42 foot roadway, consisting of two 16 foot spans and one 30 foot span.

Across Alamo Creek about 1 mile east of Dublin, an existing concrete bridge, with 20 foot roadway, consisting of one 32 foot span to be widened to 34 foot roadway.

Sacramento County, a timber bridge 1672 feet long, across Sacramento River near Rio Vista (X-Sac-53-A), consisting of forty-one 40-foot spans and two 16-foot spans.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division of Finance will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,  
J. P. BAUMGARTNER,  
M. B. HARRIS,  
California Highway Commission.  
R. M. MORTON,  
State Highway Engineer.  
E. FORKEST MITCHELL,  
Secretary.

Dated: May 23, 1927.

#### NOTICE TO CONTRACTORS

(John Burroughs School—Fresno, Cal.)

Pursuant to an order of the Board of Education of the City of Fresno School District of the County of Fresno, duly made and entered in its minutes this 12th day of May, 1927, public notice is hereby given that said Board will receive up to 5 o'clock p. m. on the 9th day of June, 1927, at the office of said Board in the Hawthorne School Building, 2425 Fresno Street, in Fresno, California, sealed proposals for the furnishing of labor and material for the construction of the John Burroughs School as per plans prepared by Kump & Johnson, architects, Rowell Building, Fresno, California.

Segregated bids will be received for this building. Reference is hereby made to "General Information to Bidders," Building Form 6, for further particulars regarding all bids.

Plans and specifications together with forms for submitting all bids and further details regarding any and all bids may be obtained from the undersigned Secretary of said Board of Education, at the office of said Board above designated.

A bidder's surety bond or certified check equal to at least 10 per cent of the amount of the bid submitted must accompany all proposals.

The Board of Education of said school district reserves the right to reject any and all bids.

By order Board of Education, City of Fresno School District.

L. L. SMITH, Secretary.

#### NOTICE TO BIDDERS

(Woodrow Wilson School—Richmond, Calif.)

Notice is hereby given that the Board of Education of the Richmond School District, Contra Costa County, California, hereby calls for sealed proposals to be delivered to the Clerk of said Board at the office of said Board in the Lincoln School, 235 Tenth Street, Richmond, California, until the 21st day of June, 1927, at 2:30 o'clock p. m., at which time and place said proposals will be opened, for the supplying of all material and the construction of a school building to be known as the Woodrow Wilson School on a portion of Block 26 in Spauldings Richmond Pullman Townsite located at 41st Street and Roosevelt Avenue, in the City of Richmond, in said School District, in accordance with plans and specifications prepared by Mr. J. T. Narbett, authorized Architect, 337 Tenth Street, Richmond, California.

Said plans and specifications may be seen at the Architect's Office, at the office of the Board of Education and at the Builders' Exchange of Contra Costa County, 248 14th St., Richmond, California, during office hours. Plans and specifications for the heating and ventilating may also be obtained from the office of Leland & Haley, 58 Sutter Street, San Francisco, California.

Sealed proposals will be received on the following divisions of the work: Division 1, General Building Contract; Division 2, Heating and Ventilating. Proposals must be signed by the bidders on blanks obtained from the Architect.

Proposals must be addressed to W. T. Helms, Clerk of said Board, and must be accompanied by a certified check certified to by some solvent bank and made payable to the Richmond School District, to be retained by said School District as agreed and liquidated damages should the party or parties to whom the contract or contracts are awarded, fail to enter into the contract within ten days after the date of award, or give the bonds required by law for the faithful performance of said contract. The amount of said certified check shall be at least ten per cent (10%) of the total amount of the highest bid submitted by the bidder. A bidder's bond will be accepted in lieu of a certified check.

The Board reserves the right to reject any or all bids.

The architect will require a deposit of \$25.00 when plans and specifications are taken from his office. A deposit of \$10.00 will be required when heating plans are taken from the office of Leland & Haley, San Francisco.

By order of the Board of Education of the Richmond School District, California.

W. T. HELMS, Clerk.

#### NOTICE TO CONTRACTORS

(Steel Doors and Frame—Fort Mason)

OFFICE CONSTRUCTING QUARTERMASTER, Fort Mason, Calif. Sealed proposals will be received here until 11 a. m., May 27, 1927, for 2 pairs steel doors and steel frame. Further information upon application.

#### NOTICE TO CONTRACTORS

(Repairs to Long Dock)

SEALED BIDS, indorsed "Bids for Repairs to Long Dock, Specification No. 5396," will be received at the District Public Works Office, Room No. 517, Headquarters Twelfth Naval District, 100 Harrison Street, San Francisco, California, until 11 o'clock a. m., May 25th, 1927, and then and there publicly opened, for replacing with new material certain broken or missing sheathing, decking and marginal timbers.

Specification No. 5396 and accompanying drawing may be obtained on application to the Commandant, 12th Naval District, No. 100 Harrison Street, San Francisco, California. Deposit of a check or postal money order for \$10, payable to the Chief of Bureau of Yards and Docks, is required as security for the safe return of the drawing and specification.

L. E. GREGORY, Chief of Bureau, May 10th, 1927.

#### NOTICE TO BIDDERS

(City Hall—Lodi)

Notice is hereby given that the Board of Trustees of the City of Lodi will receive sealed proposals to erect a City Hall for said City on Lots 7 and 8 in Block 3 of the original City of Lodi, said proposals to be in accordance with the plans and specifications for said building on file in the office of the City Clerk of the City of Lodi and also in the offices of the Architects, Davis-Pearce Company, Builders Building, Stockton, California.

Said proposals will be received up to the hour of 8 o'clock p. m. of Monday, June 6th, 1927, at the office of the City Clerk of the City of Lodi on the first floor of the City Hall, Main Street between Elm and Locust Streets, and will be publicly opened by the Board of Trustees immediately thereafter.

All bids submitted must be in accordance with instructions as outlined in the specifications. A deposit of fifty dollars (\$50.00), returnable upon delivery of plans and specifications to the architect within five days or on the submission of a bona fide proposal, will be charged on each set of plans and specifications.

The Board of Trustees reserves the

right to reject any and all bids.

All bids must be accompanied by a certified check, certificate of deposit or cashier's check payable at sight to the City Clerk in an amount equal to 5% of the highest amount bid. Unsuccessful bidder's checks will be returned within three days of award of contract. Successful bidder's deposit will be returned when contract is signed and bond furnished.

By order of the Board of Trustees of the City of Lodi.

J. F. BLAKELY,  
City Clerk.

May 18, 1927.

San Francisco, Calif.

Douglas 6320

**FRESNO, Fresno Co., Cal.—City Eng.** Andrew M. Jensen seeks \$4000 budget appropriation for new street lights and \$500 to replace damaged electroliters.

**ORLAND, Glenn Co., Cal.—**Due to a technical error in publication of the ordinance calling the election, the city trustees have cancelled proposed election set for June 2 to vote bonds of \$8000 to finance installation of electroliters in the business section.

**SAN DIEGO, Cal.—H. C. Reid & Co.,** San Francisco, awarded cont. by city at \$26,385 for ornamental lighting system on Market St., consisting of pressed steel lighting standards, etc.

**SAN JOSE, Santa Clara Co., Cal.—**Newberry-Pearce Electric Co., 439 Stevenson St., San Jose, at \$13,287 awarded cont. by city to install 36 ornamental c. i. duplex electroliter standards with underground system in Santa Clara St. bet. 7th and 13th Sts.

**HUNTINGTON PARK, Cal.—Until 8 P. M.,** June 6, informal bids will be rec. by city for approximately 102 combination ornamental street lights and trolley poles. For further information apply at the office of the city eng., Howard S. McCurdy, city hall. H. H. Hunter, city clerk.

**SACRAMENTO, Cal.—City** approves petitions seeking installation of ornamental street lighting system in Alhambra Blvd. from I to N Sts., and on cross Sts. in and near the Alhambra Tract. A. J. Wagner, city eng. H. G. Denton, city clerk.

**SAN MARINO, Cal.—City** plans ornamental lights in portions of Alhambra Road, portions of Lorain Road, and portions of West Drive, involving ornamental posts, lamps, conduits, cable, etc. 1911 Act.

## MACHINERY AND EQUIPMENT

**LOS ANGELES, Cal.—Until 4 p. m.,** June 1, bids will be rec. by Los Angeles board of education at the purchasing department, 1445 S. San Pedro St., for one ¾-ton truck and one 2½-ton dump truck for the city school district and for the city high school district. Trade-in on Chevrolet ¾-ton truck. W. E. Record, business mgr.

**LOS ANGELES, Cal.—Until 9 A. M.,** June 1, bids will be rec. by harbor commission for high density cotton press for Compress No. 3; specifications 746.

**FRESNO, Fresno Co., Cal.—City Eng.** A. M. Jensen seeks \$6800 budget appropriation to purchase two new motor trucks for street dept.

**LONG BEACH, Cal.—Until 10 A. M.,** May 28, bids will be rec. by city to fur. and del. two gasoline motor driven tractors, specifications C-386. Certified check or bond, 10%. H. C. Waup, city clerk.

## FIRE ALARM SYSTEMS

**FRESNO, Fresno Co., Cal.—City Eng.** A. M. Jensen seeks \$1500 budget appropriation to finance replacement of cables and conduits of fire alarm system.

**BURLINGAME, San Mateo Co., Cal.—**City votes bonds of \$85,000 to install fire alarm system.

## MISCELLANEOUS SUPPLIES

**LIVERMORE, Alameda Co., Cal.—**Contract awarded by city to Porcelain Enameled Products Co., San Francisco, for fur. 313 street designation signs, has been rescinded due to failure of company to file bond, 10 days after award of contract.

**SAN DIEGO, Cal.—Machinery Pipe & Supply Co.,** 200 9th St., San Diego, awarded cont. by city for \$24,000 ft. ¾-in. copper tubing, 14.5c ft., and 1000 ft. 1-in., 18.5c ft.

**EL CENTRO, Cal.—Until 7:30 p. m.,** June 1, bids will be rec. by city for 5000 ft. 4-in. bell and spigot cast iron pipe and 2500 ft. 6-in. bell and spigot cast iron pipe, prices to be f.o.b. El Centro. Alternate bids will be rec. on precalked joints and on centrifugal cast pipe. Certified check or bond.

**FRESNO, Fresno Co., Cal.—City Eng.** A. M. Jensen seeks \$4900 budget appropriation for purchase of street signs.

**BERKELEY, Alameda Co., Cal.—Until** June 6, 8 p. m., bids will be received by Clara F. Andrews, secy., Board of Education, to fur. fuel, oil, coal and science supplies for the school year commencing July 1, 1927, and ending June 30, 1928. Further information obtainable from clerk.

**SAN FRANCISCO.—Until May 31, 11 a. m.,** under Order No. 8326-1101, bids will be received by U. S. Engineer Office, 85 2nd St., 13,100 ft. wire rope, delivered Rio Vista, Solano county.

**EUREKA, Humboldt Co., Cal.—Until** June 7, bids will be rec. by John Griffith, city supt. of public works, to fur. f.o.b. dock, San Francisco, 5 days after award of contract, 40,000 lbs. stand. sulphate of Alumina to contain not half of 1% iron in bags of 250 lbs. each; bags to be paper lined. Further information obtainable from above.

## RESERVOIRS AND DAMS

**LOS ANGELES, Cal.—Until 2 p. m.,** July 11, bids will be rec. by county to const. San Gabriel Canyon Dam, carrying roadway and sidewalk, and appurtenant structures, tunnels, spillways, etc., in accordance with plans prepared by the flood control department under the direction of Engineers E. C. Eaton and E. P. McBride.

The proposed dam will be an arch gravity type structure, rising 385 feet above bed-rock 2200 ft. in length on the crest, 360 ft. thick at the base and 30 ft. at the top, providing a storage capacity of 180,000 acre feet. District will furnish cement, diatomaceous earth or other inert material, reinforcing steel, cement and pipe fittings, galvanized iron pipe hand railings, copper plate for contraction seals, steel discharge pipe, metal inserts, and metal water stops.

Approximate quantities are: (1) 400,000 cu. yds. river wash excav., (2) 550,000 cu. yds. excav. (blasting allowed), (3) 50,000 cu. yds. rock excav. (no blasting allowed), (4) 3,570,000 cu. yds. mass conc., (5) 150,000 cu. yards conc. in contracting joints, (6) 120,000 sq. ft. forming for openings in dam, (7) 3000 cu. yds. reinf. conc., (8) 2000 cu. yds. conc. paving, (9) 3500 cu. yds. tunnel excav., (10) 1000 cu. yds. conc. tunnel lining, (11) 10,000 cu. ft. cement grouting, (12) 7000 lin. ft. drill 2-in. core holes 0-80 ft., (13) 1500 lin. ft. drill 2-in. core holes below 80 ft., (14) 12,000 lin. ft. drill 1½-in. core hole 0-80 ft., (15) 1500 lin. ft. drill 1½-in. core holes below 80 ft., (16) 7000 lin. ft. drill 1½-in. diam. holes 0-25 ft., (17) 5000 lin. ft. drill 2-inch diam. holes 0-25 ft., (18) 1000 lin. ft. reaming holes and setting casing, (19)

440 holes fitting pressure pipes, (20) 80,000 lin. ft. vertical drain tile (furnish only), (21) 80,000 lin. ft. vertical drain tile (placing only), (22) 50,000 lin. ft. vertical contraction soils (placing only), (23) 300 tons placing ing reinf. steel, (25) 100,000 lbs. placing reinf. steel, (25) 100,000 bbs. placing metal inserts, (26) 10,000 lin. ft. placing 2-in. single pipe railing, (27) 2000 lin. ft. placing 2-in. double pipe railing, (28) 2500 tons diatomaceous earth or other inert material—use in concrete.

The district also desires bids showing prices contractor will allow the district to deduct from his monthly estimate, for concrete placed in the dam and appurtenant structures, and for the furnishing of these items to him f. o. b. control terminal at the dam site, without altering his bid per cu. yd. of concrete in the dam, etc.: (a) 1,900,000 tons sand, (b) 1,400,000 tons 5/16-in. to 1/4-in. rock and gravel, (c) 1,700,000 tons 1/4-in. to 2 1/2-in. rock and gravel, (d) 2,000,000 tons 4-in. to 8-in. cobbles. As an alternate (b) same as above, but f. o. b. flood control terminal at Azusa, north of Pac. Elec. Ry. same quantities.

**OAKLAND, Cal.—Until July 15, 7 p. m.,** bids will be rec. by East Bay Municipal Utility District, Ray Bldg., to const. Lafayette Reservoir, 2 mi. west of Lafayette in Contra Costa County; capacity of 5,000,000,000 gals. Will be rolled earth-fill type with puddled clay core 170-ft. max. height, 1855-ft. crest length with 6-in. conc. face. Project involves: 2200 cu. yds. conc. cut-off wall; 6000 cu. yds. waste excavation in spoil banks; 45,000 cu. yds. puddle trench fill; 1,887,000 cu. yds. embankment; 17,500 cu. yds. small broken rock or screened gravel covering; 10,000 cu. yds. reinf. conc. pavement; 1000 cu. yds. overhaul of embankment material; 2800 lbs. metal in conc. conduit and pipe connections; 25,000 cu. yds. excavation for conduits; 20,000 bbls. cement; 800,000 lbs. reinf. steel; 2600 cu. yds. reinf. conc.; 1 check valve; 6 slide gates; 6 metal truss racks; metal ladders, landing, floor plates, I-beam grillage, hoist supports and screens; 5 sets glazed steel window sashes; one wooden door; 5200 lin. ft. 6-in. vit. drain tile; 1000 lin. ft. 8-in. vit. drain tile. A. P. Davis, chief eng. for dist.

**RIVERBANK, Cal.—City** authorizes the purchase of site for proposed 6,500,000-gal. reservoir. The city engineer has been instructed to prepare plans and data for the proposed reservoir.

## SEWAGE DISPOSAL PLANTS

**ROSEVILLE, Placer Co., Cal.—**As previously reported, bids will be rec. by F. R. Chilton, city clerk, for sewer imps.: (a) treatment plant, involving 815 cu. yd. excavation, 185 cu. yd. grading, sludge bed, cut 3075 cu. ft. concrete, 50,000 lbs. reinforcing steel, 165 cu. yd. rock and sand in sludge beds, 250 ft. 4-in. agricultural tile, 65 ft. 6-in., 20 ft. 12-in., and 125 ft. 15-in. vit. pipe sewer, water pump installation, motor and housing, 1 complete; 40 lin. ft. well; flumes, baffles and weirs, 1 complete; chlorination installa-

tion with housing; Clarifier, mechanical equipment with motor and housing; sludge pump installation with motor; digester, mechanical installation, motor and housing; conduit, wiring, switches, control apparatus, grating, ladders, wood walkways, wood digester covering, cast and wrought iron piping, valves, hydrants and bar screens.

(B) Sewer extensions, involving 2090 ft. 18-in. and 1966 ft. 21-in. vitr. pipe sewer; 6 manholes.

Plans obtainable from C. C. Kennedy, consulting engineer, Call bldg., San Francisco.

**SAN BERNARDINO, Cal.**—Currie Engineering Co., 209 Stoneman Bldg., Alhambra, retained by city to prepare plans for proposed new sewer and sewage disposal system. This firm will be paid a fee of 8% of total cost of work, less \$3,500, the amount of the fee paid to the engineering firm which did the preliminary work for the city. It is probable that the necessary bond issue will be around \$500,000. In the event that the bond issue proposal fails, proceedings will be started under the Vrooman act.

**REDWOOD CITY, San Mateo Co., Cal.**—City declares inten. (J-7) to imp. portions of Stafford, Arguello, Lenoit, Rogers, A St., etc., involv. vit. pipe san. sewers; 9 manholes, wyes and lateral sewers; 9 x 12 ft. compressor house with conc. floor, pressed tile walls and composition roof; ejector with capacity of 100 gals. per min. against total head of 10 ft. with one continuous duty slow speed 40 deg. motor of 3 h. p. and suitable for alternating current 220 volt, 3-phase, 60-cycle; one horizontal double acting air compressor, etc. 1911 Act, Bond Act 1915. Protests June 6. H. A. Price, city clerk. C. L. Dimmitt, city eng.

## MISCELLANEOUS CONSTRUCTION

**RIVERSIDE, Cal.**—Election will be held June 21 to vote a \$20,000 bond issue for garbage and waste material incinerator.

## WATER WORKS

**MONTEREY PARK, Cal.**—Until 7:30 p. m., June 13, bids will be rec. by city to const. 2,000,000-gal. conc. reservoir, 122 ft. in diam., 24 ft. in depth, with wooden roof, valves, outlet and drain, road grading, 380 ft. 10-in. cem. pipe. Plans obtainable from O. A. Gierlich, city eng., First National Bank Bldg., Monrovia, on deposit of \$5.

**SACRAMENTO, Cal.**—Western Pipe and Steel Co., 444 Market Street, San Francisco, at \$104,683.20 awarded cont. by city to fur. and install lock-bar steel pipe for first unit of water system.

**LINDSAY, Tulare Co., Cal.**—Until June 14, 8 p. m., bids will be rec. by E. V. Bogart, city clerk, to fur. and install one steel reservoir of 200,000 gals. Cert. check of 10 per cent req. with bid. Spec. on file in office of clerk. See call for bids under official proposal section in this issue.

**COVINA, Cal.**—Until 7:30 p. m., June 6, bids will be rec. by city to fur. and install 2300 ft. 10-in. and/or 12-in. cement water pipe, to stand 40 lbs. pressure, in Covina Road, sometimes known as East Cypress, from the city reservoir east to point near Savoy Packing House. J. C. Hutchinson, city clerk.

**VENTURA, Cal.**—Until 7:30 p. m., May 31, bids will be rec. by city for a 375-gal. per minute pump, working against a head of 225 feet through 4660 ft. on 10-in. cast iron pipe. Ruth E. Melland, city clerk.

**ARCADIA, Cal.**—Bids rec. by city to fur. water pipe are:

15,000 ft. 20-in.: Crane Co., \$52,950; Baker Iron Works, \$41,670; Los Angeles Mfg. Co., \$42,000; Lacy Mfg. Co., \$41,400; Western Pipe & Steel Company, \$40,800; Grinnell Co., \$46,200. Western Concrete Pipe Co. submitted a bid of \$46,650; U. S. Cast Iron Pipe Co., \$50,535.

4150 ft. 14-in. pipe: Crane Company, \$7656.75; Baker Iron Works, \$8300; L. A. Mfg. Co., \$7781.25; Lacy, \$7760.50; Western Pipe & Steel Co., \$7553; Grinnell Co., \$9337.50; U. S. Cast Iron Pipe Co., \$8059.30.

7875 ft. 12-in. pipe: Crane Company, \$11,497.50; Baker Iron Works, \$12,970.13; L. A. Mfg. Co., \$12,206.25; Lacy, \$11,891.25; Western Pipe & Steel Co., \$11,655; Grinnell Co., \$15,671.25; U. S. Cast Iron Pipe Co., \$13,198.50.

3050 ft. 10-in. pipe: Grinnell Company \$4361.50; U. S. Cast Iron Pipe Co., \$3948.40; American Cast Iron Pipe Co., \$3836.29; National Cast Iron Pipe Co., \$4003.49; Pacific Pipe & Supply Co., \$3957.99.

1364 ft. 8-in. pipe: Grinnell Company \$1473.12; U. S. Cast Iron Pipe Company, \$1303.98; American Cast Iron Pipe Co., \$1279.16; National, \$1448.42; Pacific Pipe & Supply Co., \$1319.81; Pacific States C. I. Pipe Co., \$1414.47.

13,198.50 ft. 6-in. pipe: Grinnell Co., \$7937.44; U. S. Cast Iron Pipe Company, \$6976.59; American C. I. Pipe Company, \$6830.38; National, \$7773.47; Pacific States C. I. Pipe Co., \$7154.14.

3515 ft. 4-in. pipe: Grinnell Company \$1722.35; U. S. Cast Iron Pipe Company \$1606.36; American Cast Iron Pipe Co., \$1649.91; National Cast Iron Pipe Company, \$1819.01; Pacific States Cast Iron Pipe Co., \$1662.05.

**PURLINGAME, San Mateo Co., Cal.**—City votes bonds of \$225,000 to finance imp. to water system; \$175,000 for renewals and additions to pipe lines, fire hydrants and underground system and \$50,000 to const. reservoir.

**STOCKTON, San Joaquin Co., Cal.**—City authorizes \$2500 appropriation to finance installation of additional fire hydrants. A. L. Banks, city clerk. W. B. Hogan, city engineer.

**CORCORAN, Kings Co., Cal.**—Pacific States Cast Iron Co., Los Angeles, at \$2243 awarded cont. by city to fur. 1840 ft. 6-in. and 1308 ft. 4-in. Class B, Bell and Spigot, c. i. pipe, in 16-ft. lengths, together with the following fittings: Two 8 x 4 in. reducers 6-in. one-eight curvers; 1 4 x 6 in. tee; 4 4 x 4 in. tees; 6 4-in. round nose plugs; 2 6 x 4 in. tees; 2 6 x 6 in. tees; 1 6 x 6 in. cross; 3 6-in. round nose plugs. All tees and crosses to have bell ends.

**SAN FRANCISCO**—Until June 1, 11 A. M., under Order No. 8343-1102, bids will be rec. by U. S. Engineer Office, 85 and St., to fur. and del. Rio Vista, So. lano county, 25 complete ball and socket joints and 1000 lin. ft. (approx. 40-ft. lengths) ¾-in. steel plate pontoon pipe without nd bands and turned to 20¾-in. or a distance of 4½-in. delivered Rio Vista or f. o. b. barge at destination suggested by bidder. Further information obtainable from above.

**SANTA MONICA, Cal.**—Until 10 a. m., May 31, bids will be rec. by city for cast iron pipe as follows: 3850 ft. 8-in. class D, 4250 ft. 8-in. class B, 6100 ft. 6-in. class B, 5200 ft. 4-in. class B, all f.o.b. Santa Monica, unloaded at some designated point within the city. Approximate delivery date must be specified in the bid. Certified check, 10%. Howard B. Carter, city engineer.

## PLAYGROUNDS AND PARKS

**OAKLAND, Cal.**—City council votes to purchase lands for Mandana Park site in Lakeshore District for \$70,000 and McDermott Park site in West Oakland district for \$90,000. Sites will be purchased on the 10-payment plan.

**HAYWARD, Alameda Co., Cal.**—City Eng. Jesse B. Holly completes spec. for two complete tennis courts at city park. Bids will be asked shortly.

## SEWERS AND STREET WORK

**BERKELEY, Alameda Co., Cal.**—City Eng. A. J. Eddy completes surveys for eight extensions to city sewer system, involv. 41,900 ft. of sewers, estimated to cost \$441,080. Units include:

Woolsey St. extension from Telegraph to Claremont and north on Claremont to Webster; College Ave. from Woolsey to Russell; from Claremont east on The Uplands to Plaza Drive. Cost, \$43,700.

An outlet for north Berkeley through Albany and will discharge west of Fleming Point into the Bay. City of Albany to pay portion of cost; est. \$262,430.

Sacramento St. from Woolsey south to Alcatraz Ave. and on Sacramento St. north from Ashby to Russell, then east to California St. and north to Bancroft Way. Est. cost \$65,000.

College Ave. from Dwight Way to Bancroft. Est. cost, \$10,600.

Vine St. Shattuck to Spruce and one-half block north on Spruce. Est. cost, \$6,500.

Sacramento St. from University Ave. to Virginia St. Est. cost, \$18,500.

East on Hilgard from Arch to La Loma. Est. cost, \$11,600.

North on Third St. from Ashby to Parker. Est. cost, \$15,000.

**BAKERSFIELD, Kern Co., Cal.**—Union Paving Co., Call Bldg., San Francisco, at \$67,655.65 awarded cont. by city to imp. 15 blocks of Sts., including California Ave., bet. F and Chester Ave.; 13th St., bet. Chester Ave. and G St.; 14th St. bet. G and I Sts.; G St., bet. California Ave. and 16th St., and I St., bet. California Ave. and 15th St., involv. 260,003 sq. ft. grading; 260,003 sq. ft. 3½-asph. base, 1½-in. Warrenite Bit. surface pave; 13,482 sq. ft. conc. gutter; 428 lin. ft. conc. curb; 777 lin. ft. 18-in. culverts; 191½ lin. ft. conc. header. Other bids: Los Angeles Paving Co., \$68,198; Thompson Bros., \$68,192; Calif. Rd. & St. Imp. Co., \$71,272; California Const. Co., \$73,232.

**STOCKTON, San Joaquin Co., Cal.**—County plans to grade and imp. road in San Joaquin Delta section to serve McDonald Tract and Mandeville Island Territory.

**SANTA ANA, Cal.**—County declares inten. to imp. Artesia St., near Buena Park, involv. 2 miles of conc. pavement 20 ft. wide, est. cost, \$41,600. Nat. H. Neff, county road commissioner.

**SAN JOSE, Santa Clara Co., Cal.**—San Jose Paving Co., San Carlos and Dupont Sts., San Jose, at \$20,341.63 awarded cont. by city to imp. Ashbury St., bet. The Alameda and Stockton Ave. and portion of Stockton Ave. Invol. grade; 1½-in. asph. conc. surface on 2½-in. asph. conc. base pave; conc. curb, gutter, walks; 4-in. vit. hse. sewer laterals with wyes.

**SANTA BARBARA, Cal.**—City plans to imp. Villa Ave., bet. Arrellaga and Islay Sts., involv. 1½-in. asph. conc. paving on 3½-in. base, 6-in. vit. sewer, etc.; 1911 act. S. B. Taggart, city clerk C. W. Moore, city engineer.

**SAN FRANCISCO**—L. J. Cohn, 111 Montgomery St., at \$2888.75 awarded cont. by Board of Public Works to const. sewer at Fleishhacker Playground, involv. 156 lin. ft. 8-in. iron storm pipe; 517 lin. ft. 8-in. c. i. pipe 3 br. manholes; five 8-in. wye branches, 117 lin. ft. 10-in. culvert; 22 lin. ft. 12 in. ironstone sewer.

**SAN JOSE, Santa Clara Co., Cal.**—Until May 31, 8 p. m., bids will be rec. by John J. Lynch, city clerk, (3523) to imp. University Ave., bet. The Alameda and Park Ave., involv. grade; 5-in. conc. pave; conc. curb, walks; 4-inch vit. sewer lateral connections, 1911 act, bond act 1915. Cert. check 10% payable to city req. Wm. Popp, city eng.

**SAN JOSE, Santa Clara Co., Cal.**—Until May 31, 8 p. m., bids will be rec. by John J. Lynch, city clerk, (3531) to imp. Davis St. bet. Park Ave. and The Alameda, involv. grade; 5-in. concrete pave; conc. curb, gutter, walks; 4-in. vit. lateral sewers, 1911 act, bond act 1915. Cert. check 10% payable to city req. Wm. Popp, city eng.

**HAYWARD, Alameda Co., Cal.**—City Eng. Jesse B. Holly completes spec. for two complete tennis courts at city park. Bids will be asked shortly.

**SANTA BARBARA, Cal.**—County Surveyor Owen H. O'Neill preparing spec. to surface with asphalt Santa Maria-Guadalupe rd., bet. intersection of Catholic Church Road and town limits of Guadalupe.

**SANTA CRUZ, Santa Cruz Co., Cal.**—City council orders conc. pavement in Morrissey Ave. bet. Soquel and Fairmount Ave. Jas. K. James, city eng.

**OAKLAND, Cal.**—City declares inten. to imp. Poa St. from 35th Ave. south-east, involv. grade; curbs; gutters; pave. 1911 Act. Protests June 9. Frank C. Merritt, city clerk. W. W. Harmon, city eng.

**REDWOOD CITY, San Mateo Co., Cal.**—Until June 6, 10 a. m., bids will be rec. by Elizabeth M. Kneese, county clerk, (7) to imp. portions of Palo Alto Ave., Poplar Ave., Menalto Avenue, Westminster Ave., etc., involv. grade; 4-in. waterbound rock macadam base with asph. oil and rock screenings surface; hyd. conc. curb, walks; vit. san. sewers; wye branches, etc. 1911 Act and Co. Imp. Act 1912. Cert. check 10% payable to county req. Plans on file in office of clerk. Geo. A. Kneese, county surveyor.

**OAKLAND, Cal.**—Until June 9, 12 noon, bids will be rec. by Frank C. Merritt, city clerk, to const. sewer with appurtenances along north side of Key System Transit Company's mole, from west end of existing Yerba Buena Ave. outfall sewer to 22nd St. Est. cost \$130,000. Cert. check 10% payable to city req. with bid. Bond of \$57,000 required of successful bidder. Plans on file in office of clerk. W. W. Harmon, city eng.

**ROSEVILLE, Placer Co., Cal.**—Pacific States Construction Co., Call Bldg, S. F., at \$50,987.90 awarded cont. by city (1-D) to imp. portions of Sutter Ave., Placer Ave., Clairborne Avenue. Project involves: 5270 cu. yds. excav.; 163,600 sq. ft. grading, surface; 163,800 sq. ft. 2 1/2-in. asph. base, 1 1/2-in. Warrentite Bit. surf. pave.; 1180 ft. conc. curb; 8600 ft. conc. curb and gutter; 520 cu. ft. conc. in culvert, headwalls and inlet boxes; 600 lbs. reinf. steel; 18 ft. 10-in., 182 ft. 12-in. corr. iron culvert; 55 ft. conc. corr. segmental culvert; 1 conc. gallery inlet box; 8 ft. conc. in wingwalls and aprons, 265 ft. 24-in. and 130 ft. 2-in. conc. pipe storm drain; 3 sewer manholes; 440 ft. 4-in. vit. pipe sewer laterals; 6 survey monuments. Bond Act 1915. Protests June 9. H. G. Denton, city clerk. A. J. Wagner, city engineer.

#### MEDIATION BEST CURE FOR LABOR WAR

Mediation is the medium through which labor troubles can be settled, Henry Hawson, Fresno attorney, told members of the Fresno Builders' Exchange at the regular monthly dinner meeting of that organization in the Hotel Fresno, May 17.

As settlement of the agricultural and labor problems of the community is effected, the community will experience increased prosperity and strengthen its position as the metropolis of the San Joaquin Valley, Hawson said. Industries will come and the builders can be of material assistance in the program of progress, he said. He mentioned organized labor as an integral part of American industry.

Melville Dozier, Los Angeles manager for the Associated General Contractors of America, said that the construction council of his organization has settled disputes by arbitration that would have required two years' time if handled through the courts. He said that skill, integrity, responsibility and profit are the four principal factors in a contractor's success.

#### PLASTERERS' LICENSE HELD INVALID

The Minneapolis ordinance requiring plasterers to pay a license fee of \$75 annually and to post a \$5000 bond was held unconstitutional in a court decision recently handed down in the District Court of Hennepin County. The Minneapolis license law was an attempt to limit the plastering work to residents of that city.

The decision was the result of an action to compel the city inspector to issue a permit to L. G. Green for the placing of 500 yards of inside plastering in the Baker Arcade. Green had no license and had not posted the \$5000 bond.

Attorneys for the complainant charged that the ordinance was unconstitutional and contended that the ordinance placed an unlawful burden and restriction on a harmless and useful occupation and discriminated unlawfully in favor of Minneapolis citizens. Judge Nye in his decision upheld the contentions and ordered an issuance of the permit.

A similar ordinance providing for the licensing of electricians has been passed by the St. Paul City Council.

#### FIVE-DAY WEEK ADOPTED AT SANTA BARBARA

Wagner and Fell, concrete contractors on the Santa Barbara County courthouse project, have adopted the five-day week policy as recommended by the Santa Barbara Building Trades Council. Until recently the employees were working on the five and one-half day week. Under the new arrangement they will be paid on the same basis as before. The movement, which was started several weeks ago, has been adopted by most of the large contractors, leaving only the employees on the Biltmore hotel and city school construction jobs working under the old arrangement, it is said.

#### LICENSE AND BOND LAW IS PROPOSED AT BERKELEY

The Berkeley Builders' Exchange has petitioned the Berkeley city council to pass an ordinance substantially the same as one now in force in Oakland regulating the application of stucco. The need for such legislation was voiced particularly by the plastering craft. The exchange also seeks the passage of a license and bond ordinance for plasterers, roofers and masons.

#### LABOR UNIONS PLAN RADIO BROADCASTING STATION

A radio broadcasting station for the purpose of putting on the air the messages of organized labor in the bay district is a proposal endorsed by both the Central Labor council and the Building Trades council of Oakland. These two bodies, representing East Bay labor, appointed committees to co-operate in this project with the labor bodies of San Francisco.

#### CONTRACTORS ORGANIZE

Contractors of Santa Barbara have organized a chapter of the Associated General Contractors of America. Officers of the chapter are: D. H. McQuiddy, president; Jas. Roy Richardson, secretary and treasurer. Twelve contractors were present at the organization meeting and seven charter members joined the chapter.

#### UKIAH PAINTERS ORGANIZE — WAGE SCALE GOES UP

Believing better service will be provided by unionizing, the Ukiah Painters' Protective Association has been organized in that city. There are at this time 14 painters residing in Ukiah. Co-incident with the organization of the association the scale of wages was advanced from \$7 a day to \$8, a raise of \$1 a day.

#### NEW LIME PLANT

Construction has been started on a \$20,000 plant at South San Francisco for the Kunze Lime Company. Two kilns will be constructed with a daily capacity of 10 tons. A third kiln will be added on completion of the first two. Chas. Kunze of San Francisco is president of the company and Mrs. Adolph Kunze of San Carlos, secretary.

S. and S. Tile Company of San Jose, has appointed Louis W. Simonson as representative in the San Francisco Bay district, in augmenting a service to architects in tile design and color. Mr. Simonson is a graduate of the University of Pennsylvania, receiving his degree in architecture in 1910. His professional practice in the East embraced every class of construction. He has made a study of tile work and tiles.

May 25, 1927—MERVYN GUNZENDORfer has filed his certificate for architecture in San Francisco County.

### ENGINEERS TO HOLD MEET AT SEATTLE IN AUGUST

The engineering problems of the industries on the Pacific Coast will be discussed at the Seattle Regional meeting to be held August 29-31, 1927. The subjects to be discussed include the petroleum industry, harbor machinery, pulp and paper manufacturer, Diesel-engine development, beet-sugar industry, metal mining machinery, hydraulic machinery, grain milling and mechanical equipment for the fishing industry. The committee appointed to conduct the meeting consists of E. O. Eastwood, chairman; Ira Dye, Lyle Dudley, R. W. Rockwell, C. W. Tibbels, John Moran, Philip Johnson, G. S. Schaller and R. W. Rapport.

### BUSINESS OPPORTUNITIES

**SAN FRANCISCO**—Further information regarding these opportunities may be obtained from the office of Larsen Advance Construction Reports, 545-547 Mission St., San Francisco, either by phone, letter or personal call. Requests for additional information should be made to the Business Opportunities Department. Such requests must be accompanied by the index number of each opportunity.

D-2448—Ganado, Ariz. Party wishes to get in touch with a San Francisco company in a position to supply electrical factory equipment such as portable saws, stationary saws, endless chain inclines for moving heavy material, and stone pulverizers.

D-2449—Tucson, Ariz. Party desires to get in touch with San Francisco art firms interested in handling mail orders for paints and novelties; also stationery and announcement cards (blank cards and envelopes), to be used in making greeting cards.

D-2450—Eastern manufacturers of a self-refrigerating, dry-pack shipping container for ice cream, ice cream mix and milk are seeking Pacific Coast representation.

D-2454—Alderpoint, Calif. Owners of from fifteen to twenty thousand fir trees, ready to cut, desire to dispose of this timber. Good road into timber.

11656—Paris, France. Representation of an important manufacturer of red ceramic floor tiles is offered for the Pacific Coast. Samples and prices in San Francisco.

11671—London, England. Organization desires to get in touch with San Francisco importers interested in European continental steel.

11679 — Guayaquil, Ecuador. Firm wishes to establish business connections with San Francisco manufacturers and exporters of printing machinery, supplies and equipment; office equipment, small hardware, etc.

### LUMBER INDUSTRY IN 1925

Lumber and allied industries in the United States did a \$3,688,552,647 business in 1925, an increase, the commerce department reported, of 1.5 per cent over 1923, the previous census year. The output totals were made up as follows: Basic industries using timber, logs, cordwood, crude gum or other raw products as materials, \$1,468,427,334; decrease of 4.2 per cent; wood reworking industries, \$778,050,860, increase 2.1 per cent; wooden container industries, \$249,612,107, decrease 6 per cent; furniture and related industries, \$950,595,981, increase 11.6 per cent; miscellaneous and allied industries, \$241,866,865, increase 10.8 per cent.

### CONVICT LABOR BILLS SIGNED BY GOVERNOR

The State of California will continue to employ convicts in the construction of state highways, following the signing of two bills by Governor Young. One bill was sponsored by Assemblyman M. J. McDonough of Oakland and another by Wm. Byrne of Los Angeles.

One of the two bills appropriates \$600,000 for payment of convict salaries, and specifically provides that convicts are not employees and not within the provisions of the workmen's compensation act. The other authorizes the state prison board to transfer \$100,000 from its own fund for such work.

### PIPE LINE CONTRACT LET

Western Pipe & Steel Company of San Francisco, bidding \$104,684.20 was awarded a contract by the Sacramento city commissioners to construct a steel water pipe line from the municipal filtration plant over North B street to Eighteenth street. The bid covers lock-bar pipe. The estimate of City Engineer Allan J. Wagner on the project was \$105,503.70.

# TIMPIE HYDRATED LIME

(a true dolomite lime)

for Brick Mortar, White Coat and Sand Float Finish, and for inducing plasticity in and water proofing Portland Cement Concrete.

Used in approximately \$70,000,000 High Class Pacific Coast construction in last 3 years.

*EXAMPLES:—*

New Standard Oil Building, San Francisco	Central Bank, Oakland
Oakland Savings Bank	New Subway Terminal Building, Los Angeles
New Mark Hopkins Hotel, San Francisco	Federal Reserve Bank, San Francisco
New Hunter-Doolin Building, San Francisco	New Russ Building, San Francisco
Pacific Telephone and Telegraph Building, San Francisco	

*Sold by most progressive dealers throughout Pacific Coast.*

For special information write or wire

## ALL GALVANIZED Standard Steel Buildings

Manufactured and Carried in Stock  
on the Pacific Coast

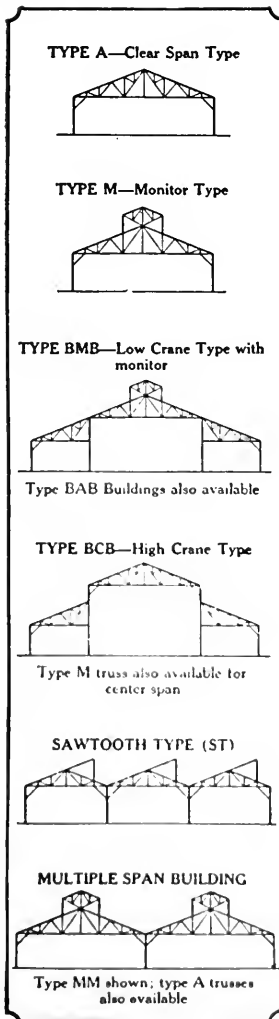

**COASTEEL** Standard Buildings are the first *all galvanized* standard unit steel buildings to come on the market. They are the joint product of three old established companies—years of experience in manufacturing steel, fabricating steel products and erecting steel structures stand behind COASTEEL Buildings.

If you are an engineer, a contractor, an owner or a prospective tenant, you are interested in learning the facts about COASTEEL Standard Buildings.

Congress of March 3, 1879.

## ORGANIZED LABOR SEEKING INJUNCTION BAN

Legislation to protect labor "against the abuse of the writ of injunction" by federal and state courts will be sought in congress and state legislatures by the American Federation of Labor, its president, William Green, declared in an address before the Bankers Club of New York.

Declaring that no nation can succeed in industrial competition unless labor like industry and capital is permitted to organize, Green said labor was unable to reconcile itself to recent court decisions upholding injunctions in labor disputes and added that labor could not abide by these decisions and yet live and function.

"We have long believed that the Sherman anti-trust law was a barrier to industrial, economic and agricultural development. It has not prevented the growth and expansion of big business, but in addition to hampering labor, it has served to restrict and circumscribe legitimate business and legitimate enterprises. It has served to create uncertainty and a feeling of insecurity among business men as well as among trade unionists."

## WOOD UTILIZATION COMMITTEE TO PREPARE TECHNICAL PAMPHLETS

Since the largest quantities of our forest products are used in building and construction activities, the National Committee on Wood Utilization at its recent meeting decided to prepare a series of technical pamphlets which will demonstrate proper building and construction practices. Continued activities in promoting the use of lumber less than 8 ft. in length was authorized. In his connection a report will immediately be printed on the end matching of soft wood lumber.

## SACRAMENTO WILL BE SCENE OF 1927 "BUILDERS' DAY"

At the regular monthly meeting of the Directors of the Builders' Exchange, it was unanimously voted by the board that the Seventh Annual "Builders' Day" be held at Sacramento on September 3, 4 and 5.

Mr. Hayes, representing the Sacramento Chamber of Commerce, and Clarence (Sandy) Pratt, originator of "Builders' Day," addressed the Board of Directors, explaining the many advantages of holding the Builders' Outing in Sacramento, and the entire board accepted the Sacramento Chamber of Commerce's invitation.

While plans are not definite, there will probably be a boat chartered and the crowd go up on Friday night, attending the State Fair and Horse Show on Saturday. The new municipal auditorium has been engaged, for Saturday night and a dance will probably be held that evening.

The crowd will probably spend Sunday at the exclusive Del Paso Country Club, where swimming, races, golfing and a barbecue will be held. The return trip to San Francisco and the bay will probably be made on Monday night by boat. Headquarters will be maintained at the Hotel Senator and rooms have been engaged at other leading hotels.

## A. G. C. BRANCH IS ORGANIZED AT FRESNO

Organization of a new association of general contractors to be known as the General Contractors' Association of Fresno was launched at a meeting of approximate fifteen contractors held at the offices of the Fresno Builders' Exchange, May 26.

Officers will be elected and a constitution, by-laws and working rules adopted at a meeting next Wednesday night. E. K. McGinty was chairman of the organization meeting.

The purpose of the association is to better conditions in the building industry as a whole, to maintain a higher standard of construction and to give the contractors a common meeting ground for mutual benefit.

## TEHACHAPI LIME PLANT IS NEARING COMPLETION

Construction of a lime hydrating plant, with a daily output capacity of 50 tons, is being rushed to completion at Tehachapi by the Union Lime Company. Machinery is being installed by the McCann Manufacturing Company of Pennsylvania.

According to E. B. Wyman, secretary and general manager of the lime company, the Schultess process, which has been adopted throughout Europe as the most economical and efficient process known to the industry, will be used.

The plant will have a capacity of two and one-half tons an hour, and is expected to operate 20 hours daily.

## FRESNO ENGINEERS TO PICNIC

The annual picnic of the Fresno Chapter, American Association of Engineers, will be held Saturday afternoon, June 4th, and Roeding Park, Fresno.

Resolutions which National Director J. M. Buswell will support at the Tulsa, Okla., national convention on June 4th have been adopted by the club.

## APPOINTMENT ON STATE WATER COMMISSION TO BE MADE

Announcement of the membership of the state water commission, creation of which was authorized by the recent State Legislature to investigate the water resources of the State, will be made at Sacramento shortly.

Lieutenant-governor Fitts will select the senate members of the commission.

Edgar C. Levey, speaker of the assembly, who will name the lower house members of the commission, is awaiting word from Fitts before making known his selections.

Four members of the senate and a like number from the assembly will compose the commission, which is to make a study of California's water resources in connection with the proposed \$338,000,000 Bailey scheme for a co-ordinated plan for their development over a period of years. A report is to be made to the 1929 session of the Legislature.

## EAST BAY PLUMBERS PERFECT WORKING AGREEMENTS

Indicating a growing spirit of harmony and co-operation between employer and employes in the East Bay building industry, a working agreement has been consummated, taking effect January 3rd and May 2nd of this year between the Master Plumbers' Association of Oakland, Alameda and Berkeley and the Journeymen Plumbers' Union, Local No. 444 of Alameda county and Richmond, it is announced by A. J. Schlagl, secretary of the latter organization.

The agreement deals with wages and Working rules. A standing conference committee if three from each organization will take up all matters which may arise for adjustment.

Steam Fitters' Local No. 312 has entered into a similar agreement with their employers.

## POWER PROJECT CONTEMPLATED BY JOHN L. McNAB

Applications has been filed with the State Department of Public Works, Division of Water Rights, by John L. McNab, San Francisco attorney, seeking to appropriate waters from the Middle Fork of the American River in Placer County for a contemplated power development involving an expenditure of \$10,000,000. The location of the proposed reservoir is in French Meadows.

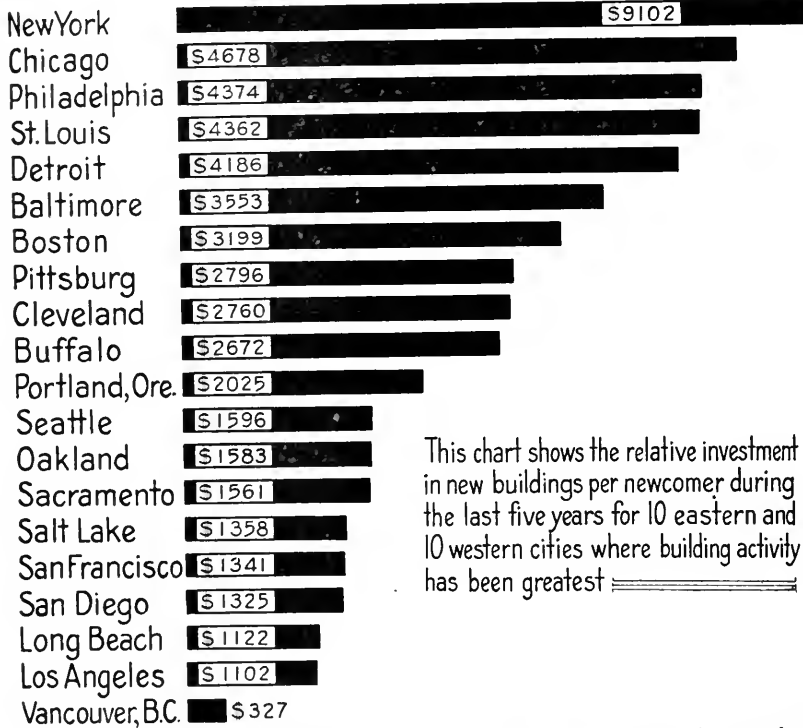

In his application, McNab seeks a permit to divert 200 second-feet of water from that stream from December 1st to July 1st, annually, and to store 80,000 acre-feet in the proposed reservoir.

It is proposed to develop 75,000 theoretical horsepower. A dam 172 feet high with a top length of 1300 feet is also included in the construction program.

## RESIGNS

E. H. Hatch, for seven years resident construction engineer on large power projects of the Pacific Gas & Electric Co. of San Francisco, has resigned to accept a position with the British Columbia Electric Railroad Co., Ltd., Vancouver, B. C., as engineer on new development work. Mr. Hatch has had extensive experience in general engineering and construction on highway, irrigation, and power development.

## Pacific Coast Building Activity Not in Pace With Population Growth

This chart shows the relative investment in new buildings per new comer during the last five years for 10 eastern and 10 western cities where building activity has been greatest.

Great as has been the building activity of the leading cities of the Pacific Coast during the last five years, it has not kept pace with growth in population to any such degree as has been the case in the leading cities of the eastern United States, according to a survey of the building records of 25 western and 45 eastern cities during the years 1922 to 1926, inclusive, just completed by S. W. Straus Co.

A comparison of new buildings costs with population increases in these cities during this five years period shows that the western cities have invested an average of \$1,212 in new buildings for each new resident, while the eastern cities have invested an average of \$4,235 per new comer. The building costs used in the S. W. Straus & Co. survey comprise all types of buildings for which official permits have been issued. The population estimates are the most reliable obtainable.

In any analysis of building activity designed to indicate those points where overbuilding may be threatened, the relation

between increase in population and the volume of new construction is a most significant factor. On the basis of such an analysis it is evident that building activity generally in the Pacific Coast area, except for certain types of buildings in certain localities, need not be materially curtailed through fear of overproduction.

Increased construction costs applicable in the east, due to climatic conditions, and because of a relatively greater number of major type building projects on account of the factor of obsolescence in the older cities, is responsible to some extent for the greater cost per new comer figure of the eastern cities. The principal reason for the lesser western figure, however, is the fact that the western cities have grown, since 1922, more than five times as fast as have those of the eastern states.

The accompanying graphic chart clearly illustrates the relative new buildings investment per new comer made during the last five years by ten eastern and ten western leading cities.

## Lumber Bureau Issues Seven Technical Publications

Seven technical publications of special interest to architects, engineers and builders are now available from the West Coast Lumber Bureau, Seattle. These contain not only the working stresses for Douglas fir and other important West Coast woods, but tables of working stresses for other American softwoods, relative durability values, and physical properties. These were all prepared by C. J. Hogue, M. Am. Soc. C. E., field manager of the Bureau, a structural engineer and authority on wood uses.

"Douglas fir and Southern Pine" is a 15 page pamphlet, giving a comparison of physical and mechanical properties of the two species with tables of working stresses. "Mechanical Properties of Timbers," a 16 page pamphlet, describes

timber uses and strengths and is illustrated by drawings.

The other five are a first of a series of Technical Bulletins to be distributed by the Bureau. They are: "Douglas Fir, Working Stresses for Standard Grades," based on the recommendations of the Forest Products Laboratory of the United States Forest Service, No. 1; "Working Stresses for Structural Grades of American Lumber Standard," No. 2; "Durability of West Coast Woods," No. 3; "Creosote Treatment of Douglas Fir," No. 4; "Physical Properties of Woods," No. 5.

These Technical Bulletins are published by the West Coast Lumbermen's Association and distributed free of charge by the West Coast Lumber Bureau, 562 Stuart Building, Seattle.

## WHEELER-OLMSTEAD COMPANY OF OREGON IS BANKRUPT

Liabilities of \$736,817 and assets of \$510,762 are listed in the schedule filed in the bankruptcy division of the federal district court at Portland, Oregon, by the Wheeler-Olmstead Company, lumber manufacturers and dealers with their office in Portland, and extensive holding in Klamath county.

The company filed its petition in bankruptcy on May 12 and was adjudicated a bankrupt on May 16. Lloyd J. Wentworth of the Lumbermen's Trust Company, was named temporary receiver. J. E. Wheeler, president of the Telegram Publishing Company, which is now in the process of liquidation by the bankruptcy court, signed both the original petition and the schedule as president of the company. He was associated in the timber company with Emory Olmstead, former president of the Northwestern National Bank.

The largest individual creditor of the defunct company is the Northwestern National Bank which holds a note of \$200,000.

The larger items listed as assets are mill and site at Pelican City, \$200,000, lumber on hand \$148,478; logging equipment, camp equipment, lumber yard and equipment and spur track, \$147,625.

## MOLDERS' UNION IS SUED FOR \$101,101

The International Molders' Union of North America, Local 164, is named defendant in a suit for \$101,101.10 on file in the superior court at San Francisco, brought by Frank Tanner, American plan molder, who was shot down on February 11, as he was on his way to work. Frank Brown, Robert Burton, Tony Mello and Earl Parente, union executives, under indictment on murder charges, are the principals of the eight persons named as defendants. Tanner was shot down near Twentieth and Howard streets as he was entering the Enterprise foundry, receiving wounds which he alleges to be of a permanent nature. He charges a conspiracy within the union which prompted the shooting.

## WEIGHTS OF HARDWOOD

The Hardwood Manufacturers Institute, Memphis, Tenn., has issued a booklet giving in detail tables on the estimated weight per cu. ft. of hardwood at a given thickness and moisture content. Weights are given for thicknesses ranging from  $\frac{1}{8}$  to 19/16 in. and for lumber of green material and of moisture contents of 10, 12, 14, 16, 18 and 20 per cent. Such woods as ash, beech, cottonwood, butternut, dogwood, cypress, elm, hemlock, hickory, locust, maple, oak, poplar, sycamore, walnut and willow are tabulated.

## 1927 STANDARDS YEAR BOOK

The National Bureau of Standards of the Department of Commerce has issued the "Standards Year Book" for 1927. This is the first issue and it is to be issued annually hereafter.

This Year Book is most valuable to manufacturers, industrial experts, engineers, purchasing agents and all officers and agencies concerned with standardization; and it will prove a mine of information to the average reader, as well.

Copies are \$1 each, for which remittance must be made direct to the Superintendent of Documents, Government Printing Office, Washington, D. C.

## HOUSTON TO SPEND MILLION

At a recent election the city of Houston, Tex., voted a bond issue of \$1,000,000 for street paving and another of \$500,000 for the resurfacing of gravel streets, according to a recent news release.

# Lessen Earthquake Danger Via Revision Of S. F. Building Code

Revision of the San Francisco building ordinance is being urged in order to lessen danger of earthquake damage by making construction more rigid. Soon after the 1906 quake San Francisco adopted a building code that said nothing about earthquakes but specified for buildings of certain heights a wind-pressure allowance of 30 pounds per square foot. This doubtless gave assurance against serious damage to structures from even fairly heavy earth tremors, and did so without mention of earthquakes—just then regarded as particularly undesirable. But 30-pound wind loads rarely occur. In time, the lessons of the earthquake were more or less forgotten and there was clamor about the "unreasonable wind-load requirements." The ordinance was several times revised and now provides for a wind load of only 15 pounds per square foot.

Perhaps the 30-pound wind load was too high to permit of consistent enforcement. While it was in effect its requirements were frequently evaded. However, it was unwise to cut the wind load down to 15 pounds with no compensating provision for stiffness or rigidity to lessen earthquake damage. This reduction was a victory for those whose dominating motives were cost saving and competition with other cities for business. But the change has brought a reaction and some builders have been voluntarily using more rigid specifications. In view of the present more sensible attitude toward earthquake risks the psychological time has come to put into the building code in San Francisco and elsewhere provisions that frankly recognize the possibilities of earthquake stresses and that make allowance for them.

The unfortunate part of the situation is that engineers are not in entire accord as to just what is the best kind of protection against earthquakes. Some favor maximum economical rigidity throughout the entire structure. Of this group some would design the structural frame to furnish the entire resistance to shock while others would make use of the exterior walls and special interior bracing walls to assist the frame. Since 1906 some have held the belief that buildings should be braced only by rectangular paneled bracing, i. e., bracing without diagonals or with diagonals only in alternate panels. Typical of this is the Sather tower on the Campus at Berkeley, which is designed to resist earthquakes. Quite recently a few engineers have proposed a high ceiling in the first story without lateral bracing of the long, first-story columns, the theory being that, where such construction is possible, the earthquake damage will be lessened and will be entirely confined to the first story. One well known engineer goes so far as to say that a structure designed to resist a 30-pound wind load would have withstood the most violent earthquake that has occurred in the United States in the past fifty years. On the whole, this confusion in engineering opinion, while not creditable to the profession, is not surprising when it is realized that only recently have engineers begun to study the problem in earnest.

Admittedly it is not practicable to design to withstand the most violent earthquakes even if the stresses were known, but surely there is some reasonably high degree of protection that can be secured for a moderate increase

in cost. Pending the outcome of study and research now being devoted to this subject, any approach to the ideal would be better than the present practice of designing almost, if not entirely, without regard to earthquake shocks. The hysteria over earthquakes and the belief that they occur only in certain localities has been largely dissipated in recent years. It is now known that an average of 30,000 earth tremors are recorded annually on seismographs in different parts of the world, and at least once a year there occurs somewhere a major quake, that is, one of intensity above 7 or 8 on the Rossi-Foré scale. Hence there is now no occasion in San Francisco or elsewhere to veil under the guise of needed wind-load allowance the requirements for substantial construction that will afford the maximum earthquake protection for reasonable cost.

Our practical knowledge of how buildings behave when subjected to earthquakes of major intensity is limited to the case of building of relatively low height; the tallest buildings in San Francisco in 1906 were approximately 18 stories high and the highest structures in Japan are not over 100 ft. The effect of a destructive earthquake on a modern office building 30 to 50 stories high is entirely in the field of theory, if not of conjecture. Thus far, however, wherever modern building construction has been subjected to earthquake, well built and rigid structures have suffered but little damage, and the danger of life in such structures has been slight as compared to the complete destruction with appalling loss of life that has occurred in flimsy structures. It is a safe conclusion that, while we need much more research on the stresses to which earth tremors subject a modern structure, yet the real danger to the great majority of buildings lies not so much in earthquakes as in flimsy construction. Revision of building ordinances in this spirit will increase the earthquake resistance of city buildings. —(Engineering News-Record).

## AMERICAN CONCRETE INSTITUTE TO CONVENE IN PHILADELPHIA

The 24th annual convention of the American Concrete Institute will be held in Philadelphia Feb. 28—March 1. This is the first time since the 1919 meeting at Atlantic City that the convention has been held in the East. The annual conventions in 1920, 1921 and from 1924 to 1927, inclusive, were held in Chicago; the 1923 convention at Cincinnati, and the 1922 convention in Cleveland. At the 1919 convention the Institute had a membership of less than 400 and it now reports a membership of more than 2400. Nearly half of the membership in the United States is east of Pittsburgh.

## ANDORRA TO SPAIN HIGHWAY

Andorra, the almost inaccessible principality in the Pyrenees, north of Spain, will be opened to the outer world by means of the construction of a \$3,000,000 modern highway that will replace the present mule paths. The area to be thus made accessible contains some 400 square miles, containing valuable resources,

## CANAL SYSTEMS FOR NEW FEDERAL RECLAMATION PROJECT

Some 16 miles of concrete-lined tunnels, 4½ miles of steel siphons under hydrostatic heads up to 350 ft. and several miles of concrete bench flumes and siphons will be involved in the construction of the 350 miles of main canal required for six new projects of the U. S. Bureau of Reclamation, the cost of which will exceed \$25,000,000. Parts of the main canal construction for the Owyhee, Vale and Kittias projects are the most difficult and expensive yet undertaken by the bureau, with the possible exception of that of the main canal of the Tieton project. The funds appropriated and available during 1927 and 1928 for these canal systems are \$5,780,000, largely for the Kittias and Vale canal construction. The construction of the first section of the Kittias canal has been in progress since last July under contract with the United Construction Co.

## CANADIAN BRICK SIZES STANDARDIZED

The Canadian Engineering Standards Association, at a recent meeting in the offices of the National Research Council, in Ottawa, voted to standardize on one size of common and two sizes of face brick. The standards, which agree with those decided upon in the United States, are as follows:

Common Brick ..... 8x2½x3¾  
Rough Face Brick ..... 8x2½x3¾  
Smooth Face Brick ..... 8x2½x3¾

This standardization, accepted by the brick industry, is expected to promote economy in manufacture and in use. As soon as it is officially approved by all interests, a new standard specification will be prepared and given distribution.

## ARCHITECTURAL SECRET

Russia's "house of cards" still holds its secret. The magic construction of the old imperial riding academy's roof at Moscow, which doesn't have a beam, brace or pillar, has again baffled inquisitive architects and engineers who tried to find out how it was put together.

## FREIGHT CAR LOADINGS

Revenue freight car loadings exceeded a million cars for the sixth time this year for the week ending May 14. The total was 1,029,126 cars, a decrease of 622 cars under the corresponding week last year, but an increase of 4710 over the preceding week of 1927.

## TOLEDO TO REPAVE STREETS

Bids were opened recently in Toledo, Ohio, covering the repaving of 14 streets and several alleys. The total cost of the work to be done this year will be about \$2,500,000. This one letting involves the expenditures of a half million dollars.

## BRIDGES TO COST \$11,000,000 TO BE BUILT IN TENNESSEE

The Department of Highways and Public Works of Tennessee will place under contract within the next two years 16 river bridges, estimated to cost \$11,000,000. Contractors interested in this work should write to the State Department of Highways and Public Works, Nashville, Tenn.; and their names will be placed on the mailing list so that they will receive notices of the call for bids for the respective structures, when they are issued.

Prentiss Paying Company of San Jose, capitalized for \$75,000, has been incorporated. Directors are: Chas E Prentiss, R. L. Ballenger, D. L. Morrison and Grayce L. Prentiss, all of San Jose.

# THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Roy Lemoin will operate in the East Bay section under the firm name of Empire Construction Company.

Absolute denial that any consolidation involving the Republic Iron and Steel Company is under consideration was made in a formal statement by John A. Topping, chairman of the Company. He also declared that no one stockholding interest is in control of the company. Topping's statement was made in answer to a revival of rumors that a merger of Republic Iron and Steel, Trumbull Steel, and Central Alloy Steel Corporation is in immediate prospect.

City of Burnhamge has voted bonds of \$225,000 to finance improvements to water system in addition to an \$85,000 issue for installation of a fire alarm system.

Stanford Board of Athletic Control has authorized an addition of 16,500 seats to the Stanford University Stadium at Palo Alto. The addition will involve an expenditure of \$163,000.

A new social order for women may be formed in Central California as a result of the Big Trees, Calaveras county, outing of the Hoo-Hoo Club of Central California, it is revealed by Chas. G. Bird, who presided at the outing. A group of nine, headed by Bob Grant, vicegerent snark for San Francisco, was appointed to plan an impromptu ritual for the organization of a woman's auxiliary, to be known as the Order of the Great White Cat.

All States Building Company of Nevada State has filed articles of incorporation with the secretary of state at Sacramento. The company is capitalized for \$1,400,000. Directors are: Paul G. Selsen, Russell R. Riddell and C. O. Blackburn, all of Los Angeles.

Proceedings have been started by the Berkeley city council to improve Euclid avenue from Eunice street to Grizzly Peak Blvd. The work will cost in the neighborhood of \$156,500, according to A. J. Eddy, city engineer.

Stock, Maas & Sauer report the sale of a seven-story steel frame apartment building at Washington street and Van Ness avenue to A. Pincus of the Columbia Theatre. The structure contains twenty-one 3 and 4-room apartments.

West Side Irrigation District in Stanislaus County, by a vote of 52 to 1, authorized the issuance of \$1,216,000 in bonds to finance construction of irrigation works to provide for 21,000 acres in the vicinity of Patterson.

Jordan Concrete Pipe Co., capitalized for \$100,000, with headquarters at Selma, has been incorporated. Directors of the company are: Iredell Jordan of Selma, president; Wm. T. Chutter of Santa Monica, vice-president, and Harold W. Chutter of Selma, secretary. The company was organized in 1917 for the manufacture of concrete pipe, several years later the company expanded and opened plants in Madera, Blosin, Fresno and Corcoran.

Santa Fe Railroad authorized by Interstate Commerce Commission to construct fifteen miles of new railroad in Maricopa county, Arizona, to serve the Beardsley Irrigation project.

Concrete plans for the expenditure of the \$15,000,000 which the Western Pacific Railroad has set aside for immediate improvement and extension of its lines were set under way with the announcement of the engineering personnel to take over these projects. The following men were named by the railway as chiefs in the new plan: B. J. Simmons, engineer of maintenance of way and structures; T. L. Phillips, principal assistant engineer E. P. Peterson, assistant engineer in charge of projects in San Francisco, and R. I. Gloster, office engineer. Simmons was formerly with the Santa Fe Railroad in a similar capacity and later with the Northwestern Pacific. Phillips was in the engineering department of the Western Pacific during the construction of the road.

Elmer J. Clausen, 36, San Diego lumberman, died in a Modesto hospital May 25 as the result of an automobile accident May 24. Clausen was returning from a visit with relatives at Stockton when his car overturned near Modesto. His widow survives.

Transfer of flood control management of the Sacramento-San Joaquin drainage district from the state reclamation board to the department of public works and a bond issue of \$16,000,000 to take care of outstanding bonds, was effected when Governor Young signed a bill by Senator J. M. Inman, Sacramento. To carry out the provisions of the Inman bill, Governor Young also approved a measure by Senator Frank S. Boggs, Stockton, to provide \$150,000 for the maintenance of flood control features. The appropriation was reduced \$50,000 by the governor. The measure was sponsored by Governor Young, who told the legislature that landowners in the district faces ruin unless the indebtedness was wiped out and reclamation work placed on a sound basis.

A one million dollar bond issue for reconstruction of Oakland-Alameda bridges is contemplated by the Alameda county supervisors. The Alameda city council has adopted a resolution requesting the Board of Supervisors to consider the bond issue for reconstruction of the High street, Fruitvale and Park street bridges. The bridge problem has become important, it is pointed out, through the refusal of the War Department to permit repairs to the High street bridge, designated as a menace to navigation.

Negotiations are reported to be in progress to bring about a merger of the Lehigh Portland Cement Company and International Cement Company. Lehigh is possibly the largest producer of Portland cement in the country, while the International is an important factor in the United States, as well as in Cuba, Argentine and Uruguay.

Reports of negotiations for the sale or merger of the Paraffine Companies, Inc., are denied by R. S. Shainwald, vice-president of the company. It was reported that Certainated Products was seeking a merger.

Secretary Hoover says "the entire nation is vitally interested in the continued liberal use of lumber" and "that it is estimated less than 50 per cent of the average tree content is converted into marketable products."

Sacramento labor unions are backing the proposal to place a citizen labor initiative ordinance on the ballot at the coming city election. The ordinance would make mandatory employment of American citizens and residents of Sacramento for one year on all work done by or supervised by the city and fixes the minimum pay at \$4 a day.

J. A. Vorhees has equipment installed and will shortly start mining of asbestos on an extensive scale, a few miles from the Melones reservoir near Oakdale. The fibre will be turned over to the Asbestos Industries Co., recently organized by Oakdale and Modesto interests, under the direction of Harry Leech of Oakland. A six mile road has been constructed to the Knights Ferry Highway and the asbestos will be hauled to Oakdale by motor truck.

Official investigation is being made of a fire which threatened the pier and yards of the Tilden Lumber Company at the foot of University avenue, Berkeley, May 26. Fanned by a strong wind the flames were making quick headway underneath the pier when the fire department arrived. A large suction hose lowered into the bay provided several streams, extinguished the blaze.

Assemblyman Roy J. Nielsen of Sacramento has been appointed by Speaker Edgar C. Levey, San Francisco, of the California assembly as a member of the legislative committee to investigate the feasibility of extending the employment of convict labor. Assemblyman Charles F. Reindollar of San Rafael also was named on the committee.

Healdsburg Lumber Co. of Healdsburg, capitalized for \$40,000, has been incorporated. Directors are L. D. Gilbert, A. F. Gilbert and B. H. Gilbert.

Stanislaus County Grand Jury in report to county supervisors recommends a \$500,000 bond issue to finance erection of a new county courthouse and jail building. A proposal to issue bonds for the improvements was rejected by the voters some time ago.

An extremely interesting address given by Wilson Compton, secretary, before the National Lumber Manufacturers' Association, is now available in pamphlet form. Copies can be secured from the office of the association, Transportation Bldg., Washington, D. C.

Equipping the state motor vehicle department for a drive to halt over-weight trucks from operating on state highways, the state board of control has authorized the purchase of 20 scales to be used by traffic officers in weighing trucks believed to be carrying over the legal limit. The legal maximum for four-wheeled vehicles is 22,000 pounds.

Dismantling of the sawmill of the Verdi Lumber Company at Verdi, Nev., is proceeding and removal of rails from the logging road is being completed. The mill will be reassembled on the Ramelli timber tract, and logs hauled on trucks to the railroad. Dismantling of the mill practically ends important lumbering operations at Verdi, for many years Nevada's leading lumber center.

Chas. S. Norton was elected president of the Portland, Ore., Building Material Dealers' Credit Association at the annual dinner meeting of that body held at the Heathman Hotel, Portland.

Spec. 5332, excavating and grading in vicinity of contagious disease ward at naval operating base, San Diego, L. B. Butterfield, San Diego, \$2795, 30 days.

## HALLS AND SOCIETY BUILDINGS

RIVERSIDE, Cal.—A campaign will be conducted in Riverside from June 6

SANDY PRATT joined the multitude.

AND WENT to the country.

FOR THE Memorial Day vacation.

SANDY VISITED Tulare.

WHERE THOUSANDS of relatives.

BOTH BLOOD and marriage live.

AND A picnic.

ON THE Kaweah River.

WAS SUGGESTED for May 30th.

AND AFTER hours of arguing.

THE PARADE of three loaded autos.

WAS STARTED at 10:30 A. M.

SOON THE river was reached.

AND THE problem.

OF SELECTING a suitable spot.

FOR THE lunch started.

MAY, SANDY'S sister-in-law.

DID NOT like the first place.

ON ACCOUNT of limited shade.

ALTHOUGH HER husband.

SAID THIS particular spot.

WAS THE best.

ON THE river.

WE THEN drove miles.

'TIL THE parade was halted.

AND THE river bank.

WAS AGAIN explored.

BUT JESSE, another sister-in-law.

OBJECTED TO too many rocks.

CLARENCE (SANDY) Pratt, producer.

OF ROCK, sand and gravel.

LIKED THE "rocky" shore.

BUT THE women won.

AS USUAL.

AND WE drove for miles.

UP THE stream.

STOPPING AT thousands of places.

BEAUTIFUL, SHADY and everything.

BUT IF May liked it.

IT DID not suit Charley.

OR LUKE knew a better place.

AND FINALLY late.

IN THE afternoon.

WHEN ALL were exhausted.

FROM ARGUING.

AND THE long ride.

AND WEAK from lack of food.

WE STOPPED.

BEHIND A prospector's cabin.

AND ATE our lunch.

IN HIS back yard.

NOT HALF as clean.

AS THE grass-covered back yards.

OF ANY of the sisters-in-law.

THAT WERE in the party.

AND AFTER the lunch.

WE FOUND it was late.

AND THAT we had.

SPENT THE whole day.

SELECTING A picnic ground.

SO WE packed up hurriedly.

SO WE could get.

DOWN ON the main highway.

OFF OF the steep grades.

BEFORE DARKNESS came.

"I THANK you."

Did you ever go on a picnic and argue for hours on which spot was the best? Clarence (Sandy) Pratt, president of the Pratt Building Material Company, and producer of clean sand, rock and gravel at Sacramento, Marysville, Prattrock (near Folsom), Prattco (Monterey County) and Mayhew (Sacramento County), just returned from such a trip (see above K.C.B.-like part of "Pratt's Concrete Mix.")

to June 15 to raise funds with which to erect a Y. W. C. A. building at Riverside. It is planned to erect a building to cost \$150,000.

LOS ANGELES, Cal.—Mark Daniels, Administration Bldg., Bel-Air, has been commissioned to prepare plans for a clubhouse to be erected for the Biltmore Country Club which has been organized by Jas. Wood and Chas. Band of the Los Angeles Biltmore Hotel, and associates. Six hundred acres in Pacoima canyon have been purchased and golf courses will be constructed by Wm. P. Bell, golf architect. The clubhouse will be reinforced

concrete construction. The purchase of site and development of property will represent an expenditure of \$1,000,000.

Contracts Awarded.

# Official Proposals

## STATE OF CALIFORNIA CALIFORNIA HIGHWAY COMMISSION

### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of The California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock p. m. on June 27, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

Modoc County, a bridge across Rattlesnake Creek, 2 miles west of Alturas (H-Mod-28-B) consisting of two 35-foot reinforced concrete girder spans.

Contra Costa County, a reinforced concrete bridge across Wildcat Creek, about one-quarter mile north of Richmond (IV-C.C-14-A), consisting of one 34-foot girder span and two 15-foot slab spans. Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineer's offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,

J. P. BAUMGARTNER,

M. B. HARRIS,

California Highway Commission.

R. M. MORTON,

State Highway Engineer.

E. FORREST MITCHELL,

Secretary.

Dated: May 31, 1927.

### PROPOSALS FOR BIDS

(Davis Joint Union High School District)

Sealed bids will be received at the office of the Davis Joint Grammar School, Davis, California, at or before 7:30 P. M., June 13, 1927, for the general construction of the gymnasium of the Davis Joint Union High School, Davis, Calif.

Drawings and specifications may be obtained at the office of Starks & Flanders, Architects, Oschner Bldg., Sacramento, California, on a deposit of \$10.00 for each set of drawings and specifications taken out. Deposits will be refunded upon submission of a regular bid, and on return of said drawings and specifications in good condition. No bids will be considered unless accompanied by a certified check in favor of the undersigned, equal to 10 per cent of the amount of the bid, to assure execution of the contract by the successful bidder. Bid bonds will not be accepted. A full set of plans and specifications are on file at the office of the Clerk of the Board of Trustees of the Davis Joint Union High School, Davis, California.

The right is reserved to reject any or all bids.

BOARD OF TRUSTEES OF THE  
DAVIS JOINT UNION HIGH SCHOOL.

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

### STANDARD GOVERNMENT FORM OF INVITATION FOR BIDS (Construction Contract)

### UNITED STATES DEPARTMENT OF AGRICULTURE BUREAU OF PUBLIC ROADS

San Francisco, Calif., May 28, 1927.

SEALED BIDS, in single copy only subject to the conditions contained herein, will be received until 10 o'clock a.m. on the 16th day of June, 1927, and then publicly opened, for furnishing all labor and materials and performing all work for constructing the Trinity River Bridge at Cedar Flat on the Trinity River National Forest Highway Route No. 3, located in the Trinity National Forest, Trinity County, State of California.

The project consists of the erection of a 200-foot steel truss bridge on concrete piers and the construction of five 40-ft. concrete approach spans. The principal items of work are approximately as follows:

Unclassified excavation for structures, 813 cu. yds.

Backfill, 450 cu. yds.

Class A Concrete, 67 cu. yds.

Class B Concrete, 442 cu. yds.

Class C Concrete, 189 cu. yds.

Class D Concrete, 372 cu. yds.

Reinforcing Steel, 81,500 lbs.

Structural Steel, 273,000 lbs.

Where copies of plans and specifications are requested, a deposit of \$10.00 will be required to insure their return. If these are not returned within 15 days after opening of bids the deposit will be forfeited to the Government. Checks should be certified and drawn to the order of the Federal Reserve Bank of San Francisco.

Guarantee will be required with each bid as follows:

In the amount of five (5) per cent of the bid.

Performance bond will be required as follows: In the amount of seventy-five (75) per cent of the total contract price. Performance shall begin within 10 calendar days after receipt of notice from the District Engineer to proceed and shall be completed within 150 calendar days from that date.

Liquidated damages for delay will be the amount stated in the Special Provisions for each calendar day of delay until the work is completed and accepted.

Partial payments will be made as the work progresses for work and material

delivered, if such work and material meet the approval of the contracting officer.

Article on patents will be made a part of the contract.

Bids must be submitted upon the Standard Government Form of Bid and the successful bidder will be required to execute the Standard Government Form of Contract for Construction.

The right is reserved, as the interest of the Government may require, to reject any and all bids, to waive any informality in bids received, and to accept or reject any items of any bid, unless such bid is qualified by specific limitation.

Envelopes containing bids must be sealed, marked, and addressed as follows:

Bid for Bridge Construction, Trinity River Bridge, to be opened 10 a. m., June 16, 1927, 807 Sheldon Building, 461 Market St., San Francisco, California.

C. H. SWEETSER,  
District Engineer, U. S. Bureau of  
Public Roads.

NOTE—See Standard Government Instructions to Bidders and copy of the Standard Government Form Contract, Bid Bond, and Performance Bond, which may be obtained upon application.

### NOTICE TO CONTRACTORS

(Salinas Union High School District)

Notice is hereby given that sealed proposals are invited and will be opened by the Board of Trustees of the Salinas Union High School District, Monterey County, State of California, on the 16th day of June, 1927, in the high school building of said school district in the County of Monterey, State of California, for the erection and completion of a gymnasium building in said school district, for the installation of a heating system therein—for the installation of a plumbing system there, and for alterations and additions to the High School building, for the above named district, all in accordance with plans and specifications made for the same by Ralph Wyckoff, the authorized architect, employed by the Board. Proposals will be received separately with alternate propositions on a general contract, plumbing and heating, including everything specified and shown.

Plans and specifications can be seen at the office of Ralph Wyckoff, Growers' Bank Bldg., San Jose, California.

A deposit of twenty Dollars (\$20.00) cash will be required on all plans loaned out as a guarantee of good faith.

All proposals to be made out on bank forms, furnished by the architect, and must be accompanied by a check for not less than five per centum of the amount of the bid, made payable to E. L. Van Dellen, Clerk of the Board, and certified to by some responsible banking house. This check is to be forfeited in the event that the successful bidder, after having been awarded the contract, fails within ten (10) days to sign the contract and furnish good and sufficient bonds satisfactory to the Trustees, and as required by law.

Bids will be received up to and including June 16, 1927, at 7:30 P. M., and must be addressed to E. L. Van Dellen, Clerk of the Board of Trustees of the Salinas Union High School District, Salinas, California.

The Board reserves the right to reject any or all bids.

By order of the Board of Trustees, dated May 18, 1927.

E. L. VAN DELLEN,  
Clerk, Board of Trustees.

NOTICE TO CONTRACTORS  
(Sunnyvale School District)

NOTICE IS HEREBY GIVEN that the Board of Trustees of Sunnyvale School District of Santa Clara County hereby calls for sealed proposals to be delivered to Fred T. Butler, Clerk of said Board of Trustees, until Tuesday, the 22nd day of June, 1927, at eight o'clock P. M., at the Sunnyvale School Building, Sunnyvale District, Santa Clara County, California, at which time said bids will be opened for the erection and completion of a building containing three rooms and colonnade. These bids shall be presented in accordance with plans and specifications for said building on file with Wolfe & Higgins, Architects, 2-3-4 Realty Bldg., San Jose, California, and with Fred T. Butler, Sunnyvale School District, Santa Clara County, California.

General work, including excavating and grading, concrete, carpenter work, interior equipment, miscellaneous ornamental and structural iron, sheet metal, built-up roofing and painting work, electrical work, and roofing, brickwork, lathing and plastering, blackboards and plumbing and heating.

Complete sets of plans and specifications may be had by any bidder on application to said Wolfe & Higgins, architects, or to said Fred T. Butler, at the places hereinbefore mentioned and in each case shall be returned within one (1) week after securing the same.

Bids must be made on proposals obtained from said Wolfe & Higgins, architects, or from said Fred T. Butler, at their addresses above mentioned, and must be signed by the bidder and accompanied by a certified check certified by some responsible bank or banker and be made payable to Fred T. Butler, Clerk of the Board of Trustees of the Sunnyvale School District, to be retained by said school district as agreed and liquidated damages should the party or parties to whom the contract be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall be for at least 10 per cent of the amount of the bid.

Bids will be opened by the Board of said district on Tuesday, the 22nd day of June, A. D., 1927, at 8 o'clock P. M., at the Sunnyvale School Building, in the Sunnyvale School District, Santa Clara County, California.

The Board reserves the right to reject any and all bids or any or all items of such bids.

FRED T. BUTLER,  
Sunnyvale School District of Santa Clara County of California.

NOTICE TO BIDDERS

(San Rafael—Board of Education)

Bids will be received by the Board of Education of the City of San Rafael for the installation and completion of the intercommunicating telephone, clock and program signal system in and between the vocational building and the main high school building, in accordance with specifications on file with the secretary.

Bids are to be segregated under the headings of: 1. Complete installation and completion; 2. Complete installation and completion, clocks omitted.

All bids must be entered on or before eight P. M., June 14, 1927, with the Secretary of the Board at the office in the San Rafael High School.

OLIVER R. HARTZELL,  
Secretary.

NOTICE TO BIDDERS

(Frigidaire Equipment—Coalinga Grammar Schools)

Bids will be opened on June 11, 1927, at 2 P. M., in the Board room at Coalinga High School for the following equipment:

- 1 No. G Frigidaire Compressor.
- 1 No. 2 Frigidaire Water Cooler.
- 2 No. K Frigidaire Compressors.
- 2 No. 6 Frigidaire Water Coolers.

Bids are to be for equipment installed. The Board reserves the right to reject any or all bids.

(SIGNED) C. E. HALLIBURTON,  
Clerk.

Henry Harder has been authorized by the San Francisco Board of Supervisors to operate a planing mill at Bayshore Highway and Oakdale Avenue.

CAN BUSINESS REGULATE ITSELF?

The way is now open, according to Judge Edwin B. Parker, chairman of the Board of the Chamber of Commerce of the United States, for setting up the machinery by which business and government can co-operate to eliminate wasteful and questionable trade practices.

He urged, in an address before the domestic distribution section of the national chamber, the organization of Joint Trade Relations Committees along vertical lines to pass upon trade customs and practices which are a source of waste. The findings of the committees, he said, can be passed upon by the Federal Trade Commission in the interest of the general public.

"Where representatives individuals in each branch of an industry agree," said Judge Parker, "that a particular practice constitutes a trade abuse, it is apt to be such. However, there is another interested class—the ultimate consumer—whose voice should be heard that the trade as a whole may not gain any undue or selfish advantage at his expense. This class may be properly represented by the Federal Trade Commission, a wholly disinterested public agency. When the Joint Trade Relations Committee, formed in the manner which has been suggested, agrees that a particular practice constitutes a trade abuse and its report is approved by the Federal Trade Commission, it may be accepted as not only in the interest of the trade, but in the general public interest."

COCHRAN NAMED OAKLAND MANAGER FOR CALIFORNIA POTTERY

Promotion of Charles B. Cochran, San Joaquin Valley manager for the California Pottery Company, to be general sales manager of the company with headquarters at Oakland, is announced at Fresno. Cochran will assume his new duties about June 15. Cochran was a resident of Fresno since April, 1920, and was San Joaquin Valley manager for the California Pottery Company since June, 1921. He was active in the Fresno County Chamber of Commerce, the Elks and American Legion.

REPRINTS COMPLETED ON CODE REQUIREMENTS

The demand for the building code committee's report on recommended building code requirements for working stresses in building materials, which was printed in December, 1926, quickly exhausted the supply of 5,000 copies. The paper has been reprinted, and is again available at 10 cents per copy from the Superintendent of Documents, Washington, D. C.

PLASTER ORDINANCE PASSED

The Los Angeles city council has passed the ordinance to regulate exterior and interior plastering recommended by the building and safety commission, and it now awaits the action of the mayor. Minimum requirements are fixed by the ordinance which was sponsored by the Contracting Plasters' Association of Southern California for the protection of the public.

PARTNERSHIP DISSOLVED

Keith Lockard and Roland F. Sauter, who have been associated in the practice of architecture at Santa Barbara for the past five years, have dissolved partnership. Mr. Sauter will continue the present offices and Mr. Lockard has established new offices on East De la Guerra St., Santa Barbara.

L. T. Mott, chief housing inspector of the State Commission of Immigration and Housing, was in Santa Barbara recently, making an investigation of fire escapes, sanitation, ventilation and other provisions of the state housing act.

May Building Figures Run High

Building construction undertaken in San Francisco during the month of May, 1927, represented an expenditure of \$4,979,792, according to figures compiled by the Bureau of Building Inspection, Department of Public Works. During the month the bureau issued 905 permits.

The May operations, according to valuation, are the highest recorded for the current year, the next best month being April, when 963 permits were issued for improvements aggregating an expenditure of \$4,939,212.

May, 1926, operations totaled \$27 permits, the improvements being estimated to cost \$2,634,875.

Following is a list of the May, 1927 activities as classified by the Department of Public Works:

Class	No. of Permits	Est. Cost
A .....	3	\$ 695,000
C .....	35	1,127,502
Frames .....	347	2,510,311
Alterations .....	516	470,651
Public Bldgs. ....	2	51,328
Harbor Bldgs. ....	2	125,000
	905	\$4,979,792

For comparison, the figures for the past five months are published herewith:

Month	No. of Permits	Est. Cost.
January .....	693	\$3,528,955
February .....	623	3,210,978
March .....	900	4,685,162
April .....	963	4,939,212

SECRET WIRELESS DEVICE

A new device for the transmitting of the human voice has been announced in Italy by Professor Quirimo Majorana, known as the "Father of Wireless Telephony." The wireless transmission of speech is by means of ultra-violet rays. The advantage of the new device is that the method is secret in that the voice or other signals cannot be intercepted by anyone who does not happen to be on a straight line between the sending and receiving station. It will, therefore, have an important application in war.

MANUFACTURE OF FIXTURES WILL BE TOLD IN FILM

The Standard Sanitary Manufacturing Company will exhibit a new moving picture at the Builders' Exchange in Oakland tomorrow evening. The film will feature the manufacture of enameled plumbing fixtures, vitreous china, plumbers' brass goods and white closet seats. The picture will be educational as well as interesting. Every member of the construction industry is invited to attend.

## BRIDGES

**SANTA ANA, Cal.**—Western Construction Co., 144 N. Larchmont Blvd., sub. low bid to county at \$54,663 to const. 8-span conc. bridge, 432 ft. in length, on the state highway over San Juan Creek. Other bids: Gutleben Bros., \$64,810.55; S. M. Kerns, \$65,955.75; L. J. Bristow, \$66,796.09; Chas. Steffen, \$70,135.95; W. M. Ledbetter & Co., \$72,414.78; John C. Gist, \$74,874.55; V. R. Dennis Constr. Co., \$84,346.90. Award will be made May 31.

**LOS ANGELES, Cal.**—The Western Constr. Co., 144 N. Larchmont Blvd., sub. low bid to Bd. Pub. Wks. at \$233,260 to const. North Spring St. bridge across Los Angeles River and Santa Fe and Union Pacific tracks, invol. arch centers at \$15,990, reinf. steel in place at \$37,517, 6225 cu. yds. class A concrete at \$14.70 yd., 320 cu. yds. class C concrete at \$13.85 yd., 2950 cu. yds. class D concrete at \$17 yd., grading and fills complete, \$1636, remove existing bridge at \$15,416, etc.

**RIVERSIDE, Cal.**—H. G. Klusman, Cucamonga awarded cont. by county at \$24,995 to const. reinf. conc. arch bridge 260 ft. in length with 24-ft. roadway over Temecula river on Riverside county highway route 12-C.

**SACRAMENTO, Cal.**—State Highway Commission will prepare plans to widen M St. bridge over Sacramento river; proposed to eliminate pedestrian lanes on both sides of bridges to permit full-width rdwy. Pedestrian lanes would be rebuilt overhead.

**OAKLAND, Cal.**—County supervisors contemplate bond issue for \$1,000,000 to reconstr. Oakland-Alameda bridges. Geo. A. Posey, county surveyor.

**SAN JOAQUIN CO., Cal.**—As previously reported, bids will be rec. by State Highway Comm. June 13, to const. reinf. conc. girder bridge across Stockton Division Canal, 1½ mi. north of Stockton, consisting of eight 35-ft. spans. Project involves: 2025 lin. reinf. conc. piles, 610 cu. yds. Class A and 28 cu. yds. Class B cem. conc. and 118,000 lbs. reinf. steel.

**SAN GABRIEL, Cal.**—Bond issue for \$8000 for new bridge on Hermosa Dr., \$8000 for bridge on Live Oak St., and \$12,000 to const. flood control flumes in washes carried at recent election.

**CONTRA COSTA COUNTY, Cal.**—Until June 27, 3 P. M., bids will be rec. by State Highway Comm. to const. reinf. conc. bridge over Wildcat Creek, ¼ mi. north of Richmond, consisting of one 34 ft. girder span and two 15 ft. slab spans. See call for bids under official proposal section in this issue.

**MODOC COUNTY, Cal.**—Until June 27, 3 P. M., bids will be rec. by State Highway Comm. to const. bridge over Rattlesnake Creek, 2 mi. west of Alturas, consisting of two 35 ft. reinf. conc. girder spans. See call for bids under official proposal section in this issue.

**TRINITY COUNTY, Cal.**—Until June 16, 10 A. M., bids will be rec. by C. H. Sweetser, Dist. Engr., U. S. Bur. Pub. Rds., Sheldon Bldg., San Francisco, to const. Trinity River bridge at Cedar Flat, consisting of 200 ft. steel truss bridge on conc. piers and const. of five 40 ft. conc. approach spans, invol. 813 cu. yds. unclassified excavation for structures; 450 cu. yds. backfill; 67 cu. yds. "A" conc.; 442 cu. yds. "B" conc.; 189 cu. yds. "C" conc.; 372 cu. yds. "D" conc.; 81,500 lbs. reinf. steel; 275,000 lbs. structural steel. See call for bids under official proposal section in this issue.

**CRESCENT CITY, Del Norte Co., Cal.**—County supervisors appropriate \$50,000 to finance const. of bridge across Smith River in Elk Valley on new high-

way; State Highway Commission will construct and maintain the structure.

**SAN GABRIEL, Cal.**—City Engineer Wright, Trustee Haas, and City Clerk Ira H. Stouffer named a committee to make necessary arrangements for const. of three bridges authorized under recent \$28,000 bond issue.

**ALAMEDA COUNTY, Cal.**—As previously reported, bids will be rec. by State Highway Comm., June 20, to const. 3 bridges in Alameda county. Project involves: 360 cu. yds. struct. excav. (3 bridges); 340 cu. yds. A cem. conc. (Arroyo Las Positas); 14 cu. yds. A cem. conc. (Arroyo Las Positas); 66,000 lbs. reinf. steel (Arroyo Las Positas); remove existing bridge (Tassajero Creek); 210 cu. yds. A cem. conc. (Tassajero Creek); 10 cu. yds. E cem. conc. (Tassajero Creek); 37,000 lbs. reinf. steel (Tassajero Creek); remove portions of bridge (Alamo Creek); 90 cu. yds. A cem. conc. (Alamo Creek); 8 cu. yds. E cem. conc. (Alamo Creek); 4400 lbs. reinf. steel (Alamo Creek); 23,000 lbs. struct. steel (Alamo Creek); 190 cu. yds. struct. backfill (three bridges).

**SACRAMENTO, COUNTY, Cal.**—As previously reported, bids will be rec. by State Highway Comm. June 20, to const. timber bridge, 1672 ft. long, over Sacramento river near Rio Vista, consisting of forty-one 40-ft. spans and two 16-ft. spans. Project involves: 220 creosoted Douglas fir piles in place; 190 M ft. b. m. Douglas fir timber, sel. com stringers; 490 M ft. b. m. Douglas fir timber, sel. com. structural; 3900 sq. yds. asph. Type E (Mastic); 11,200 lbs. steel castings; lighting equipment, complete. Commission will fur. creosoted Douglas fir piles.

## IRRIGATION PROJECTS

**PHOENIX, Ariz.**—Proposed work in Roosevelt Irrigation District, for which bids will be received by the district shortly, follows:

**Main Canal**—25 miles long, located from 3 to 20 miles northeast, north and northwest of Buckeye, Ariz. Work involving 400,000 cu. yds. of excavation.

**Structures**—Constructing 46 structures for main canal, work involving: 26,000 FBM Oregon Pine, 52,000 FBM common Redwood, 350 cu. yds. reinf. conc., 50 cu. yds. plain concr., 15,300 lbs. reinf. steel, 2000 cu. yds. found. excav., 480 lin. ft. 24-in. corr. iron pipe, 240 lin. ft. 30-in. corr. iron pipe, also construction of drainage structures, work involving: 2000 FBM Oregon Pine, 21,000 FBM Common Redwood, 1300 lin. ft. 16-gauge corr. iron pipe, various sizes, 192 ft. No. 60 metal flume, 18 gauge, 500 cu. yds. concr., 500 cu. yds. foundation excavation.

**Metal Flume**—Construction of metal flume across the Agua Fria River, about 12 miles west of Phoenix, Ariz., work involving: 5960 lin. ft. No. 228 metal flume, 14 gauge, supported for 2272 lin. ft. by timber trestle on concrete footings, for 2320 lin. ft. by timber trestle on creosoted piles; and 1368 lin. ft. by steel truss on concrete piles. Alternative bids on the above submitted by contractors will be given consideration.

**Collection Canal System**—25 miles in length, located from 1 to 15 miles west of Phoenix, Ariz., work involving: 345,000 cu. yds. excav., 179 struc. involving 490,000 sq. ft. gunite lining, 1650 cu. yds. reinf. concr., 114,000 lbs. reinforcing steel, 88,000 FBM Oregon pine, 88,000 FBM Common Redwood, 1046 ft. No. 60 metal flume, 18 gauge, 174 ft. No. 132 metal flume, 18 gauge, 816 ft. 12-in. reinf. concr. pipe, 120 ft. 18-in. reinf. concr. pipe, 120 ft. 18-in. reinf. concr. pipe, 913 ft. 30-in. corr. pipe, 52000 cu. yds. foundation excavation.

**Distributing Laterals**—38 miles in length, located from 1 to 20 miles from Buckeye, Ariz., involving: 132,000 cu. yds. excav. Bids will probably be taken on the project as follows: (1) Main distributing system, excavation and structure. (2) Agua Fria bridge and flume constr., part wood and steel with alternative bids for steel with pile foundation. (3) combination bids on various sections of project, (4) collection canals and necessary structures. C. H. Loveland, Inc., Engr., 144 N. Second St., Phoenix, Ariz., or Balboa Bldg., San Francisco.

**PHOENIX, Ariz.**—An agreement has been reached bet. Salt River Valley Water Users' Assn. and Verde Irrigation District, whereby about 80,000 acres of land in the Paradise and Deer Valleys will be placed under an irrigation system similar to that in use in Salt River Valley. The project will involve an expenditure of \$5,000,000 or more, and calls for the construction of one or more dams and reservoirs similar to the Horse Mesa dam, with power plants, canals, power lines, etc. C. C. Cragin is superintendent and engineer for the water user's association. The agreement settles certain disputed points regarding water rights which have been the subject of controversy for many years.

**MODOC COUNTY, Cal.**—Frank McArthur, Alturas, granted permit by State Dept. of Pub. Wks., Division of Water Rights, to appropriate water from Crooks Canyon drainage area for a 5000-acre irrigation project. Construction contemplated will involve an expenditure of \$75,000.

## LIGHTING SYSTEMS

**BEVERLY HILLS, Cal.**—Until 8 p. m. June 20, bids will be rec. by city for ornamental lights in Country Club Dr., from Beverly Dr. to Roxbury Dr. Whitworth Dr., Virginia Pl. and other streets;

Marbelite posts; 1911 Act. B. J. Firminger, city clerk.

**SANTA CRUZ, Santa Cruz Co., Cal.**—Until June 7, 2:30 p. m., bids will be rec. by I. E. Miller, county clerk, to fur. and maintain lights for Capitola Highway Lighting District. Spec. obtainable from clerk.

**LOS ANGELES, Cal.**—Newbery Electric Corp., 726 S. Olive St., awarded cont. by county at \$130,728 for ornamental lights in Long Beach Blvd. and portions of other streets, C. I. No. 641, involv. portions of other streets, C. I. No. 641, involv. Union Metal Co.'s standards; \$137,000.

**LOS ANGELES, Cal., A. C. Rice, 1957 Santee St.**, was awarded cont. by Board of Public Works at \$34,840 for ornamental lights in Mesmer Ave., bet. n. e. terminus of Mesmer Ave. and Esplanada.

**HEALDSBURG, Sonoma Co., Cal.**—City declares inten. (13) to install single standard electroner system with underground system in Johnson St., bet. Pipe St. and north city limits. 1911 Act, Bond Act 1915. Protests June 13. D. A. Bane, city clerk.

**CULVER CITY, Cal.**—Petitions asking for Marbelite posts on Culver Blvd., Washington to west city limits, and Overland Ave., and other streets have been filed with city trustees.

**LONG BEACH, Cal.**—Until 9 a. m., June 7, bids will be rec. by city for ornamental lights in Pacific Ave., bet. State and Willow Sts., involv. Union Metal posts, conduits, lamps, etc.; 1911 Act. H. C. Waup, city clerk. R. D. Van Alstine, city engineer.

**GLENDALE, Cal.**—Newbery Electric Co., 726 S. Olive St., sub. low bid to city at \$19,928 for ornamental lights in Broadview Dr., Valverde Pl., Arlington Ave., Angelus Ave. and other streets.

**SAN JOSE, Santa Clara Co., Cal.**—Newbery-Pearce Electric Co., 439 Stevenson Street, San Francisco, at \$14,284 awarded cont. by city to install electrolier system in Santa Clara St. bet. 7th and 13th Sts.

## MACHINERY AND EQUIPMENT

**FORT BRAGG, Mendocino Co., Cal.**—City plans to purchase scraper and tractor of type used on state highways. E. J. O'Connor, city clerk.

**OAKDALE, Stanislaus Co., Cal.**—Until June 17, 8 p. m., bids will be rec. by E. M. Kimball, clerk, Oakdale Union High School District, to fur. truck chassis suitable for mounting passenger body with 50 high school pupils capacity. Bids will also be considered for a 14-20 passenger bus of runabout type. Further information obtainable from clerk.

**FRESNO, Fresno Co., Cal.**—City Engineer A. M. Jensen seeks \$6800 appropriation in budget to finance purchase of two motor trucks for street department.

**HANFORD, Kings Co., Cal.**—Until June 13, 8 P. M., bids will be received by O. A. Whittington, clerk, Grangeville Grammar School District, to fur. one 24-in. cut power lawn mower. Further information obtainable from clerk.

**FRESNO, Fresno Co., Cal.**—Until June 13, 8 P. M., bids will be received by J. R. McClurg, clerk, Washington Union High School District, Box 279, Route E, Fresno, to fur. one 40 passenger bus body, mounted on chassis to be furnished by district; one 6-cylinder, 1½-ton to 2-ton truck chassis with frame extended to mount 40 passenger body, dual wheels on rear. Further information obtainable from clerk.

**GOLETA, Cal.**—Until June 13, 6 P. M., bids will be rec. by W. T. Lillard, Jr., clerk, Goleta Union School District, to fur. school busses. Specifications and further information obtainable from clerk.

**LOS ANGELES, Cal.**—Until 10 A. M., June 9, bids will be rec. by city purchasing agent, 202 n. city hall annex for bar screen and rake; specifications No. 1450.

**BEVERLY HILLS, Cal.**—Until 8 P. M., June 13, bids will be rec. by city for one Ford truck with stake body, hand hoist and 2-ton extension. Specifications on file at office of street superintendent. B. J. Firminger, city clerk.

**PHOENIX, Ariz.**—Until 10 A. #### LOAN MEET SET FOR PORTLAND

The Pacific states conference of the savings and loan associations will be held in Portland, Ore., August 29, 30, 31. Members of the organization from ten states on the Pacific slope will attend the meet. Headquarters will be maintained at the Multnomah Hotel.

#### BUILDING LOAN CHIEFS ELECT

Chas. H. Tucker of Long Beach was chosen president of the California Building Loan League at the annual convention held in San Francisco recently. Tucker succeeds Senator Herbert C. Jones of San Jose. The league has named a committee to co-operate with the new state tax commission in the equalization of taxes.

#### SCHOOL BOND DEBT IN STATE SOARS TO \$5 MILLION

An increase of \$30,000,000 in the bonded indebtedness of California's school districts at the end of the 1925-26 school year, over the total at the close of the preceding term, is shown in reports compiled by the state department of education.

At the close of the last school year the total was \$200,477,997 against \$165,444,174 the preceding year. Of this indebtedness in 1924-25 the elementary schools were bonded up to the extent of \$93,580,274 and the high schools \$71,854,900. The following year the securities to \$92,481,475.

Elementary school districts in Alpine, Amador, Calaveras, Mono, Nevada and Trinity county were all free of bonds, Trinity county having paid off its last indebtedness last year, while similar conditions existed in the high school districts of Alpine, Modoc, El Dorado, Mono, Plumas, San Benito, Sierra and Trinity counties.

Los Angeles elementary districts are the heaviest indebted, carrying \$45,636,920 in 1924-25 and \$57,044,820 the following year, while San Francisco had a debt of \$6,312,750 and \$6,270,000 respectively, for the two years. Alamedas total was \$6,606,875 and \$8,984,000. Del Norte county was the lowest, with only \$4000 unpaid.

Los Angeles also had the largest amount outstanding in high school securities both years with totals of \$33,214,590 and \$50,285,000. San Francisco had a high school total of \$4,762,250 and \$4,430,000, and Alameda a total of \$5,532,000 and \$6,797,750. Fresno had the next highest with \$2,907,000 and \$2,871,500 for the two years.

#### BUILDERS' EXCHANGE IS OPPOSED TO MUNY BOND ISSUES

The following communication addressed to members of the San Francisco Builders' Exchange is self explanatory:

To the Members of  
The Builders' Exchange:

The Board of Directors of your Exchange has gone on record and are opposed to all of the present bond issues on account of the present position of the City Government which seems to prefer doing work in an inefficient way by day work, wasting the taxpayers' money, rather than doing the work effectively by contract let to the lowest responsible bidder.

This being the position of our organization we should get behind it and do everything that we can to defeat the bond issue which will be voted on June 14, 1927.

Therefore, this is to request our members to get behind our position, carry the matter home to their families and their friends and do everything to defeat this election.

W. H. GEORGE,  
President.

#### HILL, HUBBELL HAS TORTURE WHEEL PAINT TEST

Borrowing the principle of the ancient torture wheel Hill, Hubbell & Company have developed in their laboratories, a machine that tests paints by subjecting them to an unusual amount of punishment.

Thirty-one samples of paint are prepared and placed around the rim of the test wheel. It turns very slowly—about two revolutions per hour. The samples are first subjected to extreme heat, then plunged into freezing cold water. Next the panels receive a spray of warm water and then their dripping surfaces are exposed to intense ultra-violet rays.

The gruelling test is repeated for one thousand hours—considered equivalent to four years exposure to the elements.

#### LUMBER MEET SET

The eleventh annual convention of the National Retail Lumber Dealers' Association is scheduled for August 22-25, at Tacoma, Wash.

#### L A STREET IMPROVEMENTS IN 1926

Figures compiled by John C. Shaw, city engineer of Los Angeles, show that more public improvement work designed by the Engineering Department was constructed during the year ending December 31, 1926, than during any previous year in the city's history. There were 181.74 lineal miles of permanent pavements constructed at a cost of \$7,442,316.39. This is an increase of 20 per cent over the number of miles of pavement existing December 31, 1925. The total number of miles of permanently paved roadways on December 31, 1926, was 1092.96 miles.

The total cost of all pavements, storm, sanitary sewers and miscellaneous structures built in public streets during 1926 was \$21,341,299.73. Nearly all these improvements were paid for by local assessment district, proceedings being carried out under the State Improvement acts, 411 jobs being so constructed. Property owners' realization of the desirability of the construction of permanent roadway improvements is evidenced by the fact that whereas 181.74 miles of permanent pavement were constructed during this period only 42.81 miles of oiled and gravelled roadways were petitioned for and so constructed.

On January 1, 1927, the contract price of all street improvements, including sewers and storm drains, then under construction, represented a total of \$18,527,095.

#### WADE ENGINEERING COMPANY HANDLING LINCOLN PRODUCTS

The Lincoln Electric Company of Cleveland announce the appointment of the Wade Engineering Company, 1855 Industrial St., Los Angeles, as distributor of Lincoln products in California. This company maintains a branch at 69 Webster Street, Oakland, both main office and branch carrying stock of Lincoln "Line-Weld" Motors and "Stable-Arc" welders, as well as service parts. The Oakland branch is under the direction of Mr. H. T. Lintott, who is also an experienced electrical engineer and a graduate of the University of Nevada. For the past ten years Mr. Lintott has been electrical superintendent with the Pacific Coast Steel Company of San Francisco and is widely known in the Bay district. The Wade Engineering Company is handling "Line-Weld" motors over the entire state of California and "Stable-Arc" welders in the Northern and Central parts of the state. The A. H. Peir Company will continue to handle "Stable-Arc" welders in Southern California as in the past under the active management of Mr. C. J. Nyquist.

#### MILLWORK PLANTS TO GO OPEN SHOP

Millwork plants in Chicago and Cook county will go on an open shop basis as a result of the refusal of the carpenters' union to accept a decrease of ten cents per hour, it was announced by the Illinois Millwork Association officials. The strikers were given an opportunity to return to work on a closed shop basis provided they accepted the reduction from \$1.20 per hour to \$1.10 per hour. This offer was refused and the association then announced the reopening of the plants on the open shop basis. A similar action was threatened last year when the carpenters demanded an increase from \$1.15 to \$1.25 per hour but a compromise was reached at \$1.20 per hour and an agreement signed for one year.

#### CONTRACTOR IS FINED

Louis A. Gelsler, contractor on the Ventura county nurses home and clinic buildings, was assessed penalties amounting to \$50 for alleged violation of the California eight-hour law by the state labor commissioner.

## BUILDING CONTRACTS

## SACRAMENTO COUNTY

ADDITION.  
2906 35th. Add 1 room to store bldg.  
Owner—Maggie T. Foster, 3400 4th Ave.  
Architect—None.  
Contractor—F. L. Francis, 3454 Stockton Blvd. \$1000

DWELLING.  
2649 KOCHON WAY. 5-room dwelling and garage.  
Owner—G. O. Griffith, 4212 12th Ave.  
Architect—None. \$5500

APARTMENTS.  
817 25th. Three-story stucco apartment building.  
Owner—F. Bonti, 2670 Castro Way.  
Architect—None.  
Contractor—W. R. Saunders, 2614 I. \$38,000

DWELLING.  
1812 G. Two-story stucco dwelling.  
Owner—B. A. Johnson, 1801 G.  
Architect—None.  
Contractor—W. R. Saunders. \$8800

DWELLING.  
824 - 46th. Six-room dwelling and garage.  
Owner—L. F. Gould, 1623 O.  
Architect—None. \$6100

DUPLEX RESIDENCES.  
3849-51 - 3rd AVE. Five room (10 rooms) duplex residences and garages.  
Owner—F. C. Spindler, 3841 - 3rd Ave.  
Architect—None. \$6700

TANK.  
2021 I. Install tank.  
Owner—E. J. Parrish, 2021 I.  
Architect—None.  
Contractor—Luppen & Hawley, 3126 J. \$1500

DWELLING.  
3340 - 24th. Six-room dwelling and garage.  
Owner—J. Hayes Fisher, 818 - 17th.  
Architect—None.  
Contractor—Wm. Martin, 3724 Pacific Ave. \$3500

DWELLING.  
1033 - 4th AVE. Five-room dwelling and garage.  
Owner—John G. Nelson, 2601 - 30th.  
Architect—None.  
Contractor—A. E. Erickson, 1924 El Monte. \$4000

DWELLING.  
2323 S. Six-room dwelling and garage.  
Owner—Leo A. Givot, 2323 S.  
Architect—None. \$7000

DWELLING.  
2016 - 29th. Six-room dwelling and garage.  
Owner—E. Jaeger, 2901 - 24th.  
Architect—None.  
Contractor—Julius Rude, 3012 - 16th. \$3500

DWELLING.  
2266 MARKHAM WAY. Five-room dwelling and garage.  
Owner—E. A. Corum, 2533 Portola Way.  
Architect—None. \$3800

# TIMPIE HYDRATED LIME

(a true dolomite lime)

for Brick Mortar, White Coat and Sand Float Finish, and for inducing plasticity in and water proofing Portland Cement Concrete.

Used in approximately \$70,000,000 High Class Pacific Coast construction in last 3 years.

*EXAMPLES:—*

New Standard Oil Building, San Francisco	Central Bank, Oakland
Oakland Savings Bank	New Subway Terminal Building, Los Angeles
New Mark Hopkins Hotel, San Francisco	Federal Reserve Bank, San Francisco
New Hunter-Doolin Building, San Francisco	New Russ Building, San Francisco
Pacific Telephone and Telegraph Building, San Francisco	

*Sold by most progressive dealers throughout Pacific Coast.*

## GAS REFRIGERATORS FOR NEWEST APARTMENT HOTEL

The first apartment hotel to be completely equipped with refrigerators operated by manufactured gas is now under construction in New York City and will be ready for occupancy October 1st next, according to an announcement by the Consolidated Gas Company. This apartment hotel is the twenty-two-story "Lombardy," which is being erected on 56th Street, near Park Avenue, by the Henry Mandel Building Company, Inc., for the One Park Avenue Corporation, owners. Farrar and Watmough are the architects.

In making the announcement, a representative of the Gas company said that a contract with the owners specifies the immediate installation of one hundred gas refrigeration units. Additional units will be installed in the other sixty-seven apartments. The units, which will be housed in specially manufactured refrigerators, vary in size to meet the respective needs of the larger and smaller apartments, which range from one to seven rooms each.

The new type of gas refrigerator, which has been in the course of development for more than two years, is said by gas company engineers to be a highly successful solution of the refrigeration problem. The unit of the refrigerator is a non-mechanical device, operated by a single gas flame which causes the evaporation of a liquid, absorbing heat as it evaporates. Recondensation of the liquid in a sealed compartment eliminates the necessity of recharging and servicing during the lifetime of the appliance.

The adoption of the gas operated refrigerator was made after an exhaustive study by the architects, who chose it because of its low cost of operation, the absence of moving parts and the consequent noiselessness, and the economy of space. The small gas flame replaces an entire electric motor and the maintenance is negligible.

## HIGH RENTAL APARTMENTS MOST POPULAR—STRAUSS SURVEY SHOWS

An average occupancy ratio of 9.3 per cent for apartments of the highest type in Pacific Coast cities is shown by a comprehensive survey of such properties completed by S. W. Straus & Co. Apartment houses of fireproof construction, modern appointments and preferred location, all reflect an occupancy above the normal at practically full capacity, although maintaining high rental schedules, while the generally prevailing conditions of lower rental properties shows an occupancy ratio much lower.

A significant feature of the Straus analysis is the fact that the highest occupancy figures are returned by the two groups of apartment properties which maintain the highest rental schedules in the West, those of Nob Hill in San Francisco and the Wilshire Boulevard district of Los Angeles. Indicative of Nob Hill conditions is the fact that approximately 35 per cent of the new Cathedral Apartments, to be opened in September, is already under lease, compared with the record of the Huntington Apartments, under the same management, which has been practically wholly occupied since 90 days after its completion in 1924, and which was but 20 per cent leased at opening.

Comprised in the Straus survey are such establishments as the Huntington, Brocklebank and Francesca, Nob Hill properties in San Francisco, the Gaylord, Talmadge, Windsor and Haddon Hall of the Los Angeles Wilshire district, all reflecting most satisfactory occupancy and more than a score of other apartment houses which have been in operation more than a year, and which are typical of this class of property, located in Vancouver, Seattle, Portland, Oakland, Sacramento, San Francisco, Los Angeles and Long Beach. The analysis is based on a general investigation of apartment house conditions in each of these cities and on official reports of occupancy and earnings from the many properties of this type which have been financed by S. W. Straus & Co.

## AMERICAN ELECTRIC SWITCH CORPORATION ORGANIZED

The American Electric Switch Corp., Minerva, Ohio, with an authorized capitalization of \$1,000,000, has been organized and incorporated with J. C. Lewis, president; Arthur Koch, treasurer, and E. F. Rincohl, secretary.

The corporation will manufacture a large and varied line of safety switches, fuse panels, panel boards, switchboards and distribution panel boards for use in hotels, apartment houses, residences, industrial plants, theaters, etc. All parts and mechanisms as well as the boxes will be manufactured at their factories at Minerva, Ohio. The sales policies and the sales representatives will be announced at a later date.

## STATE BOARD OF ARCHITECTURE GRANTS CERTIFICATES

Certificates were granted to the following by the State Board at their meeting May 31, 1924:

Ellsworth Egbert Johnson, 2396 Pacific Avenue, San Francisco.

Mr. Harold H. Weeks, 4166 Montgomery Street, Oakland, Cal.

Guy Lynn Rosebrook, Box 3555 R. F. D. No. 3, Oakland, Cal.

Albert J. Evers is secretary of the Board.

## BUILDING-LOAN GROWTH IS TOLD AT ANNUAL MEET

"The old rock-ribbed principles of prudence, conservatism and caution are as essential as ever in building and loan associations, which are trustees of the people's savings," declared Senator Herbert C. Jones, president of the California Building-Loan League, in opening the annual convention of the League in San Francisco.

The building and loan association movement, said Senator Jones, has grown with such unprecedented rapidity that since 1911 it has achieved a position that places greater responsibilities upon those in it for the benefit of the 300,000 members and shareholders in the 200 organizations in this State. These associations, he said, must operate not for large profit, but for "safet, soundness and goodness."

The new law which gives building and loan associations the right to use the word "savings" in their advertising was explained by President Jones, saying that the nature of the organization was principally that of savings. "The news will be received with real satisfaction by associations throughout the State," he said, "that this matter has been finally cleared up and that a designation which always should have rightfully belonged to this type of institutions has been restored by the law of our State."

The building and loan associations of California made a growth of 60 per cent since 1917, according to figures submitted by State Building and Loan Commissioner George S. Walker, who revealed that since 1907 when there were 107 associations of this State, with assets of \$23,340,000, there are at present 200 associations with assets of \$255,000,000. He predicted 1927 will exceed every previous years for the building and loan movement. New laws, recently approved by Governor Young, will place further safeguards about the associations for the benefit of the shareholders, he said, and he recited some of the changes which will soon be effective. Among these changes is a new provision which will make it possible for the relatives of a deceased building and loan shareholder to withdraw a limit of \$1000 without the necessity of probate proceedings.

## AMERICAN CONCRETE INSTITUTE TO CONVENE IN PHILADELPHIA

The 24th annual convention of the American Concrete Institute will be held in Philadelphia at the Benjamin Franklin Hotel, February 28, 29 and March 1, 1928. The annual conventions of the Institute from 1924 to 1927 inclusive were held in Chicago, the 1923 convention was held in Cincinnati, the 1922 convention in Cleveland, and the 1920 and 1921 conventions were held in Chicago, so that there has been no meeting of the Institute in the East since 1919 at Atlantic City. At that time the institute had a membership of less than 400. The institute now has a membership of more than 2400 and nearly half of the membership in the United States is east of Pittsburgh. There developed this year a very decided sentiment in favor of a convention in an eastern city. This developed in an advisory ballot of members of the institute as to a convention place, so that in deciding to hold the convention in Philadelphia in February, 1928, the board of direction of the institute has been guided by the predominating sentiment of members.

## Chief of American Institute of Architects Reviews Work of Organization

The American Institute of Architects, through the devoted service of its members, has contributed much to the up-building of America, according to President Milton B. Medary of the Institute. President Medary addressed the 60th annual convention of the national architectural organization in Washington, D. C., May 11th, as follows:

To the Sixtieth Convention of the American Institute of Architects:

The American Institute of Architects through the devoted service of its members over many years, has contributed to the machinery of practice, to the knowledge of materials and methods of construction, not only documentary forms but a fund of information invaluable to the profession, without which the inexperienced architect at the threshold of his career must meet many discouraging obstacles before finding himself free to devote his best talents to the realization of his creative impulse in physical form.

The freedom with which his imagination realize the noblest dreams of his spirit, within the limits set by material facts and forces, is greatly increased by this work of Institute committees which puts into his hands the slowly accumulated experience of his forerunners.

The heights to which the art of architecture may reach, freed from these concerns of its machinery, are limited only by the heights built under our feet, and as we build, greater heights are made possible of attainment.

### Precedents Are Set

In every phase of life we have below us the product of the toil and the aspirations of those who have gone before us—ours to use and to extend to the limits which their work has brought within our reach. In our own art, the scientific research work in the field of materials and methods and in the preparation of orderly procedures of practice has given the architect tools tried and ready for his use. To these tools our future architecture must owe great obligation; the artists who use them yield grateful acknowledgment.

In another aspect, the American Institute of Architects has served the art of architecture well in preparing the ground for a nobler future growing out of a more understanding and sympathetic soil, for no great art so intimately expressing the humanities of any social system can long remain exotic. It must be woven out of the whole of life and be present to some degree in its every expression.

The American Institute of Architects has sensed and accepted this obligation and, through its publications and lectures and the proper use of publicity, has worked faithfully and diligently for a broader understanding of architecture as the physical language of human activities, and of the immense significance of all the arts in their power to make material necessities beautiful, and further, to destroy forever the fallacy that a gulf exists between the material and the beautiful. It is the artists's privilege and obligation to challenge this latter doctrine. It is ours to make all material things beautiful and their use an ennobling and joyous experience. For this, I believe the American Institute of Architects has undertaken to pave the way.

### Art Is Living Index

With the work which has been done so far and which must be vigilantly prosecuted, it has seemed the time was ripe to build our art upon the ground prepared and with the tools gathered for our use, and it has been thought well to devote as much of the time of this

convention as may be to a consideration of the elements of an art which have made it a living index to the social and religious institutions of nations and peoples since Abraham lived in the city of Ur.

Sincere civilization has always sought to express the life within itself and has never been satisfied with the expressions of other lives, no matter how noble or how beautifully expressed, knowing instinctively that the form is but a shell except for the spirit of its creator contained within it.

Science is by its nature preoccupied with things which may be seen, or touched, or weighed or measured—all else must be discarded as "unreal"—and by its searchings for facts and reasons is the invaluable handmaiden of creative art; but every conscious living creature knows that it is only the vital part of himself, the part that cannot be seen, or weighed, or measured, that he wishes to express—the intangible, the universal, the eternal, that part of himself which is not material, which science has never reached, and which only in exalted moments seems within his own reach.

### Changing Conditions

In the myriad confusions and complications of twentieth century life, men are bewildered by the surface manifestations of constantly changing forms pressing upon them and stretching as far as the vision may reach, and in this confusion is the promise of the awakening of a new springtime of art. In literature, in religion, in sculpture and painting, in music and the drama, as well as in architecture, the world is in revolt. We refuse to repeat the expression of other lives and demand the opportunity to add our own expression to the sum of truth and beauty built up through the ages. But, as in all revolts, we are passing through the extreme forms of complete repudiation with all its crude accompaniments, called for want of a better word, by the name of "Jazz."

The architect hears everywhere: Let us have a new architecture, an American architecture; let us have done with the dealers in classic and medieval forms; let us try something truly American! . . . This is plain sophistry. Just as well say: Let us have an entirely new written language, as well as the physical one; let us stop using the words used by Shakespeare and express our thoughts by sounds never heard before; and let us be entirely individual and no two of us use the same sounds! . . . This sophistry is due to the confusion which fails to differentiate between using the soul and mind of Shakespeare as our own and using the words with which he expressed the thing born in his own spirit; words which have become exquisite with every delicate shade of meaning only because men have long used them and understand them. Without them the power of beautiful expression would disappear. The written language is a living changing thing, however, and slowly and surely, as Doric architecture became Ionic, and Roman Romanesque, and Romanesque Gothic, the English of Chaucer became that of the sixteenth century, of the eighteenth century, and of the present day.

### Look for Source

Let us, then, in looking to the future close our eyes to the changing multitude of surface manifestations and look below the surface for the roots out of which they spring, and let us search among the roots for those which are universal and have abiding character. On these let

us build in our own way, with the freest fancy, expressing our own spirits. We need not copy last year's blossoms but we may and should take what made these blossoms beautiful as our inspiration. Our work will then surely be ours and cannot be confused with carefully reproduced expressions of great souls long since dead. This latter is the plagiarism which proclaims its author's belief that architecture is no longer a living thing.

May I speak of the fallacy of an American architecture as a new national art, distinct and altogether different from other national architecture and from our forms of the past? Every nation as long as we shall have nations, and particularly every clime, whether coinciding with national boundaries or not, will of necessity develop identifying characteristics in any truthful architecture; but the nineteenth century with its revolutionary contributions to communication between the peoples of the earth, put behind us forever the isolation of national thought and expression in self-contained units, the influence of each unit limited to a slow advance along the commercial routes of Europe and Asia or transplanted violently as part of the spoils of war. To the rich inheritance of all past time, representing the most exalted expression attained by the noblest spirits of China, India, Persia, Egypt, Greece, Rome and Medieval Europe, are added streams of inspiration pouring in upon us from contemporary art throughout the world. The so-called "modern" movement in Central Europe and the Scandinavian countries is as well known to American architects as to Europeans and its outstanding examples are published and analyzed in the architecture press of America as freely as the work of our own architects. Most probably the new town hall at Stockholm has been given as careful study by American architects as any of the outstanding contemporary works in our own country. And I believe that architects throughout Europe keep as closely in touch with the work done here.

### Will Influence Future

All of which points clearly to the fact that the architecture of the future will be influenced as directly by great work in any part of the world as the architecture of Greece was influenced by the works of neighboring cities or as each cathedral built in Western Europe was influenced by those which immediately preceded it.

With the timely passing of period art and its forgeries of other men's minds and souls as well as the idiosyncrasies of their manual craft and skill, the architectural future has a field cleared of the blighting influence of the sophistries which have beset it on every hand, whenever we are ready to declare that we have done with them. We should not fear to build our own interpretation of today, as God gives us the inspiration and power to know and feel and see it in its most beautiful aspect, upon the great foundation made up of the aspirations and the sweat and blood of the past.

Our obligation is to contribute to the utmost that is in us to the great architecture of the world and to help those who follow us to contribute more on the structure we have thus developed. It is here that we feel the need of understanding clearly the nature of our opportunity and its challenge. We have chosen architecture as a medium by which each of us shall give his personality to the evolution of life. If we are to insure as great a contribution as comes from those who have chosen other media for their life expression, we must

seek the fullest expression of our art.

What, then, is architecture in its fullest manifestation and what are the elements which must be present?

#### One of the Arts

In schools and among professional artists, architecture is usually listed as one in a catalogue of the arts. The crafts, for some indefensible reason, are classed separately, but certainly they are the very essence of art as applied to material things. Architecture has been called the "mother" of the arts, and this expression reveals recognition of a necessary relation of all the arts and their interdependence—in short, a family of the arts. I have come to the firm conviction that architecture can have no existence apart from the elements of which it is composed; that no architecture can be created or ever has been created which is not an assemblage of the arts; and that no truly great architecture ever was or can be except it be a complete fusion of all the arts into a perfect harmony, each dependent upon the other, the whole inspired at its conception by the appropriate beauty each holds ready for the enrichment of every other and of the whole. This is more than co-operation; it is the stimulation and cross-fertilization of all by the collective presence of a full orchestra of creative impulse. Who can read of the gatherings of artists in the gardens of the great art patrons of the Renaissance, or that earlier description of the building of Solomon's Temple, where the workers in stone and wood and iron, in gold and ivory and precious stones, were called to give their best to a glorious fabric, without feeling the influence these contacts must have had upon the whole? The objects taken from Tutankhamun's tomb might have been the work of the cathedral builders of the thirteenth century, for both proclaim the presence of all the arts at their conception.

#### The Trail Ahead

Here, then, lies the trail over which we must travel, hand in hand, a happy company of the arts, each enriching the others with a power and vision none could hope to achieve alone.

This convention has been planned to make such a theme its major motif; to inaugurate understanding co-operation of all those whose lives are dedicated to the service of the several arts, both in the schools and in the actual building of the fabric of the world; to help us to know each other better, that each of us shall be enriched by that knowledge, that in creating the material we may help each other to express the spiritual, that sculpture may once more be thought of as part of a parthenon without losing its dignity as sculpture, that painting may become again a vital part of walls and ceilings and altar-pieces, that the names of artists will recall their part in collective compositions as do the names of della Robbia, Giotto and LeNotre. Upon this theme there has already been founded the American Academy in Rome, the American Federation of Arts, and the Architectural League of New York. Upon it our committee on education, backed by the Carnegie Foundation, has launched its program for a wider understanding of the significance of the arts and upon it I hope the American Institute of Architects will build a program for the future in which all the elements of architecture shall be represented in all our contacts with the schools and the public as well as within our own profession.

#### ELECTRICAL INTERESTS TO CON- VENE

The eleventh annual meeting of the Pacific Coast Electrical Association will be held at Santa Cruz, June 14th to 17th. A tentative program announces that important development in the power industry as they affect users of electricity in California, Arizona and Nevada will be revealed at the meeting.

## California's Eight Hour Law

(As Amended in 1927)

Section 653c of the Penal Code

The time of service of any laborer, workman, or mechanic employed upon any of the public works of the State of California, or of any political subdivision thereof, or upon work done for said state, or any political subdivision thereof, is hereby limited and restricted to eight hours during any one calendar day; and it shall be unlawful for any officer or agent of said state, or of any political subdivision thereof, or for any contractor or subcontractor doing work under contract upon any public works aforesaid, who employs, or who directs or controls, the work of any laborer, workman, or mechanic, employed as herein aforesaid, to require or permit such laborer, workman, or mechanic, to labor more than eight hours during any one calendar day, except in cases of extraordinary emergency, caused by fire, flood, or danger to life or property, or except to work on public military or naval defenses or works in time of war: Provided, However, That within thirty days after any employee is permitted to work over eight hours in one calendar day due to such an extraordinary emergency, the contractor doing the work, or his duly authorized agent, shall file with the officer, road or commission awarding the contract a verified report as to the nature of the said emergency together with the name of the said worker and the hours worked by him on the said day, and failure to file the said report within the said time shall be prima facie evidence that no extraordinary emergency existed.

Any officer or agent of the State of California, or of any political subdivision thereof, making or awarding, as such officer or agent, any contract, the execution of which involves or may involve the employment of any laborer, workman, or mechanic upon any of the public works, or upon any work, hereinbefore mentioned, shall cause to be inserted therein a stipulation which shall provide that the contractor to whom said contract is awarded shall forfeit, as a penalty, to the state or political subdivision in whose behalf the contract is made and awarded, ten dollars for each laborer, workman, or mechanic employed, in the execution of said contract, by him, or by any sub-contractor under him, upon any of the public works, or upon any work hereinbefore mentioned, for each calendar day during which such laborer, workman, or mechanic is required or permitted to labor more than eight hours in violation of the provisions of this act; and it shall be the duty of such officer or agent to take cognizance of all violations of the provisions of said act committed in the course of the execution of said contract, and to report the same to the representatives of the state or political subdivision, party to the contract, authorized to pay to said contractor moneys becoming due to him under the said contract, and said representative, when making payments of moneys thus due, shall withhold and retain therefrom all sums and amounts which shall have been forfeited pursuant to the herein said stipulation. Any officer, agent, or representative of the State of California, or of any political subdivision thereof, or any contractor or sub-contractor, or their agents, who shall violate any of the provisions of this section, shall be deemed guilty of a misdemeanor, and shall, upon conviction, be punished by fine not exceeding five hundred dollars, or by imprisonment, not exceeding six months, or by both such fine and imprisonment, in the discretion of the court.

## May Building in Los Angeles Rolls Up Highest Total for Year

May rolled up the largest monthly building total of the current year for the city of Los Angeles. During the month the city building department issued 3200 permits with an estimated valuation of \$11,563,303. The next largest monthly total of the year was \$11,111,774, in March. For April, 1927, the number of permits issued was 3296 with an estimated valuation of \$10,458,622, and for May, 1926, the number of permits was 2960 with an estimated valuation of \$10,702,844.

For five months of 1927 Los Angeles' building total was \$48,837,802, as compared with \$51,305,313 for the corresponding period last year, a part of the loss recorded in March and April being overcome by May activities.

During May permits were issued for six Class A buildings, estimated to cost \$1,882,000. To this should be added, however, the \$1,200,000 extension of the Merchants National Trust & Savings Bank at Seventh and Spring Sts., which is classified as a masonry addition. Class C construction amounted to \$1,746,500 for 62

buildings, and Class D all frame construction totaled \$4,869,866 for 1910 buildings.

Housing operations during May were slightly under the April record, comprising 80 dwelling and apartment houses estimated to cost \$5,858,699 and providing accommodations for 1877 families. Housing accounted for 27.1 per cent of the entire valuation for the month.

Commenting upon the building activities in Los Angeles, the Southwest Builder and Contractor says:

"Perhaps the most significant feature of the building situation in Los Angeles is the steady pace and even balance which it maintains, indicating that it is merely keeping up with the growth of the city. It is true there are a considerable number of vacant buildings in various sections, but most of these were not built to meet any immediate needs and construction of many of them, even in anticipation of future demands, was ill advised. However, there is less building in Los Angeles which may be considered misplaced than in any other large city in the country."

# THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

The Department of Justice has been asked by the Federal Trade Commission to dismiss action instituted against the Bethlehem Steel Company and the Republic Iron & Steel Company in 1920 to compel them to furnish certain information to the commission. The suits have been stopped by the granting of injunctions.

Major J. A. Dorst, army engineer, is in Stockton supervising plans for the first of the location surveys for the Stockton deep water channel and harbor project. Two field crews of 16 men will be placed on the work which is expected to be concluded by October 1.

Companies which construct irrigation systems under the Carey act upon arid public lands are entitled to the first lien upon the bonds issued to settlers who default in paying for them, the U. S. Supreme Court decided in a case from Bannock county, Idaho, brought by the Port Neush-Marsh Canal Company. The controversy was regarded as of great importance in all states in the semi-arid region.

Plans for a survey of the Santa Ana river basin to perfect flood control works were placed in motion following the signature by Governor Young to a bill authorizing the inquiry. The bill, introduced by Senator Ralph Swing of San Bernardino, carries an appropriation of \$25,000.

An important study of soils encountered throughout the country and their action when used as subgrade for highways is being carried on at the Massachusetts Institute of Technology, by Dr. Charles Terzaghi, co-operating with the Bureau of Public Roads. The program includes the development of standard soil tests and classifications, a laboratory study of soils, and the construction of several test roads for observation of soil behavior.

Efforts are being made by the Mining Committee of the Sacramento Chamber of Commerce to have California marble specified in the erection of the new post office in Sacramento.

At the Redwood lumber mills the week ending May 14 was a good one, 11,473,000 ft. of redwood being sold, 10,333,000 ft. shipped and 7,569,000 ft. cut, while 51,067,000 ft. of sales were on the books unshipped. Their whitewood cut was 1,906,000 ft., shipments 1,947,000 ft., and sales 3,121,000 feet. Unfilled orders for whitewood called for 7,482,000 ft.

Officials of intercoastal lines in San Francisco believe the lumber rates from the Pacific Northwest to the North Atlantic are firmly set at \$14 per 1000 feet for June and July. They stated they expected the demand for Pacific Coast lumber to increase as a result of the Mississippi flood disaster.

Construction will be started shortly by the Shell Oil Company on a ten-inch pipe line from Coalinga, Fresno County, to Taft, Kern County, with an eight-inch lateral into the Mt. Poso oil fields.

A pottery clay deposit, two miles south of Callistoga, which has been closed for several months, will shortly be reopened, it is announced by J. R. Clark, plant manager, who reports having secured a 40-ton order from a Sacramento concern.

A Hoo Hoo concatenation, the last this year, is scheduled for Ventura, June 18.

External beauty of many large San Francisco buildings is the result of terra cotta produced at Lincoln, Placer County, M. J. Dillman told the mining committee of the Sacramento Chamber of Commerce at a recent luncheon meeting of that body. Mr. Dillman is part owner in the Lincoln Clay Products Company.

California's statutes do not give the State Director of Public Works authority to contract with private architects for plans and specifications for state buildings on a cost percentage basis, Attorney General U. S. Webb so notified Paul Bailey, departmental director. Mr. Bailey contemplated following such a procedure in erecting smaller state buildings, expressing the belief the competitive bidding procedure was a waste of time on the smaller contracts, as the architects would not submit proposals on the work.

The Pacific Lumber Inspection Bureau's report for the first quarter of 1927 shows a decrease of thirty million feet, as compared with 1926, in water-borne shipments from the northwest. California is credited with 385,726,313 ft., Atlantic coast 497,830,349 ft., and 378,738,175 ft. went abroad, Australia, Japan and the west coast of South America all taking less than last year.

San Francisco's new Federal building, to be erected at a cost of several million dollars is assured, according to Wm. Arthur Newman, Treasury Department Supervising Architect in this district, who recently returned from a trip to Washington in connection with the San Francisco project and other improvements to be undertaken in this territory.

H. L. Hardman, secretary-manager of the Fresno Builders' Exchange, announces he has received a communication from Alexander Pantages wherein the latter states that Fresno contractors will be given every consideration when bids are asked for the proposed new \$250,000 theatre building to be erected in Fresno.

Lumber imports at the port of San Francisco for the month of May set a new high mark for 1927, according to a statement by the marine department of the Chamber of Commerce. The May figure was 89,454,000 feet, or 7,104,000 feet more than was received during April. Of the May total 52,264,000 feet came from Washington and Oregon and 27,170,000 feet from California ports.

A granite slab, said to be about 30 feet wide, 300 feet in length and 20 feet thick, is being dug out of the earth at the quarry of the California Granite Company, near Porterville, Tulare County. The slab is said to be the largest ever quarried, according to officials of the company.

More than \$1,500,000 will be spent on road construction in Santa Barbara county during the fiscal year commencing July 1, according to tentative estimates of Federal State and County governments. This is in addition to what various cities in the county will expend for street improvements.

The Morning Oregonian (Portland, Ore.) has learned from what it considers "unimpeachable authority" that 23 miles of standard gauge railway owned by the Shevlin-Hixon Lumber Company south of Bend, Ore., will be taken over by the Great Northern Railway, which is sponsoring the Oregon Trunk extension from Bend to Klamath Falls.

Engineering News-Record, New York, announces the receipt of many articles telling how to solve the Mississippi River flood problem. All offer little that is new and nothing that is helpful. However, one is worthy of mention. That of a sordid-mined engineer hailing from Arkansas which covers an estimate of the cost of two new channels to carry the flooded river's surplus. With very fair unit prices and a reasonable quantity survey he finds the cost to be \$189,838,537.776! Reservoir advocates might indulge in similar arithmetical exercise.

Telegraphic request for a hearing before the War Department on the San Francisco Bay bridge on June 21, has been forwarded to Washington by the San Francisco Board of Supervisors and preparations are tentatively under way for the department of the bridge committee for the capital on June 15. Word is being awaited from Secretary of War Dwight Davis as to whether the San Francisco Committee can be received on the date requested.

Oakland schools are being built almost entirely by Oakland or Alameda county workmen, according to W. E. Whalin, superintendent of construction for the Oakland Board of Education. Whalin's announcement offsets recent rumors that "outside men" are employed. According to Whalin, only 19 non-resident workmen are employed on school construction, while 284 workmen are residents of Oakland, and 18 others are residents of Alameda county.

Two proposals to broaden the scope of the city power system apparently had been defeated decisively in the Los Angeles city election, June 7. Returns from all except 200 of the 1384 precincts showed a vote on a proposal to condemn for purchase by the city of the electric lines of the Los Angeles Gas & Electric Company of 37,655 for and 59,345 against. On the second measure, providing for the purchase of a harbor site for a steam power plant, the vote was 39,303 for and 55,546 against.

## TRADE NOTES

Henry R. Larson, Floyd S. Nelles and Frank Simons will operate in the East Bay district under the firm name of Square Deal Sash and Door Company. Headquarters will be maintained in Oakland.

Stephen McKay, formerly sales manager for Grinnell Company in San Francisco, is now manager of the engineering department of George H. Tay Company, San Francisco. He succeeds J. M. Hagler, who has been named manager of the Sacramento branch of Tay Company.

George B. Stack, former manager in Sacramento, recently resigned to re-enter the plumbing and heating business in Sacramento. Harry C. Marsh, former manager of Haines, Jones & Cadbury, San Francisco branch, is now manager of the plumbing department of George H. Tay Company. As announced recently, Tay Company purchased the stock of Haines, Jones & Cadbury when that company retired from the San Francisco territory.

R. E. Blackburn, who for several years has been connected with the Insulite Co., severed his connections with that company on May 15 and has accepted the position as production manager for the Stewart Inso Board Co., St. Joseph, Mo. The Stewart Company is just completing a mill at St. Joseph, and will manufacture insulating board under the trade name of Inso Board, from wheat straw.

The Chemical and Pigment Company of Oakland is opening up the Democrat Mine in Nevada county for the production of barytes. The mineral is used in the manufacture of paint and is now in considerable demand.

Contra Costa Building Materials Company of Berkeley, capitalized for \$200,000, has been incorporated. Directors are: Neva T. Smith, Wm. H. Moehlmann and Jas. W. Chambers, all of Berkeley.

Alfred J. Bowman, 2204 Channing Way, Berkeley, will operate under the trade name of Bowman Hardwood Company.

Los Banos Lumber and Supply Co. has taken over the Miller and Lux Hardware Store at Los Banos and will continue the business from the present quarters which will undergo extensive alterations.

Al. M. Fearey Company with headquarters at 4377 Adeline St., Emeryville, has been incorporated with Al. M. Fearey, president and general manager and L. H. Kahrs, secretary-treasurer and general superintendent. The company will specialize in plumbing, sheet metal, hot air furnace and patent chimney work. Delbert Bonnell will be in charge of the Sheet Metal Department and Al. Ferrera in charge of the Plumbing Department.

Fentriss Hill, received for the Hutchinson Lumber Company of California, is relieved from further duty in connection with the receivership, in a decree issued in the Butte county superior court by Judge Ragland Tuttle. A decree approving and settling a supplementary account was also issued. Hill was named receiver of the company, now the Feather River Pine Mills, Inc., when foreclosure proceedings were introduced by the Capital City Bank of West Virginia.

Commercial Liquidation Company, with offices at 710 Humboldt Bank Bldg., San Francisco, has established a service for the liquidation of dormant and slow credits in the building industry. It furnishes the ordinary business concern with the services of experts who can liquidate credits and at the same time maintain the good will of clients, the company states. At the same time it saves the client the overhead cost of maintaining its own department for this service.

Edward C. Simon will operate from 205 Market St., Oakland, under the firm name of Pacific Lumber Mills.

Herman Sichel and George Randolph will operate from 661 Golden Gate Ave., San Francisco, under the firm name of Exposition Woodworking Company.

Peterson and Co. is reported to have purchased a site in South San Francisco and will erect a \$60,000 plant for the manufacture of concrete blocks.

Western Crane Service Corp., formerly located at 653 Sutter street, has moved to 932 Hunter-Dulin Building, San Francisco. The company specializes in clam shell bucket work, car unloading and excavating.

Richardson Roofing Company, capitalized for \$10,000, has been incorporated in San Francisco. Directors are: L. S. Schoenfeld, C. R. Cosby and L. M. Abraham.

National Electric Company has moved offices and shop quarters from 103 Turk St. to 730 Clementina St., San Francisco.

## ALONG the LINE

Daniel R. McFarland has been named resident engineer on the San Gabriel dam which is to be built as part of the Los Angeles County flood control project. Mr. McFarland was resident engineer on the Exchequer dam for the Merced Irrigation District.

R. R. Arnold, county surveyor of Contra Costa County, will make a six weeks' automobile trip to Kansas City, Mo., beginning June 13 on a combined business and pleasure tour. Mr. Arnold plans to study various types of highway construction, especially in Iowa and Illinois, to discover grades that might be introduced in this section with profit.

John C. Lindsay, pioneer general contractor of Santa Rosa, died in that city, June 2, after an illness of two years.

Donald C. McMillan, assistant city engineer, has been elected city engineer of Ventura to succeed Charles W. Pierce, resigned. Mr. Pierce announces that he has joined the staff of the Austin Western Road Machinery Company as supervising engineer with headquarters in Los Angeles.

Election will be held June 28 in Portland, Ore., to vote bonds of \$4,000,000 to finance construction of proposed Morrison street bridge.

Approximately 2,500 miles from home and with no idea how he got there, L. Norman Davis, Burlingame building contractor, missing from his home since May 23, has reported the finding of himself in Jefferson City, Mo.

Detroit Fidelity & Surety Company, bondsmen for Contractor McRey, on the Holy Cross Parish School at Santa Cruz, is completing the construction of that project. McRey met with financial reverses and was unable to complete the work.

Declaring the contract of W. H. Morrison to install heating apparatus in the new city hall and branch county jail forfeited the Vallejo city council has ordered the U. S. Fidelity & Guaranty Company, Morrison's bondsmen, to take steps to complete the contract. Only a small portion of the work was performed, the council found, Morrison is understood to have met with financial reverses and to be unable to complete the work.

## MALLEABLE CASTINGS PRODUCTION

On the basis of reports from 134 plants, the U. S. Commerce Department, announces April production of malleable steel castings as 59,225 tons, representing 55.8 per cent of capacity, compared with 66,372 tons, or 62.2 per cent of capacity, in March. April shipments totaled 60,470 tons against 64,652 tons in March.

## ENGINEERING COURSES AT L. A. SUMMER SESSION

Courses in Mechanical and Electrical Engineering will be a special feature at the University of California summer session in Los Angeles, June 25 to August 6. These subjects are offered not only for teachers of practical work in occupations but for the laymen interested in home economics.

Adrian Keller of the University of California at Los Angeles will offer a course in Furniture Construction and Repair. In this course the construction, finish, repair and refinishing of furniture will be taken up, and a brief resume of various period styles given. The use of stains, fillers and varnishes will be analyzed.

Automobile Construction and Repair is to be handled by James W. Marsh, also of the State University at Los Angeles. Marsh is a United States certified chief engineer of motorships, a member of the Society of Automotive Engineers and associate editor of the Service Station News. He has written a book on Storage Battery Facts. The course will be a combination demonstration and shop course covering the principles of internal combustion engines, carburetion, lubrication, cooling, engine testing, road repair, etc.

Courses in Machine Shop and Sheet Metal have been arranged by Harold W. Mansfield, Director of Shops, State University. He will also give a course in Machine Drawing and Architectural Drawing. The latter course includes lettering, details of typical frame and masonry construction plans, sections and specifications.

Summer Session Shop includes work in pattern making practice. Mansfield is to give a course in Engineering Drawing, which is designed to meet the requirements of both engineering and mechanic arts students.

## NEW STATE HIGHWAY ENGINEER DISCUSSED AT BAKERSFIELD

Opposing any action that would indicate opposition to the retention of R. M. Morton as state highway engineer, the Bakersfield Civic Commercial Association directors refused unqualifiedly to endorse the candidacy of W. B. Clark, Bakersfield city engineer, who has aspirations to succeed the incumbent. The state engineer, it was said, has been friendly in his attitude toward Kern county highway projects, and it is not desired to urge a change, although the directors are friendly to the candidacy of the local aspirant, should Morton resign or be removed.

After a brief discussion, the directors unanimously passed a motion that Secretary Harrison Elliott communicate to Governor C. C. Young that the association is appreciative of the past services of Morton, but should a new engineer be appointed, Clark should be favored as the logical candidate from the southern portion of the San Joaquin Valley.

## SANTA ROSA PAINTERS AWARDED PRIZES

Winning two prizes out of a possible eight in a nationwide paint color matching contest, S. "Bob" Testorelli and P. A. R. Gambini, members of the Santa Rosa paint firm of Gambini & Company, won nationwide recognition in the recent contest of the National Lead Company.

Testorelli won second prize, while his partner won eighth. One other Californian, an Oakland painter, was fourth. Every state in the Union was represented in the contest.

Certificates from the National Lead Company, manufacturers of Dutch Boy Lead, which conducted the contest, were presented the winners last Monday night at a banquet held in their honor at Paul's restaurant, Santa Rosa.

## Quantities of Materials Required For Unit Volume of Concrete Mix

The following simple and accurate method of determining the quantities of materials required for a unit volume of concrete of any mix is given in March Concrete Highways and Public Improvements: This method is based upon the fact, established by tests, that the volume of concrete produced by any combination of materials, so long as the concrete is plastic, is equal to the absolute volume of the aggregate plus the absolute volume of the cement plus the volume of water. The absolute volume of a loose material is the actual total volume of solid matter in all of the particles. This can be computed from the weight per unit volume and the specific gravity as follows:

$$\text{Absolute Volume} = \frac{\text{unit weight}}{\text{sp. gr.} \times \text{unit weight of water}}$$

Example: Suppose we use a 1:2.2:3.6 mix and a water cement ratio of 7 gal. per sack. Figure 1 sack of cement equals 1 cu. ft., weighs 94 lbs. with a specific gravity of 3.1. Fine aggregate weighs 110 lbs. per cu. ft., coarse aggregate 100 lb. per cu. ft. and their specific gravity is about 2.65. The volume of concrete produced by the above mix is calculated as follows:

$$\text{Cement} = \frac{94}{3.1 \times 62\frac{1}{2}} = .49 \text{ cu. ft.}$$

$$\text{Fine Aggregate (F.A.)} = \frac{110 \times 2.2}{2.65 \times 62\frac{1}{2}} = 1.46 \text{ cu. ft.}$$

$$\text{Coarse Aggregate (C.A.)} = \frac{100 \times 3.6}{2.65 \times 62\frac{1}{2}} = 2.18 \text{ cu. ft.}$$

$$\text{Volume of Water} = \frac{7.0}{7.5} = .93 \text{ cu. ft.}$$

Total Volume of Concrete Produced, 5.06 cu. ft. Quantities for 1 cu. yd. of concrete:

$$\text{Cement} = \frac{27}{5.06} = 5.34 \text{ sacks or } 1.33 \text{ bbl.}$$

$$\text{F. A.} = \frac{5.34 \times 2.2}{27} = .43 \text{ cu. yd.}$$

$$\text{C. A.} = \frac{5.34 \times 3.6}{27} = .71 \text{ cu. yds.}$$

For unusual materials such as blast furnace slag, special light weight aggregates, etc., the exact specific gravities should be used. It will be found that for the purpose of estimating quantities the average value—2.65, given above, will be sufficiently accurate for sand and gravel and the common varieties of crushed rock.

For very porous aggregates corrections should be made for the quantity of water absorbed; for the volume of concrete produced will be reduced directly by this amount. For very wet mixes a further correction may be required to water lost in handling.

cities and include all States except Washington, Idaho, Montana, Oregon, Utah, Wyoming, Nevada, California, Arizona, New Mexico and parts of Kansas and Nebraska.

The March, 1927, increase is given as 3.3 per cent over the figure for March, 1926, which was \$576,799,500 and the highest for that year. The new high record figure of \$595,876,000 represents a rise from the February, 1927, figure of \$368,930,200. February, 1927, however, was 2.7 per cent under February, 1926, when the figure was \$391,723,300, and January, 1927, was 19.8 per cent under January, 1926, which was \$443,372,500.

The aggregate for the first three months of 1927 was \$1,347,982,000, or 4.2 per cent under the figure for the same three months of 1926 which was \$1,396,244,000, but substantially above the figure for the same three months of 1925 which was \$1,076,569,300.

### 1927 Decrease Explained

Officials of the Building and Housing Division explained that the recession in 1927 figure is explained by the fact that one large public utility construction contract in New York in January, 1926, swelled that year's total by about \$50,000,000. More over, they stated, the comparison must consider that this is a period of normal building in the southeastern States where an abnormal boom period prevailed in 1926, as in the case particularly of Florida.

"While the figures for the first three months in 36 States are 4.2 per cent under those for the same months of 1926," it was stated, "they are 24.9 per cent and 31.0 per cent, respectively, greater than those for the same period in 1925 and 1924."

It was shown that while building permit figures in some cases are showing a decline in building activity, they do not include the construction of public works and projects located outside cities, such as sewages, streets and roads, dams, irrigation and railroads, and buildings located outside municipal limits where construction permits are not required.

The foregoing figures include all contracts, local and rural, awarded in the 36 States for commercial, industrial, residential educational and public and semi-public buildings, as well as public works and utilities. They are said to afford the most generally accepted index to building construction activities in this country.

### WHAT'S \$5000 TO ENGINEER?

An interesting anecdote of the late Albert Brainerd Rogers, the only engineer to discover two passes through the Rocky Mountains, was given by T. Kennard Thomson in a recent discussion before the American Society of Civil Engineers. Mr. Rogers was the discoverer of the "Rogers Pass" (now called "Connaught"), which gave a short cut of 67 miles instead of 163 miles around the Columbia river. According to Mr. Thomson, the discovery resulted in the Canadian Pacific R. R. awarding to Major Rogers a bonus of \$5000. Later, William C. Van Horne asked him why the check had not been cashed and was told that never before, in nearly sixty years, had anyone paid him a cent more than obliged to—so he had framed the check. Mr. Van Horne again sent for Major Rogers and showed him a gold watch which was to be given him when the check was cashed. This overcame his reluctance.

### FORMS RESEARCH BOARD

Formation of a department for research and technology by the United States Steel Corporation under direction of Dr. John Johnston, formerly of Yale University, is announced by Elbert H. Gray, chairman. Associated with Dr. Johnston in an advisory capacity will be Dr. R. A. Millikan of Norman Bridge laboratory, Pasadena, Cal.

## 1927 National Safety Congress Program Is Now Being Arranged

That the sixteenth annual safety congress, which will be held at the new Hotel Stevens, Chicago, September 26 to October 1, will be the largest accident prevention gathering the world has ever seen, is the opinion of officers of the National Safety Council who are now busily engaged in perfecting the program. One of the factors which is contributing much to the assured success of the coming convention is the congress program correlating committees which is assisting the various sectional program committees in harmonizing their various programs, both as to subjects and session dates, so that each program will be available to the greatest number of delegates.

The great success of the session last year devoted to a discussion of safety in the small plant has led to the planning of a much larger and even more interesting meeting this year. It is also planned to devote one afternoon and also one evening to a showing of motion pic-

tures. Plans are also being considered for a special meeting of safety supervisors who have charge of accident prevention work in more than one plant, an innovation never before thought of.

The new Power Press Section, in addition to the usual program, will have an exhibition of safety devices made and used successfully by its members. Some of the sections are planning a more concerted effort to divide their programs into harmonious units for the greater benefit, perhaps, of delegates who are interested particularly in one or two general subjects. For example, the Petroleum Section program is planned in divisions to interest personnel in the manufacturing, the sales and the distributing ends.

One Public Safety session will have the Public Utilities, the Electric Railway, the Steam Railroad and the Taxicab and Fleet Owners Sections co-operating with the Public Safety Division in a program of great interest to all.

## No Building Recession in 1927 — Says Secretary of Commerce Hoover

Secretary of Commerce, Herbert Hoover, does not agree with the view expressed in some quarters that a recession in the building industry may be expected this year.

Contracts signed for construction of all kinds are up to those of 1926, Secretary Hoover asserts. He said in a recent interview that construction at the present time, according to latest reports, is continuing at a normal level.

Information received by the Building and Housing Division of the Department of Commerce shows that March, 1927, was the largest month on record for contracts awarded for construction of all kinds, it was stated. According to F. W. Dodge Corporation compilation of

figures from 36 States, in which about seven-eighths of the total building contracts in the United States are awarded, the March total was \$595,876,000. The previous peak was in August, 1925, when the figure was \$589,690,000.

### Figures Called Authoritative

The figures are used in the Department's Survey of Current Business issued monthly, which incorporates in addition to figures received from governmental sources those generally accepted by the trades as authoritative and responsible. The figures of the Dodge Corporation according to the Department of Commerce, are compiled from reports covering contracts awarded in small towns and rural districts as well as large

# Temple Emanu-El Finest Piece of Architecture in Northern California

Temple Emanu-El stands as the finest piece of architecture in Northern California, the structure having carried off first honors in the awards made by the jury of honor awards in the recent architectural exhibition of the Northern California Chapter of the American Institute of Architects in the Golden Gate Park Museum in San Francisco.

Commenting upon Temple Emanu-El as a supreme achievement in architecture, Robert D. Farquhar, Reginald D. Johnson and Pierpont Davis, famed Los Angeles architects, in announcing their awards, said: "A glorious building, placed most effectively upon a difficult site, beautifully planned and modeled, the utmost care and thought given to all of its details, it realizes to the highest degree the expression of its religious character."

## Thirteen Buildings Listed

The committee chose thirteen buildings in San Francisco, the bay district and the peninsula units list of awards. Of San Francisco's commercial and public buildings, the committee had this to say:

"The citizens of San Francisco should be proud of their City Hall, the dome of which in beauty is comparable to any in America; of their public buildings; of their bank buildings, and of their office buildings. The Pacific Telephone and Telegraph building, from near and far, is a convincing message of Young America. It is modern in its manner and technique, and nowhere reminiscent of Europe."

"The Pacific Gas and Electric building," the jury said, "is an academic inspiration under the hands of gifted artists who have achieved in it a most beautiful building."

## List of Awards

The list of awards which, by virtue of the rules of the Northern California

Chapter of Architects, must be the result of a unanimous decision, follow:

Special award—Distinguished honor in architecture, Temple Emanu-El; Bakewell & Brown, Sylvain Schnaittacher, architects.

Single dwellings under seven rooms—House of Henry F. Swift, Berkeley; Roland I. Stringham, architect. The Jamison house, St. Francis Wood. "In the case of both the above awards," said the jury, "we wish to commend the garden treatment about these buildings, which was so successfully in keeping with the architecture."

Single dwellings over six rooms—Garfield D. Merner residence, Hillsborough; Willis Polk & Co., architects. House of Harry Hunt, Pebble Beach; Clarence A. Tantau, architect.

## Multiple Dwellings

Multiple dwellings, apartment group—Frederick H. Reimers, owner and architect. "We wish to comment upon the above as a successful solution for an apartment house on a hillside site," the jury asserted.

Mercantile buildings under five stories—Tupper & Reed music store and tea room; W. R. Yelland, architect.

Mercantile buildings over four stories—The Telephone building; J. R. Miller and T. L. Pfeuffer, architects. Pacific Gas & Electric building; Bakewell & Brown architects.

Religious building—Second Church of Christ, Scientist, Berkeley; Henry H. Gutterson, architect.

Academic buildings—San Francisco Art Association building; Bakewell & Brown, architects.

Hospitals, detention homes, etc.—Relief Home, San Francisco; John Reid, architect.

## ARC WELDING CONTEST DRAWING MANY ENGINEERS

Mechanical engineers of Great Britain, Germany, France, Italy, the United States and other countries of the engineering world are expressing keen interest in the announcement made in New York recently by The American Society of Mechanical Engineers, of which Charles W. Schwab is president, that they had accepted the custody of \$17,500.00 in prize money to be given to the writers of the three best papers disclosing new information that will tend to advance the art of arc welding.

Any one in the entire world may compete for this prize, which is being given by the Lincoln Electric Company, of Cleveland, Ohio, U. S. A. Entrants must submit their papers in duplicate and in accordance with the rules of the competition by January 1, 1928, to Mr. Calvin W. Rice, Secretary of The American Society of Mechanical Engineers, 29 West 39th Street, New York City. The first prize is \$10,000, the second \$5,000, and the third \$2,500.

The purpose of the competition is to encourage improvements in the art of arc welding, the pointing out of new and wider practical applications of the process, indicating advantages and economics to be gained by its use. Welding in place of riveting on structural-steel shapes and on hot rolled plate, which will not work loose as riveted joints do, the replacement of gray iron, malleable, and steel castings with welded steel members, and the welding of non-ferrous parts, are some of the advantages which entrants may claim. The papers are expected to number in thousands, to come from every part of the world. They must be written in English, and may be accompanied by drawings, photographs and other exhibits.

For aid in preparing papers for entry in the contest, a publication giving the rules of the competition and suggestions to entrants will be sent upon request to Calvin W. Rice, Secretary of The American Society of Mechanical Engineers, 29 West 39th Street, New York City.

# Building Wages Stable—Material Prices Down—Strikes in Progress

The recent slackening in national building construction has served to help stabilize wages and bring about further decline in building material prices, according to the national monthly building review, issued by the Building Economic Research Bureau of the American Bond & Mortgage Company.

"While the upward tendency in building wages has not been entirely halted," the review stated, "there is ample indication that building craftsmen are not inclined to press demands for increases as they were last year at this time. Labor generally seems satisfied to maintain present wage scales and the agitation for the five-day week appears to have subsided considerably."

"In some localities building craftsmen are co-operating with employers to give impetus to building. Recently, at Tampa, Fla., members of the Bricklayers' and Plasterers' Union voluntarily agreed to a reduction from \$14 to \$12 a day."

"Several important building strikes, however, are still in progress. In Syracuse, N. Y., building operations involving \$17,000,000 are practically tied up by a walkout of building laborers and hod-carriers who demand a seven cents an hour increase. In Monmouth County, New Jersey, strikes are still in progress in four seashore resorts involving six building trades, who have stopped work in sympathy with the demand of laborers for an increase of \$1.00 per day. Carpenters in Scranton, Pa., are striking for \$1.00 a day increase and in Reno, Nev., the plumbers have quit work demanding a \$1.00 increase."

"The labor situation was cleared up somewhat in New York when the plum-

bers returned to work after the employers were forced by a court injunction to end their lockout of 5000 workers in Manhattan and Bronx shops. The lockout was used in an effort to force Brooklyn plumbers, who struck for \$2.00 a day increase and five-day week to return to work. The Brooklyn plumbers are still holding out for their demands."

"A significant development in the labor situation was reported from Chicago, where mill work plans have announced that they will operate on an open-shop basis as a result of the refusal of the Carpenters' Union to accept a decrease of 10 cents per hour. Mill workers have been on strike for sometime demanding \$1.25 per hour and a five-day week."

"Cities in which wage increases were recently granted, included Cleveland, O.; Newark, Orange, Montclair, Belleville, Bergen, Nutley, Passaic and Paterson, N. J.; St. Louis, Mo.; Baltimore, Md.; Cincinnati, O.; Madison, Wis.; Milwaukee, Wis.; Nashville, Tenn., and Sioux City, Iowa."

"Except in a few small localities there is little or no unemployment in the building trades. Some of the larger cities can still use more bricklayers and plasterers."

"Building material prices throughout the country as a whole are continuing the downward trend, which started last September. Closing of one hundred hardwood lumber mills, because of the Mississippi flood, however, may bring about a rise in this class of lumber, unless there is further recession in frame building construction. Cement and steel prices are expected to show further softening, but brick prices are showing indication of holding firm."

## GAS AS FUEL MAKES POSSIBLE NEW TYPE OF HOME COMMUNITY

An entirely new type of American home has come into existence as a result of manufactured gas service, according to Alexander Forward, managing director of the American Gas Association. He claims that the small house, so popular with Americans, reaches its greatest efficiency and usefulness only when gas is used as fuel.

"Architects and builders now plan homes with living rooms, libraries, ballrooms, playrooms, billiard rooms and music rooms in the basement," says Mr. Forward. "All of these features are made possible because gas requires no storage space and makes no dust or ashes. In addition, gas-fired heating is fully automatic, noiseless and odorless."

"In every new real estate development we see the influence that gas fuel has. Every precaution is being made to prevent the beautiful sub-divisions from being marred by smoke. The garbage collector, the coal man and the ice man will give way to gas-operated incinerators, furnaces and refrigerators."

"The greater livability secured from these small houses makes it possible for people of relatively small means to have their own homes. The saving in space in the cellar gives greater efficiency for large families, and the extra playrooms take the boys and girls from the streets and keep them in the home. The all-gas community, made up of completely gas-equipped homes, is here to stay."

# ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

## RICHMOND BUILDERS' EXCHANGE NOMINATES OFFICERS

The Richmond Builders' Exchange has nominated the following for directors of the Exchange, the election to be held June 14, when the sixth anniversary banquet of that body will be held: E. H. Higgins (incumbent), E. A. Marshall (incumbent), Geo. Edwards, J. L. Eakle (incumbent), F. A. Mero (incumbent), B. J. Ballantyne, Carl Overaa, James Walker (incumbent), John I. Collins, R. H. Spiersch, Robert Dornan, R. W. Timmons and Geo. Tandy. Seven directors are to be elected.

## WAGE AGREEMENT REACHED

Seattle Local No. 2, Bridgemen, Ironworkers, Riggers Union of America, announces that an agreement has been reached effective June 1, between that organization and the Associated General Contractors of America, under which wages of the reinforcing men and the structural men are raised to \$9 and \$10 per day respectively. The former wages were \$8 and \$9 a day. The union asked that the new scale become effective May 1, but a compromise was made for June 1. This organization is not affiliated with the Building Trades Council.

## SALINAS BUILDERS FORM ASS'N

Building contractors of Salinas, Monterey county, have formed a temporary organization to be known as the Salinas Builders' Association. Walter Anderson, 11 Acacia St., was chosen president. The election of other officers were deferred until a future meeting.

With the approval of the meeting the president appointed a committee to consider the wage increase recently demanded by the local branch of the Brotherhood of Carpenters and Joiners, and invited the union carpenters to meet the committee in conference at the next regular meeting of the brotherhood.

It is understood the local building contractors intend making the organization permanent, to function along lines similar to the contractors' organization in Monterey, and that its scope of activities may be extended to include other contractors engaged in the building trades.

These would be contracting plasterers, contracting plumbers, electrical men, material men and others.

## PLUMBERS' LICENSE PROPOSAL IS REJECTED AT SALINAS

The Salinas city council has rejected the petition of the plumbers seeking an increase in the \$500 bond required by the city to \$5000 and the \$20 license fee to \$200. The petition was submitted to the council on May 17 and was laid over for further investigation. The city fathers were of the opinion that the increase was too high and declared it would operate to create a monopoly.

## STOCKTON ENGINEERS REPORT IN- CREASED MEMBERSHIP

Twenty-six new members were initiated into the Stockton Chapter, American Association of Engineers, at a banquet-meeting held at Wilson's, Stockton, June 3. Wm. B. Hogan, city engineer of Stockton and retiring president of the association, was presented with a desk fountain pen.

Senator Frank S. Boggs will address the chapter at its next luncheon meeting scheduled for June 21.

## SANTA CRUZ AGAIN WINS BUILDERS' DAY

Santa Cruz, with headquarters at Casa Del Rey, has again been selected for the 1927 Builders' Day outing. The celebration will run, as usual, for three days, September 3, 4 and 5.

While it was at first voted to give the outing to Sacramento this year, upon reconsideration, it was voted that the builders again journey to Santa Cruz.

Arrangements will be perfected shortly for the appointment of a general committee to handle the event. Following the selection of this committee, the usual sub-committee will be named and work to put the event over on the biggest scale ever will go under way.

## CONTRACTORS' LICENSE LAW IS PROPOSED AT PORTLAND

Building contractors of Portland, Ore., will have to secure city licenses to operate and will have to post with the city \$2500 bonds for faithful performance of contract, if an ordinance which Commissioner Barbur has presented is passed.

The proposed ordinance would in effect, make every building contractor check up more closely on the work he is having done, because his business license and his bond would be subject to forfeiture if he permitted faulty construction.

It is proposed to make the license fee \$10 a year, and it is argued that by placing the bond at \$2500 it is sufficiently high to make its safeguarding by honest work an object to the contractor.

The whole purpose of the ordinance, it is stated, is to raise the standard and grade of workmanship and personnel among the building contractors.

## NEVADA STATE HIGHWAY BUREAU IS REORGANIZED

Reorganization of the Nevada State Highway Department with S. C. Durkee as state highway engineer, has been completed and it is expected that Mr. Durkee will announce the appointment of William Young as his chief assistant within the next few days. Mr. Young's home is in Reno. He was connected with the department for several months and was also employed by Dodge Brothers in contract work on various contracts in the state. H. D. Mills, who has been assistant engineer since H. M. Loy resigned, will probably take the position of office engineer, which he formerly held and will be in charge of the Carson City office.

The assistant highway engineer's chief duty is to deal with contractors, pass on specifications and also pass on the various claims put forward by the contractors during the progress of the work.

It is believed that the highway construction program which has been delayed to some extent by the changes in the department and by the state treasury shortage will now be pushed rapidly and it is not believed that any curtailment of work will result because of the treasury situation.

## PORTLAND CONTRACTORS REJECT BRICKLAYERS WAGE INCREASE

Following a prolonged session, Portland, Ore., mason contractors rejected the compromise offer of the bricklayers for \$11.60 a day until Fall and \$12 a day after the first of September.

This compromise offer was drawn up by the bricklayers union and submitted to the employers with the declaration that this wage scale is in effect in Seattle and that it should be in effect in Portland.

The bricklayers have been on strike in Portland for two weeks, demanding \$12 per day. They had been receiving \$11 per day.

## SALINAS CONTRACTORS ORGANIZE

Salinas Builders' Association has been organized and will maintain headquarters at 11 Acacia street, that city. Walter Anderson has been chosen president of the organization. An election of other officers will be held shortly. The first official action of the body was to appoint a committee to confer the local Carpenters' Union with regard to the wage increase asked by the union.

## BIG LUMBER MERGER BARED BY HAMMOND LUMBER COMPANY

Officials of the Hammond Lumber Company at Los Angeles announce completion of a merger of Pacific Northwest timber and sawmill holdings of the Whitney Company of Detroit with certain timber properties of the Hammond interests.

The merger, said to involve \$6,000,000, represents the consolidation of the Whitney Mill at Garibaldi, on Tillamook bay, Oregon, with 500,000,000 board feet of uncut timber, with approximately 1,000,000,000 board feet of timber holdings of the Hammond Company. These properties will be held by a new Hammond subsidiary, the Hammond Tillamook Lumber Company, with headquarters at Garibaldi.

The Whitney mill has a capacity of 250,000 board feet per eight-hour shift.

The Hammond Company still retains Oregon lands with 7,000,000,000 board feet of uncut timber.

## PACIFIC STATES LUMBER COMPANY NAMES NEW EXECUTIVES

At a meeting in Minneapolis June 6, organization steps under the reorganization plan of the Pacific States Lumber Company were taken, a new board and executive committee being named.

The members of the new board are: F. Stanleigh Arnold, San Francisco, chairman; C. R. Johnson, Union Lumber Company, San Francisco; Fred A. Warner, Pacific States Lumber Company, San Francisco; Homer W. Bunker of Pelree, Fair & Co., San Francisco; M. J. Scanlon of Brooks, Scanlon Lumber Company, Minneapolis; D. N. Winton, Winton Lumber Company, Minneapolis, and W. A. Pickering, Pickering Lumber Company, Chicago.

Arnold Johnson and Bunker were chosen members of the executive committee.

The committee and the new directors will now proceed to organization and to the carrying out of the reorganization and operation with the substitution of new preferred and common stock issues to replace present outstanding obligations.

## APARTMENTS

### Plans Being Completed.

**APARTMENTS** Cost, \$50,000  
OAKLAND, Alameda Co., Cal. Lake District.

Three-story frame and stucco apartment building (12 three and four-room apts.)

Owner—Withheld.  
Architect—Ephraim J. Field, American Bank Bldg., Oakland.  
Ready for bids in about two weeks.

### Sub-Contracts Awarded.

**APARTMENTS** Cost, \$150,000  
SAN FRANCISCO. NW Green and Webster Streets.

Seven-story and basement and sub-basement Class A (21) apartment building.

Owner—M. A. Hunt, 916 Van Ness Ave., San Francisco.

Architect & Contractor—The Helbing Co., 916 Van Ness Ave., San Francisco.  
Plumbing—Higgins & Krause, 730 Teanama Street.

**Steel Forms**—Steel Form Contracting Co., Monadnock Bldg., San Francisco.  
As previously reported, excavating awarded to Sibley Grading & Teaming Co., 165 Landers St.; steel to Golden Gate Iron Works, 1541 Howard St.

Sub-bids are now being taken on all other portions of the work.

### Permit Applied For

**BUILDING** Cost, \$100,000  
SAN FRANCISCO. NE Polk and Bay.  
Eight-story and basement brick apt. building (32 apts.)

Owner—Paul N. Ford, 919 American Bank Bldg.

Architect—Earl W. Morrison, 7027 Maple Lane, Seattle, Wash.

### Completing Plans.

**APARTMENTS** Cost, \$60,000  
OAKLAND, Alameda Co., Cal. Lake District.

Three-story and basement frame and stucco apartment building with reinforced concrete garage.

Owner—E. Field, 607 American Bank Bldg., Oakland.  
Architect—American Bank Bldg., Oakland.

Plans will be ready for bids about July 1st.

### Segregated Bids Being Taken.

**APARTMENTS** Cost, \$500,000  
SAN FRANCISCO. Jackson and Buchanan Streets.

Nine-story Class A steel frame and concrete apartment building (40 3, 4, 5 and 6-room apts.) 2 elevators; all modern conveniences.

Owner—W. L. Penziner, 519 California St., San Francisco.

Architect—Wm. L. Schmolle and Mr. Penziner, 58 Sutter St., San Francisco

### Preliminary Plans Being Prepared.

**APARTMENTS** Cost, \$20,000  
SAN FRANCISCO. Jackson St. near Powell St.

Three-story frame and stucco apartment building (5 3-room apts.)

Owner—Withheld.  
Architect—Fabre & Hildebrand, 110 Sutter St., San Francisco.

### Contract Awarded.

**APARTMENTS** Cost, \$15,000 each  
SAN FRANCISCO. N Anza St. 32 and 57 E Eleventh Avenue.

Two three-story and basement frame (6) apartments.

Owner—H. O. Lindeman, 619 27th Ave., San Francisco.

Architect & Contractor—W. R. Lindeman, 619 27th Ave., San Francisco.

LOS ANGELES, Cal.—Architect W. Wellington Smith, 124 Kensington Ave., is completing plans for a 4-story and part basement, 44-apt. brick apartment building to be built on N. Gramercy Pl. Owner's name withheld; 36 single and 8 double apartments, 50x160 ft.; cost \$100,000.

### Contract Awarded

**APARTMENTS** Cost, \$37,600  
SAN FRANCISCO. S OAK 187 E Masonic Ave.

Three-story and basement frame and stucco apartment building.

Owner—H. O. Lindeman, 619 27th Ave.

Architect—None.

Contractor—W. R. Lindeman, 619 27th Ave.

### Construction Started.

**APARTMENTS** Cost, \$65,000  
SACRAMENTO, Cal. Twenty-seventh and L Sts.

Three-story frame and stucco apartment building (15 2 and 3-room apts.)

Owner and Builder—B. S. Berry, 110 Sutter St., San Francisco.

Architect—H. C. Baumann, 251 Kearny St., San Francisco.

Work will be done by day's labor and sub contracts.

### To Be Done By Day's Work.

**APARTMENTS** Cost, \$25,000  
SAN FRANCISCO. W Eleventh Ave. 125 S California St.

Three-story and basement frame and stucco (6) apartments.

Owner—Popkin, Muson & Sullivan, 251 Kearny St., San Francisco.

Architect—H. C. Baumann, 251 Kearny St., San Francisco.

### Owner To Take Sub-Bids June 13th.

**APARTMENTS** Cost, \$100,000  
SAN FRANCISCO. NE Polk and Bay Streets.

Eight-story and basement brick apartment building (32 apts.)

Owner—Paul N. Ford, 919 American Bank Bldg., San Francisco.

Architect—Earl W. Morrison, 7027 Maple Lane, Seattle, Wash.

Owner will have charge of the construction and will take sub-bids upon his return from Seattle on June 13th.

LOS ANGELES, Cal.—Richard A. Hill, 301 Chester Williams Bldg., has completed preliminary plans and J. Petos, 301 Chester Williams Bldg., is arranging the financing of a 7-story, 60-family Class A apartment building to be built on Union Dr., near 6th St., for the First National Holding Corp. of America. Work is expected to start in about five months; \$350,000.

GLENDALE, Los Angeles Co., Cal.—J. Petos, 301 Chester Williams Bldg., is taking sub-bids for 4-story Class C apartment building containing 40 single apartments at Wilson and Jackson Sts., Glendale, for Frederick M. Harris. Plans

by Richard A. Hill, 301 Chester Williams Bldg. Dimensions, 60x110 ft., brick walls, structural steel; automatic elevator, incinerator.

### Contractor Taking Sub-Figures.

**APARTMENTS** Cost, \$30,000  
SAN FRANCISCO. N Post St. — W Hyde St.

One-story brick addition (ten 2-room apts.) to three-story brick apartment house.

Owner—M. Solomon.  
Architect—Clausen & Amandes, Hearst Bldg., San Francisco.

Contractor—A. D. Disston, Hearst Bldg., San Francisco.

### Contract Awarded.

**APARTMENTS** Cost Approx., \$40,000  
OAKLAND, Alameda Co., Cal. Foothill Blvd. and Fruitvale Ave.

Two-story frame, stucco, tile front apartment building (4 3-room apts.; 3 2-room apts.; 6 offices and 8 stores)

Owner—Derby Estate.  
Architect—Guy L. Brown, American Bk. Bldg., Oakland.

Contractor—J. B. Petersen, 4021 Agua Vista Ave., Oakland.

LOS ANGELES, Cal.—Louis Siegel, 1561 Venice Blvd., will erect by day labor and sub-contract a 4-story, Class C apt. and store building, 53x151 ft., at the southeast corner of 9th St. and Norton Ave., for self. Plans by C. W. Powers, Hibernal Bldg., It will contain 43 apts. and 3 store rooms, and will be of brick construction, with stucco exterior.

### Construction Started.

**APARTMENTS** Cost, \$75,000  
SAN FRANCISCO. NW Geary St. and Thirty-second Avenue.

Six-story and basement Class C (11) apartments.

Owner—Mrs. Ella C. Graham.  
Architect—Edward E. Young, 2002 California St., San Francisco.

Bids are now being taken on all portions of the work. As previously reported, grading awarded to McClure & Chamberlain, 608 Octavia St., S. F.; steel to Golden Gate Iron Works, 1541 Howard St., San Francisco.

### Sub-Contracts Awarded.

**APARTMENTS** Cost, \$350,000  
SAN FRANCISCO. N Chestnut St. — E Larkin St.

Thirteen-story Class A community apartment house (1 apt. to a floor, containing 8 rooms and 4 baths).

Owner—Marine View Apts., Inc., Geo. Stimmel, president; E. B. de Surville, secy. and general manager, 211 Crocker Bldg., San Francisco.

Architect—Willis Polk & Co., 277 Pine St., San Francisco.

Contractor—Dinwiddle Construction Co., Crocker Bldg., San Francisco.

Electrical work—Globe Electric Co., 1899 Mission St., San Francisco.

Plumbing—W. J. Forster Co., 355 4th St., San Francisco.

Heating—C. Petersen Co., 390 6th St., San Francisco.

Hardwood Floors—Inlaid Floor Co., 600 Alabama St., San Francisco.

Ornamental Iron—Monarch Iron Works, 262 7th St., San Francisco.  
As previously reported, Structural steel awarded to California Steel Co., Hobart Bldg., S. F.; reinforcing steel to Badt-Falk & Co., 74 New Montgomery St., San Francisco.

### Sub-Bids Wanted.

**APARTMENTS** Cost, \$40,000  
SAN FRANCISCO. SE Divisadero and Jefferson Sts.

Three-story and basement frame and stucco apartment building (18 two and three-room apts.)

Owner—Mrs. Bessie Cooley, 80 Sotelo St., San Francisco.

Architect—J. C. Hladik, Monadnock Bldg., San Francisco.

Contractor—H. C. Cooley, 80 Sotelo St., San Francisco.  
Lumber—Reinhart Lumber Co., Jerrold and Barneveld Sts., San Francisco.

Southern Pacific Company requests the honor of your presence as a guest on the trial trip of Electric Ferry Boat Stockton, leaving San Francisco Ferry Building at ten o'clock, Oakland Pier at ten-thirty o'clock, Saturday the fourth of June, Nineteen Twenty-Seven. Luncheon at eleven o'clock.

Thos. Ahern, Assistant General Manager.  
Southern Pacific Railroad Co.  
Sacramento, California.  
Dear Sir.

SANDY WANTS to thank you.

AND MR. J. H. Dyer.

FOR THE above invitation.

AND SANDY and Mrs. Sandy.

HAD A wonderful time.

ON YOUR wonderful boat.

YOUR SPEECH, Mr. Ahern.

WAS VERY good.

AND THE only addition.

THAT CLARENCE (Sandy) Pratt, President.

OF THE Pratt Building Material Co.

WOULD MAKE to your speech.

IS TO tell the world.

THAT SANDY Pratt.

SHIPS CLEAN, sharp sand.

AND CLEAN, hard, crushed rock.

AND CLEAN, screened gravel.

AND CONCRETE mix.

(SAND, ROCK and gravel mixed).

OVER THE Southern Pacific lines.

THE LUNCHEON on the boat.

WAS VERY good.

AND SANDY noticed.

THAT YOU served SANDWiches.

MANY FISH followed the "Stockton."

ON HER trial trip.

ROCKed AND SANDab.

SEEMED TO lead the parade.

AND MR. Ahern.

WOULD YOU use your influence.

WITH THE "naming" committee.

OF THE Southern Pacific.

AND SEE if the next boat.

IS CHRISTENED "Prattrock."

FOR OUR rock city.

NEAR FOLSOM.

WHERE SANDY produces.

ROCK, SAND and gravel.

OR NAME it "Prattco."

FOR OUR sand city.

IN MONTEREY County.

THE GIRLS and boys.

AT OUR sand plant.

AT SACRAMENTO.

NAMED THE watchdog "Sandy."

AND SANDY is not sure.

WHETHER THIS is a slam.

OR A compliment.

"I THANK you."

If the Southern Pacific Railroad will not name a boat for Sandy Pratt, producer of sand, rock and gravel at Sacramento, Marysville, Prattco (near Folsom), Prattco (Monterey County) and Mayhew (Sacramento County) (Central office—San Francisco) then Sandy will get a rowboat and paint "Prattrock," "Prattco," "clean sand" and "hard rock" all over it. P. S. Dobbie and Wee Willie of KPO morning exercise fame, announced over the radio last Monday A. M. that Sandy Pratt was on the above trial trip and ate SANDWiches.

## HOSPITALS

## POWER PLANTS

**PASADENA**, Cal.—Until 10:30 A. M., June 14, bids will be received by city for furnishing a quantity of lead covered copper cable in accordance with specifications which may be obtained from the superintendent of the municipal power plant, and on file at office of the city clerk, Bessie Chamberlain.

**EL CENTRO**, Cal.—Imperial Irrigation District has approved plans of Chief Engineer M. J. Dowd for development of hydro-electric power at five locations on district's canal system. Estimated cost of the work, \$1,000,000. The plans will now be submitted to the bond certification committee for permission to hold the necessary bond election.

**SAN FRANCISCO**.—Until June 15, 3 p. m., bids will be received by Board of Public Works to fur. and del. underground conduit material for Municipal Railway; est. cost \$7000. Specifications obtainable from Bureau of Engineering, 3rd floor, City Hall.

## PUBLIC BUILDINGS

**Completing Plans**  
**POLICE STATION** Cost \$100,000  
**SAN FRANCISCO**. 24th and Taraval.  
 Part one and two story and basement steel, brick and concrete police station.  
 Owner—City & County of San Francisco.  
 Architect—Alfred I. Coffey and Gottschalk and Rist., Associated, Phelan Bldg.  
 Plans will be ready for bids in about three weeks.

**PHOENIX**, Ariz.—The \$750,000 bond issue proposed by Maricopa County, Arizona, for the erection of a new courthouse at Phoenix was carried by a large majority at the election on May 31. The project will also include the erection of a new jail building. The buildings will be erected on the present site. S. K. Phillips is chairman and John B. White, clerk, of the board of supervisors. Chairman Phillips requested architects to submit preliminary plans for the proposed buildings.

**MODESTO**, Stanislaus Co., Cal.—The county grand jury has recommended that bonds in the sum of \$500,000 be voted for the erection of a new county courthouse and jail building for Modesto county.

**PALO ALTO**, Santa Clara Co., Cal.—E. K. Nelson, 77 O'Farrell St., S. F., is taking sub-bids in connection with the construction of a central police and fire station; two-story, reinforced concrete; 65 x 95 ft. Est. cost \$74,000. Birge M. Clark, architect, 310 University Ave., Palo Alto. Will be Spanish type with reinforced concrete walls, except in cell block, which will be fireproof construction throughout.

**OAKLAND**, Cal.—State Supreme Court has granted a writ of mandate to force the Alameda County Supervisors to sign contracts for lease of the site and construction of the new Alameda County Memorial Building, the general contract for which was awarded to Schuler & McDonald, 1723 Webster St., Oakland, December 20, on a bid of \$248,130. The work is to be financed from county tax funds as provided by a recent act of the state legislature. The award of contract was held up by the supervisors when a question arose over the title to the land chosen for the site.

**PALO ALTO**, Santa Clara Co., Cal.—The following sub-contracts were awarded by E. K. Nelson, 77 O'Farrell St., S. F., in connection with the construction of a central police and fire station; two-story, reinforced concrete; 65x95 ft. Est. cost \$74,000. Birge M. Clark, architect, 310 University Ave., Palo Alto. Will be Spanish type with reinforced concrete walls, except in cell block, which will be fireproof construction throughout.  
**Excavation**—L. Devencenzi & Co., 2248 San Bruno Ave., S. F.  
**Concrete Work**—E. K. Nelson, 77 O'Farrell St., S. F.  
**Reinforcement**—Frederick Steel Co., Standard and Webster Sts., Alameda.  
**Ornamental Iron**—Fair Mfg. Company, 617 Bryant St., S. F.  
**Metal Stalls and Sidewalk Lts.**—Price-Teltz & Co., 683 Howard St., S. F.  
**Lumber**—Merner Lumber Co., Palo Alto.  
**Mill Work**—National Mill, 320 Market St., S. F.  
**Screens**—Disappearing Screen and Shade Co., 77 O'Farrell St., S. F.  
**Glass**—W. P. Fuller & Co., 301 Mission St., S. F.  
**Roofing**—Malott & Peterson, 3221 20th St., S. F.  
**Plastering**—Ira T. Bridges.  
**Sheet Metal**—Palo Alto Sheet Metal Wks., 521 Ramona St., Palo Alto.  
**Painting**—J. Chaban, 2203 Polk St., S. F.  
**Plumbing and Heating**—H. C. Lauer, 350 California St., Palo Alto.  
**Electric Work**—Coryell's Elect. Works, 412 High St., Palo Alto.

**LODI**, San Joaquin Co., Cal.—The following bids were received June 6th for the construction of a two-story reinforced concrete, brick and terra cotta, city hall bldg. for Lodi from plans prepared by Architects Davis-Pearce Co., Grant and Weber Sts., Stockton. All bids taken under advisement for one week.  
 Alternate No. 1—If the linoleum and linoleum floors as specified under special floors are installed at this time add.  
 Alternate No. 2—If the steel sash on the Pleasant Ave. and Pine St. elevations are glazed with plate glass as specified under Glass and Glazing, add.  
 Alternate No. 3—If the wall and column footings are carried to hardpan instead of just below the basement floor slab as shown on the plans and called for in the specifications including extra excavations, concrete, etc., add.  
 Alternate No. 4—If electric heat, as specified under electrical work will be installed at this time instead of the steam plant as specified and shown on the drawings, the heaters being included in Alternate No. 5, deduct.

Alternate No. 5—If the electric air heaters as specified under Electrical Work are purchased at this time, add.  
 Alternate No. 6—If the steel filing cabinets and cases as specified under Filing Equipment are installed at this time, add.  
 Alternate No. 7—If a cast iron boiler No. S-0729 with "Ideal" metal jacket as manufactured by the American Radiator Company be used in place of the Kewanee 5K as specified, add or deduct.  
 Alternate No. 8—In case the City of Lodi desires to bring the service to the main switchboard, deduct.  
 Alternate No. 9—In case the wiring for switches and thermostats is omitted, deduct.  
 J. H. Carpenter, 29 E. Willow St., Stockton (low), \$52,549; (1) add \$4000; (2) add \$349; (3) add \$650; (4) deduct \$2552; (5) add \$1716; (6) add \$1525; (7) deduct \$135; (8) deduct \$419; (9) deduct \$84; exc., \$1 yd; concrete, \$8.62.

Proposal No. 2: 1,620,000 tons sand (0 to ¾-in.), 1,330,000 tons gravel and crushed rock (¾-in. to 1½-in.), 1,550,000 tons gravel and crushed rock 1½-in. to 3-in.), 2,000,000 tons gravel, crushed rock and cobbles (3-in. to 10-in.) Delivered f. o. b. cars on the sidings of the flood control district, Azusa. Cert. check, \$50,000. Mame B. Beatty, clerk of the board of supervisors.

**POMONA,** Los Angeles Co., Cal.—The State architect will shortly commence the preparation of plans for new buildings at Pacific Colony near Pomona. The sum of \$238,000 is available for new dormitories, school and gymnasium buildings.

**SAN CARLOS,** Ariz.—Until July 18 bids will be rec. at Coolidge Dam, San Carlos, Ariz., for 2500 tons of concrete reinforcing bars. For particulars address C. L. Shotwell, special disbursing agent, San Carlos, Ariz.

**SAN LEANDRO,** Alameda Co., Cal.—Specifications have been approved by the State Board of Health for proposed repairs to be made on the municipal swimming pool in Thrasher Park. Edw. V. Henley is park supt.

**PACIFIC COLONY,** Los Angeles Co., Cal.—W. M. Ledbetter & Co., 5399 Alhambra St., Los Angeles, at \$14,249, submitted low bid and was awarded contract by George B. McDougall, Chief Division of Architecture, Forum Bldg., Sacramento, for furnishing all plant, material, and labor required for the construction and completion of the approach to the underpass, Pacific Colony, near Pomona, Cal.

Complete list of bids follows:  
 W. M. Ledbetter & Co., 5399 Alhambra St., L. A. .... \$14,249 100 days  
 Campbell Construction Co., Sacramento ..... 15,400 60 days  
 De Waard & Son, San Diego ..... 15,440  
 William Carpenter & Co., Pasadena ..... 15,627 90 days

**SACRAMENTO,** Cal.—Wright & Kimbrough, 21st St. and College Ave., Sac-

ramento, real estate agents, represent interests reported to contemplate the construction of an industrial project costing \$8,500,000 to comprise factories and warehouse, homes for workers, etc. A 2000-acre tract south of Sacramento, between Freeport Blvd. and the Sacramento river has favorably impressed the unknown interests.

**RENO,** Nevada—Until June 15, 9 A. M., bids will be received by Cecil W. Crell, Director, Agricultural Extension, University of Nevada, to erect club camp kitchen at University Livestock Farm. G. A. Ferris & Son, architects, Claudinos Bldg., Reno. Plans obtainable from architects on deposit of \$10, returnable. See call for bids under official proposal section in this issue.

## Black Base Pavements Win Approval Of English Engineers

(Extracts From Joint Report to the First Section—Construction and Maintenance—of the Fifth International Road Congress in Milan, 1926)

"Bituminous and Asphaltic Roads," by E. E. Finch, city engineer, London; J. S. Killick, chief engineer, Shell-Mex, Ltd.; W. J. Hadfield, city surveyor, Sheffield; L. S. MacKenzie, city engineer, Bristol.

Frankly acknowledging the indebtedness of British engineers to American pioneers of steam-rolled sheet asphalt, it is to be noted that American practice was largely built up on the acceptance of Portland cement concrete as a necessary foundation for asphalt mixtures of every class. British engineers, on the other hand, have proceeded more on the lines of adapting existing foundations to carry a bituminous surfacing. Definite data based on long experience is now available as to the depth and composition of asphaltic concrete mixtures which have satisfactorily served as a foundation for asphalt wearing surfaces without a Portland cement concrete base. The authors have no hesitation in putting forward to the congress for consideration the theory that asphalt construction to meet modern heavy speed traffic should proceed on the lines of building the total structure from bituminous bound aggregates eliminating, whenever practicable, the cement foundation. Existing foundations, if sufficiently sound, can be utilized to carry asphalt paving under the heaviest traffic. Depending upon the strength of the sub-base, the necessary thickness of the bituminous con-

crete will vary and where the depth exceeds three inches it is desirable that it should be laid in two layers, so as to obtain complete consolidation by rolling. Broken stone up to two inches has been successfully used in bituminous concrete. The authors believe that asphalt construction will proceed on the lines of substituting bituminous concrete for hydraulic concrete and that this form of construction will prolong the life of the asphalt road in addition to speeding up the completion of the large amount of resurfacing work demanded by the development of modern motor traffic. In recent years extensive developments have been made in the use of other than hard broken rock materials as aggregates for asphaltic foundations, with the result that at the present time clinker, furnace ash, colliery refuse, broken concrete, slag, etc., are employed with success. Petroleum bitumen, due to its origin and method of application, is sold to a definite consistency and specific gravity which obviates the necessity for extensive control tests. On the other hand Trinidad bitumen calls for treatment with fluxes to obtain the necessary consistency when used in paving mixtures. Specifications for asphaltic foundations and wearing surfaces are given and methods of construction are described. Recent contract prices for asphalt pavements in Great Britain are tabulated. — (The Surveyor, London, England, September 24, 1926.)

## Peninsula Builders Protest Letting Contracts To Outsiders

Awarding of contracts to outside firms without giving the local contractors and sub-contractors the opportunity of bidding on work to be done in the new Baywood district of San Mateo, was the subject of heated protest at the monthly meeting of the San Mateo County General Contractors' Association at the Oak Tree Inn, San Mateo, last Friday night. A letter protesting this action will be sent by the organization to the Dunn-Williams Company, San Francisco, subdividers of the old Parrott estate, by a vote of the members.

Unanimous endorsement of the proposed fire and water bond issues to be voted upon in Burlingame was voted by the association after discussion on the subject revealed the city could no longer afford to be without fire pro-

tection and an adequate water system.

Advertising of San Mateo and Burlingame under the joint advertising system was unanimously endorsed by the association after a review of last year's advertising was presented by J. P. Daly, Burlingame contractor.

The new building ordinance for Hillsborough was discussed at length and a committee was appointed consisting of J. B. Oswald, chairman, and J. P. Daly and F. F. Burrows to meet with the Hillsborough trustees after a thorough study of the ordinance.

Officers to serve for the last half of the year were nominated, and were F. F. Burrows and C. H. Bessett, president; C. H. Arthur, E. Shaver, vice-president; S. E. Briggs, V. B. Oswald, secretary. The election will take place at the next meeting.

# Official Proposals

## NOTICE TO CONTRACTORS

(Hughson Union High School District)

NOTICE IS HEREBY GIVEN by the Board of Trustees of the Hughson Union High School District, that sealed bids will be received by the said Board of Trustees at the present school building at or near the town of Hughson, County of Stanislaus, State of California, up to 8 o'clock p. m., on the 20th day of June, 1927, at which time all bids will be publicly opened.

Said bids shall be for the furnishing of all labor and materials for the erection and completion of an auditorium or assembly building, being a part of the present high school group and located adjacent to the present high school building, according to plans and specifications prepared by W. J. Wright, architect employed by the Board, said bids to be for all work according to:

All work and materials to be according to plans and specifications for said building.

Said building to be erected on the site of the present Hughson Union High School Building being located at or near the town of Hughson, County of Stanislaus, State of California.

All bids are to be for work according to said plans and specifications, which may be obtained at the office of W. J. Wright in the Mail Building, Stockton, California, during the business hours.

Each bid must be accompanied by a certified check or certificate of deposit for ten per cent of the amount of his bid, made payable to J. T. Halford, clerk of the Board of Trustees, and condition that the successful bidder shall enter into a contract in accordance with such bids, and file with said Board of Trustees, two approved bonds within six days after the acceptance of his bid, one of which bonds shall be conditioned for the faithful fulfillment of the contract entered into and to be done thereunder, and one for the protection of all persons performing labor or furnishing materials for the construction of said building.

In case the contractor shall fail to execute the required contract or to furnish bonds acceptable to the Board within the six (6) days, due notice having been given him, then shall the contractor forfeit all claims to the said deposit above mentioned and it shall become the property of the Hughson Union High School District.

All bids must be submitted upon forms to be obtained from the architect. Contractors will be required to make a deposit of Ten Dollars (\$10.00) for plans and specifications for each Division above mentioned. Contractors will be allowed ten (10) days in which to figure the work under each Division. Should the contractor fail to return plans and specifications on or before the allotted time he will forfeit the deposit and the architect shall be at liberty to use said money to defray the expense of producing additional blue prints and specifications. However, should the contractor return the said plans and specifications in good order within the time above mentioned, then shall the architect return the deposit to the contractor.

The Board reserves the right to reject any or all bids.

Dated 27th of May, 1927.

By order of the Board of Trustees,  
W. H. NORTHWAY, Trustee,  
C. L. GALT, Trustee,  
C. E. FISHER, Trustee,  
W. H. HERR, Trustee,  
J. T. HALFORD, Clerk.

## NOTICE TO CONTRACTORS

(Bakersfield—Lincoln School Annex)

Notice is hereby given that sealed bids will be received by the Board of Education, Bakersfield School District, Bakersfield, California, up to 7:30 P. M., of June 23, 1927, for the furnishing of all labor and material necessary for the construction of the following in the re-

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published.

modeled South Annex of the Lincoln School, according to plans and specifications on file in the Board of Education Office:

1. Installing Slate Blackboards.  
2. Plastering inside and outside of building.

3. Roofing building.

Bids will be received for the work on each item separately. Bids must be accompanied by a cashier's or certified check in the amount of at least ten per cent (10%) of the bid. Such check to be made payable to the Board of Education, Bakersfield School District, and to be submitted as a guarantee that the bidder, if successful, will enter into a contract satisfactory to said Board of Education, and in addition thereto, will furnish good and sufficient bonds therefor.

The Board reserves the right to reject any or all bids, and to waive any informality in any bid received.

By order of the Board of Education, Bakersfield School District.

W. F. WHITAKER, President.  
J. A. HAWKINS, Secretary.

## NOTICE TO BIDDERS

(Camp Kitchen—University of Nevada)

The Directors of Agriculture Extension, University of Nevada, will receive bids for the construction of a club camp kitchen at the University of Nevada Livestock Farm according to official drawings and specifications now on file.

Drawings and specifications may be secured at the office of the architects, G. A. Ferris & Son, Cladianos Building, Reno, Nevada, where all bids shall be submitted.

A deposit of \$10.00 will be required for each set of drawings and specifications taken from the architects' office.

Bids shall be filed at the office of the Director of Agricultural Extension, University of Nevada, not later than 9 a. m. June 15, 1927.

All bids are to be sealed in opaque envelopes and addressed to "Director of Agricultural Extension, University of Nevada," and marked "Bid for Construction of Club Camp Kitchen."

Each bid shall be accompanied by a certified check amounting to at least 5% of the amount bid.

The Director of Agricultural Extension reserves the right to accept any bid or to reject all bids.

CECIL W. CREEL,  
Director of Agricultural Extension.

## NOTICE TO BIDDERS

(Steel Lockers—Oakland Board of Education)

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland School District and Oakland High School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Tuesday, the 21st day of June, 1927, at 9:30 A. M., at which time and place said bids will be opened for: Steel Lockers for the Elmhurst Junior High School, Steel Lockers for the San Leandro Junior High School, Surfacing for High and Elementary Schools.

These bids shall be presented in accordance with the Specifications on file in the office of the Assistant Business Manager, City Hall, Oakland.

Price, fitness and quality being equal, preference will be given to the products of the State of California.

Persons or firms desiring to be on the mailing list of the Oakland Board of Education may list themselves with the Purchasing Department.

JOHN W. EDMOND,  
Secretary of the Board of Education of Oakland, California.

## STATE OF CALIFORNIA

## CALIFORNIA HIGHWAY COMMISSION

## NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of The California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock P. M., on July 5, 1927, at which time they will be publicly opened and read for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

San Joaquin County, an undergrade crossing under the tracks of the Southern Pacific Company at Mossdale (X-SJ-5-B), consisting of two concrete abutments with wing walls and grading 30-foot roadway.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineer's offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,  
J. P. BAUMGARTNER,  
M. B. HARRIS,  
California Highway Commission.  
R. M. MORTON,  
State Highway Engineer.  
E. FORREST MITCHELL,  
Secretary.

Dated June 6, 1927.

### NOTICE TO CONTRACTORS (San Mateo School District)

Notice is hereby given by the San Mateo School District of San Mateo County, State of California, for sealed proposals to be delivered to J. J. Casey, Clerk of the Board of Trustees, for said School District at the Central School House, City of San Mateo, County of San Mateo, State of California, until Wednesday, June 22, 1927, at 10 o'clock A. M., of the said day, for certain alterations and additions to the Peninsula Avenue School Building, situated at Peninsula Avenue, Prospect Row and El Camino Real, City of San Mateo, Calif., also the erection, construction and completion of a School Auditorium and Lunch Room in connection with present building also the erection of two Class Rooms at the Homestead School, also the erection of one Class Room at the Lawrence School, according to plans and specifications therefor on file with the Clerk or President of said Board of School Trustees, and at the office of Thomas M. Edwards and H. A. Schary, architects, 525 Market Street, San Francisco, Calif., to which reference is hereby made.

On a deposit of Twenty (\$20) Dollars complete sets of said plans and specifications may be had by any prospective bidder, and shall be returned on or before the 22nd day of June, 1927.

If not returned by said time, or if mutilated, the said deposit may be retained by the said School District, as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Architects or from the Clerk or President of said School Board, and be signed by the bidder, accompanied by a certified check for at least ten (10%) per cent of the amount of the bid or proposal, certified to by some responsible bank or banker, and made payable to J. J. Casey, Clerk of said Board of Trustees, to be retained by the said School District as agreed and liquidated damages should the party, or parties, to whom the contract shall be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract or any bond required by law or this Board. Separate bids are required on the work of each school building. Bids will be opened by the Board of Trustees for said School District on Wednesday, June 10, 1927, at the hour of 10 A. M., in the Central School House, City of San Mateo, San Mateo County, State of California.

The Board reserves the right to reject any or all bids.

J. J. CASEY, Clerk.

### STANDARD GOVERNMENT FORM OF INVITATION FOR BIDS (Construction Contract)

### UNITED STATES DEPARTMENT OF AGRICULTURE BUREAU OF PUBLIC ROADS

San Francisco, Calif., May 28, 1927.

SEALED BIDS, in single copy only subject to the conditions contained herein, will be received until 10 o'clock a.m. on the 16th day of June, 1927, and then publicly opened, for furnishing all labor and materials and performing all work for constructing the Trinity River Bridge at Cedar Flat on the Trinity River National Forest Highway Route No. 3, located in the Trinity National Forest, Trinity County, State of California.

The project consists of the erection of a 200-foot steel truss bridge on concrete piers and the construction of five 40-ft. concrete approach spans. The principal items of work are approximately as follows:

Unclassified excavation for structures, 813 cu. yds.  
Backfill, 450 cu. yds.  
Class A Concrete, 67 cu. yds.  
Class B Concrete, 442 cu. yds.  
Class C Concrete, 189 cu. yds.  
Class D Concrete, 372 cu. yds.  
Reinforcing Steel, 81,500 lbs.  
Structural Steel, 273,000 lbs.

Where copies of plans and specifications are requested, a deposit of \$10.00 will be required to insure their return. If these are not returned within 15 days after opening of bids the deposit will be forfeited to the Government. Checks should be certified and drawn to the order of the Federal Reserve Bank of San Francisco.

Guarantee will be required with each bid as follows:

In the amount of five (5) per cent of the bid.

Performance bond will be required as follows: in the amount of seventy-five (75) per cent of the total contract price. Performance shall begin within 15 calendar days after receipt of notice from the District Engineer to proceed and shall be completed within 150 calendar days from that date.

Liquidated damages for delay will be the amount stated in the Special Provisions for each calendar day of delay until the work is completed and accepted.

Partial payments will be made as the work progresses for work and material delivered, if such work and material meet the approval of the contracting officer.

Article on patents will be made a part of the contract.

Bids must be submitted upon the Standard Government Form of Bid and the successful bidder will be required to execute the Standard Government Form of Contract for Construction.

The right is reserved, as the interest of the Government may require, to reject any and all bids, to waive any informality in bids received, and to accept or reject any items of any bid, unless such bid is qualified by specific limitation.

Envelopes containing bids must be sealed, marked and addressed as follows:

Bid for Bridge Construction, Trinity River Bridge, to be opened 10 a. m., June 16, 1927, 807 Sheldon Building, 461 Market St., San Francisco, California.

C. H. SWEETSER,  
District Engineer, U. S. Bureau of  
Public Roads.

NOTE—See Standard Government Instructions to Bidders and copy of the Standard Government Form Contract, Bid Bond, and Performance Bond, which may be obtained upon application.

### NOTICE TO BIDDERS

(San Rafael—Board of Education)

Bids will be received by the Board of Education of the City of San Rafael for the installation and completion of the intercommunicating telephone, clock and program signal system in and between the vocational building and the main high school building, in accordance with specifications on file with the secretary.

Bids are to be segregated under the headings of: 1. Complete installation and completion; 2. complete installation and completion, clocks omitted.

All bids must be entered on or before eight P. M., June 14, 1927, with the Secretary of the Board at the office in the San Rafael High School.

OLIVER R. HARTZELL,  
Secretary.

### NOTICE TO CONTRACTORS

(Sunnyvale School District)

NOTICE IS HEREBY GIVEN that the Board of Trustees of Sunnyvale School District of Santa Clara County hereby calls for sealed proposals to be delivered to Fred T. Butler, Clerk of said Board of Trustees, until Tuesday, the 22nd day of June, 1927, at eight o'clock P. M., at the Sunnyvale School Building, Sunnyvale District, Santa Clara County, California, at which time said bids will be opened for the erection and completion of a building containing three rooms and colonnade. These bids shall be presented in accordance with plans and specifications for said building on file with Wolfe & Higgins, Architects, 2-3-4 Realty Bldg., San Jose, California, and with Fred T. Butler, Sunnyvale School District, Santa Clara County, California.

General work, including excavating and grading, concrete, carpenter work, interior equipment, miscellaneous ornamental and structural iron, sheet metal, built-up roofing and painting work, electrical work, and roofing brickwork, lathing and plastering, blackboards and plumbing and heating.

Complete sets of plans and specifications may be had by any bidder on application to said Wolfe & Higgins, architects, or to said Fred T. Butler, at the places hereinbefore mentioned and in each case shall be returned within one (1) week after securing the same.

Bids must be made on proposals obtained from said Wolfe & Higgins, architects, or from said Fred T. Butler, at their addresses above mentioned and must be signed by the bidder and accompanied by a certified check certified by some responsible bank or banker and

be made payable to Fred T. Butler, Clerk of the Board of Trustees of the Sunnyvale School District, to be retained by said school district as agreed and liquidated damages should the party or parties to whom the contract be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall be for at least 10 per cent of the amount of the bid.

Bids will be opened by the Board of said district on Tuesday, the 22nd day of June, A. D., 1927, at 8 o'clock P. M., at the Sunnyvale School Building, in the Sunnyvale School District, Santa Clara County, California.

The Board reserves the right to reject any and all bids or any or all items of such bids.

FRED T. BUTLER,  
Sunnyvale School District of Santa  
Clara County of California.

### NOTICE TO CONTRACTORS

(Salinas Union High School District)

Notice is hereby given that sealed proposals are invited and will be opened by the Board of Trustees of the Salinas Union High School District, Monterey County, State of California, on the 16th day of June, 1927, in the high school building of said school district in the County of Monterey, State of California, for the erection and completion of a gymnasium building in said school district, for the installation of a heating system therein—for the installation of a plumbing system there, and for alterations and additions to the High School building, for the above named district, all in accordance with plans and specifications made for the same by Ralph Wyckoff, the authorized architect, employed by the Board. Proposals will be received separately with alternate propositions on a general contract, plumbing and heating, including everything specified and shown.

Plans and specifications can be seen at the office of Ralph Wyckoff, Growers' Bank Bldg., San Jose, California.

A deposit of twenty Dollars (\$20.00) cash will be required on all plans loaned out as a guarantee of good faith.

All proposals to be made out on bank forms furnished by the architect, and must be accompanied by a check for not less than five per centum of the amount of the bid, made payable to E. L. Van Dellen, Clerk of the Board, and certified to by some responsible banking house. This check is to be forfeited in the event that the successful bidder, after having been awarded the contract, fails within ten (10) days to sign the contract and furnish good and sufficient bonds satisfactory to the Trustees, and as required by law.

Bids will be received up to and including June 16, 1927, at 7:30 P. M., and must be addressed to E. L. Van Dellen, Clerk of the Board of Trustees of the Salinas Union High School District, Salinas, California.

The Board reserves the right to reject any or all bids.

By order of the Board of Trustees, dated May 18, 1927.

E. L. VAN DELLEN,  
Clerk, Board of Trustees.

### LOS ANGELES BUILDERS FILE BANKRUPT PETITIONS

Stating their joint liabilities as \$789,490 and their joint assets as \$18,600, Erling Tharalson and his wife, Agnes Helen Tharalson, have filed in Federal Court proceedings in voluntary bankruptcy. They are residents of San Mateo County. Separate petitions were filed, Tharalson's liabilities being given at \$402,138, and assets, \$9350. Mrs. Tharalson's liabilities are given as \$387,362, and assets, \$9250. Attorney Theodore Breslauer, who filed the petitions, explained that the Tharalsons in 1925 had been in the building contract business in Los Angeles, having constructed some 200 houses, financed the enterprises by first and second mortgages. Recently, Breslauer said, foreclosure proceedings has been begun in the Los Angeles county courts on one of the properties and the bankruptcy proceedings were instituted as a protective measure.

## BRIDGES

**SHASTA COUNTY, Cal.**—Following bids rec. June 6 by State Highway Comm. to const. reinf. conc. girder bridge 183 ft. long, over Slate Creek at La Moline, consisting of 6 spans varying in length from 15 ft. to 56 ft.

Fred J. Maurer & Son, Eureka.....	\$23,167
C. C. Gildersleeve, Felton.....	23,281
J. T. Logan, Grant's Pass, Ore.....	27,285
Nevada Const. Co., Salem, Nev.....	27,565
Engineer's estimate.....	23,065

**PORTLAND, Ore.**—Election will be held June 28 to vote a \$4,000,000 bond issue for the construction of the proposed Morrison St. bridge.

**SAN LUIS OBISPO, Cal.**—State Highway Comm. awarded cont. to D. E. Burgess, Stockton, at \$8895, clean and paint four bridges on Cholame Lateral, bet. Paso Robles and 18 miles east; Salinas River bridge, three 160-ft. through truss spans; Huerfueño River bridge, one 154 ft. through truss span; Estrella River bridge, one 154 ft. through truss span; San Juan River bridge, one 120 ft. through truss span.

**ORANGE COUNTY, Cal.**—W. M. Ledbetter & Co., 5399 Alhambra Ave., Los Angeles, awarded cont. by State Highway Comm. at \$2830 to clean and paint entire steel surface of bridge across the Santa Ana River at Newport Beach.

**SANTA ANA, Cal.**—Franklin B. Gridley, 256 S. Lake St., Pasadena, awarded contract by county at \$13,446 for constructing 2 reinforced concrete girded spans addition on the north end of Tustin Ave. bridge across Santiago Creek in the Fourth Road District.

**LOS ANGELES, Cal.**—Hewitt-Shirley & Miller, Inc., Petroleum Securities Bldg., awarded contract by county at \$16,847 for the construction of a concrete bridge on San Fernando Blvd. over Verguendo Wash.

**LOS ANGELES, Cal.**—Western Construction Co., 144 N. Larchmont Blvd., was awarded contract by Board of Public Works June 1, at \$233,259.05 for constructing a reinforced concrete bridge across the Los Angeles River and the Santa Fe Ry. and Union Ry. tracks. Work is to be done under the supervision of Chief Bridge Engineer Merrill Butler.

**SAN JOSE, Santa Clara Co., Cal.**—Until July 5, 11 A. M., bids will be rec. by Henry A. Pfister, county clerk, to const. reinf. conc. culverts in Sunset and Lendrum Aves. over Silver Creek, Sup. District. No. 2. Cert. check 10% payable to clerk req. Plans on file in office of clerk.

**SAN JOSE, Santa Clara Co., Cal.**—Until July 5, 11 A. M., bids will be rec. by Henry A. Pfister, county clerk, to const. reinf. conc. culverts on Mabury Rd. over Penetencia Creek in Sup. Dist. No. 3. Cert. check 10% payable to clerk req. with bid. Plans on file in office of clerk.

**SAN JOSE, Santa Clara Co., Cal.**—Pretor & Cleghorn, Rosenberg Bldg., Santa Rosa, at \$45,750 awarded cont. by county to const. reinf. conc. bridge on Alviso and Santa Clara Rd. over Guadalupe Creek in Sup. Dist. 3 and 4. Surveyor's est. \$43,500. Other bids: A. W. Kitchen, San Francisco, \$46,645; John Doyle, San Jose, \$48,437.

**MARTINEZ, Contra Costa Co., Cal.**—Victor R. Gede at \$6524 sub. low bid to county to const. reinf. conc. bridge over Walnut Creek at Hookston. Other bids, all taken under advisement, were: Pacific Coast Engineering Co., \$7250; McDonald & Maggoria, \$8590.

**OAKLAND, Cal.**—United Iron Works, 580 2nd St., Oakland, at \$1375 awarded cont. by county for repairs to Webster street bridge involv. repairs to lower chord which was bent out of line.

**SAN JOAQUIN CO., Cal.**—Until July 5, 2 p. m., bids will be rec. by State Highway Comm. to const. upgrade crossing under tracks of Southern Pacific Co., at Mossdale, consisting of two conc. abutments with wing walls and grading 30-ft. rdwy. R. M. Morton, State Highway Eng. See call for bids under official proposal section in this issue.

## DREDGING, HARBOR WORKS AND EXCAVATIONS

**SYDNEY, Mont.**—Morrison Knudsen Co., Boise, Idaho, sub. low bid to bureau of reclamation, Sydney, June 1, to const. drainage works involving 8 miles of open drains, 2 miles of tile drain, and drainage structures.

## IRRIGATION PROJECTS

**GRASS VALLEY, Nevada Co., Cal.**—W. A. Bechtel Co., 625 Market St., San Francisco, at \$34,908.50 awarded cont. by Nevada Irrigation District to const. dam. Bids for pipe line taken under further advisement. Bids previously noted.

**CALIFORNIA**—Following applications filed with State Department of Public Works, Division of Water Rights, during the month of May, for permit to appropriate waters:

App. 5455 (Mono Co.), Emma Grace Parker, Bridgeport, Cal., for 0.05 cu. ft. per sec. from an unnamed stream for domestic, irrigation, stock and fire protection; est. cost \$1000.

App. 5456 (Mariposa Co.), John A. Campbell, 2167 48th Ave., Oakland, for 0.5 cu. ft. per sec. from unnamed creek, for domestic purposes. Est. cost \$1200.

App. 5457 (Los Angeles Co.) Geo. Reid, 115 W. Jefferson St., Los Angeles, for 50 cu. ft. per sec. from underground waters of Little Rock Creek for irrigation and domestic purposes. Est. cost \$50,000.

App. 5459 (Placer and Yuba Cos.), Carl P. Jones, Grass Valley, for 400 cu. ft. per sec. from Bear River for municipal purposes in Sacramento and vicinity.

App. 5460 (Fresno Co.), County of Fresno, Fresno, for 0.222 cu. ft. per sec. from San Joaquin River for sanatorium purposes. Est. cost \$12,000.

App. 5462 (Del Norte Co.), Geo. M. Willoughby, Holland, Josephine Co., Ore., for 50 cu. ft. per sec. from Craig's Creek

and Camp Gulch for hydraulic mining purposes. Est. cost \$7000.

App. 5465 (San Joaquin Co.), Jas. R. McLeod, Stockton, for 1.24 cu. ft. per sec. from San Joaquin River for irrigation purposes on 100 acres. Est. cost \$3400.

App. 5467 (Sierra Co.), Charles E. Heron, care Geo. F. Taylor, Downieville, Cal., for 100 cu. ft. per sec. from South Fork of North Fork of Yuba River for mining purposes. Est. cost \$55,000.

App. 5469 (San Bernardino Co.) American Magnesium Co., care Robert V. Leeson, 733 San Fernando Bldg., Los Angeles, for 30 ac. ft. per annum from run off during rainy season for mining purposes. Est. cost \$5000.

App. 5470 (Elder Co.), A. G. Fraser, Placerville, Cal., for .01 cu. ft. per sec. from Whaler Creek for mining purposes. Est. cost \$15,000.

App. 5471 (Eldorado Co.), A. G. Fraser, Placerville, for 6.25 cu. ft. per sec. from Whaler Creek for power purposes. Est. cost \$15,000.

App. 5473 (Butte Co.), A. F. Lleurance, care R. V. Wright, P. O. Box 919, Chico, for 4 cu. ft. per sec. from Butte Creek for irrigation purposes on 477 acres. Est. cost \$1500.

App. 5475 (Modoc Co.), G. J. Wentzell, Cedarville, Cal., for 2.12 cu. ft. per sec. from N. Fk. Deep Creek for irrigation purposes on 170 acres.

App. 5476 (Siskiyou Co.), B. F. Whitton, 569 Regal Road, Berkeley, for 1 cu. yd. per sec. from Basin Lake for power purposes; 68 T.H.P. to be developed. Est. cost \$1500.

App. 5478 (Inyo Co.), A. M. Johnson, care E. S. Giles, Goldfield, Nevada, for 1 cu. ft. per sec. from Grapevine Canyon Spring for power and domestic purposes. 10 T.H.P. to be developed. Est. cost \$10,000.

App. 5481 (San Diego Co.), Lloyd S. Kelsey, 201 W. Cypress Ave., Monrovia, for 4 cu. ft. per sec. and 20 ac. ft. per annum from Palm Canyon for domestic and irrigation purposes on 320 acres. Est. cost \$15,000.

App. 5483 (Placer Co.), John L. McNab, Mills Bldg., San Francisco, for 200 cu. ft. per sec. and 80,000 ac. ft. per annum from Middle Fork of American River for power purposes. 75,000 T. H. P. to be developed. Est. cost \$10,000,000.

App. 5484 (Inyo Co.), Charles E. Darnace, Bishop, for .25 cu. ft. per sec. from Halvee Spring for irrigation and domestic purposes on 10 acres. Est. cost \$3000.

App. 5485 (Sierra Co.), Geo. I. Carley and Wm. Bruton, Sacramento, for 6 and 2 cu. ft. per sec., resp., from Little Kansas Creek and Mammoth Spring for power purposes. 500 T.H.P. to be developed. Est. cost \$2000.

### Permits

Following permits were issued by the Department during the month of May:

Permit 2789, App. 5072 (Sierra Co.) Issued to Gold Basis Mining and Milling Co., Oakland, for 10 cu. ft. per sec. from E. Kk. of N. Fk. of Yuba River for generation of 382 T.H.P. Est. cost \$40,000.

Per. 2791, App. 5335 (Santa Barbara Co.) Issued to E. W. Alexander, Santa Barbara, for 0.10 cu. ft. per sec. from Arroyo Burro Creek for domestic and irrigation purposes. Est. cost \$2500.

Per. 2792, App. 5310 (Del Norte Co.) Issued to Walter G. Muncy, Crescent City, for 3 cu. ft. per sec. from Kelley's Gulch for power and domestic purposes. 51 T.H.P. to be developed. Est. cost \$2500.

Per. 2793, App. 5374 (Sacramento Co.) Issued to F. A. Wadsworth, 901 35th St., Sacramento, for 2.5 cu. ft. per sec. from Sacramento River for irrigation of 200 acres. Est. cost \$2000.

Per. 2794, App. 4769 (Calaveras Co.) Issued to D. Fricot, Angels Camp, Cal., for 70 ac. ft. per annum from San Antonio Creek for domestic and irrigation of 550 acres. Est. cost \$10,000.

Per. 2795, App. 4770 (Calaveras Co.) Issued to D. Fricot, for 70 ac. ft. per annum from San Antonio Creek for power purposes. 62 T.H.P. to be developed. Est. cost \$10,000.

Per. 2796, App. 4406 (Butte Co. Issued to Edwin W. Ehmann, Oroville, for 3.22 cu. ft. per sec. from Main Ditch of Drain-

Carbide Flare Lights  
OxyAcetylene Equipment

# ROAD LOSS IS TERRIFIC

Twelve hundred miles of main highways have been rendered impassable and thousands of miles of secondary roads have been put out of commission in the area affected by the breaking of levees and overflowing of the Mississippi River and tributaries, according to a survey of the roads of six states made by the National Touring Board of the American Automobile Association.

## OAKLAND BUILDING SUMMARY

### Month of May, 1927

The following is a classified list of building operations undertaken in Oakland during the month of May, as announced by A. S. Holmes, Building Inspector:

Classifications of Bldgs.	No.	Permits	Cost
1-story dwellings	105	\$	\$10,832
1-story dwelling and store	1		3,900
1-story 2-fam. dwellings	3		16,000
1-story 3-fam. dwelling	1		5,000
1-story 8-fam. dwelling	1		14,730
1½-story dwellings	2		10,700
2-story dwellings	16		103,200
2-story flats	4		26,500
2-story apartments	5		74,000
2-story apts., office & stores	1		35,000
3-story apartments	add'l	Cost	7,000
3-story apts. & stores	1		25,000
1-story stores	3		8,850
1-story shop	1		990
1-story comfort station	1		150
2-story factory	1		5,000
1-story tile shop	1		1,500
1-story tile garage	2		1,600
1-story tile service station	1		5,000
1-story tile school	1		35,800
1-story brick cleaning wks.	2		2,000
1-story brick stores	3		31,800
1-story brick shop	2		32,600
1-story brick dwelling	1		4,000

Additions	87		61,042
Alterations & repairs	177		88,847
Total	643		\$1,768,183

## BUILDING SITUATION ON THE PACIFIC COAST

The American Builder-Economist, published by the American Bond and Mortgage Co., New York, sums up the West Coast building situation, as follows:

On the West Coast, San Francisco, Los Angeles, Portland, Ore., and Seattle seem to be fairly well supplied with building of all types, although more apartments and business types of structures can be absorbed. In the smaller cities, however, such as Fullerton, Huntington Beach, Ventura, Oceanside, Richmond, Wilmington and Torrance, Cal., there was shown a demand for modern structures. Fullerton reported that it was "turning people away" because of a lack of rental accommodations. New oil discoveries in the Huntington Beach section have also caused a sharp demand for housing. Hoquiam, Wash., needs all kinds of building development to meet the increase in population, due to the erection of a new \$8,000,000 pulp and paper plant, as well as several other large industries. Tacoma also needs a considerable number of new homes.

In the Rocky Mountain territory, there was also quite a demand expressed for new construction, although Denver is well supplied to meet present needs. In New Mexico, Arizona, Idaho, Nevada, practically every city and town can use some type of building of building construction. The same situation prevails in the northern part of the country. In Wyoming, Utah, Montana and North and South Dakota. There is practically no overbuilding in these sections, and much new construction is in progress.

## STEEL BAR CLASSIFICATION

The position of the Government in the matter of classification of certain steel bars for the purpose of applying duties will soon be presented to the United States Customs Court in New York, it has been stated by the Department of Justice.

## SANTA CLARA ENGINEER LEAVES FOR EAST

Professor and Mrs. D. W. Griswold and their two children left Santa Clara June 3 for Port Clinton, Ohio, where Professor Griswold has accepted the position of chief engineer of the American Gypsum Company. Professor Griswold came to Santa Clara from Cornell five years ago and has been teaching electrical engineering at the University of Santa Clara since that time.

The university announces that Professor Griswold will be succeeded by Alfred D. Hinckley of New York. Mr. Hinckley is a graduate of Columbia's six-year course in electrical engineering and has had experience with the New York Edison Company, the Hell Gate Power Company and the New York Edison testing laboratories. Mr. Hinckley is expected to arrive in Santa Clara about August 10.

## NEW ZEALAND LUMBER MILLS

The returns of factory production collected by the Census and Statistics Office of New Zealand covering the year ended March 31, 1926, show in the timber industry there were 374 saw mills engaged in the production of rough sawn timber and lumber during that year. In 1924-25 the number of saw mills was recorded as 360.

## ENGINEER PERFECTS DEVICE TO BREAK WAVE FORCE

Phillip Brasher, a Princeton, N. J., engineer, has perfected a device which he says will break the force of the highest waves that pound the Atlantic Coast. Brasher's breakwater consists of a low-pressure air compressor which feeds a flexible perforated pipe on the ocean bed. Bubbles rising from the pipe break the force of the waves. The inventor reports that various tests and the continued use of the device to protect a pier in California have shown it to be infallible.

## POTTERY PICNIC ARRANGED FOR AT LINCOLN

The initial movement in preparation for the annual event of the employees of Gladding, McBean & Company's Lincoln plant is set for Sunday, June 19th, for the fifth annual pottery picnic, to be held as in previous years at the McBean Memorial Park.

The committee is soliciting the community's co-operation, as the funds will go to the development of the children's playground at the McBean Memorial Park.

The general committee is composed of D. A. Noyes as chairman; Charles Gladding, treasurer, and James H. Ryan as secretary.

## ENGINEER IS HONORED

Wallace Clark, member of the American Society of Mechanical Engineers, has received the Commanders Cross of the Order of Poland Restored for his services in connection with the reorganization of tobacco and salt monopolies of Poland. Mr. Clark was the engineer member of the Kemmerer Finance Commission which visited Poland in 1926 at the invitation of the Polish Government. The honor was bestowed on May 13 last in New York by the Polish Minister to the United States, Mr. Ciechanowski.

## MUNICIPAL LIGHT PLANTS BRING GOOD RETURNS

Municipally operated electric light plants in California in 1926 enjoyed total receipts of \$15,104,957.22, with a total expense of \$7,842,128.35. This is shown in the annual report of State Controller Ray L. Riley.

Riley's report shows further that the interest and redemption of bonds for the year was \$2,606,191.51.

Twenty-two municipal plants are listed in the report. The total from the sale of light and power is \$13,018,093.43. Cities were charged \$1,635,880.58 for power.

### Expenses Near \$7,000,000

The total expense of operation and maintenance of plants and systems was \$5,277,937.83. The administration and collection expenses were \$1,661,084.96.

The Redding municipal plant showed total receipts of \$80,738.91, while the operation and maintenance of the plant and system cost \$48,790.68. The interest and redemption of bonds was \$3,220.

The city of Lodi had total receipts of \$108,860.83, with the total ordinary expenses amounting to \$54,434.04, in addition to an outlay of \$15,151.58 and \$3,991.60 for the interest and redemption on bonds.

### City Water Plants

Municipally owned waterworks in the state showed total receipts of \$16,595,262.41, with expenses of \$8,781,026.92 and a bond redemption total of \$4,238,313.88.

In the report on municipally owned wharves and docks, it is shown the total receipts were \$2,220,633.36, and the expenses were \$1,525,000.15.

Gas plants brought in \$2,097,683.54 in receipts and the expenses were \$1,512,391.47.

All the cities of the state owned \$624,467,527.10 worth of property and equipment.

The counties of the state owned \$369,583,439.45 worth of property.

## WRITER URGES CREDIT FOR THE ARCHITECTURAL PROFESSION

(By Oliver Roberts Barton in the Reno, Nevada, Daily Gazette)

I talked with a great architect—one of the world's greatest indeed, who has to his credit probably more beautiful buildings than Michael Angelo had pictures.

I, stupid, had not heard of him. I said so in very shame. He laughed. "Unless you are particularly interested in architecture you need not apologize," he said. "Few people hear of the architect. We have no signature."

I thought of it later. "We have no signature." How many people in the world are doing great, grand, beautiful work—but have no signature.

An artist can put three crooked lines on a paper and he has a signature. A man may write a joke—a woman a recipe—and they have a signature. A singer has a signature, especially if he sings over the radio. He need not be known. Sculptors have their names in the stone.

But princes in business, magnificent mothers in homes, the patient, striving, achieving world has largely no signature. A doctor, lawyer, or minister has none unless some untoward event takes place to lift him to the heights—either of notoriety or fame.

But to go back to the architect, the maker of beautiful buildings—why shouldn't he have a signature? His work is tangible and lasting. We cannot sign a sentiment but we can sign a fact. A building is a fact and should be signed.

One sees big buildings rising to heaven modestly hidden behind fifty-foot placards giving the names of the contractors, the plumbers, the landscape gardeners, et al. And the master mind stands back and says nothing, his work never to be publicly recognized.

Every house should have on it a bronze tablet in a conspicuous place with the architect's name on it—no matter how modest the house is. And the bronze tablet should be in a place where the world may see.

## MATERIAL PRICE DECLINE IN LINE WITH OTHER COMMODITIES

Each succeeding report shows prices in the general wholesale market continuing the downward trend taken in the early autumn of last year, says Engineering News Record.

About two months after wholesale commodities began this slow descent, building materials, as a group, started in the same direction. Both are on the down-grade at the present time.

Brick, which for five years offered the strongest resistance to price declines, has given way with the rest of the basic materials, leaving steel a little better off than the others, so far as holding the quoted price levels is concerned. The foregoing refers to the market in a nationwide sense, as gaged by regular weekly reports from the principal industrial districts of the country.

The apparent firmness in steel is probably due more to the recent upward movement in prices of black and galvanized sheets than to any change in bars, shapes, plates, etc. The three

principal hot-rolled materials sell at \$1.90 per 100 lbs., Pittsburgh mill, in carload quantities, with \$1.80 mentioned on the shapes and plates in connection with exceptional tonnages. Blue-annealed sheet prices are down as are quotations covering almost every description of scrap.

Demand runs to small lots in pig-iron, while railway and automotive steel buying appears slower. Cast-iron pipe requirements hold to fairly high seasonal levels.

Despite statements to the effect that materials prices are slowly receding, demand as measured by contracts let, is close to that of the first twenty weeks of 1926.

Actual quantities of materials required are also in larger volume than at this time last year, according to latest available data.

Hardwood lumber, cement and brick movements are all substantially ahead of last year at this time. Slight recession, however, is evident in the soft-wood lumber movement, also steel ingot production and bookings of steel orders.

There is at least 4 per cent more cement stored at mills throughout the country than at this time last year.

## APT. HOUSES OF HIGHEST TYPE SHOW OCCUPANCY RATIO OF 97.3 PER CENT

An average occupancy ratio of 97.3 per cent for apartments of highest type in Pacific Coast cities is shown by a comprehensive survey of such properties completed by S. W. Straus & Co. Apartment houses of fireproof construction, modern appointments and preferred location, all reflect an occupancy above the normal 90 per cent with many operating at practically full capacity, although maintaining high rental schedules, while the generally prevailing conditions of lower rental properties shows an occupancy ratio much lower.

A significant feature of the Straus analysis is the fact that the highest occupancy figures are returned by the two groups of apartment properties which maintain the highest schedules in the West, those of Nob Hill in San Francisco and the Wilshire Boulevard district of Los Angeles. Indicative of Nob Hill conditions is the fact that approximately 35 per cent of the new Cathedral apartments, to be opened in September, is already under lease, compared with the record of the Huntington apartments, under the same management, which has been practically wholly occupied since 99 days after its completion in 1924 and which was but 20 per cent leased at the opening.

Comprised in the Strauss survey are such establishments as the Huntington, Brocklebank and Francesca, Nob Hill properties in San Francisco, the Gaylord, Talmadge, Windsor and Haddon Hall of the Los Angeles Wilshire district, all reflecting most satisfactory occupancy, and more than a score of other apartment houses which have been in operation more than a year, and which are typical of this class of property, located in Vancouver, Seattle, Portland, Oakland, Sacramento, San Francisco, Los Angeles and Long Beach. The analysis is based on a general investigation of apartment house conditions in each of these cities and on official reports of occupancy and earnings from the many properties of this type which have been financed by S. W. Straus & Co.

## ENGINEERING SOCIETIES EMPLOYMENT SERVICE

Further information regarding positions listed in this column is obtainable from Newton D. Cook, Room 715, 57 Post Street, San Francisco, (Phone Sutter 1684).

R-1035-X-2701-CS ENGINEER familiar with heating, ventilating, wiring, etc. as partner in consulting firm. Investment required. Apply by letter stating age, experience and salary earned. Loc. So. California.

R-1031-X-2686-CS CIVIL ENGINEER, 25-30, single. Must be a practical man thoroughly experienced in asphalt road work to show methods of construction to city engineers in India. \$3000-\$3500 on three year contract. Headquarters, New York.

R-1047-X-2730-CS RECENT GRADUATES, for company manufacturing steel joists and accessories, and steel roof trusses. Experience in building design, preferably both reinforced concrete and structural steel, with reasonable amount of personality and a great deal of ambition desired. Apply by letter. Location, Ohio.

ARTHUR BROWN, S. F.  
ARCHITECT, IS NAMED ON  
U. S. ARCHITECTURAL BOARD

Arthur Brown Jr., San Francisco architect, designer of City Hall, Pacific Gas and Electric Bldg., California School of Fine Arts and of a number of the Stanford University structures, has been named a member of the United States Board of Architectural Consultants.

Mr. Brown, member of the firm of Bakewell & Brown, is the only member of the board to be named from the West. The board will prepare plans for rearrangement of the Government buildings in the Big Triangle, Washington, one of the largest construction projects in the Nation's history.

The Government's plan, according to Architect Brown, who just returned from Washington, is to incorporate as many department buildings as possible in what is called the Big Triangle. Separate structures for the Department of Commerce, the Bureau of Internal Revenue, Department of Labor, Department of Justice and other departments are planned in the project.

With the idea of gathering the expert architectural minds of the country in Washington for this project, the Treasury Department at a recent meeting appointed the new Board of Architectural Consultants, composed of six members.

The board includes, besides Brown, Edward H. Bennett of Chicago as chairman, Louis A. Simon of Washington, D. C., executive officer of the board, and Milton B. Medary Jr. of Philadelphia, William A. Delano of New York City and Louis Ayres of New York City.

An amount running into tens of millions of dollars will be spent by the Government in its latest project. No definite amount has been appropriated yet, he says, but construction of a Department of Commerce building at a cost of \$15,000,000 is expected to be started soon. When that is finished the Government will undertake the Bureau of Internal Revenue building, to be erected at an approximate cost of \$5,000,000.

## U. S. STEEL PRODUCTS TO BUILD AT PORTLAND

United States Steel Products Company contemplates early construction of a \$200,000 plant in Portland, Ore. It is announced by E. R. Eldredge, sales manager for the company, with offices in the Stelling Building, Portland. The structure will be erected at 765 Nicolai Street and will cover a ground area of 316x330x400 feet. The building will be one of the largest storage structures in the Northwest and will handle the large line of steel products that the Pacific Coast department distributes.

# Pacific Coast Cities Issue 12,970 Building Permits During May for Work Involving Expenditure of \$45,012,323

Building activity is well sustained in the Pacific Coast cities, May records of building permits issued totaling 9% above the figures for May of last year and but 3% below the April total of this year, according to tabulations from 96 cities comprised in the Pacific Coast section of the National Monthly Building Survey of S. W. Straus & Co.

Marked increase in building is reported from Arizona, California, Idaho, Nevada, Oregon and Utah, while slight reductions from the 1926 comparable figures are reported from Washington and British Columbia. All except Nevada, Oregon and British Columbia, however, show reductions from the totals for April of this year.

A grand total of 12,970 building permits calling for construction costs aggregating \$45,012,323 issued during May in 96 cities, indicates a greater ratio of major type buildings than for any previous month this year or for last year as a whole. The average cost per permit is \$3500 for May, while the comparable figures for previous months are: April, \$3370; March \$2900; February, \$2870; January, \$3000; and for the entire year of 1926 the average was \$3370.

San Francisco, with a May record of 905 building permits issued for \$4,979,792 of new construction shows a slight gain over April's figures and a gain of 88% over last May. This is the biggest monthly building program San Francisco has reported this year.

Los Angeles, issuing 3200 permits for \$11,563,303 of new buildings, shows a 10% increase over April's total and an 8% increase over that of last May. This is the first monthly report since January to show a gain over last year's comparable figures.

Portland's May total of 956 permits for \$4,706,127 of new buildings is 17% above the April figure, 56% above the total for last May, and is the highest monthly total since June, 1925.

Sacramento establishes a new high record with a May total of 202 permits issued for \$2,686,388 in new buildings, 446% over April's total and 329% above that of last May.

Seattle, issuing 935 permits for \$2,659,555 in new buildings during May, shows a 16% gain over April's figures, but an 8% reduction from the May total of 1926.

Oakland issued 643 permits for \$1,768,183 in new construction during May, 6% less than in April and 26% less than the May figures of last year.

Following are the official May, 1927, construction cost figures reported to us by building department executives of 96 cities reported in the Pacific Coast Section: CALIFORNIA

City	May, 1927	May 1926	April, 1927

\*Hollywood figures included in Los Angeles totals.

not be attributed to masonry construction, as is usual in explaining the small fire losses of Europe.

Santa Barbara had in 1925 a per capita loss of only forty-one cents, the lowest per capita loss of the California cities; and one of the lowest in the United States. Three other California cities, San Jose, Stockton and Berkeley, had loss of less than one dollar per capita; while Alameda, Fresno, Long Beach, Los Angeles, Oakland, Pasadena, Riverside and Sacramento all were under \$2 per capita. San Diego was highest with a per capita loss of \$2.33, unusually high as compared with \$1.94 and \$1.25 in the preceding years but still more than 50 per cent under the national average.

According to the National Lumber Manufacturers Association's engineers' report, 1925 fire losses in California cities were fairly representative, for in a very few instances in the last five years, in cities over 100,000 population have the per capita damages exceeded \$2.60. This is remarkable in view of the large volume of construction that has taken place during the period and the great increases in national wealth.

Los Angeles is a good example of what one large city has been able to do in reducing its fire losses. In 1921 the fire loss was \$2.01 per capita; in 1922, \$1.54; in 1923, \$1.67; in 1924, \$1.61; and in 1925 it amounted to only \$1.47. During this period new building was showing remarkable increases, averaging in the last three years almost \$150,000,000 a year.

Frame buildings in Los Angeles in 1925 represented 96 per cent of all buildings, yet of the total number of fires in 1925 only 78 per cent occurred in frame buildings. Figures as to the number of buildings are available for only two other California cities, Pasadena and San Jose. Pasadena, with 80 per cent of all buildings of wood, had only 72 per cent of its fires in frame buildings, while San Jose, with 96 per cent of its construction frame, had only 62 per cent of its fires in this type of construction.

Low fire losses are consistently reported in spite of the fact that there are no anti-shingle ordinances in California cities, indicating, according to the engineers, that there is little foundation for the anti-wood shingle ordinances in force in cities of some other states.

#### MATILIJIA CANYON IS SITE FOR PROPOSED CEMENT PLANT

A cement plant, which will call for the investment of \$1,000,000 in its construction, is being planned for Matilija canyon section, Ventura county, according to Edward Duryee, president of the White Crown Products Company of Los Angeles, who has applied to T. G. Gabbert, president of the Board of Supervisors for certain concessions in connection with the project.

In his letter, Mr. Duryee speaks of having been over the ground with a party of manufacturers and declares that the quantity and quality of the cement deposit is sufficient to warrant the building of the plant at once. The company proposes to be in operation within nine months.

The co-operation which Duryee suggests consists of three actions by Ventura. He asks that the first seven miles of the Maricopa highway be constructed at once.

Second, he would want permission for the company to lay a narrow gauge railway track over five miles of this highway, under suitable restriction, such as having the rails come flush with the surface of the pavements and sinking the ties beneath the road.

Third, he wishes assistance in getting the rights-of-way for pipe lines from the oil fields, and for giving the Southern Pacific Company a right-of-way to run a spur track from the Matilija station to the plant.

## PACIFIC GAS AND ELECTRIC TO UNDERTAKE BEAN CREEK CONSTRUCTION

That the Bean Creek power project on the Middle Fork of the Feather River, about ten miles above Bidwell Bar, will be the next power plant that the Pacific Gas and Electric Company will build, is the statement appearing in the San Francisco Chronicle.

The Middle Fork power projects were recently purchased by the Pacific Gas and Electric Company from the Byllesby interests.

The Chronicle says relative to the project:

"Among the interesting and important effects of the merger of Byllesby properties with Pacific Gas and Electric Company, now awaiting final sanction of the railroad commission, and little more than touched upon heretofore, is the passage into Pacific Gas hands of one of the largest remaining undeveloped hydroelectric sites within ready delivery distance of San Francisco.

The site, on the Middle Feather River, and known as Bean Creek, is capable of producing about 360,200 horsepower.

"Surveyors have been maintained in the area for several years following granting of preliminary Federal permits for the development of predecessors of Byllesby interests in Sierra and San Francisco Power, which now passes from lease to ownership of Pacific Gas.

"With the sale of Byllesby Standard Gas holdings to Pacific Gas, the Bean Creek project, no longer immediately valuable to Standard, is sold to Pacific Gas at cost of preliminary developments to date. This amounts to about \$472,200.

"While Pacific Gas officials have not intimated their immediate intention regarding the power site, it is regarded as probable that it will see the next extensive hydroelectric development of the company.

"Practically all preliminary surveys have been made and applications for final permits for the development are pending at Washington. The development contemplates the establishment of three main storage reservoirs known as Gold Lake, Clio and Grizzly, and four power plants of which Bean Creek would be first. Engineers' estimates figure a \$13,000,000 investment to bring in the Bean Creek until and an ultimate investment of about \$42,300,000 to complete the whole project.

"Delivery to Bean Creek power can be made to San Francisco with only about 140 miles of transmission line, which is as close as any other major power development to this city, and Bean Creek installation can be completed at a cost of \$117.50 per installed horsepower, it is estimated."

## CALIFORNIA FIRE LOSSES

If fire losses throughout the entire United States were at the same per capita rate which has obtained in California cities over a period of several years our national fire losses would be reduced more than one-half and annual savings of over \$200,000,000 effected, according to a survey published today by building engineers here. Total fire losses in the United States, insured and uninsured,

reported to Insurance interests during 1925, the latest year for which statistics are available, were \$447,543,087, or a per capita loss of \$3.88. This is almost double the highest per capita loss reported for any of the California cities and more than ten times as great as the lowest. As California builds of wood more freely than other states, except possibly Washington and Oregon, its low fire loss can-

# THE OBSERVER

## WHAT HE HEARS AND SEES ON HIS ROUNDS

The United States Supreme Court in a decision by Justice Sutherland May 31 upheld the set-back building ordinance of Roanoke, Va. S. M. Gorieb assailed the ordinance, which required new buildings to be set back as far from the street line as 60 per cent of the buildings in the same block. Gorieb applied for a permit for a business building and was required to set it back 34 ft. from the street line. The Supreme Court held that the ordinance as applied to him, at least, appeared reasonable inasmuch as in that particular block, 80 per cent of the buildings were more than 34 ft. back from the street line. The decision of the lower court in the case was affirmed.

Costs of marketing steel and heavy hardware declined slightly more than 26 per cent during 1926, delegates to the eighteenth annual convention of the American Steel & Hardware Association were told at the opening session at Cleveland. The decrease was a steady continuance of a trend that set in more than two years ago, convention delegates said.

Two've planing mills in Stockton employ an average of from 160 to 200 experienced workers and distribute \$240,000 in wages in addition to turning out a wide variety of products worth \$850,000 annually, according to the June issue of the Stockton Chamber of Commerce bulletin. The plants secure about 25 per cent of their business out of San Joaquin county.

The merger of the Columbia Steel Corporation and the Pacific Coast Steel Company—a deal involving approximately \$10,000,000, has been practically perfected, and an official announcement of the big combine of Pacific Coast steel interests may be expected within a brief time, according to Oscar H. Fernbach in the San Francisco Examiner.

Establishment of a \$5,000,000 pulp and paper mill in Eureka by the Pacific Lumber Company of Scotia is the hope of the Eureka Chamber of Commerce, following the filing of applications for water rights on the Eel River by the lumber company.

R. G. Dahlberg, president of the Celotex Company, Chicago, announces that a plant for the manufacture of Celotex, an insulating lumber made from sugar cane fibre, is to be erected in Queensland, Australia. Former Prime Minister W. M. Hughes has been made chairman of the board of directors of a new corporation to be known as Celotex, Australia, Ltd.

The United States Steel Corporation announces that under the profit-sharing plan, common stock of the corporation to the amount of 100,000 shares will be offered to employees at \$122 a share. Subscriptions will be received until July 16.

A petition will be presented to the Santa Barbara city council by property owners seeking immediate revision of the city building ordinance. L. L. Pope, city building inspector, is reported to have checked over the code and has listed "ambiguities and duplications" in the ordinance. He will recommend that complete revision be undertaken.

The California Highway Commission, in accordance with a bill passed at the recent session of the legislature, is to investigate toll bridges that are operating as connecting links in the state highway system and to report to the 1929 legislature on some plan whereby such structures might be acquired by the state. The report is to offer a plan for financing the acquisition of such bridges and amortizing "the cost of such acquisition by tolls; such bridge or bridges then to be free of tolls and be made a part of the state highway system."

Business conditions in the electrical industry are good, although competition seems to be growing in intensity, reports the "Electrical World." Prices on a number of lines are being forced down, according to manufacturers.

Paul F. Taylor of Placerville, El Dorado county, will mine green quartz of mariposite from the old Craddock Tunnel on Bedford avenue, Placerville. The material will be ground and shipped to the various cities in the Northern and Central California section for stucco work on buildings. Taylor will operate under the name of El Dorado Talc & Rock Products Company.

A large expansion in the Columbia Steel Company's open hearth furnace capacity at Pittsburg and Torrance, California, are foreseen in the announcement that a \$7,500,000 bond offering is planned by the company. New contracts for the delivery of coke will necessitate the enlargements. The company's coke oven capacity will be expanded from 180,000 tons to 305,000 tons annually, the announcement revealed.

Initial operations by A. M. Byers Company's mechanical puddling plant at Warren, Ohio, indicate successful application of the Ashton process, in producing a high-grade refined iron at lower costs than heretofore. In addition to manufacturing pipe, Byers company will likely add to its finishing capacity, employing puddled iron for use in such products as sheets, wire and bars. Substantial broadening in use of refined iron is predicted.

A controversy between the Marin county supervisors and the Northern California Chapter of the Associated General Contractors of America was revealed following the issuance of the association's monthly letter charging that the supervisors spent public money on the Alpine road illegally and failed to insist that the road be built according to specifications in the contract. The charges are denied by Marin county officials who accused the association of using the charges as a weapon to force the adoption of the "unit bid" system instead of the "lump sum" system now used in awarding contracts.

American prosperity is due to high wages, James J. Davis, Secretary of Labor, asserted in addressing the Philadelphia, Pa., lodge of the Loyal Order of Moose. "America owes everything it has to the pay envelopes of the 42,000,000 men and women workers of the country," said Davis. "What counts in the long run in a man's life is what his pay envelope contains. Some in America advocate low wages. Such ideas have no place in our standards of living."

Action on the proposal to extend the fireproof shingle roofing limits in San Francisco has been deferred by the building committee of the Board of Supervisors in the hope that a compromise might be effected. The ordinance proposed by Fire Chief Thos. R. Murphy was declared "too stringent" by Supervisors Andrew J. Gallagher, Cornelius J. Deasy and Chairman Chas. J. Powers. The matter has been continued for one week during which time Murphy, Deasey and John P. Morgan, chief building inspector, will attempt to reach a compromise report.

Steel ingot production in May is put at 4,046,214 tons by the American Iron & Steel Institute against 4,129,052 in April and 3,027,797 in May last year. The output for the five months this year was 20,308,375 tons against 1926. Per cent of operation in May was 94.90 against 102.42 in March and 39.97 in May last year.

Consideration is being given to a new ordinance covering the use, installation and repair of electrical equipment in Sacramento, according to City Manager H. C. Bottorff. The object of the proposed changes is to bring existing legislation covering the subject up to date. Existing ordinances have not been revised for several years Bottorff says, while conditions are constantly changing. Hearings will be held with the electrical interests of the city before the ordinance is finally presented to the city council.

Explaining the recent sharp advance in prices of oak lumber, oak flooring and gum lumber, Paul Hallingby, sales manager of the Hammond Lumber Company, says: "The Mississippi river floods have put out of commission 150 sawmills. Both oak timber and gum timber are obtained from these swampy regions. It is estimated that 80% of the standing gum timbers has been under water in depth up to 20 feet. Almost the same condition is true in oak."

A "No Smoking" order has been issued by S. B. Show, district forester, San Francisco, in all California Forests. Until the fall rains, smoking will be prohibited entirely in the national forests except in approved camps and places specifically provided for it, the order states.

## TRADE NOTES

M. C. Floor Company announces removal of its offices from 661 Golden Gate Avenue to 411 Loew Warfield Building, Market Street and Golden Gate Avenue. The company specializes in hardwood and composition flooring.

Gilson Electric Co., capitalized for \$100,000, has been incorporated in Oakland. Directors are: C. L. Gilson, Henry I. England and W. J. Young all of Oakland.

Jesse Shay, contracting plasterer, has opened new offices and shop quarters at 720 Clementina street, San Francisco.

Remsco Manufacturing Co. of Stockton, capitalized at \$150,000, has been incorporated and will engage in the manufacture of ammonia refrigerators. Directors are: C. E. Stanley, H. O. Secrest, H. E. Threlfall, A. P. Duryea and John Hancock.

Crane Creek Lumber Company of Lakeview, Ore., submitted the highest of four bids received by the San Francisco offices of the United States Department of Forestry for cutting approximately 194,000,000 feet of timber of the Modoc National Forest.

H. A. Rothgarn has been appointed San Joaquin Valley manager of the California Pottery Company, with headquarters at Fresno. Mr. Rothgarn succeeds C. B. Cochran, who held the position for more than five years and who has been promoted to general sales manager of the company, with headquarters in Oakland. Rothgarn has been with the company several years, the latter part of his service having been in connection with the sales department of the Fresno office.

George W. Borden, former highway engineer of Nevada State, has joined the forces of the Santa Cruz Portland Cement Company. He will maintain offices in the Commercial & Savings Bank Bldg., Stockton, serving the San Joaquin Valley district.

Chas. Walton has been appointed Western sales manager for the North Electric Manufacturing Co. of Galion, Ohio, with headquarters at 515 Market St., San Francisco. The company manufactures automatic telephone system.

L. A. Ganahl Lumber Co. of San Francisco, capitalized for \$200,000 has been incorporated. Directors are: Lucile A., Myrtle F. and Annie D. Ganahl, Dena Ankele and E. J. Hromada.

John Bluett will operate from 348 Guerrero St., San Francisco, under the firm name of Percy Sheet Metal Works.

American Paulin System, Inc., San Francisco, announces that Harry Lindblom, formerly of Stockholm, Sweden, has become its chief engineer and is located in San Francisco. Mr. Lindblom was assistant chief engineer of the factory manufacturing Paulin instruments in Sweden.

Milo A. Cain will operate from 18 Pacific Ave., Santa Cruz, under the trade name of Santa Cruz Electric Company.

R. E. Blackburn, who for several years has been connected with the Insulite Co., severed his connections with that company on May 15th and has accepted the position as production manager for the Stewart Inso Board Co., St. Joseph, Mo. The Stewart Inso Board Co. is just completing a mill at St. Joseph, and will manufacture insulating board under the trade name of Inso Board, from wheat straw.

Halden Co., a co-partnership composed of A. Halden and F. Fracaro, highway contractors, formerly of San Francisco, will maintain main offices at 528-530 Forum Bldg., Sacramento. Equipment and material yards will also be established in the Capitol city.

Mr. E. A. Bradbury, for the past three years, secretary of the Redondo Beach Chamber of Commerce, has assumed the Management of the Long Beach Builders' Exchange.

## ALONG the LINE

Architect C. S. McNally, formerly located at 661 Golden Gate Ave. and 23 Woodland Ave., has opened new offices at Room 411, Loew Warfield Building, Golden Gate Ave. and Market St., San Francisco. Phone Prospect 1700.

Thornton K. May, temporarily employed with the Montana State Highway Commission, has returned to the Bridge Department of the California State Highway Commission.

Henry Collins, Palo Alto architect, in addressing the Palo Alto Exchange Club, declared that the proper appreciation of beauty in architecture, as in anything else, was necessary to accomplish the best results. He said that the present day trend of thought was turning to the more ashly and gaudy types of decoration, but that even though we were passing through a "mechanical age" and the "jazzy period" the construction of homes could still give utility its proper place without sacrificing beauty or grace of architectural lines.

A. J. Coe, 65, San Jose painting contractor, died in that city June 7, following a stroke of paralysis. A widow and son survive.

Walter Wesch, a former employee of the Bridge Department, California State Highway Commission, recently returned from Montana where he was employed as engineer in charge of bridge design for the Montana Highway Commission.

A. L. Seeley, San Jose contractor, pleaded guilty in the court of Judge C. L. Witten, that city, to violation of labor laws, and was fined \$25. The charge was made by T. W. Gland.

J. G. Barnard has been appointed by the Contra Costa County Supervisors as managing engineer of the Contra Costa Water District, recently created at Brentwood, to administer the water supply which the newly formed district acquired from the Balfour-Guthrie interests.

The Ventura Builders' Exchange has drafted a proposed ordinance for the Licensing and Bonding of building contractors. The tentative draft provides for a \$50.00 yearly license fee and a \$5,000 bond.

Faving the way for co-operative effort by California cities in solving the sewage control problem, the California State Board of Health announces that Chester G. Gillespie, director of the bureau of sanitary engineering, has been sent to Chicago for a national conference on the sewage problem, water pollution and related questions.

Architect Guy L. Rosebrook, Actico Bldg., Oakland, is in the market for catalogues and samples of building materials.

William W. Brandon, former governor of Alabama, was nominated for president of the United States Good Roads Association for 1927-28 at the annual convention of that body in Savannah, Ga., June 9.

R. C. Hillen, East Bay contractor, recently returned from a four months tour of the Orient. Mr. Hillen's trip included a month in China at the height of that country's present crisis.

L. E. Crawford has been selected to succeed E. W. Olin as secretary of the East Bay Industrial Association with offices in the Ray Building, Oakland. Olin resigned May 1st to engage in business for himself.

Bids will be considered by the Berkeley city council on June 28 to improve Solano avenue. The work will consist of widening and paving with seven inch concrete. The cost is estimated at \$114,880.

### EXTENSION FUNDS OF \$5,000,000 FOR NAT'L LUMBER MANUFACTURERS

At the annual meeting of the National Lumber Manufacturers' Association, in Chicago, it was announced that the proposed \$5,000,000 fund for a five-year trade extension program had been raised. Publicity of various kinds is one of the main objects of this enterprise. The organization and definite program are in the hands of the Trade Extension Committee, the chairman of which is H. B. Hewes, Jeanerette, La. The annual report of Wilson Compton, secretary and manager of the association, included the following statement.

"In view of the diversification of the commercial and industrial use of lumber and wood, increased by over 50 per cent in the last 15 years, it is not unlikely that the potential increases in the use of good lumber in high grade industrial uses may run literally into billions of feet annually; and that, with selling organizations functioning as efficiently as manufacturing organizations are now functioning, and with reliable information of the requirements of these industries and a willingness to meet these requirements as completely as diligence and ingenuity will permit, the price realization on lumber sold in such markets can be increased in tens of millions of dollars annually."

In an address on "New Competition in the Lumber Industry," by O. H. Cheney, vice-president, American Exchange & Irving Trust Co., it was pointed out that contributing to the above fund is not to be considered as a substitute for individual efficiency or individual advertising, but that the trade extension plan is simply a means for co-operation of individual effort and thus making it more effective. He suggested that lumber representatives, construction engineers, builders and research men might get together and list all the qualities of wood, with the substitutes for each. Then where wood showed an inferiority, ways should be devised for improving wood in that particular respect.

The association passed resolutions endorsing the tie specifications of the American Engineering Standards Committee and urging continued steps toward perpetuating the forest resources and forest industries. John L. Kaul, Birmingham, Ala., was elected president of the association, and Wilson Compton, Washington, D. C., was re-elected as secretary and manager.

### SANTA CLARA VALLEY ELECTRIC MEN HOLD BANQUET

Members of the Electrical Development League of Santa Clara County held their bi-monthly banquet-meeting at the El Travatore Hotel, San Jose, June 9. E. J. Kingsley presided. Musical entertainment was furnished by Mr. and Mrs. L. E. Johnson and "Bunny" Perrins. The next regular meeting of the League will be held in September.

San Mateo County Supervisors will be asked to pass an ordinance prohibiting erection of tall buildings near San Francisco's municipal airport at San Bruno.

# ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

## ENGINEER DISCHARGING CON- DEMND

The problem of the wholesale discharging of competent engineers employed in various public positions where they are at the mercy of a political whim was discussed at a recent meeting of the Seattle Chapter, American Association of Engineers. No decision as to any possible action was taken by the engineers but the matter will be studied by the executive committee and reported back to the association.

## MASTER PLUMBERS OF STATE ARE OPPOSED TO 5-DAY WEEK

Delegates to the California State Association of Master Plumbers' convention at Yosemite, June 9, went on record as being opposed to the 5-day working week. Passage of the resolution followed considerable discussion.

Officers for the ensuing term were elected as follows: President, Charles R. Hutton, Los Angeles; vice-president, L. J. Kruse, Oakland; treasurer, Claude Hickman, San Pedro.

Members of the executive board were Fred High, Fresno; Laurence Stauffer, Los Angeles; Rufus Simmons, Richmond. San Francisco was selected as the 1928 convention city.

## AMERICAN PLAN MECHANICS OPEN NEW CLUB QUARTERS

San Francisco American Plan mechanics dedicated their new Craft Club May 7 at 111 Jones Street. Some 350 persons were present at the entertainment and dance marking the opening.

"A complete success" was the comment of Albert E. Benson, manager of the club, two hours after its doors opened to receive the hundreds of mechanics and their wives and other guests who participated. Since then the club has constantly increased in membership, a baseball team has been organized, and an orchestra is being developed to take part in entertainment plans which call for monthly dances, smokers and other recreational events.

The Craft Club demands only one major qualification: any member of the skilled crafts who subscribes to the constitutional right of a man to seek, obtain and retain work for which he is fitted, can make application for membership.

The club will be under the jurisdiction of a board of directors of four, of which the manager, a paid official, will be chairman. The conduct of the members in their patronage of the club will be guided by a house committee drawn from the membership. Working out of a constitution and by-laws is under way and these will be presented at a mass meeting of the club this month.

The new club quarters and facilities are ideally arranged for the accommodation of the membership. They include a large main club room, with lounging quarters and pool tables, a gymnasium with hand-ball and volley-ball courts, reading and writing rooms, shower baths and other facilities.

## PASADENT BUILDERS ELECT

William T. Loesch has been elected president of the Builders' Exchange of Pasadena. L. G. Edgcomb was re-elected vice-president and George L. Thropp was re-elected treasurer.

## S. F. EXCHANGE HOLDS THIRTY- SEVENTH ANNUAL BANQUET

Members of the San Francisco Builders' Exchange celebrated their thirty-seventh annual banquet at the Fairmont Hotel, Saturday evening, June 11.

Wm. H. George delivered the address of welcome and opened a program of eighteen numbers, comprising song and dance.

Seated at the speakers' table were: Wm. H. George, president of the San Francisco Builders' Exchange; W. J. Quinn, acting chief of police; Chas. W. Gompertz, president, California State Builders' Exchange; E. H. Higgins, president, Richmond Builders' Exchange; A. W. Shaw, secretary, Builders' Exchange of Alameda County; Leonard C. Dexter, secretary, Richmond Builders' Exchange; Wm. F. O'Keefe and Wm. Wright, Stockton Builders' Exchange; A. L. Triplett, Sacramento Builders' Exchange; Tracy Gowney, Berkeley Builders' Exchange.

## SIGN PAINTERS PROTEST

It is unfair, unjust and unreasonable for the city of Portland, Ore., to require commercial sign painters to pay a \$200 license fee and post a \$3000 bond, as is provided under the present sign ordinance. So declared 23 commercial sign painters in an appeal to the city council. They ask that the ordinance be amended and suggest that \$20 a year license fee, with a moderate bond, would be sufficient. Placing the individual sign painter on a par with the large outdoor sign advertisers is unjust, declares the petition to the council.

## LUMBERMEN TO HOLD CONCLAVE BURNIE FALLS

Plans have been perfected by the Westwood, Calif., Hoo Hoo Club for a monster joint concatenation with the clubs of central and superior California at Burnie Falls, Saturday and Sunday, June 25 and 26.

The undertaking has the backing of the national organization and members from Susanville, Quincy, Oroville, Chico, Weed, Klamath Falls, McCloud, Hilt, Fresno and Sacramento have signified their intention of being present in large numbers and it is possible that a big delegation will come by special train from the bay cities.

The Hoo Hoo organization is making a vigorous campaign to help prevent a recurrence of those forest fires that in the past have done inestimable damage to the timber and resources of the country.

The Westwood and Susanville clubs have prepared attractive posters and windshield stickers urging visitors to forests to exercise care with fire in order to prevent loss and help conserve our timber supply.

## NEW LICENSE AND BOND ORDINANCE PROPOSED AT SAN DIEGO

Oscar Knecht, city building inspector of San Diego, is preparing ordinances to be submitted to the city council providing for licensing and bonding of contractors and for the regulation of roofing on buildings.

## \$45,000,000 TUBE PROPOSED TO CON- NECT SAN FRANCISCO AND MARIN

Application for a franchise to construct a tube under San Francisco Bay to connect San Francisco with Marin County will be filed shortly with the San Francisco Board of Supervisors by the City Planning and Building Company, comprising Norman W. Mohr, San Francisco architect, Pierre Zucco, San Francisco consulting and structural engineer, and Emilio Lastreto, San Francisco attorney.

The application for the franchise will be filed with the supervisors on July 25, according to Architect Mohr.

The estimated length of the tube is approximately 2½ miles. It will have a diameter of approximately 50 feet. The estimated cost of the underground structure is given at \$10,000,000 per mile, which will bring the cost up to \$45,000,000. In addition to this there will be extra cost for approaches at each terminal.

In speaking of the proposed tube, Attorney Lastreto stated that the project of tubing the bay has been under consideration for three years, and that the move is in no way in opposition to the proposed Golden Gate bridge, but is being urged for the reason that tubes are believed to be more practical than bridges; that the submarine type answers all objection which the War Department may have to a bridge, or overhead structure, and at the same time can be constructed at a cost which will permit of cheaper tolls than would be charged over a bridge. He pointed out the use of tubes in New York and their successful operation.

The proposed tube to the Marin shore, Lastreto states, is designed with three stories—one for each kind of traffic. Plans of the structure to be filed with the Board of Supervisors of San Francisco, call for a ground or bottom floor which will accommodate four lines of heavy duty trucks and automobiles; the middle floor will be devoted to railroad trains; and the top floor to general passenger automobile travel.

The tube will be sunk in the bay approximately 60 feet below low tide. It will leave the San Francisco side where the extension of the Marina Boulevard meets the bay at Buchanan street, close to Tonquin street, and sunk into the bay about 40 or 45 feet at that point. It will then run in a northerly direction, to a point approximately one mile north of Sausalito, and join with the highway. The tube will curve slightly in an easterly direction.

## AMERICA'S FIRST MACADAM

The first great highway in the country was opened in 1818. It ran from Cumberland, Maryland, to Wheeling, West Virginia, and was 40 feet wide so that "fast mail coaches at 10 miles an hour went by the slow wagons without interference." This highway was constructed of macadam, invented by the Scotch Engineer, John Loudon MacAdam, who was on its engineering staff. This road was later extended through the capitals of Ohio, Indiana and Illinois, to St. Louis. It was not paved for this entire distance, but was graded, and the wider the tires on vehicles traveling over it, the less the toll tax.—Weston's Record.

## APARTMENTS

Structural Steel & Lumber Bids Wanted  
APARTMENTS Cost, \$150,000  
SAN FRANCISCO. Clay St. and Van  
Ness Ave.

Five-story steel frame and concrete  
apartment building.  
Owner and Builder—Van Clay Bldg. Co.  
Architect—Albert H. Larsen, 447 Sutter  
St., San Francisco.  
Contractor—Stock, Maas & Sauer, 1820  
Clay St.

Reinforcing Steel and Plumbing Contract  
Awarded  
APARTMENTS Cost, \$150,000  
SAN FRANCISCO. NW Turk and Web-  
ster Sts.

Seven-story reinforced concrete apart-  
ment building (48 two and three-  
room apts.)  
Owner—J. D. Hannah and H. Kohlwe, 825 Sansome St., San Francisco.  
Architect—E. E. Young, 2002 California  
St., San Francisco.

Reinforcing Steel—Steel Service Co., 1280  
Indiana St.

Plumbing—Turner Co., 329 Tehama St.  
As previously reported: Concrete to  
Mission Concrete Co., 125 Kissling St.,  
San Francisco.

Reinforcing steel bids being taken by  
Mission Concrete Co.

Plans to Be Prepared.  
APARTMENTS Cost, \$—  
SAN FRANCISCO. Scott St., 150 N  
Jefferson.

Three-story and basement frame and  
stucco apt. bldg. (number of apts.  
not decided).  
Owner—Ben Liebman, Call Bldg.  
Architect—R. R. Irvine, Call Bldg., San  
Francisco.

# PRATT'S CONCRETE MIX

by Clarence  
Sand Pratt

SANDY PRATT was eating.  
IN A well known restaurant.  
AND A couple.  
AT THE table.  
NEXT TO Sandy, producer.  
OF CLEAN, sharp sand.  
AND CLEAN, hard rock.  
AND CLEAN, well-graded gravel.  
ORDERED VEAL cutlets.  
INSTEAD OF their previous order.  
OF RARE roast beef.  
AND THE waiter.  
IMMEDIATELY BROUGHT the above couple.  
TWO SHARP steel knives.  
AND SANDY Pratt, president.  
OF THE Pratt Building Material Co.  
WITH SAND, rock and gravel plants.  
AT SACRAMENTO, Marysville.  
PRATTROCK (NEAR Folsom).  
PRATTCO (MONTEREY County).  
AND MAYHEW (Sacramento County).  
(CENTRAL OFFICE—San Francisco).  
THOUGHT THAT veal.  
WAS SO tender.  
THAT YOU could cut it.  
WITH A spoon.  
AND THE couple began.  
TO DISCUSS the steel knives.

AND THE young, tender veal.  
AND BOTH were afraid.  
THE VEAL was an old cow.  
AND SAID to the waiter.  
COULD THEY change their order.  
TO CORNBEEF hash.  
OR HAMBURGER steak.  
AND THE waiter said.  
HE WOULD change.  
TO THE hash or hamburger.  
BUT SAID confidentially.  
TO KEEP the steel knives.  
FOR YOU can.  
NEVER TELL the age.  
OF THE bovine family.  
"I THANK you."

Mr. Beef Stake takes Miss Rock Candy of Prattrock out for dinner and Sandy Pratt, producer of clean sand and clean rock at Sacramento, Marysville, Prattrock (near Folsom), Prattco (Monterey County) and Mayhew (Sacramento County), (Central Office—San Francisco), eat at the table next to them (see above KCB-like story).

buildings. First floor will house commercial department, science room, lecture room, laboratory and rooms for special work; 2nd floor will contain dormitories, sewing and rest rooms; basement will provide gymnasium quarters and heating plant.

11770—Magdeburg, Germany. Sole agent for "Elfie" tube protector for auto tires wishes connection with San Francisco firm.

11773—Rotterdam, Holland. Old-established lumber import and export house with excellent connections all over the continent desires to get in touch with California lumber producers. Representative in San Francisco at present who will be glad to give further particulars.

11775—Copenhagen, Denmark. Firm would like to get in touch with San Francisco firms interested in importing a pocket reform reckoner; also a multi-telephone or multi-radio conductor, allowing up to twenty persons to listen in on a telephone.

11778—Milan, Italy. Firm wishes to get in touch with American manufacturers of machinery for grading, selecting and preparing fresh fruits of all kinds; also for onions, potatoes, nuts, etc.

11779—Cairo, Egypt. The Egyptian government is calling for bids on supplying a sea water distilling plant, as per details given in copy of specifications on file with the Foreign and Domestic Trade Department, San Francisco Chamber of Commerce. Cairo engineering firm wishes to tender for the requirements, and they wish to get in touch with American manufacturers of this type of plant.

D-2466—Fresno, Cal. Party is in the market for several tons of baling wire wound on 100-pound spools.

D-2468—Grass Valley, Cal. City of Grass Valley wishes to obtain prices, descriptions and all possible information on an ambulance suitable for the needs of that city, where lowest price consistent with reliability is essential, as population is only 5000.

D-2470—Eastern manufacturer of leather belting is seeking connections with an established concern to handle this article in Central and Northern California.

## OREGON FIRM IS LOW BIDDER FOR FANDANGO TIMBER

Announcement is made by the San Francisco offices of the forest service that the Crane Creek Lumber Company of Lakeview, Oregon, has submitted the highest bid on the Fandango unit of national forest timber, which lies in the Warner Mountain range, twenty-five miles north of Alturas, Modoc County.

The bid submitted for yellow pine was \$4.49 per 1000 feet for fir, 54 cents and 52 cents for cedar. This is by far the highest price ever heard of for stumpage in either Modoc County, California, or Lake County, Oregon, for yellow pine saw timber.

The Fandango unit comprises about 13,000 acres within the Modoc National Forest and contain almost 200,000,000 feet of yellow pine, white fir and incense cedar, the yellow pine forming the bulk of the stand.

The Crane Creek Lumber Company, which owns timber interests in Lake County, Oregon, a few miles north of the Fandango unit in Modoc County, is a comparatively new concern, and has recently completed the construction of a sawmill near Lakeview, Oregon. The president of the Crane Company is Mrs. M. B. Wilson of Lakeview, daughter of an Oregon capitalist.

## NORTHERN CALIFORNIA COUNTIES PROTEST GATE BRIDGE

Twenty-three hundred and seven property owners in Napa, Sonoma, Mendocino, Marin and San Francisco counties have filed protests with Frank C. Jordan, secretary of state, against the formation of the proposed Golden Gate bridge and highway district.

The proposed district comprises Del Norte county in addition to those from

which the protests were filed. Mendocino county property owners are more averse to being included in the district, 902 registering complaints. The balance was made up by three from San Francisco, five from Marin, 574 from Sonoma and \$23 from Napa county.

Following the check of the protests they were forwarded to the county clerks of the counties in which they originated for reference to the superior courts for hearing to determine whether the grounds on which they were made are sufficient to warrant exclusion of the land.

Formation of the district is proposed to raise funds for a span across Golden Gate and to build a highway into the northwest section of the state.

April bookings of fabricated steel plate, based on reports received by the Department of Commerce from 45 firms, were 60 per cent of capacity, as compared with 71 per cent in March and 48 per cent in April, 1926.

## THAT TERRIBLE ODOR

Customer—My, what smells so?  
Merchant—Do you smell it, too?  
Customer—Yes, what is it?  
Merchant—Business—it's rotten.

San Francisco spent more money for the recreation of its citizens than any other California city did in 1926. Ray Riley, state controller announces. A total of \$7,902,367.84 was spent in the state. Of this amount, San Francisco spent \$2,126,917.61. Los Angeles was second with \$1,517,661.11. In the state, \$3,153,841.13 was spent for the protection and upkeep of parks. Music and celebrations cost cities \$1,007,626.01.

Reduction of \$1 a ton in price of wire nails to \$2.50 per keg, base Pittsburgh, has caused considerable comment, especially as wire price has been maintained at \$2.40 per 100 pounds. This is the first time in memory of some of oldest steel men that differential between wire and nails has been only \$2 per ton. Wire mills of the country are operating at about 60 per cent of capacity.

## ELECTRICAL ASSOCIATION ELECTS

W. L. Frost, Los Angeles, was elected president of the Pacific Coast Electrical Association at its eleventh annual convention in Santa Cruz. He is general commercial manager of the Southern California Edison Company, and succeeds E. Waldo Coleman, president of the Coast Counties Gas & Electric Company.

Other officers are: First vice-president, P. M. Downing, vice-president in charge of operation, Pacific Gas & Electric Company; second vice-president, E. B. Cridle, Southern Sierras Company, Riverside; treasurer, N. R. Rutherford, Pacific Gas & Electric Company; secretary, Samuel Taylor, San Francisco.

Building Service Corporation of Oakland, capitalized for \$25,000 has been incorporated for the purpose of estimating, planning and constructing all kinds of buildings in the Oakland area. The company, composed of Walter W. Davis, Oliver W. Thornton, both of Oakland, and Ernest L. Mann, San Francisco.

The Los Angeles board of water and power commissioners has adopted a resolution reducing electrical rates for the municipal power bureau with an estimated savings of \$800,000 a year to consumers. The base rate for all consumers is reduced from 5.6 cents per kilowatt hour to 5 cents, while the combination rate for lighting, heating and cooking has been lowered from 3 cents to 2.75 cents per kilowatt hour. The combination rate hereafter will be available to all customers instead of certain classes.

# Official Proposals

## NOTICE TO CONTRACTORS

(Heating Plant—Lower Lake Union High School District)

NOTICE IS HEREBY GIVEN that sealed bids will be received and opened by the trustees of the Lower Lake Union High School District, Lake County, California, at the Justice Court Building, Lower Lake, California, at 1:30 p. m., June 25, 1927, for furnishing and installing a steam heating plant in the new high school building in said district according to plans and specifications prepared for same by W. Herbert, architect, 520 Rosenberg Building, Santa Rosa, Cal.

Plans and specifications may be secured from the architect upon a deposit of Ten Dollars (\$10.00) for each set.

Each bid must be accompanied by a certified check on some responsible California bank in the sum of not less than five (5) per cent of the amount of the bid for the purpose stated in the specifications, made payable to F. W. Noel, clerk of said Union High School District. The Trustees reserve the right to reject any and all bids.

FRANK W. NOEL,

Clerk Lower Lake Union High School District, Lake County, California.

Standard Form No. 20

## STANDARD GOVERNMENT FORM OF INVITATION FOR BIDS

UNITED STATES DEPARTMENT OF THE INTERIOR  
NATIONAL PARK SERVICE  
Grand Canyon, Arizona  
June 8, 1927.

SEALED BIDS, in single copy only subject to the conditions contained herein, will be received until 10 o'clock A. M. on the 28th day of June, 1927, and then publicly opened, for furnishing all labor and materials and performing all work for grading portions of the North Rim National Park Highway, consisting of the eastern portions of Sec. 3-A and Secs. 3-B and 3-C complete, in the Grand Canyon National Park, Arizona.

The length of the project to be graded is 8.495 miles and the principal items of work are approximately as follows:

Clearing and Grubbing, lump sum.  
Excavation, unclassified, 96,000 cu. yd.  
Excavation, Borrow, 16,000 cu. yd.  
Overhaul, 14,400 sta. yd.  
Finishing Earth Graded Roads, 8.495 mi.  
Cement Rubble Masonry, 230 cu. yd.  
Dry Rubble Masonry, 140 cu. yd.  
C. M. P. haul and place, 2,514 lin. ft.  
Protection ditches, 37,000 lin. ft.

Plans and specifications may be examined at Resident Engineer's office, Grand Canyon; 411 Ellis Bldg., Phoenix, Ariz., and at 807 Sheldon Bldg., San Francisco, California. Requests for copies should be addressed to the San Francisco office.

Where copies of plans and specifications are requested, a deposit of \$10.00 will be required to insure their return. If these are not returned within 15 days after opening of bids, the deposit will be forfeited to the Government. Checks should be certified and drawn to the order of the Federal Reserve Bank, San Francisco.

Guarantee will be required with each bid as follows: In the amount of five (5) per cent of the bid.

Performance bond will be required as follows: In the amount of fifty (50) per cent of the total contract price. Performance shall begin within 10 calendar days after receipt of notice from the District Engineer to proceed and shall be complete within 300 calendar days from that date, exclusive of any period of suspension of work during the winter authorized by the District Engineer.

Liquidated damages for delay will be the amount stated in the Special Provisions for each calendar day of delay until the work is completed and accepted.

Partial payments will be made as the work progresses for work and material delivered, if such work and material meet the approval of the Contracting Officer.

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

Article on patents will be made a part of the contract.

Bids must be submitted upon the Standard Government Form of Bid and the successful bidder will be required to execute the Standard Government Form of Contract for Construction.

The right is reserved, as the interest of the Government may require, to reject any and all bids, to waive any informality in bids received, and to accept or reject any items of any bid, unless such bid is qualified by specific limitation.

Envelopes containing bids must be sealed, marked, and addressed as follows: Bid for Road Construction To be opened 10:00 A. M. June 28, 1927.

North Rim Project  
Grand Canyon, Arizona.  
C. H. SWEETSER, District Engineer  
U. S. Bureau of Public Roads

NOTE:—See Standard Government Instructions to Bidders and copy of the Standard Government Form of Contract, Bid Bond, and Performance Bond, which may be obtained upon application.

1 time—June 11th 37

## STATE OF CALIFORNIA

## CALIFORNIA HIGHWAY COMMISSION

## NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock P. M., on July 11, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

Humboldt County, a bridge across Redwood Creek about ¼ mile north of Orick (1-Hum-1-K), consisting of one 220-foot steel truss span, one 60-foot and eleven 32-foot reinforced concrete girder spans.

San Joaquin County, between Stockton and Cherokee Station (X-SJ-4-C), about two and three-tenths (2.3) miles in length to be graded and surfaced with crushed gravel or stone.

Plans may be seen and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and

San Francisco, and at the office of the Division Engineer of the Division Engineer of the division in which the work is situated. The Division Engineer's offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,  
J. P. BAUMGARTNER,  
M. B. HARRIS,  
California Highway Commission.  
R. M. MORTON,  
State Highway Engineer.  
E. FORREST MITCHELL,  
Secretary.

Dated: June 13, 1927.

#### NOTICE TO CONTRACTORS

(General Contract—Lower Lake Union High School District)

NOTICE IS HEREBY GIVEN that sealed bids will be received and opened by the trustees of the Lower Lake Union High School District, Lake County, California, at the Justice Court Building, Lower Lake, California, at 1:30 P. M., June 25, 1927, for the erection and completion of a high school building in said District according to plans and specifications prepared for same by W. Herbert, Architect, 20 Rosenberg Bldg., Santa Rosa, California.

Plans and specifications may be secured from the Architect upon a deposit of Twenty-five Dollars (\$25.00) for each set.

Each bid must be accompanied by a certified check on some responsible California bank in the sum of not less than five (5%) per cent of the amount of the bid for the purpose stated in the specifications, made payable to F. W. Noel, Clerk of said Union High School District. The Trustees reserve the right to reject any and all bids.

FRANK W. NOEL,  
Clerk Lower Lake Union High School District, Lake County, California.

#### NOTICE TO BIDDERS

(Madera Union High School District)

The Board of Trustees of the Madera Union High School will receive bids up to 7:30 P. M., on Monday, June 27, 1927, at which bids will be opened at that time at the office of the Madera Union School, for the following construction:

1. A boiler-house, in accordance with plans and specifications prepared by Swartz & Ryland, Rowell Bldg., Fresno, California.

2. The installation of a heating plant in accordance with plans and specifications prepared by F. Hudson, % B. A. Newman & Co., 320 North H Street, Fresno, California.

Copies of either set of plans and specifications may be obtained at the office of the Madera Union High School.

Bidders will bid separately on these two items. All bids will be submitted sealed and accompanied by certified checks to the amount of ten per cent of the bid, drawn in favor of the Madera Union High School District. All bids will be submitted to B. A. Harrington, Secretary, Board of Trustees, Madera, Calif.

The Board reserves the right to reject any and all bids.

Signed.

H. G. RODGERS,

President.

B. A. HARRINGTON,

Secretary

Board of Trustees, Madera Union High School.

Dated, June 10, 1927.

#### NOTICE TO BIDDERS

(Water Tank—Eureka, Calif.)

Sealed Proposals or Bids are hereby invited by the City of Eureka for the construction of a wooden water tank to be located at the Northeast corner of Harris and E Streets, with a capacity of approximately 750,000 gallons, according to plans and specifications on file at the office of Superintendent of Public Works of the City of Eureka, 524 D Street, Eureka, California.

All proposals or bids shall be accompanied by a check payable to the City of Eureka and certified by a responsible bank for an amount which shall not be less than ten per cent (10%) of the aggregate of the proposal or by a bond for the same amount and so payable signed by the bidder and two sureties who shall justify before any officer competent to administer an oath in double the said amount and over and above all statutory exemptions.

The said bids will be received in sealed envelopes marked Bid for Water Tank at office of Superintendent of Public Works up to 5 o'clock P. M., Tuesday, June 21st.

Bids will be opened by City Council of the City of Eureka, at eight o'clock P. M., Tuesday, June 21, 1927.

The right is reserved to reject any or all bids.

JOHN GRIFFITH,

Superintendent of Public Works.

#### NOTICE TO CONTRACTORS

(Longfellow Jr. High School Gymnasium—Fresno)

Pursuant to an order of the Board of Education of the Fresno City High School District of the County of Fresno, Fresno, California, duly made and entered in its minutes this 9th day of June, 1927, public notice is hereby given that said board will receive up to 5 o'clock p. m. on the 14th day of July, 1927, at the office of the said board in the Hawthorne School Building, 2425 Fresno Street, Fresno, Calif., sealed proposals for the furnishing of labor and materials for the construction of the Longfellow Junior High School Gymnasium, as per plans and specifications prepared by Felchlin-Shaw & Franklin, architects, T. W. Patterson Building, Fresno, Calif.

General contract will be received on items A-1 to A-14, inclusive, and segregated bids for the balance of the construction.

Reference is hereby made to "General Information to Bidders," Building Form No. 6, for further particulars regarding all bids.

Bids will be opened at 8:15 p. m., July 14, 1927, at the above address.

Plans and specifications together with forms for submitting all bids and further details regarding any and all bid may be obtained from the undersigned secretary of the Board of Education at the office of said board above designated.

A bidder's surety bond or certified check equal to at least ten per cent of the amount of the bid must accompany all proposals.

The Board of Education of said school district reserves the right to reject any and all bids.

By order

BOARD OF EDUCATION,  
Fresno City High School District,  
L. L. Smith, Secretary.

#### STATE OF CALIFORNIA

CALIFORNIA HIGHWAY COMMISSION

#### NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of The California Highway Commission, Strub Building, Sacramento, Cal., until 2 o'clock P. M., on July 5, 1927, at which time they will be publicly opened and read for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

San Joaquin County, an undergrade crossing under the tracks of the Southern Pacific Company at Mossdale (X-SJ-5-B), consisting of two concrete abutments with wing walls and grading 30-foot roadway.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and

San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineer's offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,

J. P. BAUMGARTNER,

M. B. HARRIS,

California Highway Commission.

R. M. MORTON,

State Highway Engineer.

E. FORREST MITCHELL,

Secretary.

Dated June 6, 1927.

#### NOTICE TO CONTRACTORS

(Bakersfield—Lincoln School Annex)

Notice is hereby given that sealed bids will be received by the Board of Education, Bakersfield School District, Bakersfield, California, up to 7:30 P. M., of June 23, 1927, for the furnishing of all labor and material necessary for the construction of the following in the remodeled South Annex of the Lincoln School, according to plans and specifications on file in the Board of Education Office:

1. Installing Slate Blackboards.
2. Plastering inside and outside of building.
3. Roofing building.

Bids will be received for the work on each item separately. Bids must be accompanied by a cashier's or certified check in the amount of at least ten per cent (10%) of the bid. Such check to be made payable to the Board of Education, Bakersfield School District, and to be submitted as a guarantee that the bidder, if successful, will enter into a contract satisfactory to said Board of Education, and in addition thereto, will furnish good and sufficient bonds therefor.

The Board reserves the right to reject any or all bids, and to waive any informality in any bid received.

By order of the Board of Education, Bakersfield School District.

W. F. WHITAKER, President.  
J. A. HAWKINS, Secretary.

#### NOTICE TO BIDDERS

(Steel Lockers—Oakland Board of Education)

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland School District and Oakland High School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Tuesday, the 21st day of June, 1927, at 9:30 A. M., at which time and place said bids will be opened for: Steel Lockers for the Elmhurst Junior High School. Steel Lockers for the San Leandro Junior High School. Surfacing for High and Elementary Schools.

These bids shall be presented in accordance with the Specifications on file in the office of the Assistant Business Manager, City Hall, Oakland.

Price, fitness and quality being equal, preference will be given to the products of the State of California.

Persons or firms desiring to be on the mailing list of the Oakland Board of Education may list themselves with the Purchasing Department.

JOHN W. EDMOND,  
Secretary of the Board of Education of Oakland, California.

# Engineering News Section

## BRIDGES

**SAN FRANCISCO.**—Application will be filed with the San Francisco Board of Supervisors on July 25 by the City Planning and Building Company for a franchise to construct and operate a submarine tunnel under San Francisco to connect San Francisco and Marin county; will be 13,200 ft. in length, 50 ft. high and 68 ft. in extreme width; will have three floors—the upper for passenger automobiles and the main or central floor for railroad passenger cars and the lowest floor for automotive and heavy traffic trucks. The tube will be divided perpendicularly into two halls, a right hand and left hall. Cost is estimated at \$10,000,000 per mile. The City Planning and Building Company is composed of Norman W. Mohr, architect; Pierre Zucco, consulting and structural engineer, and Emilio Lasterdo, attorney.

**REDDING, Shasta Co., Cal.**—M. A. Jenkins, 3400 First ave., Sacramento, at \$23,634 awarded cont. by county to const. reinf. conc. bridge over Cow Creek on Redding-Millville rd. Other bids were: J. P. Brennan, Redding, \$23,689; R. B. McKenzie, Stockton, \$25,400; C. H. Gildersleeve, Fresno, \$27,600; S. Severtson, Redding, \$27,860; F. H. Neilson, Orland, \$28,171; L. Thompson, Orland, \$29,395; Clay K. Buchanan, Chico, \$31,727.

**RIVERSIDE, Cal.**—Until June 27, bids will be rec. by county to const. steel and concrete bridge over the San Jacinto River at Gilman Springs. Plans by R. V. Leeson, San Fernando Bldg., Los Angeles. A. C. Fulmor, county surveyor. It will be constructed of steel trusses on two concrete piers, with wooden floor, a total length of 300 feet.

**PHOENIX, Ariz.**—Kansas City Structural Steel Co. of Kansas City, Mo., sub. low bid to State Highway Department to const. Lee's Ferry bridge across Colorado River, at \$310,684, using wooden floor, and at \$323,294 using conc. floor. An additional item of \$16,000 should be added to these figures to complete the total cost. The low bid was \$41,000 in excess of the appropriation. Four bids were submitted.

**WOODLAND, Yolo Co., Cal.**—Knights Landing Ridge Drainage District, Harry A. Kunz, secretary, and members of the Yolo county board of supervisors, will meet at Room 859 Mills Bldg., San Francisco, June 22 to consider plans for proposed bridge across Knights Landing Ridge cut, south of Knights Landing.

**VISALIA, Tulare Co., Cal.**—County Surveyor L. A. Moye preparing plans for reinf. conc. bridge to replace present wooden bridge over St. Johns River, south of Woodlake; will be 250 ft. long.

**SAN JOAQUIN COUNTY, Cal.**—Following bids rec. June 13 by State Highway Commission, to const. reinf. conc. girder bridge across Stockton Diversion Canal, 1½ mi. north of Stockton, consisting of eight 35-ft. spans:

Frederickson Bros., First National Bk. Bldg., Stockton, \$27,916.  
Johnson & Atkinson, Los Angeles, \$29,807.  
Nelson Bros., Escalon, \$32,547.

**SANTA ANA, Cal.**—Until 11 a. m., June 28, bids will be rec. by county to const. reinf. conc. abutment, pier protection, a 40-ft. timber truss span addition to Santiago Blvd. bridge across Santiago Creek and flood protection work in the 4th road dist. Plans obtainable from county supt. of highways. Certified chk. or bond, 5%. J. M. Backs, clerk of the board.

**OAKLAND, Cal.**—The California Bridge & Tunnel Co., 2398 Webster St., Oakland, at \$9426, submitted low bid and was awarded contract by Geo. E. Gross,

county clerk, to const. pier caps, girders and additional reinforcing steel for Alameda Approach, Estuary Subway at Webster St., Alameda. Roy Lind, 54 Stanton St., San Francisco, submitted the only other bid at \$9478.

**OAKLAND, Cal.**—Gutleben Bros. (Mr. Kazebeer, San Francisco representative, Phone Douglas 602), 614 Mills Bldg., San Francisco, at \$127,918 awarded cont. by county to const. reinf. conc. Mission bridge over Calaveras river in Washington township. Other bids were: J. C. Carlson, \$134,870; Walter M. Willet, \$134,882; John McDonald, \$139,845; A. W. Kitchen, \$168,159; J. Welch, \$172,180.

**REDDING, Shasta Co., Cal.**—County Surveyor Carl F. Mau instructed to prepare plans for bridges over Raglin Gulch, Roaring Creek, Arbuckle Creek, Falls Ferry Slough and Lack Creek near Scharsch's place. A consulting engineer will be employed to act with County Surveyor Mau.

**HUMBOLDT COUNTY, Cal.**—Until July 11, 2 p. m., bids will be rec. by State Highway Comm. to const. bridge over Redwood Creek, ¼ mi. north of Orick, consisting of one 220-ft. steel truss span, one 60-ft. and eleven 32-ft. reinf. conc. girder spans. See call for bids under official proposal section in this issue.

**MODOC COUNTY, Cal.**—As previously reported, bids will be rec. by State Highway Comm., June 27, to const. bridge over Rattlesnake Creek, 2 mi. west of Alturas, consisting of two 35-ft. reinf. conc. girder spans. Project involves: 360 lin. ft. reinf. conc. piles; 115 cu. yds. Class "A" cem. conc.; 12 cu. yds. Class "E" conc.; 23,000 lbs. reinf. steel.

**CONTRA COSTA COUNTY, Cal.**—As previously reported, bids will be rec. by State Highway Comm., June 27, to const. reinf. conc. bridge over Wildcat Creek ¼ mi. north of Richmond, consisting of one 36-ft. girder span and two 20-ft. slab spans. Project involves: removal of existing bridge; 360 cu. yds. struc. excavation; 360 cu. yds. Class "A" cem. conc.; 360 cu. yds. Class "A" cem. conc.; 10 cu. yds. Class "E" cem. conc.; 53,000 lbs. reinf. steel; 270 cu. yds. struc. backfill.

**SANTA BARBARA, Cal.**—Until 10 a. m., July 5, bids will be rec. by county to const. two creosoted pile trestles on Jalama Road, in Fourth Road District. Plans obtainable from County Surveyor, Howard-Canfield Bldg., on deposit of \$5. Cert. check 5%. D. F. Hunt, clerk of the board. Owen H. O'Neill, county surveyor.

F. C. Payton, Norwalk.....	74,502
Engineer's estimate, \$61,513.	

#### IRISH EFFICIENCY

"You say a clay pipe is a great time saver. How is that?"

"Faith, an' whin ye drop it ye don't have to bother pickin' it up."

#### SOME PAVEMENT!

The oldest pavement in the United States laid at Bellefontaine, Ohio, in 1894, recently underwent crushing tests which showed an average strength of 5400 pounds per square inch.

#### \$45,000,000 FOR CANADIAN ROADS

The Canadian government expended a total of \$45,000,000 for highways last year. A total of \$29,555,000 was expended on construction and \$15,978,000 on the maintenance of 46,824 miles of provincial highways during the year.

## PATENTS

by Munn & Co., Patent Attorneys  
Granted to Californians as reported

Ernest G. Wentworth, of Sacramento. **DIRIGIBLE HEADLIGHT FOR MOTOR VEHICLES.** This provides simple means for enabling the extent of turning movement of the headlights to be altered to suit different conditions of operation without altering the extent of turning movement of the wheels.

Benton Moore, of Fresno. **DOOR AND WINDOW SCREEN CATCH AND FASTENER.** This provides means for securing it against operation when the door or window screen is in its closed position, thereby securely fastening the door or window against opening. Mr. Moore assigns one-half of his patent to J. F. Rogers.

Albert H. Stebbins, of Los Angeles. **AIR CLASSIFIER.** This invention resides in the construction whereby air from the exterior of the classifier is drawn inwardly across the annular passage to carry off the lighter particles whirling in the passage.

William E. Wread, of Los Angeles. **LOCK.** This lock is particularly applicable to front doors, and comprises thumb latch means, and key and knob operated means to retract a single drawn bolt. Mr. Wread assigns his patent to Wread Products Corporation.

#### TO SPEED COMPLETION OF UNIFORM BUILDING CODE

Active steps are being taken to insure the completion of the final draft of the proposed Uniform Building Code, as prepared by the Pacific Coast Building Officials Conference, on or before Oct. 1. It is the desire of the executive committee of the Conference to have completed the final draft prior to the 1927 annual meeting of the Conference at Phoenix, Arizona, so that the members of the Conference may be prepared to discuss the code on the floor of the Conference.

The code when finally published will contain a complete index together with many appendix features which will serve as a guide and explanation on many of the details contained in the code. The final draft will be in complete ordinance form so that it may be readily adopted by those cities who desire to do so.

Many new features will be included in the code, all of which are based on definite information. In the arrangement of the material the endeavor is being made to have it as easily understandable as possible.

#### GERMAN STEEL OUTPUT WANES

Steel output in Germany during April was 1,288,400 tons, compared with 1,415,083 tons in March and 867,968 in April, 1926. The output was less than in any of the four preceding months except February. It is, however, reckoned as 93 per cent of the average output in the whole former empire during 1913.

#### EXPORTS OF RAIL TIES

Exports of railroad ties from the United States in 1926 were valued at \$3,507,629 for 3,760,613 ties, including softwood and hardwood, treated and untreated, says the "National Lumber Bulletin." This was about 3 per cent of the average domestic consumption, which amounts to approximately 120,000,000 ties a year, including those purchased by steam and electric railroads.

THE CONTRACTORS' ROOM

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room where plans and specifications may be filed by Architects, Engineers and Owners for the convenience of bidders in San Francisco and the Bay Counties.

Architects, Engineers and Owners are invited to forward plans of their projects to BUILDING AND ENGINEERING NEWS. No charge for this service. The plans will be returned in good condition when contract for work is let.

## PIG IRON IMPORTS TO COAST ARE ..... REDUCED

Importations of pig iron at the four big Pacific Coast ports—San Francisco, Los Angeles, Seattle and Portland—during the first three months of 1927 were only a little more than one-half of the importations in the corresponding period last year. This big falling off in importations is attributed by local steel men to higher prices for pig iron abroad particularly in Luxemburg and India, whence came most of our imports in 1926.

Importations of pig iron at Pacific Coast ports for the first three months of 1927, as shown by Government figures, together with comparisons:

	First Quarter 1926	1927 (tons)
San Francisco .....	1817	752
Los Angeles .....	2870	1170
Seattle .....	596	40
Portland .....	500	.....
Total .....	5783	2964

Columbia Steel Company is operating its pig iron blast furnace at capacity, i. e., about 350 tons a day, the chief variation from a year ago being that it is now selling a little more to foundries. Columbia Steel Company uses about one-third of its pig iron output and sells the remainder.

The company's pig iron blast furnace is located at Ironton, Utah, and its steel mills at Pittsburg and Torrance, Cal., and Portland, Ore.

The company last year produced 140,000 tons of pig iron, 1926 being its largest year to date. It is the only company producing pig iron west of the Rocky mountains and supplies approximately 85 per cent of the pig iron used on this coast.

## ARCHITECTS' REGISTRATION LAW IS PASSED FOR IOWA

A law providing for the examination and registration of architects, passed by the Iowa state legislature, will become effective July 4, next. It follows in its general features the California law. The board chosen to administer the law consists of Architects Wm. L. Perkins of Charlton, Arthur Ebeling of Davenport, Harry D. Rawson and Roy W. Leihle of Des Moines, and Chris Jensen of Council Bluffs. Provisions of the law are summarized by the Improvement Bulletin of Minneapolis as follows:

The law specifies that "any person wishing to practice architecture in the state of Iowa under the title 'architect' shall secure from the board a certificate." Each member of a firm or corporation practicing architecture must have a certificate of registration.

The law further provides that "any properly qualified persons who shall have been exclusively engaged in the practice of architecture in the state at the time this act takes effect, may, within ninety days after the approval of this act, apply for and will be granted a certificate of registration without examination by payment to the board of the fee for certificate of registration."

The law does not prohibit the drawing of building plans by others than those holding certificates, provided such person "does not use any form of the word or title architect" in his work. Nor is any such person prevented from supervising the construction of any building or part thereof either for himself or others.

Every registered architect who wishes to continue the practice of his profession in Iowa must renew his certificate of registration annually during the month of June and pay a fee of \$10. An applicant for examination must pay a fee of \$10.

The members of the board of examiners serve without compensation but are reimbursed for the actual expense incurred in carrying out the provisions of the act. The fees are turned into the general state treasury.

Authority to revoke certificates is granted the board and the accused has the right of a hearing before the board. The grounds on which a certificate can be revoked are those of incompetency, fraud in the practice of his profession or in the obtaining of a certificate, or in case the holder is found to be a drug addict or habitual drunkard.

## DAMAGE SUIT AGAINST LUMBER COMPANY FILED AT SAN JOSE

A \$10,000 damage suit which names William C. Duckgeischel and Mabel Duckgeischel as owners of the Growers Lumber Company of Sunnyvale as defendants has been filed in superior court at San Jose by Homer J. Langdon.

Langdon charges that when he purchased the half interest of Duckgeischel in the Sunnyvale Lumber Company, of which he is now the owner, the defendant agreed he would not operate a lumber concern in either Sunnyvale or Cupertino. Contrary to the agreement, the plaintiff claims that two years ago the defendants opened lumber yards in Sunnyvale, and because of their competition he has lost \$10,000.

## BAY BRIDGE PROJECT IS FULLY FINANCED

The war department has on file the plans of Frank C. Towne for a low level bridge from Little Coyote point, San Mateo, to a point near Mount Eden, Alameda county.

The plans are revisions of those earlier submitted in which changes became necessary when Port of San Francisco bridge plans near Belmont were submitted.

It is estimated the bridge will cost \$10,000,000.

Financial arrangements for its construction have been completed, according to Attorney John T. William, representing Mark E. Noon, secretary of the state prison board, A. W. Duel and Frank C. Towne, applicants. The franchise was granted by San Mateo county in 1925.

Work is expected to start within 75 days, no opposition on the part of the war department being expected.

Concrete and steel will be used in the bridge, which will have a vertical lift span over the navigable channel with a horizontal clearance of 270 feet at right angles to the channel.

Two fixed spans on each side of the draw will have a clearance of 35 feet at high water.

Hearings on the application to build a bridge from Candlestick point, San Mateo county, to Bay Farm Island will come up before the San Mateo county board of supervisors July 5.

At a previous hearing action was deferred on this project until San Francisco county bridge plans from Rincon hill to Alameda mole could be heard by the war department.

## WHOLESALE PRICES IN MAY, 1927, REPORTED

Practically no change in the general level of wholesale prices from April to May is shown by information collected in representative markets by the Bureau of Labor Statistics of the United States Department of Labor. The bureau's weighted index number, which includes 404 commodities or price series, registered 144.1 for May, compared with 144.2 for April, a decline of less than one-tenth of 1 per cent. Compared with May, 1926, with an index number of 151.7, there was a decrease of 5 per cent.

Increases were recorded for building materials and miscellaneous commodities, while fuels and metals declined in average price.

Of the 404 commodities or price series for which comparable information for April and May was collected, increases were shown in 108 instances and decreases in 127 instances. In 169 instances no change in price was reported. Index Numbers of Wholesale Prices by

# THE CONSULTING ENGINEER— IS HE THREATENED WITH EXTINCTION?

(By Donald Baker, First Vice-President, American Association of Engineers)

Various species of the animal and vegetable kingdom have in the past been developed, risen to prominence and then, due to changes in environment, passed out of existence. Similarly many professions and callings in the past have been brought into existence, flourished and then due to various economic causes have disappeared.

"Consulting engineer" is the term usually applied to the engineer in private practice who maintains an engineering office or organization and offers his skill, training and experience in the solution of engineering problems or performance of engineering work to the public for a fee. Sometimes when the engineer has only a small office or organization, or is excessively modest, he merely terms himself civil engineer, electrical engineer, structural engineer, etc., but the term as herein used is meant to apply to all engineers in private practice. In our fathers' time the private practitioner who hung out his shingle tackled anything from making a subdivision to building a power plant or a building, or developing a mine, but the age of specialization now keeps him fairly well within his own branch of the profession or within a sub-branch thereof, and has resulted in the virtual disappearance of the general engineering practitioner.

One would be led to believe that, with the great increase of population in Southern California, causing an increase in the number of problems to be solved by engineers in order to take care of the population, and also with the increase in complexity of these problems, that both the total number of engineers in this territory and the number of engineers in private practice therein would increase in like ratio to the population, or even at a greater ratio. While no exact figures are available it is a fair assumption that the total number of engineers in the region has increased in a ratio greater than the population increase. Since 1910 the population of the city of Los Angeles has about quadrupled, but a glance at the city directory will show that the names of engineers listed as in private practice has only about doubled, indicating that they are increasing at a rate equal to about the square root of the population increase, while taking the last few years as a criterion the outlook is that we are approaching a time when the number will be stationary or even decrease.

It is an economic maxim that when men leave or cease to enter a profession or calling, same is not attractive or remunerative, and this state is governed by the law of supply and demand, which applies its own corrective measures. When the demand for consulting engineers decreases the supply also gradually decreases. The relative decrease in the supply would indicate that the demand is decreasing and inasmuch as there appears to be no decrease in the total amount of engineering and construction work under way, it would appear that this work is being handled in other manners than by engineers in private practice.

In past years when a water supply or irrigation project was built, a power project started or a bridge camp up for consideration, a private engineer was called in and given the job with a fee fixed as a percentage of the contract price or as a flat sum. He did the work in his own office, employed his own as-

sistants and stood to make a fair profit, provided the project was properly financed. Now every city, county and state and every kind of improvement district, such as water supply, irrigation, flood control, road or sewage disposal has its own engineering organization with nominal salaries for the chief engineer and assistants, and the private practitioner is only called in during the promotional period and then usually dropped, or kept on a small retainer.

When a large project was to be reported upon or investigation made, the private practitioner was called in and given the task, but now the usual procedure is to call upon some department of the city, county, state or Federal government to make the report, the reason usually being given that these bodies do it more cheaply and in a more impartial and authoritative manner.

It would be more of interest to determine whether these public bodies can or do perform this service more economically or better than do private practitioners. The writer has had some experience along this line, and it is his observation that neither costs nor character of work by these public bodies is much different than that done by a reputable private engineer. In fact, due to lower salary levels usually existing in public service, the work is usually performed by younger, less experienced men and due to the more complex organization of public offices the total cost to the party having the work done, which includes the cost of keeping in contact with the public organization, is apt to be higher.

One next comes to the consideration of whether the loss to present-day society of the engineer in private practice will be detrimental to its progress and comfort. If the engineering profession is gradually developing into an employed class, will such a development create a better or poorer class of engineers, and will they render better or poorer service to society. If such a trend will result in poorer engineers and poorer engineering work, the profession itself should take a hand and determine just what is causing the trend and what can be done to stop it. We do not see a similar trend in any of the other professions, such as medicine, law, dentistry and we have heard no public clamor that the governmental agencies take over their functions and perform them at cost.

Is this trend due to the members of the profession themselves, their character, ability or integrity (certainly it is not due to their exorbitant fees charged), is it due to lack of organization within the profession or their ignorance of what is occurring, or is it due to the general progress of civilization and economic forces which decree that the consulting engineer become like a fifth wheel, of no use to society and therefore doomed to have his place taken by the salaried employee? A general knowledge of conditions throughout the United States in this respect would lead the writer to believe that this condition does not exist in any other section to the degree it does in California, although it is being approached in other sections. No remedy is offered herein, but it is hoped that this article will arouse some thought and discussion, and

that out of some answer to the question used as the title to this article will appear, and also, if the answer be in the negative, some course of action suggested which will serve to perpetuate the species.

## ARCHITECTS NEED ENGINEER'S SERVICE

The May Bulletin of the Illinois Society of Architects says:

"The judicial responsibility of the architect is the most important of the many and varied responsibilities which he must assume when he accepts the commission to design a building and superintend its construction.

"Upon his good judgment, more than anything else, will depend the success of the structure. His duty to his client demands due consideration of neighborhood, and civic interests, and general appropriateness as well as refinement of details. Bound up with his duty to his client is his duty to his profession. He must do nothing to discredit his profession.

"Honesty is the keynote of professional ethics. Honesty in construction is as important as beauty in design, and the architect who fails to produce both in his building lacks the qualifications necessary to good standing in his profession. The success of any undertaking depends upon unified control. In the case of a building operation the architect should be supreme, but he must see that the best talent obtainable is employed in designing and supervising the details of construction and equipment, because it is impossible that the architect can adequately handle every detail in construction in this day of greatly diversified scientific achievement.

"Professional work is constantly becoming more specialized. The family doctor still looks after the health of the family, but he recommends consultation with a specialist whenever he feels that special training and experience would be of benefit to the patient.

"It is the plain duty of the architect to see that outside help is retained whenever he believes that in this way he can get men better qualified to deal with the special problem in hand, than would be the members of his own organization.

"The necessity for the services of the structural engineer, the electrical engineer, and the heating and ventilating engineer is generally recognized. Other specialized lines of engineering, not so generally known, because not required except in certain classes of buildings, are equally well developed, and the services of bank vault engineers, acoustical engineers and refrigerating engineers are quite as necessary in their respective fields. Too frequently the architect hopes to save his client money by assuming the responsibility for these special features. This is dangerous practice. Consultation with engineers who have made a special study of the complicated and unusual problems of such features, should effect first cost economies amply justifying the expense of retaining them. Certainly the ultimate results would be very much in favor of this procedure."

An ordinance requiring a minimum of ventilating space between dwellings and multiple dwellings of three feet on the sides and four feet in the rear has been passed to print by the Oakland city council.

# STATE TO EXPEND \$4,687,483 FOR NEW STRUCTURES AND REHABILITATIONS

A state building program for the next two years, involving the expenditure of \$4,687,483 for new construction, equipment and repairs to the two state prisons, state teachers colleges, hospitals and homes, the state fair grounds and armories was adopted at a recent conference in Sacramento.

In attendance at this conference were Paul Bailey, director of the department of public works; State Architect George B. McDougall; Harold E. Smith, secretary of the board of control, and others.

## New Construction Work

New construction and equipment of new buildings will amount to \$4,141,508, with repairs costing \$545,975. The building program will get under way almost immediately and will be entirely completed by July 1, 1929.

Dates for the construction of all projects have been fixed according to their necessity. Eight projects are scheduled for construction as soon as the funds become available on July 1st.

## Wing for San Quentin

These include the following:

East wing at San Quentin Prison containing 570 cells, reinforced concrete, cost \$260,000; to be completed January 1, 1929.

Three cottages at Stockton State Hospital farm for housing 360 patients; reinforced concrete; cost \$250,000; to be completed May 1, 1928.

Two ward buildings at Norwalk for 240 patients, reinforced concrete; cost \$175,000.

Three wooden barns at state fair grounds, \$13,500; to be completed August 15th.

Wooden building for Fresno State Teachers College Summer branch at Huntington Lake, \$15,000, to be completed September 15, 1927.

## Fair Grounds Addition

Provision for the construction of a machinery building at the state fair grounds, to cost \$100,000, also is included in the state's program. Bids will be called for this building on February 3, 1928. Construction work is scheduled to start March 28th and the work to be completed August 18, 1928.

The state agricultural society also is allotted \$30,000 for improvements to the water and light system at the fair grounds and \$25,000 is apportioned to the state fair for improvements to buildings.

## New Prison Buildings

Two new buildings are provided for Folsom State Prison. These include the erection of additional cells of reinforced concrete at a cost of \$153,000, to be completed by July 1, 1929, and a tubercular hospital, at a cost of \$70,000 and to be completed by May 1, 1929.

The wooden cottages for guards are also ordered for Folsom, to cost \$22,500,

as well as reservoir improvements at \$3,500.

In addition to the cell building slated for immediate construction, San Quentin Prison also gets a hospital extension, estimated at \$25,000.

A hospital and receiving unit is provided for the Preston School of Industry at Ione. This building will cost \$100,000 and is scheduled for completion on September 1, 1928. This is in addition to a new classroom building to cost \$40,000, to be finished the same time, and \$70,000 allotted for the purchase of a dam site and construction of a dam for Preston school.

## Armories To Be Improved

The California National Guard receives four allotments for armory and airport repairs. For the armory in Sacramento, improvements will cost \$5090 and \$4158 will be spent on the Stockton armory. The remainder, \$7260, will be used for repairs at the Los Angeles armory and airport.

Several projects are approved for the state hospital at Stockton. Besides the \$250,000 patients' cottages included in the immediate work order, that institution is allotted the following work: Industrial building, reinforced concrete, \$25,000; two wooden cottages for resident physicians, \$20,000, and improvements to water and power systems, \$10,000.

Chico State Teacher College is given a new reinforced concrete building to cost \$75,000, and improvements to the Mt. Shasta Summer School, costing \$3000.

Four projects are included for the Mendocino State Hospital, including the following: Cottage to house 120 patients, \$95,000; attendants' building and garages, \$90,000; cottages for resident physician, \$10,000, and boiler installation and gas house equipment, \$19,000.

Napa State Hospital will be benefited by the following construction work: Cottage for 120 female patients, \$90,000; quarters for day attendants, \$40,000; cottage for resident physician, \$10,000.

Two projects are slated for the Humboldt State Teachers' College, including a new gymnasium to cost \$40,000 and completion of the main building at \$13,000.

The veterans' home at Yountville will receive two new buildings: Reinforced concrete barracks at \$170,000 and a store-room and employees' quarters, \$35,000.

Included in the work to be done at the Fresno State College is a reinforced concrete and brick building to cost \$215,000. Work on this building is scheduled to commence on January 27th and to be completed October 1, 1928. Bids will be called on December 2nd and opened December 27th.

Sonoma State Home improvements are: General hospital building, \$150,000; cottage for employees, \$40,000; boiler and pumping plant, \$30,000.

would have been 7 tons greater had not I-beams been substituted for some light trusses shown on the riveted design.

Erection bolts are being used for all members except the purlins, which are lowered into short pieces of 5-in. channel welded to the rafters with flanges turned up. Rafters, which connect with the column flanges, have been prepared for erection by welding connection angles to the webs of the rafters, the outstanding legs on these angles having been punched to match holes in the columns. One such angle occurs at each end of each rafter, and each angle has two holes. Wooden templates were used to locate the angles on the rafters, and the angles were secured by clamps until welded. This welding was done on the ground, but might as well have been done in a shop if circumstances had made it economical to send the rafters to a shop instead of shipping them directly from mill to job.

This building requires about 1880 lin. ft. of fillet welding; 320 cu. in. of butt welding; 800 feet of the fillet welding was done on the ground before erection. Two sizes of fillets were used, 1/4-in. and 1/2-in. The Jones & Laughlin Steel Corp. is under contract with the owners for the steel construction complete including welding, the contract price being slightly lower than the lowest bid obtained for a riveted structure. Data on actual cost will be published after completion of the work.

The architect for the building is B. R. Prack of Pittsburgh. Welding details were prepared by Gilbert D. Fish, consulting engineer of New York, who is directing the welding operations. A. M. Candy, welding engineer of the Westinghouse Electric & Manufacturing Co., is making periodic inspections of the welding. All welding of buildings for Westinghouse companies is under the general direction of W. S. Rugg, vice-president in charge of engineering.

## MINIMUM AUTO LICENSE \$300

With all its advancement, Japan sticks to its old-fashioned jinrikisha as a pleasure craft, probably because the cheapest automobile license in that country is three hundred dollars. Most of us in the good old U. S. A. kick because we have to pay ten bucks for a license on a machine that will go like—(well, you know, if you own one)—and come back the same way.—Hibbing Daily News.

## ENGINEERING SOCIETIES EMPLOYMENT SERVICE

Further information regarding positions listed in this column is obtainable from Newton D. Cook, Room 718, 57 Post Street, San Francisco, (Phone Sutter 1684).

R-1035-X-2701-CS ENGINEER familiar with heating, ventilating, wiring, etc. as partner in consulting firm. Investment required. Apply by letter stating age, experience and salary earned. Loc. So. California.

R-1031-X-2686-CS CIVIL ENGINEER, 25-30, single. Must be a practical man thoroughly experienced in asphalt road work to show methods of construction to city engineers in India. \$3000-\$3500 on three year contract. Headquarters, New York.

R-1047-X-2730-CS RECENT GRADUATES, for company manufacturing steel joists and accessories, and steel roof trusses. Experience in building design, preferably both reinforced concrete and structural steel, with reasonable amount of personality and a great deal of ambition desired. Apply by letter. Location, Ohio.

R-1060-S EXPERT LETTERER AND TRACER experienced in office practice. Must have executive ability to take lead in reproduction dept. \$150-160 to start. Local. Apply with samples of work and references.

# WELDED FACTORY BUILDING IS UNDER CONSTRUCTION AT DERRY

An arc-welded kiln tunnel building is being constructed by the Jones & Laughlin Steel Corporation for the Westinghouse High Voltage Insulator Co., at Derry, Pa. This building is L shaped, 460x303 ft., covers 2 acres and varies in height between 15 and 25 ft. The weight of structural steel is 336 tons, of which 204 tons were shipped as plain material without passing through a fabricating shop.

In laying out the job for welded construction, advantage was taken of the

experience gained in previous operations to reduce costs. Continuity of connection for purlins permitted the use of 7-in. I-beams on 20-ft. spans. The rafters, mainly 18-in. I-beams 30 ft. long, could not be made continuous because the roof bays were alternately high and low. The design for an equivalent riveted structure, which was prepared for competitive bidding, called for approximately 365 tons, or 8 1/4 per cent more than the design for the welded structure. The weight saving in the welded design

# THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

May bookings of architectural terra cotta, as reported to the Department of Commerce by 25 manufacturers (and for the earlier months, of two additional firms now out of business) who produced over 95 per cent of the architectural terra cotta made in 1925, were 10,716 tons, as compared with 14,633 tons in April and 12,338 tons in May, 1926.

Business continues to be transacted in fair volume in the electrical industry, "Electrical World" says. Although there has been a decrease in sales compared with last year, the decline is not large and has had little influence on the attitude of manufacturers. Negotiations are pending for several large projects and the drop in summer business is not expected to be more than seasonal.

Suit for \$20,290 against the Union Company, operators of the steam vessel Noyo has been filed in San Francisco by Matthys Walther for injuries received November 15, 1926, while transferring lumber from the ship to gondola cars at the China Basin wharf.

At an informal meeting June 20 at San Francisco of intercoastal steamship line operators it was tacitly agreed to maintain the present rate of \$14 on lumber for the months of July and August. This commodity is especially firm at present, but the majority of the operators deem it wise to continue the present rate, though some of them were in favor of an increase.

The Board of Building and Safety Commissioners, Los Angeles, has been requested to amend Sections 204 and 15, of the Los Angeles Building Ordinance, as to permit the use of trussed steel joists and armored gypsum fireproofing in all types and classes of buildings to be erected in the city.

Exploding 180,000 pounds of dynamite in a single blast, the entire face of a mountain of lime in Tehachapi Valley will be lifted into the air and dropped into a 750,000-ton heap of rocks. This is the announcement of the Monolith Portland Cement Company, in preparing to blow up the mountain near the town of Monolith. Company officials have set the date for the explosion at about July 1. It is quite probable, it was said, the charge may be held back until July 4, giving the holiday crowds a thrill.

Plumbers of Tulare have requested the city trustees to provide a system of inspection and approve installation of oil burning devices in buildings.

Blds will be opened by the Ford Motor Car Company on July 15 for the construction of the new assembling plant to be erected at Long Beach from plans prepared by Albert Kahn, Detroit architect. Plans provide for a main building, 928 by 390 feet of structural steel, concrete and brick construction with saw-tooth type roof. A two-story office building, 104 by 80 feet, a warehouse, 440 by 80 feet and 80 feet high, power house, 98 by 80 feet, oil house, 114 by 62 feet and oil and water storage tanks are included in the improvements. The project will require 3500 concrete and wood piles for foundations.

Adequate wages, modern sanitary and safety conditions, continuity of employment, group insurance, stock ownership and leadership for employees in industry were urged by speakers at the Open Shop Conference held in San Francisco recently.

Architects of France want to be organized into a close corporation that can discipline its members, cancelling their right to build, when necessary. A high standard of ethics is proudly claimed by the architects, but they have no recourse against unfair competition. A bill to put them on somewhat the same basis as lawyers is before parliament.

Chartering of the steamer Ishin Maru to load lumber in late July or early August at Vancouver for Japan by the Canadian-American Shipping Company of Seattle from Yeshide, Jimusho & Co., of Tokyo has been announced. The vessel will load lumber at Vancouver, B. C., for Japan during late July or early August.

Twenty-seven lumber cargoes arrived at southern California ports during May to the night of the 9th, bringing in 40,750,000 ft. Twenty-two of them carried 36,750,000 ft. of fir and five had 4,000,000 ft. of redwood. The total for the year is 688,455,000 ft.

## TRADE NOTES

Creditors demand the immediate sale of a Berkeley sash and door business fully equipped—including machinery, site, building, stock and delivery equipment, located in rapidly growing industrial district. If interested communicate with O. L. Brillhart, trustee, 1101 Oakland Bank Bldg., Oakland.

J. C. Hobrecht Co., electrical appliance and supply house, is preparing to move from the present quarters at Eleventh and K streets to 1112 J street, Sacramento. Alterations and fixture work in connection with the new quarters will involve an expenditure of \$10,000, according to company officials.

Mitchell Ornamental Iron Works has purchased 13,690 square feet of space with 2600 square feet under cover at 5324 Manila avenue, Oakland, and will manufacture drapery hardware, including curtain rods, tie-backs, ends and motifs; balcony and stair railings, elevator cars and doors, grilles and other ornamental iron work. P. J. Mitchell and I. R. Mitchell are the owners.

R. M. Wilson, heating and ventilating contractor, has returned to San Francisco to engage in business after an absence of ten years, during which period he operated in the Southern California section with headquarters at Los Angeles. Wilson will maintain temporary offices at 1153 O'Farrell St., San Francisco.

Pacific Steel Sales Company of Oakland, capitalized for \$50,000, has been incorporated. Directors are: H. G. Luhsen, D. V. Luhsen and E. G. Schuidt, all of Oakland.

B. A. Cannon, general manager of the Sugar Pine Lumber Company, has been named one of a committee of twenty-six Pacific Coast lumbermen appointed to the National Lumber Trade Extension Advisory Council of the National Lumber Manufacturers' Association. Fourteen of the committeemen are from California and six each from Oregon and Washington. The advisory council will keep the association's trade extension committee informed of developments in the committee's work of advancing the sale of lumber against competition from other commodities, and will serve also as advisors in matters of policy. The lumbermen's organization expects to spend \$5,000,000 in the next five years in promotion of the interests of lumber.

Chamberlin Metal Weather Strip Company has opened a branch office at 910 Ninth Street, Sacramento, with James W. Snook in charge. Establishment of a branch factory in the Capitol City is contemplated by the company.

Irrigation Engineering Sales Company, pump manufacturers of Fresno, has been incorporated with a capital stock of \$100,000. Directors are: Everett S. and W. H. Minard, Chas. H. Sortor, S. E. Adams and A. C. Housman. The company has been in existence five years with a plant at 206 North H Street, Fresno. The incorporation represents expansion and reorganization.

National Guarantee Building-Loan Association of Oakland, capitalized for \$500,000, has been incorporated. Directors are: H. T. Dobbins, Colusa; S. P. Wiley, Berkeley; B. W. Fahrner, San Francisco; L. P. McKinney, San Francisco; W. O. Files, San Francisco; Edw. M. Otis, Alameda, and Byron A. Bearce, Berkeley.

Laykold Asphalt Co. with the principal place of business at Wilmington, Del., capitalized for \$135,000, has filed articles of incorporation in San Francisco. Directors are: C. F. Riley, A. McCharles, Wm. Muller, A. L. E. Sampson and L. J. Brunel.

Pacific Coast Steel Company plans immediate construction of a 60 by 120 ft. addition to its galvanizing plant at South San Francisco. An addition, 280 feet by 80 feet, is completed for the rolling mill.

R. O. Cheatham has been appointed sales manager of the San Joaquin Valley for the Madera Sugar Pine Company. He will maintain headquarters at Madera.

H. J. Berringer will operate in San Francisco under the firm name of Star Delta Electrical Works.

Samuel Herbert Lanyon and Charles L. Froding, both of Oakland and Frank J. Hollender of Berkeley, will operate in the East Bay district under the firm name of Asbestos Building Materials Company with headquarters at Emeryville.

Property owners have filed protests with the San Mateo county supervisors against the proposal of the River Sand & Gravel Company to locate bunkers on property near the Jefferson Union High School at Colma.

Frank Smith, president of the Fisher-Glassford Hardware Co., 1024 Fulton St., Fresno, has retired from business, selling his interests to Elmer E. Lord, his associate.

Truscon Steel Company of Youngstown, O., has just issued a Catalog No. 717 "Truscon Drafting Room Standards," covering its complete line of steel windows, doors, mechanical operators and lintels. It contains 125 pages covering working details and specifications of a purely technical nature for use of the specification writers and draftsmen. The catalog conforms to the American Institute of Architects filling requirements. Copies will be furnished on request.

Walter D. Bates, formerly with the California Stucco Company has joined the sales forces of the Pratt Building Material Company of San Francisco.

Edward H. Warner, 60 years old, chairman of the Burlingame planning commission and a nationally-known writer on engineering and civic improvements, was found dead in his offices at Burlingame, June 17.

A. C. Rees of Salt Lake City, Utah, was re-elected president of the Open Shop Conference which recently convened for 3 days at the Palace Hotel, San Francisco.

Robert A. Harvie, 66, for many years engaged in the hardware business in Sacramento, died in that city, June 17. He was a native of Canada and a resident of California for 50 years.

Considerable interest was attached to the meeting because of reports concerning a merger of Paraffine and Schumacher with a large Eastern Company, presumably U. S. Gypsum. The rumors were not mentioned at the meeting and unofficially the officers of both companies have discredited the reports. Schumacher shares, however, have been recently active in the market.

Paraffine Companies, Inc., which manufactures roofings, building papers, felts, paper boards and allied products, purchased control of Schumacher last year and placed two of its officers in charge of operations. Schumacher was re-organized and new cumulative preferred and common stock issued.

#### CURRENT YEAR WILL PROVE ONE OF GREATEST BUILDING YEARS

Propagandists and "calamity howlers" who predicted a big building slump in 1927 are doomed to disappointment. Earl F. Stokes, executive secretary of the National Association of Builders Exchanges, declares in an article on the building situation in the June issue of the American Builder-Economist, published by the American Bond and Mortgage Company.

"All indications now point to the fact that 1927 will prove to be one of the greatest years in the history of the building industry," said Mr. Stokes, "although the total investment in new construction may not be quite as much as in 1926, but the difference will hardly be sufficient to be noticeable.

"We refer to those certain interests in various sections of the country who are trying to create the impression that the country is faced with another building slump, as the 'dizzy pessimist,' and so they are. They get in a swivel chair, twiddle their thumbs, and whirl around until they are light headed, then jump up and shout to the world an impulsive conclusion, drawn from dreams and hearsay, and without facts to prove their argument. Most of all they try to make you see it just as they do."

After reviewing at length the building figures for the first four months of the year, Mr. Stokes pointed out that architects throughout the country "have plenty of work on their boards," adding:

"The government has a \$225,000,000 program. The Bureau of Education announces a large program of public school building. More than a \$1,000,000,000 is to be spent in road construction.

"Many millions will be spent in the re-construction work of the Mississippi valley, which will also give employment to thousands of mechanics and laborers. With these facts before us, is there any reason why we should view with any alarm, the noise that is being made by the propagandist?

"When the year of 1927 closes and the figures of the industry are compiled, we believe that the year will show that the well to the Nation's wealth." construction industry has contributed

#### WATER RIGHTS CONFERENCE

Closer approach to definite action on the proposal that the seven states in the Colorado river basin send representatives to a new conference on water rights was made at the meeting of Arizona's Colorado river commissioners with Governor George H. Dern and his advisory board. The meeting was held in the Utah state capitol, June 18. While decision as to the date of this seven-state conference was not reached, favorable discussion of the suggestion left no doubt that the idea would be carried into early execution with the possibility that the conference will be held some time in July.

#### U. S. LUMBER EXPORTS TO AUSTRALIA

United States exports of lumber and wood products of Australia in 1926 had a total export value of \$9,227,174, an increase over 1915 of 1 1/4 per cent. Sawed timber and lumber were valued at \$7,228,540, lath and shingles at \$170,175, and logs and ties at \$81,728. Hardwoods (lumber and ties) had a total value of only \$33,769. Cooperage, box shooks and other manufactures were valued at \$1,746,731, according to U. S. Department of Commerce.

The total annual import timber trade of Australia is worth from \$25,000,000 to \$30,000,000, according to Australian import valuation, the imports from the United States, on the same basis, being valued at about \$11,000,000 annually. On the average, during the past five or six years the United States has supplied approximately 45 per cent by value of Australian purchase of lumber and wood products from outside countries. Imports from New Zealand have averaged about 13 per cent and those from Norway nearly as much—the percentage for both countries decreasing with later years from an earlier greater ratio. Sweden supplies about 8 per cent of the total by value and Canada slightly less.

#### SCHUMACHER REPORTS EARNINGS GOOD—PLANT EXPANSION

Earnings of the Schumacher Wall Board Corporation are satisfactory, stockholders were told June 16 at their annual meeting by A. R. Noylan, vice-president and general manager, and are more than ample to cover the preferred dividend requirements. He announced, however, that a statement of complete earnings will not be released at present, or until the new management had had opportunity to more nearly complete its program inaugurated eight months ago when the Paraffine Companies, Inc., acquired control.

The sum of \$100,000 has been appropriated for expansion of plant facilities in order to increase the output and reduce operating costs. Comment was made on the prospective markets for the company's plaster board, of which it is the largest manufacturer west of the Rockies. The company operates plants at Seattle and Los Angeles.

Directors were all re-elected at the meeting, with the exception of G. Parker Toms, of Hunter, Dulin & Co., who retired in favor of Robert S. Hunter of the same firm. The board consists of R. S. Shaimwald, Pres. of Paraffine Companies, Inc.; A. E. Schwabacher of Schwabacher & Co.; A. R. Noylan, vice-president and general manager; B. F. Brown, treasurer; W. H. Lowe, Robert E. Hunter and J. Dabney Day, president of the Citizens' Banks. Hunter was also elected a vice-president and H. H. Tice was named secretary.

## ALONG the LINE

E. A. Larkin formerly general superintendent for Cahill Brothers is now associated with H. C. Vensano & Company, general contractors, with offices at 58 Sutter street, San Francisco. Mr. Larkin was with Cahill Brothers for about eight years. Among the more recent contracts with which Mr. Larkin was connected are the Senator Hotel and Weinstock-Lubin Building, both at Sacramento and the Apparel Center Building and Ames-Harris & Neville factory building in San Francisco.

There are more than 3000 civilian professional engineers in the government's employ, says a government report describing their activities. Federal engineering operations are carried on in practically every part of the United States, and extend to Alaska, Guam, Hawaii, Panama, the Philippine Islands, Porto Rico, and Samoa.

Allied Construction Company, Arthur M. Lieb, Wilcox Bldg., Los Angeles, announces his company has a contract to finance and construct \$6,500,000 of government buildings, including palace of justice, agricultural college, streets and sewer work at Lima, Peru

Edwin H. Warner, 65, civil and electrical engineer, who was one of the Alaska pioneers and who had done extensive work in Panama and Mexico, was found dead in his office at Burlingame, Cal., June 17. Heart disease was the cause of death. He is survived by his widow.

Stricken with a heart attack while telephoning his physician on June 19, J. W. Dolliver, 68, San Francisco architect, dropped unconscious at his home at Kentfield, Marin county, and died as his wife reached his side. He had been ill for a month. Mr. Dolliver was born in California and had resided at Kentfield for twenty-five years, going there with his family from San Francisco.

He is survived by his widow and five children, Walter Dolliver, Los Angeles; Emerson Dolliver, Berkeley; Lewis, Paul and Ruth Dolliver of Kentfield.

George Clinton Ward, vice-president in charge of engineering and construction for the Southern California Edison Co., has received the degree of doctor of engineering from the University of Southern California for his work in developing water power, especially the Big Creek-San Joaquin project of which the Florence Lake tunnel is a part.

# ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

## ALAMEDA COUNTY ROOFERS SEEK TO BETTER ROOFING STANDARDS

To maintain proper standards of roof construction and to establish responsibility, the Master Roofers of Alameda County have been organized with headquarters in the Builders' Exchange, Oakland.

The purpose of the association is to give a guarantee to the trade of a high-grade class of work and to undertake an obligation, for each member of the organization, that there will be complete fulfillment of the requirements set by the best standards of construction.

It is the aim of the association, as a matter of self-protection, to provide an assurance of responsibility that will safeguard the trade from faulty and irresponsible work. The organization has the endorsement of the Society of Architects of Alameda County.

"Each member of the organization undertakes to guarantee that materials and workmanship will measure up to accepted standards," says H. Hennings, Jr., secretary of the organization. "In the

event that a member has for any reason failed to meet those requirements, our organization will recognize the obligation to correct any deficiencies and to see to it that the job is properly and satisfactorily done. In other words, the responsibility of the Master Roofers of Alameda County as an organization may be availed of by the trade if any member of our organization shall fail to live up to the terms of any agreement or contract to do roofing construction. By assuming this obligation the responsible roofers expect to serve the best interests of the building trade and also serve the welfare of the responsible roofers."

Members of the association include: California Roofing Company, Elliott & Elliott Roofing Company, Standard Roofing Company, G. L. Tyler Roofing Company, General Roofing Company, J. B. McKeon Roofing Company, G. W. Berlinger Roofing Company, Bradhoff Roofing Company, Koplin Roofing Company and Mastercraft Tile & Roofing Company.

## HIGGINS RE-ELECTED PRESIDENT OF RICHMOND EXCHANGE

E. H. Higgins was re-elected president of the Richmond Builders' Exchange at a recent meeting of the newly elected board of directors. It will be Higgins' third term in the office. J. L. Eakle was elected first vice-president; F. A. Mero, second vice-president; E. A. Marshall, secretary, and James Walker, treasurer. Other directors elected were George Edwards and Carl Overaa.

The election of directors took place at the annual banquet meeting of the exchange.

Dudley Holtman, assistant director of the National Committee of Wood Utilization of the Department of Commerce, was the principal speaker at the meeting, urging the use of short lengths of lumber as a means of increasing conservation 20 per cent, pointing out that at least that percentage of the lumber in the average small house or frame structure was of short lengths, but that longer lengths were purchased and cut up on the job. Only a third of a standing tree is utilized, he declared, due to the failure of the industry to use short lengths of lumber. The United States and Canada are the only countries not using short lengths, he said, and this is due principally to customs established 300 years ago, when there was an abundance of timber everywhere.

## ENGINEERING SOCIETIES EMPLOYMENT SERVICE

The four national engineering societies known as the Founder Societies, namely the American Society of Civil Engineers, American Institute of Mining and Metallurgical Engineers, American Society of Mechanical Engineers and American Institute of Electrical Engineers, maintain a special service for the benefit of their members and any employers requiring engineering assistance. In San Francisco this enterprise has the active support of the Engineers' Club and the Cal-

ifornia Section of the American Chemical Society as their members have realized the need for a professional service bureau where they might place their calls when in the market for employment service.

Through the very extensive membership of the supporting societies men are available for all grades and types of engineering and technical work from the bottom to the top, but every registered applicant is considered individually as to experience, training and ability, so that the right man for the job is referred to the employer. There is no charge to the employer for this service, which is supported by the societies and the men who are placed in employment.

The western office at 715 Post Street, San Francisco, is in charge of Newton D. Cook. By covering the entire field of engineering, i. e., design, production, construction, distribution and instruction, an excellent record for placements has been made, and anyone interested in using the service is invited to get in touch with him.

## INSURANCE FIRM

With a cash capital of \$600,000 paid in, the Union Labor Life Insurance Company is ready to begin writing policies on February 1. It was organized and will be controlled exclusively by the trade unions of America, every share of stock being held by a labor organization or a member thereof.

The planning and financing of the new company enlisted the voluntary efforts of 42 men and women prominent in the labor movement. The cost of promoting the enterprise was less than 3 per cent of the capital acquired.

The company, with headquarters at Washington, D. C., will write all kinds of life insurance in conformity with national and state laws. Although the company was sponsored by the American Federation of Labor and affiliated organizations, it is an independent institution.

## SAN RAFAEL ELECTRICIANS AND PLUMBERS TO BE BONDED

Effective July 1, all master plumbers and electrical contractors of San Rafael will be required to furnish bonds, in the sum of \$500 each, to be filed with the building inspector, as a guarantee that all work done by them will be in accordance with the state laws and city ordinances. This action has been taken not only to protect residents of San Rafael against inferior work, but also to protect local plumbers and electricians against competition by irresponsible outsiders, who pay no taxes or business license fees in San Rafael.

## LABOR UNIONS WILL OPERATE OWN ENGINEERS CLUB ELECTS

Election of officers of the Engineers' Luncheon Club of Oakland to serve for the ensuing year are announced by A. Vander Naillen, chief deputy county surveyor of Alameda county. The new officials are S. G. Culver, president, executive engineering department, Key System; George Mattis, former Oakland city engineer, vice president; W. Moon, secretary, and Arthur P. Davis, George B. Hegardt and A. Vander Naillen, advisory board members.

## ENGINEERS SEEK TO REDUCE EARTHQUAKE LOSSES

Engineers of the Board of Fire Underwriters of the Pacific are co-operating with the Pacific Coast Building Officials Conference in the preparation of a new building code which will aim to make all future structures proof against serious damage resulting from earthquakes. The conference says that all building codes must be revised to care for the earthquakes hazards in every section of the United States. Safe buildings, contend the building inspectors, can be constructed but all existing regulations are woefully lacking in the proper precautionary specifications.

It is pointed out that in Tokyo, a recognized serious earthquake zone, two steel frame buildings, erected with this hazard in mind, withstood the severe shock which practically wiped out the entire city.

## ONE HUNDRED AND TEN STORY OFFICE PLANS APPROVED IN NEW YORK

New York has officially approved plans for the Larkin Tower, 110 stories high, to be erected on Forty-second street, between Eighth and Ninth Aves. Charles Brady, superintendent of buildings, has approved the plans, requiring only minor changes for plumbing, standpipes and operating details.

Edward L. Larkin, its designer, announces these changes will be completed in a week.

The structure is to be completed late next year. With its site, its cost is estimated at \$25,000,000.

Plans call for seven setbacks before the tower itself begins at the seventeenth floor. The top of the tower will be 1200 feet above the street; its base 50 feet below. A powerful beacon on the hundredth floor will be seen for great distances by airmen and coastal navigators.

**LOS ANGELES, Cal.**—John Hawley, Kipling Hotel, 4067 West Third St., has secured a 99-year lease on the property at the northeast corner of Seventh and Berendo Sts. for Lydia J. Morehouse. The lease provides that work is to be started by Dec. 1, 1927, on the erection of a twelve-story Class A apartment house to cost not less than \$500,000. Mr. Hawley states that an architect has not yet been retained.

**LOS ANGELES, Cal.**—Architect Leonard L. Jones, 445 Douglas Bldg., has started working drawings for an 11-story Class A apartment building to be built at the southwest corner of Ivar St. and Franklin Ave. for George Parker. Building will contain garage in basement, professional suites, coffee shop and lobby on ground floor, each floor will have 4 apartments of 6 rooms each. Dimensions, 82x108 feet, steel frame, concrete walls, 2 elevators, fire escapes, wrought iron, steel sash; \$500,000.

**SAN FRANCISCO**—Golden Gate Iron Works, 1541 Howard St., awarded contract to furnish 190 tons of steel in connection with five-story and basement steel frame apartments for Oliver Roussseau at northwest corner of California and Gough Sts. H. C. Baumann, architect, 251 Kearny St.

**LOS ANGELES, Cal.**—Evans-Zukin Construction Co., 1118 S. Highland Ave., plans a five-story apartment house in Normandie Ave. between Seventh and Eighth streets for itself. Concrete and brick construction, steam heating, elevators; cost \$100,000.

**LOS ANGELES, Cal.**—Richard A. Hill, 301 Chester Williams Bldg., reports that financing has practically been completed and working drawings are to be started at once for the erection of an eight-story Class A apartment building on Union drive near Sixth St. for the First National Holding Corp. of America. Will contain sixty 2, 3 and 4-room apartments, steel frame, concrete walls, brick and terra cotta facing, electric refrigeration, steam heating system, two electric elevators, incinerator; \$350,000.

## BONDS

**YUBA CITY, Sutter Co., Cal.**—Election will be held July 1 in Barry Union School District to vote direct tax of \$4000 to finance construction of 1-classroom addition to present school. Trustees of district are: Roy Keasey, E. H. Fossen, Mrs. Agnes Harris, Mrs. W. M. Nelson and E. L. Davis.

**SANTA BARBARA, Cal.**—City votes bonds of \$140,000 to finance school improvements; \$80,000 for first unit (6 classroom) school in Rutherford Tract; \$15,000 for site in Rutherford Tract; \$25,000 for grading site and furnishing building; \$20,000 for city storehouse for school supplies and equipment.

**STRATFORD, Kings Co., Cal.**—Election will be held July 8 in Stratford Union Elementary School District to vote direct tax of \$1400 to finance school improvements. E. B. Hoey is clerk of the district.

**DELANO, Kern Co., Cal.**—Delano Union Grammar School District has set July 2 to vote bonds of \$34,000 to finance purchase of additional school grounds, erection and furnishing of a kindergarten building.

**SANGER, Fresno Co., Cal.**—Until June 27, bids will be received by county supervisors for purchase of \$198,000 bond issue of Sanger Union High School District; proceeds of sale to finance erection of a new high school group, plans for which are being prepared by Architect W. D. Coates, Rowell Bldg., Fresno.

**BAKERSFIELD, Kern Co., Cal.**—Election will be held July 8 in Mountain View School District to vote bonds of \$5000 to finance school improvements. Trustees of district are: C. F. Smith, Lewis J. Young and Wm. Rueter.

**CLARKDALE, Ariz.**—Bonds in the sum of \$110,000 to erect high school building were voted at Clarkdale, Ariz. Plans for the buildings are being prepared by Architects Fitzhugh & Byron, Phoenix.

**DUNSMUIR, Siskiyou Co., Cal.**—Election will be called shortly in Dunsmuir Joint Union High School District to vote bonds of \$35,000 to finance erection of a five-classroom addition to the present high school, including minor alterations and repairs to the present structure.

**ARBUCKLE, Colusa Co., Cal.**—September 17 is date set in Pierce High School District to vote bonds of \$145,000 to finance erection of new high school. Previous elections, providing \$200,000, were defeated. Geo. Sellon & Co., California State Life Bldg., Sacramento, are the architects.

What architects, contractors, and all who build have learned to expect from Quandt craftsmen:

**"Co-operation for Quality"**

That is why you will find Quandt craftsmen wherever fine work and quality workmanship are insisted upon, and economy is a factor.

Our organization is prepared to apply materials by brush or spray application. We invite inquiries.

**A. Quandt & Sons**  
Painters and Decorators

SINCE 1885

374 GUERRERO STREET, SAN FRANCISCO

Quandt-quality is available for the small job as well as the large. Our operations are State-wide. Specialists in the application of Lacquer.

**SACRAMENTO, Cal.**—Until July 5, bids will be received by county supervisors for the purchase of \$7000 bond issue of Carroll School District; proceeds of sale to finance school improvements.

Erskine, associate, 1103 Kerkhoff Bldg., Los Angeles, are completing working plans for a one-story concrete block factory building at Glendora for the California Novelty Chair Co.; the building is of irregular shape and will contain approximately 18,000 sq. ft. To be done by day work and subcontract by the owner.

**ISLETON**, Sacramento Co., Cal.—H. J. Heinz Corp. contemplates extensive alterations to pickling plant, according to Arthur S. Dudley, secretary of the Sacramento Chamber of Commerce, who recently conferred with officials of the Heinz corporation.

**Roofing Contract Awarded**  
**WAREHOUSE** Cost, \$259,000  
**SAN FRANCISCO**, Pacific and Front Sts

Four-story class A reinforced concrete warehouse.

Owner—Zellerbach Paper Co., 534 Battery St., S. F.

Engineers—Ellison & Russell, Pacific Bldg., S. F.

Contractor—Barrett & Hilp, 918 Harrison St., S. F.

**Roofing**—Richardson Roofing Co., 277 Pine St.

As previously reported: Electrical work to Victor Le Moge, 281 Natoma Street, S. F.; steel rolling doors to Jas. D. Wilson Corp., Call Bldg., S. F.; plumbing to Dowd-Welch, 3558 16th St., S. F. Other contracts were reported May 6.

**SOUTH SAN FRANCISCO**, San Mateo Co., Cal.—Application has been filed with City Building Inspector by Pacific Coast Steel Company to erect a 60 by 120 ft. addition to galvanizing plant; will be all steel construction with galvanized iron roof. Construction of an 80 ft. by 280 ft. addition to the rolling mill is also contemplated by the company.

**ALHAMBRA**, Los Angeles Co., Cal.—Reliance Manufacturing Co., Pasadena, has purchased a two-acre site on Meridian Ave., Alhambra, and has commenced excavating for the erection of a large manufacturing plant to cost \$150,000. The buildings will be of steel frame and corrugated iron construction.

**PITTSBURG**, Contra Costa Co., Cal.—Columbia Steel Vorp., has issued an additional \$7,500,000 in bonds, and contemplates additions to the present plant costing \$200,000. It is proposed to double the open hearth capacity. A scrap-handling crane runway will also be included.

**LONG BEACH**, Los Angeles Co., Cal.—Bids are being taken by Ford Motor Co., until July 15, for the new assembling plant to be erected at Long Beach. Plans were prepared by Architect Albert Kahn, Detroit, and provide for a main building, 928x390 ft., of structural steel, concrete and brick construction with composition roofing, saw-tooth type. There will also be an office building, two stories, 104x80 ft. warehouse, 440x80 ft., and 80 ft. high power house, 98x80 ft.; oil house, 114x62 ft., and oil and water storage tanks. Buildings will be of reinforced concrete and brick construction with steel sash, steel rolling doors, metal skylights, etc. The work will require 3500 concrete and wood piles for foundations.

**OROVILLE**, Butte Co., Cal.—Directors of Wyandotte Cannery, Inc., Oroville, at a recent meeting authorized the construction of an addition to the present packing plant. The addition will be completed in time to handle this season's pack.

**POMONA**, Los Angeles Co., Cal.—Scientific Feed Manufacturing Co. has purchased 160 acres near Spadra and plans the erection of a cattle feed manufacturing plant. In addition cattle pens, with concrete floor, will be constructed on 80 acres. The entire plant will cost \$400,000. John F. Ruether is president of the company and Dr. Gustav F. Reich, secretary.

**LONG BEACH**, Calif.—Bids for the \$5,000,000 Ford assembly plant to be erected on Cerritos channel in Long Beach are to be opened at the general offices of the Ford Company in Detroit at noon July 15, according to an announcement by B. W. Burroughs, assistant manager of the Los Angeles branch.

Plans for the project were prepared by Architect Albert Kahn of Detroit and provide for a one-story main building of structural steel, concrete and brick construction with a saw-tooth type roof and covering an area 928x390 feet, paralleling Badger avenue. There will also be an office building two stories in height, 104 x80 feet; a warehouse, 440x80 feet in plan and 88 feet in height; a power house, 98x80 feet; an oil house, 114x62 feet, and oil and water storage tanks. The buildings are to be of reinforced concrete and brick construction and are to have steel sash, steel rolling doors, metal skylights, heating systems, sprinkler systems, etc.

It will be necessary to sink 3500 concrete and wood piles for the foundation of the main unit of the plant.

The contractors selected to bid on the work are:

**Piling and Dock, Piling and Foundation, Architectural trades, Structural Steel, Steel Sash, Tank and Tower, Plumbing and Heating, Electrical Work, Sprinkler Work.**

BY THE Golden Gate-Atlas Co.

THE LATTER company now operate.

AND RETAIL at 15th and A Streets.

NEAR THE 16th Street viaduct.

IN SACRAMENTO.

SANDY PRATT'S sand and rock.

AT BERRY and De Haro Streets.

IN SAN Francisco.

THE MAMMOTH bunkers will hold.

OVER THIRTY-TWO railroad carloads.

OR 1920 tons.

OR 3,840,000 pounds.

OF PRATT'S sand and gravel.

THESE MAMMOTH bunkers will probably.

BE THE largest bunkers.

CONTAINING SAND, rock and gravel.

IN ALL Northern California.

"I THANK you."

This is a photograph of the Pratt Building Material Company's bunkers at 15th and A Streets, Sacramento, and operated by the Golden Gate-Atlas Materials Company (Carroll Stephens, Sacramento Manager), where Sandy Pratt's clean sand, rock, gravel and concrete mix (sand, rock and gravel mixed), are retailed. The phone number—Capitol 1900—is the Sacramento number of the Golden Gate-Atlas Materials Company's, while the Pratt Company's Sacramento number is Main 895. The San Francisco bunkers of the Pratt Company will be a duplicate of Pratt's Sacramento bunkers, except a small addition will be added. The T. I. Butler Company (sometimes known as Pacific Gravel Company) expect to begin operating Pratt's San Francisco bunkers in a few days.

Firm specializing in logs, fitches, dimension stock and panels of teak, oak, walnut, mahogany, satinwood, Mongolian maple, velveta, etc., wishes to get in touch with California furniture manufacturers and other firms which would be interested in purchasing hardwood supplies. Will send samples and c.i.f. quotations to all interested parties.

11810—San Francisco, Calif. Concern wishes to establish connections with San Francisco exporters who would be interested in purchasing from 30 to 40 tons of scrap horseshoes, 100 tons steel car rails and 3,000 tons scrap construction machinery.

11813—San Francisco, Calif. Responsible party leaving shortly for a very extensive trip to Australia, New Zealand, Dutch Indies, Straits Settlements, India, French Indo-China, Philippine Islands, China, Japan and Hawaiian Islands, is in a position to take on several lines of California manufacturers in addition to the two lines that he is now working. He will operate on a commission basis.

11814—Granada, Nicaragua. Party offers for sale a parcel of land with forests which contain more than 3,000 trees of mahogany and cedar, situated in the vicinity of the San Juan river. The land is virgin soil, fertilized by two rivers and numerous streams and is adapted to all kinds of agricultural cultivation.

#### OAKLAND REORGANIZING PUBLIC WORKS DEPARTMENT

Reorganization of the entire city department of public works was started by the Oakland city council by the passage of an ordinance to print, abolishing 139 positions, and reclassifying three.

The reorganization was requested by Commissioner Eugene Sturgis, and is a result of the formation of the port commission, which takes charge of the employment of workers for the harbor.

None of the 139 positions are at present filled by the department of public works. Most of them were taken over by the port commission, which dropped a few but kept most of them. According to Sturgis, "none of these positions have any place in the public works since the port commission took charge of harbor work."

The three positions reclassified for the public works department are those of waterfront foreman, who becomes an architectural draftsman; waterfront laborers, who become city building laborers; and piledriver foreman, who becomes extra carpenter. These employees will have charge of city building and fire houses.

## BUILDING CONTRACTORS' LICENSE LAW AS PROPOSED AT PORTLAND, ORE.

The Master Builders' Association of Portland, Ore., has submitted a proposed ordinance to the Portland City Commissioners, providing for the licensing of building contractors. The ordinance, as submitted, is published herewith:

### ORDINANCE NO. —

An ordinance to amend Ordinance No. 40468 by adding thereto an article to be known as Article —, providing for the licensing and bonding of persons engaged in the business of erection or construction of buildings and structures within the city limits of the city of Portland, Oregon, and providing penalties for the violation thereof.

The city of Portland does ordain as follows:

That Ordinance No. 40468, entitled, "An ordinance on the regulation of private business, including licenses, and declaring an emergency," passed by the council December 21, 1921, be and the same is hereby amended by adding thereto an article to be known as Article — to read as follows:

### ARTICLE —

SECTION 1. In order to assist in preventing the erection of unsafe structures and dangerous fire hazards, and to add to the healthful, sanitary and safe environments for the occupants of buildings within the city of Portland, Oregon, there is hereby established a "BUILDING CONTRACTORS' LICENSE LAW," and the same shall be known as such.

SECTION 2. DEFINITIONS. For the purpose of this ordinance the following terms shall be construed to have the meaning herein given them:

BUILDING CONTRACTOR. Any person engaged in or working at the business of erecting, constructing, remodeling, repairing or altering the walls and structural parts of buildings.

BUILDING. Any structure including place of habitation, business, instruction, assembly or amusement, the material or arrangement of which may affect the health, safety, pleasure or general welfare of the public.

BUILDING DEPARTMENT. The city building inspector or any officer or department under him charged with the enforcement of ordinances and laws regulating the material, construction and alteration of buildings.

DWELLING. Any dwelling or duplex residence together with the customary accessory buildings and outhouses located on the same premises or adjacent thereto and belonging to the said dwelling or duplex.

LICENSED CONTRACTOR. Any person licensed and bonded as required by this ordinance.

OWNER. For the purpose of this ordinance only, the term "owner" shall be deemed to mean any unlicensed person doing work on or construction of his own dwelling. The term "owner" shall not be deemed to mean a person in the business of building or constructing buildings for the purpose of sale or speculation.

UNLICENSED WORKMAN. Any mechanic or workman who works by the day or by the hour and does not contract for work in any manner directly or indirectly.

STRUCTURAL PARTS. The structural parts of any building shall mean those parts which carry a load or are subject to a shearing strain.

SECTION 3. It shall be unlawful and a violation of this ordinance for any person to engage in the business of erecting, constructing, remodeling, repairing or altering the walls and structural parts of any building for which a permit is or may be required by the building department of the city of Portland unless such person is a licensed contractor as defined by this ordinance. Provided, however, that nothing in this ordinance shall be deemed to prohibit any unlicensed workman from working directly for and under the supervision of a licensed contractor or owner, nor shall this ordinance be deemed to apply to any owner erecting, constructing, remodeling, altering or repairing his own dwelling, and it is further provided that this ordinance

shall not apply to any person doing minor alterations and repairing, except as to walls and structural parts, for any owner, renter or lessee.

SECTION 4. The building department shall not issue any permit to any person for the erection, construction, alteration, repair or remodeling of the walls and structural parts of any building unless the building contractor about to undertake such work shall be a duly licensed contractor in good standing, except as may be otherwise noted in Section 3.

SECTION 5. Any person required by this ordinance to procure a license shall make written application in duplicate therefor to the bureau of licenses on blank applications furnished by said bureau, and at the same time file a good and sufficient penal surety bond in the sum of \$2500, to be approved by the mayor of the city of Portland, and shall pay a license fee of \$10. Immediately upon the approval of the bond and payment of the license fee the bureau of licenses shall issue to such applicant license as a building contractor and the same shall be non-transferable as to ownership.

The building inspector shall have power to suspend, and he shall suspend, any license under this ordinance, stop all work thereunder and refuse any further permit or permits, for violation of the building ordinances or for gross incompetency. The building inspector shall notify said person in writing of his action, and he shall report his action to the next meeting of the council for consideration. Upon revocation by the council of any license, any permit issued to such licensee shall be forfeited. No license shall be issued to such licensee thereafter unless approved by the council. No licensed contractor shall be held for faulty permits, plans or specifications.

Nothing in this ordinance shall be deemed to conflict with the general provisions of the city license bureau.

SECTION 6. The bond herein required shall be payable to the city of Portland, Oregon, and be executed by a solvent corporation duly authorized to become surety in the state of Oregon, and be given as a guaranty that the applicant for a license will perform and complete the erection, construction, repair or alteration of the walls and structural parts of any building he may undertake in the city of Portland in accordance with the building laws and ordinances pertaining to and governing the same. And the said bond shall be given also as a guaranty of indemnity to the city of Portland on account of any violation of any of the above mentioned laws and ordinances, by the building contractor, or any of his employees, servants or agents. And the said bond shall still further insure to the benefit of any person suffering damage by reason of a violation of any of the above mentioned laws and ordinances and such person so damaged may sue and recover thereon in his, her, its or their own name.

In the event of the revocation of any license there shall be forfeited from the bond to the city of Portland an amount not exceeding \$500, and not less than \$50, which amount shall be determined by the council at the time of the revocation of the license.

SECTION 7. Any person who shall violate any of the provisions of this ordinance or fail to comply with any order or regulation made thereunder, or who shall build, construct, remodel, repair or make alterations to the walls and (or) structural parts of any building in the city of Portland in violation of any part of this ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof, shall be punishable by a fine of not less than \$10 and not more than \$500 or by imprisonment in jail for not less than 10 days nor more than six months, or by both such fine and imprisonment.

## ADVERTISEMENT

**SEALED BIDS** in triplicate, subject to the conditions contained herein, will be received until 11 a. m., August 11, 1927, and then publicly opened for furnishing all labor and materials and performing all work for Construction of Buildings and Utilities, including roads, walks and drainage at U. S. Veterans Hospital, Tucson, Arizona. This work will include excavating, reinforced concrete construction, hollow tile, gypsum blocks, brickwork, cast stone, marble work, floor and wall tile, iron work, steel sash, steel stairs with slate treads, wrought iron fence, tile, metal and built-up roofing, roof ventilators, metal lathing, plastering, carpentry, dumb waiters, laundry chute, platform scales, insect screens, awnings, painting, glazing, hardware, plumbing, boiler plant, steel water tower and tank, heating, steel oil tanks and oil burners, electrical work, electric elevators, refrigerating plant and outside sewer, water, steam and electric distribution system. **Separate Bids** will be received for Building Construction, Plumbing, Heating, Steel Oil Tank and Oil Burners, Electrical Work, Electric Elevators, Ice-making and Refrigerating Plant and Concrete Chimney, all as set forth on bid form. Bids will be considered only from individuals, firms or corporations possessing satisfactory financial and technical ability, equipment and organization to insure speedy completion of the contract and in making awards, the records of bidders for expedition and satisfactory performance on contracts of similar character and magnitude will be carefully considered. At the discretion of the Director, drawings and specifications may be obtained upon application to the Construction Division, Room 791, Arlington Building, Washington, D. C. Deposit with application of a check or postal money order for \$100.00 payable to the **TREASURER OF THE UNITED STATES** is required as security for safe return of the drawings and specifications within ten days after date of opening bids.

FRANK T. HINES, Director.  
June 30, 1927.

## STATE OF CALIFORNIA

### CALIFORNIA HIGHWAY COMMISSION

#### NOTICE TO CONTRACTORS

**SEALED PROPOSALS** will be received at the office of the California Highway Commission, Strub Building, Sacramento, California, until 2 o'clock P. M., on July 18, 1927, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway as follows:

Imperial County, between Myers Creek and three miles west of Coyote Wells (VIII-Imp-12-A), about two and three-tenths (2.3) miles in length, to be graded.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division of office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through **BUILDING AND ENGINEERING NEWS**, which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

**Rate:** 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

RALPH W. BULL,  
J. P. BAUMGARTNER,  
M. B. HARRIS,  
California Highway Commission.  
R. M. MORTON,  
State Highway Engineer.  
E. FORREST MITCHELL,  
Secretary.

Dated: June 20, 1927.

#### NOTICE TO CONTRACTORS

(Salinas Union High School District)

Notice is hereby given that sealed proposals are invited and will be opened by the Board of Trustees of the Salinas Union High School District, Monterey County, State of California, on the 2nd day of July, 1927, in the high school building of said school district in the County of Monterey, State of California, for the erection and completion of a gymnasium building in said school district, and for alterations and additions to the High School building, for the above named district, all in accordance with plans and specifications made for the same by Ralph Wyckoff, the authorized architect, employed by the Board. Proposals will be received separately with alternate propositions on a general contract, plumbing and heating, including everything specified and shown.

Plans and specifications can be seen at the office of Ralph Wyckoff, Growers' Bank Bldg., San Jose, California.

A deposit of twenty dollars (\$20.00) cash will be required on all plans loaned out as a guarantee of good faith.

All proposals to be made out on blank forms, furnished by the architect, and must be accompanied by a check for not less than five per centum of the amount of the bid, made payable to E. L. Van Dellen, Clerk of the Board, and certified

to by some responsible banking house. This check is to be forfeited in the event that the successful bidder, after having been awarded the contract, fails within ten (10) days to sign a contract and furnish good and sufficient bonds satisfactory to the Trustees and as required by law.

Bids will be received up to and including July 2, 1927, at 7:30 P. M., and must be addressed to E. L. Van Dellen, Clerk of the Board of Trustees of the Salinas Union High School District, Salinas, California.

The Board reserves the right to reject any or all bids.

By order of the Board of Trustees,  
dated June 16, 1927.

E. L. VAN DELLEN,  
Clerk, Board of Trustees.

#### NOTICE TO CONTRACTORS

(Del Monte School District)

The Trustees of the Del Monte School District will receive sealed proposals up until 8 P. M., on the 29th day of June 1927, at The Del Monte School House, Seaside, Calif., at which time and place said bids will be opened and read in public, for furnishing the required labor and materials for erecting and completing four one and two-classroom, concrete and cement school buildings in accordance with plans and specifications prepared therefor by Geo. E. Ellinger, architect, Wesley W. Hastings, associate architect, Room 30, 451½ Alvarado St., Monterey, Cal.

A cashier's or certified check for an amount not less than Five (5%) per cent of the amount of the bid shall accompany each proposal, drawn payable to the order of John L. D. Roberts, Clerk of the said Board of Trustees, as a guarantee that the bidder will, after being notified of the acceptance of his bid, enter into a contract with said Board of Trustees, and furnish bonds as required by the specifications. Said check to be forfeited to the said School District, should the bidder fail to execute the contract and furnish bonds as above mentioned.

Plans and specifications for the above work may be seen and secured at the Architect's Office, Room 30, 451½ Alvarado St., Monterey, Cal.

The said Board of Trustees reserves the right to reject any or all bids and to waive any informality in any bid received.

By order of the Board of Trustees of the Del Monte School District, Seaside, California.

Dated: June 16, 1927.

MRS. MARY OLMSTED, President.  
JOHN L. D. ROBERTS, Secretary.  
J. E. BENTLEY, Member.

#### NOTICE TO BIDDERS

(Painting—Sutter County Hospital)

Notice is hereby given that the Board of Supervisors of Sutter County will receive up to ten o'clock a. m., Wednesday, July 6, 1927, sealed proposals for the painting of the Sutter County Hospital in conformity with the plans and specifications adopted and now on file in the office of the County Clerk.

Each bid must be accompanied by a certified check in a sum of not less than ten per cent of the amount of bid to be returned to bidder if bid is rejected and to be forfeited to the County of Sutter if bidder refuses to enter into a contract within ten days after notice of acceptance of bid, the Board reserving the right, however, to reject any and all bids.

Dated: June 9, 1927.

BOARD OF SUPERVISORS  
OF SUTTER COUNTY.  
(Seal) ALBERT B. BROWN,  
Clerk of said Board.

## NOTICE TO BIDDERS

(Jefferson School District—Pershing School Addition)

Notice is hereby given to all builders that bids will be received by the Board of Trustees of the Jefferson School District, San Mateo County, California, at the Vista Grande School, Daly City, California, up to the hour of 8 o'clock p. m., June 29, 1927, for the erection of additions to the General Pershing School, Daly City, California, according to plans and specifications to be found at the office of William J. Sweeney, 6806 Mission street, Daly City, California.

This is an emergency call for bids, it being a public necessity to have this work finished before August 15, 1927.

The Board of Trustees reserves the right to reject any or all bids.

Funds will not be available until December 15, 1927.

Each bid must be accompanied by a certified check for ten per cent of the amount of the bid.

W. J. SWEENEY, Clerk.  
GEORGE R. AUGUSTIEN,  
LOUIS NAVA,

Board of Trustees of Jefferson School District.

## NOTICE TO CONTRACTORS

(Painting—Corcoran Union High School District)

Notice is hereby given that sealed bids will be received by the Clerk of the Board of Trustees of the Corcoran Union High School up to and until 7:30 P. M., June 27, 1927, for:

The painting of the interior and exterior woodwork, and for tinting all plastered walls and ceilings throughout the entire building of the Corcoran Union High School building.

Specifications for said work are now on file with Jas. C. Condon, Clerk of the Board of Trustees of the Corcoran Union High School, at the City Hall in the City of Corcoran.

Each bid must be accompanied by a certified or cashier's check, of not less than 10% of the amount bid, payable to the Board of Trustees of the Corcoran Union High School as evidence of good faith on the part of the bidder.

The Board of Trustees reserve the right to reject any and all bids or to accept the bid considered by them best for the said Corcoran Union High School.

JAS. C. CONDON,

Clerk of Board of Trustees, Corcoran Union High School.

## NOTICE INVITING SEALED PROPOSALS

(Motor Street Sweeper)

Pursuant to Resolution No. 8252 of the City Council of the City of Stockton, notice is hereby given that sealed proposals are hereby invited to be delivered at the office of the City Clerk of the City of Stockton, in the City Hall, up to and not later than 5:00 o'clock P. M. of the 11th day of July, 1927, for the furnishing of one motor driven street sweeper of the pick-up type, in accordance with the plans and specifications adopted by the City Council by Resolution No. 8251. The specifications approved by the City Council were general, and, hence, each bidder submitting bids under this advertisement shall furnish with his bid a set of complete specifications describing in detail the equipment he proposes to furnish. Bids shall be for equipment f. o. b. Stockton.

All bids or proposals so received will, in open session, be opened, examined and publicly declared by the City Council at the hour of 8:00 o'clock P. M., of said day in the Council Chambers. All proposals or bids shall be made upon printed forms prepared and furnished by the city. Bidders will make their bid in the manner set forth in said printed form and no bid will be considered unless made upon such form.

All proposals or bids shall be accompanied by a check payable to the City Auditor of said city, certified by a responsible bank, for an amount which shall not be less than ten (10%) per cent of the aggregate of the proposal or bid. (Bidders' bond will not be accepted).

The contract for the furnishing of said sweeper shall be executed within ten (10) days after the award thereof shall have become final and delivery thereof shall be made within thirty (30) days after the execution of said contract.

The successful bidder will be required to give two bonds with sureties to be approved by the Auditor, one for the faithful performance of the contract awarded to him and also a labor and material bond, each in the sum of fifty (50%) per cent of the contract price.

In the event that the person, firm or corporation to whom a contract may be awarded fails, neglects or refuses to enter into a contract for the furnishing of the said check accompanying the bid of said person, firm or corporation shall be declared to be forfeited to said city as liquidated damages.

The City Council reserves the right to reject any or all bids, to select that piece of apparatus which best responds in quality, fitness and adaptability to the particular requirements of the city.

Dated: June 21, 1927.

A. L. BANKS,  
City Clerk of the City of Stockton.  
By N. FREEL, Deputy.

## NOTICE TO CONTRACTORS

(Webster Elementary School Toilets—Fresno)

Pursuant to an order of the Board of Education of the City of Fresno School District of the County of Fresno, duly made and entered in its minutes this 9th day of June, 1927, public notice is hereby given that the said Board will receive up to 5 o'clock p. m. on the 14th day of July, 1927, at the office of said Board in the Hawthorne School Building, 2425 Fresno Street, Fresno, California, sealed proposals for the furnishing of labor and materials for the construction of the Webster Elementary School Toilets, as per plans and specifications prepared by Mr. E. J. Farr, Building Superintendent, Fresno City Schools, Fresno, Calif.

Bids for general contract will be received for Items A-1 to A-14 inclusive. Segregated bids will be received for the balance of the construction work.

Reference is hereby made to "General Information to Bidders," Building Form No. 6, for further particulars regarding all bids.

Bids will be opened at 8:15 p. m. on July 14, 1927, at the above mentioned address.

Plans and specifications, together with forms for submitting all bids and further details regarding any and all bids, may be obtained from the undersigned Secretary of the Board of Education at the office of said Board above designated.

A bidder's surety bond or certified check equal to at least ten per cent of the amount of the bid submitted, must accompany all proposals.

The Board of Education of said school district reserves the right to reject any and all bids.

By order

BOARD OF EDUCATION,  
City of Fresno School District.  
L. L. SMITH, Secretary.

a good and sufficient bond, as required by law, within ten (10) days after the awarding of the contract. A bidder's bond will be acceptable in place of a certified check.

Each bid must be made out on bid forms, obtainable from the architect, enclosed in a sealed envelope, which is indorsed "Proposal for General Contract," and must be delivered to Benj. Thomas, Clerk of the Board of Trustees, Florin, Calif., prior to the date and time set for the opening of bids.

Owner reserves the right to reject any or all bids.

(Signed) BENJ. THOMAS,  
Clerk of the Board of Trustees, Florin School District, Florin, Calif.

## NOTICE TO CONTRACTORS

Post Exchange, Veterans' Home

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to 2 o'clock P. M., Tuesday, July 19th, 1927, said bids then and there to be publicly opened and read, for furnishing all plant, materials, and labor required for erection and completion of the Post Exchange, Veterans' Home, Yountville, California, in accordance with plans and specifications therefor, copies of which may be obtained upon application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California.

The Post Exchange will be a low, one-story reinforced concrete frame with tile filler walls, and tile roof. All manner of work required will be included in the General Contract.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five (\$25.00) dollars will be required on plans and specifications, the deposit to be returned immediately upon the return of the plans and specifications to the Division of Architecture at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for Post Exchange, Veterans' Home, Yountville, California."

Special Notice:  
The names of contractors making application for plans will not be divulged. Requests for this information will not be complied with.

STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE.

GEO. B. McDOUGALL,  
State Architect.  
PAUL BAILEY,  
Director of Public Works.

## NOTICE TO CONTRACTORS

(Florin School District)

Notice is hereby given that sealed bids will be received and opened by the Board of Trustees of the Florin School District, Sacramento County, State of California, in the school building at Florin, Calif., at 8 p. m. on Wednesday, July 6, 1927, for the erection and completion of alterations and additions to the present brick veneer school buildings for the Florin School District, in accordance with plans and specifications made for the same by Eugene J. Sessler, architect, Mitau Bldg., for the general contract. Plans and specifications may be seen at the office of the architect before mentioned, or at the office of the Clerk of the Board of Trustees, Florin, Calif.

Each bid must be accompanied by a certified check on some responsible California bank in a sum not less than five per cent (5%) of the amount of bid and made payable to Benjamin Thomas, clerk of the Board of Trustees of the Florin School District; said check to be forfeited to the School District if the successful bidder fails to sign the contract and give

## LUMBER MERGER PARLEY IS UNDER WAY

With the arrival in Portland, Ore., June 16, of Stanley Russell, vice-president of the National City Company of New York, an important series of conferences is to begin, looking toward the eventual closing of the Pacific Northwest lumber merger. Preliminary work upon the merger has been under way for many months. It has now reached a stage where definite steps toward its conclusion are in prospect, although it is admitted by all concerned that much still remains to be done.

John W. Blodgett of Grand Rapids, Mich., head of the national committee on the merger, is also in Portland. Sidney M. Hauptman, first vice-president of the Charles R. McCormick Lumber Company, is also in the Rose city. C. D. Johnson will represent the Oregon group. Many other prominent men in the industry are on hand to take part in the proceedings.

"C" conc., 5273 lbs. reinf. steel, 40,000 lbs. rail, 55 rods wire fencing.

**SAN DIEGO, Cal.**—Election will be held August 2 to vote \$415,000 bond issue for harbor improvements.

**SAN FRANCISCO**—Until June 27, 11 A. M., under Order No. 8413, bids will be rec. by U. S. Engineer Office, 85 2nd St., to fur. and del. 1000 tons rip-rap stone, f. o. b. cars, bidder's plant, f. o. b. cars at Sacramento or f. o. b. barge, Sacramento. Further information obtainable from above office.

## IRRIGATION PROJECTS

**CONTRA COSTA COUNTY, Cal.**—C. T. Henderson, 9 Main St., San Francisco, files application with State Department of Public Works, Division of Water Rights, seeking authorization to divert 340,000 acre feet of water from Bear and Cache Creeks in Colusa and Lake counties for an irrigation project which will also provide an industrial and domestic water supply for Antioch, Pittsburg and Crockett. Irrigation would be provided for 40,000 acres in Yolo and Solano counties. Reservoirs and works will involve an expenditure of \$780,000.

**LA MESA, Cal.**—La Mesa Irrigation District has awarded contracts as follows:

Trench and backfill 5500 ft. trench to Stroud Bros. & Seabrook, 4959 34th St., San Diego, at 50c lin. ft. plus \$3 cu. yd. for class "2" (rock) work.

Steel tubing (National) 8-in., about 5500 lin. ft., to Western Metal Supply Co., San Diego at \$1.01 lin. ft.

Valves, to Waterworks Supply Co., Wright & Callender Bldg., Los Angeles, at about \$250 for the complete quantity. Bid was on Rensselaer valves.

Booster pump, 2 single stage double section 3-in. pump, connected in series to U. S. 60 h. p. motor, to Hazard Tool Co. of San Diego, bidding on American pump.

**CHICO, Butte Co., Cal.**—M. C. Polk and Frank R. Robinson, consulting engineers of Chico and J. A. Head of that city, have filed application with the State Department of Public Works, Division of Water Rights, for permission to divert and store waters for an \$800,000 power and irrigation project. Plans will provide for a dam at Forest Ranch 150 ft. high backing up waters for distance of 2 miles. Project will develop 11,250 h. p.

**PHOENIX, Ariz.**—Until 9 a. m., June 29, bids will be rec. by Roosevelt Irrigation District, 144 North Second Avenue, Phoenix, for the construction work shown below. Plans obtainable from office of the district upon deposit of \$10. Certified check, 10%, to accompany each bid. S. Carl Miller, president of the district. Work proposed follows:

Item 1. Const. main canal, located from 3 to 20 miles northeast, north and northwest of Buckeye, Ariz., about 25 miles in length and containing approx. 400,000 cu. yds. of excav.

Item 2. Const. 46 structures appurtenant to the main canal and containing the following approx. quantities of material: O. P. 26,000 FBM, common redwood 52,000 FBM, reinf. conc. 350 cu. yds.; plain conc. 50 cu. yds.; reinf. steel 15,300 lbs.; found. excav. 2000 cu. yds. corr. iron pipe 24-in., 480 lin. ft., 30 240-in. lin. ft. and other miscellaneous items, and in addition certain structures to take care of drainage containing the following approx. quantities of material: O. P. 2000 FBM, common redwood 21,000 FBM, assorted sizes of 16-gauge corr. iron pipe 1300 lin. ft., No. 60 metal flume 18-gauge 192 lin. ft., conc. 500 cu. yds., and found. excav. 500 cu. yds.

Item 3. Const. distribution laterals located from 1 to 20 miles northeast, north and northwest of Buckeye, Ariz., about 38 miles in length and including approx. 132,000 cu. yds. of excavation.

Item 4. Const. 420 structures appurtenant to the lateral distribution system containing the following approx. quantities of material: Common redwood 354,000 FBM, O. P. 42,500 FBM, conc. plain 160 cu. yds., conc. reinf. 60 cu. yds., re-

inf. steel 3050 lbs., reinf. conc. pipe 24-in. 224 lin. ft., found. excav. 8100 cu. yds., and other miscellaneous items.

Item 3. Const. metal tume across the Agua Fria river about 12 miles west of Phoenix, Ariz., being 5960 ft. long, semi-circular in shape, 12.1 ft. in diameter of No. 14 gauge metal supported by nineteen 12-in. steel truss spans on concrete piers, one hundred forty-two 16-ft. timber bents on conc. footings and one hundred forty-five 16-ft. timber bents on pile footings, or an alternate plan of steel structure consisting of nineteen 72-foot steel truss spans on concrete piers, one hundred twenty-six 18-ft. steel bents on concrete footings, one hundred thirty-eight steel bents on concrete piles.

Item 6. Const. collection canal system located from 1 to 15 miles west of Phoenix, Ariz., about 25 miles in length and containing approx. 345,000 cu. yds. of excav., together with 179 structures containing the following approx. quantities of material: Gunite lining 490,000 sq. ft., reinf. conc. 1650 cu. yds., reinf. steel 147,000 lbs., O. P. 88,000 FBM, common redwood 88,000 FBM, metal tume No. 60-18 gauge 1036 lin. ft., No. 132-18 gauge 174 lin. ft., reinf. conc. pipe 12-in. 816 lin. ft., 18-in. 120 lin. ft., corr. iron pipe 30-in. 912 lin. ft., 18-in. 120 lin. ft., corr. iron pipe 30-in. 92 lin. ft., found. excav. 5200 cu. yds. and other miscellaneous items.

Bids will be rec. for all the proposed const. (that is, items 1 to 1/2 inclusive), set out above as a unit; for items 1 to 5 inclusive as a unit; for items 1 to 4 inclusive as a unit; for item 5 as a unit, and for item 6 as a unit.

AZUSA, Cal.—Until 2 P. M., June 28, bids will be rec. by Azusa Irrigating Company, for work as follows:

Excavate and backfill 165,000 ft. of trench for pipe, ranging from 4-in. to 20-in. in diam.

Lay and weld Matheson steel pipe, ranging from 4-in. to 6-in. in diam.

Const. 160,000 ft. of wrapped riveted steel pipe and fittings, ranging from 4-in. to 20-in. in diam.

Fur. 133,000 ft. of Matheson steel pipe, ranging from 3-in. to 10-in. in diam.

Fur. 130 gate valves, ranging from 2-in. to 20-in. in diam.

Specifications obtainable from secretary, C. B. Griffith, Azusa, or from office of engineer, J. B. Lippincott, 543 Petroleum Securitie Bldg., Los Angeles, upon deposit of \$10 for each set. Certified check 10%.

## LIGHTING SYSTEMS

PASADENA, Cal.—Until 10:30 a. m., June 28, bids will be rec. by city for ornamental lights in Oakland Ave., bet. Green and Herkimer Sts., and portions of Colorado St. and other streets, involving copper and iron posts, etc.; 1911 act. W. C. Earle, city eng. Bessie Chamberlain, city clerk.

LONG BEACH, Cal.—Baty Electric Co., 4th St., awarded cont. by city at \$41,680 for ornamental lights in Pacific Ave., bet. State and Willow Sts.

SAN MARINO, Cal.—Until 8 P. M., July 13, bids will be rec. for ornamental lights in Alhambra Rd., and portions of West Dr., Lorain Rd., involving posts, lamps, cables, etc. Certified check or bond, 10%. H. W. Joyce, city clerk.

LONG BEACH, Cal.—Until 9 A. M., June 28, bids will be rec. by city for ornamental lights in First St., bet. Cherry Ave. and Livingstone Drive; Union Metal Co.'s posts; 1911 Act. H. C. Waup, city clerk.

RIVERSIDE, Cal.—Until 10 A. M., July 5, bids will be rec. for ornamental lights in So. Brockton Ave., bet. Jurupa and Central Aves., and Stewart Drive, bet. So. Brockton and Palm Aves.

CULVER CITY, Cal.—Petitions filed with city asking for ornamental lights in Albright City, bounded by Sepulveda, Washington, Sawtelle, and Venice Blvds. Petition asks for Marbelite standards.

POMONA, Cal.—Newbery Electric Co., 726 S. Olive St., Los Angeles, awarded cont. by city at \$23,865, for ornamental light system in Holt Ave., bet. Huntington Blvd. and Reservoir St., involving Union Metal posts.

sub. low bid to city at \$17,210 for ornamental lights in Ocean Blvd., etc.

SAN MATEO, San Mateo Co., Cal.—Newbery-Pearce Electric Co., 439 Stevenson St., San Francisco, at \$6323.50 sub. low bid to city to fur. and install 32 electroliers in San Mateo Dr., bet. Bellevue and Peninsular Aves. Atlas Electric Co. only other bidder at \$6859.50. Taken under advisement.

ALBANY, Ore.—H. C. Reid Co., 389 Clementina St., San Francisco, at \$14,965 awarded cont. by city to install ornamental street lighting system in Solano Ave.

## MACHINERY AND EQUIPMENT

REDWOOD CITY, San Mateo Co., Cal.—Until July 8, 7 P. M., bids will be rec. by J. D. Hedge, clerk, Sequoia Union High School District, to fur. one 50-passenger automobile school bus. Bids will be considered for bus or chassis and body separately. Further information obtainable from clerk.

BAKERSFIELD, Kern Co., Cal.—Bids will be asked at once by city to fur. and del. 10-ton steam roller for street dept. James Ogden, city manager. V. Van Riper, city clerk.

EUREKA, Humboldt Co., Cal.—City rejects one bid for sale of tractor, no longer required by street dept. New bids will be asked. John W. Griffiths is city supt. of public works.

LEMOORE, Kings Co., Cal.—Until July 2, 8 P. M., bids will be rec. by R. E. Shore, Clerk, Lemoore Union High School District, to fur. school bus, 40-passenger capacity. Bids will be considered both body and chassis or separately. Cert. check 5% payable to clerk req. with bid. Spec. obtainable from clerk.

LONG BEACH, Cal.—Bid rec. by city May 28 to fur. two tractors rejected.

FULLERTON, Cal.—Until 7:30 P. M., July 5, bids will be rec. by city for one-ton truck, body complete; spec. to be fur. by bidder. Cert. check, 5%. F. C. Hezmalhalch, city clerk.

LONG BEACH, Cal.—All bids for fur. trucks for collection of garbage rec. by city June 8 rejected by council.

BAKERSFIELD, Kern Co., Cal.—Following bids taken under advisement by city to fur. road roller: S. S. Smith, \$4950 and \$5450, with \$500 allowance for the present city roller; Austin-Weston Road Machinery Co., \$4850 and \$5050 with \$500 allowance; C. W. Powell, Los Angeles, \$5250 and \$5000, with allowance of \$1000.

BAKERSFIELD, Kern Co., Cal.—Until July 14, 7:30 P. M., bids will be rec. by J. A. Hawkins, Secty., Board of Education, to fur. and del. chassis and complete school bus with capacity of 35 pupils. Cert. check 10% payable to Bd. of Educ. req. Spec. obtainable from Secty.

STOCKTON, San Joaquin Co., Cal.—Until July 11, 5 P. M., bids will be rec. by A. L. Banks, city clerk, to fur. one motor-driven street sweeper of the pick-up type. Cert. check 10% payable to City Auditor req. with bid. W. B. Hogan, city engineer. See call for bids under official proposal section in this issue.

## FIRE ALARM SYSTEMS

SEBASTOPOL, Sonoma Co., Cal.—City votes bonds of \$10,000 to purchase fire fighting equipment.

## MISCELLANEOUS SUPPLIES

FRESNO, Fresno Co., Cal.—Valley Electric Co., Fresno, at approx. \$5000, awarded contract to furnish city with electric globes for 12-month period.

## RESERVOIRS AND DAMS

MONTEREY PARK, Cal.—Elliott & McKenna, Balise, Orange County, sub. low bid to city at \$21,068 for (1) const. of a 2,000,000-gal. conc. reservoir at \$20.-140, (2) 55 cu. yds. conc. fill at \$10 yd., (3) graded roadway \$150 lump sum, (4) 380 ft. 10-in. cement pipe drain at \$228 complete.

LOVELOCK, Nev.—Following bids taken under advisement until June 20 by directors of Lovelock Irrigation District, to const. earth fill dam and control works on Humboldt River, near Orena, Pershing County:

Contract No. 1, earth fill dam, 1167 ft. long, 80 ft. high, dry placed, roll and wet method with clay mix facing (payment in cash):

Pollock Co., Forum Bldg., Sacramento, \$610,524.

W. A. Bechtel, 625 Market St., S. F., \$720,186.

Utah Const. Co., Phelan Bldg., S. F., \$763,363.20.

Engineer's estimate, \$732,850.

Contract No. 2, same as No. 1 except main body of fill to be placed by suction dredge using river bottom material (payment in cash):

Pollock Co., \$621,024.

Contract No. 7, same as No. 1 except contractor shall purchase the entire issue of bonds for cash:

MacDonald & Kahn, Financial Center Bldg., S. F., \$919,094.

Fred H. Tibbetts, consulting engineer, Alaska Commercial Bldg., San Francisco. Project involves: 500,000 cu. yds. fill in dam; 50,000 cu. yds. excavation; 10,000 cu. yds. reinf. conc.; 26,000 sq. yds. Lak-old facing; 6000 sq. yds. flexible conc. material; 4 emergency gates; 30,000 lin. ft. steel sheet piling; 1400 lin. ft. conc. piles.

## PIPE LINES, WELLS, ETC.

ROSEVILLE, Placer Co., Cal.—Municipal Improvement Co., 1723 Webster St., Oakland, at \$30,700, awarded cont. by city to const. sewage treatment plant. C. C. Kennedy, Call Bldg., San Francisco, consulting engineer.

# THE CONTRACTORS' ROOM

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room where plans and specifications may be filed by Architects, Engineers and Owners for the convenience of bidders in San Francisco and the Bay Counties. Architects, Engineers and Owners are invited to forward plans of their projects to BUILDING AND ENGINEERING NEWS. No charge for this service. The plans will be returned in good condition when contract for work is let.

# EARTHQUAKES AND BUILDING CODES CITED BY S. F. ENGINEER

In "Building and Engineering News," issue of June 4, there was published an editorial from Engineering News-Record, New York, under the caption of "LESSEN EARTHQUAKE DANGER VIA REVISION OF S. F. BUILDING CODE."

In answer to the editorial, Mr. C. H. Snyder, San Francisco designing and consulting engineer, writes the editor of the New York publication, under date of May 19, the following letter:

Sir—The editorial "Earthquake and Building Codes" in your April 28 issue seems to me to suggest, by implication at least, that San Francisco designing engineers are unmindful of the earthquake hazard. I believe on the contrary, that reputable engineers are using as much care in attempting to minimize earthquake damage as they have ever used during the last 25 years. It is true, of course, that we are not building earthquake-proof buildings any more than we are making them fireproof. It would not be practical to do so. Our designs, however, should minimize the hazard, and, in so far as may be, prevent the loss of life or limb and simplify the restoration of damaged structures to their original condition.

I do not believe in the use of 30-lb. wind load in a country where the actual wind load is only 15 lb. The principal result is to increase unduly the cost of building. If the steel frame is honestly designed for the stresses of a 15-lb. wind and is otherwise in accord with the building law, the actual resistance is much more in most cases, due to partition and wall resistance. In any event, unless diagonal bracing is used, and this is generally impossible, the resistance of the steel frame will not be in evidence until the walls and partitions have sheared horizontally. This was confirmed by Miami observations.

The ordinary Class A business building is of a type well suited to withstand earthquakes with minimum damage. My point of view is one suggested in your editorial, and is not new. I advocated it after observation of the results of the 1906 earthquake, and I was further confirmed in this view by the results of the Santa Barbara earthquake. In brief it is this:

It is probable that in severe earthquakes well constructed reinforced concrete or steel-frame buildings with concrete walls up to two or three stories in height and having not too much window and door space can be attached to and will move with the ground. Buildings of this type are well represented by the reinforced concrete school buildings of San Francisco. Stores having mostly glass in the first story would not be of this type.

It is manifestly true that buildings of ten or more stories cannot possibly be constructed so as to move with the ground, and any attempt to construct them so will result in a whipping motion, causing disastrous racking vibration. There is evidently some height, however, to which a building can be economically built on any site so as to be expected to move with the vibrating earth. Just what height this is might be difficult to decide, but it is probably less than six stories, as the mass and weight increase with the height, and there is bound to be a critical point.

It is the duty of the engineer so to design a building as (1) to make it safe for human occupancy and (2) to minimize property damage in case of earthquake.

The ordinary steel-frame office building with stores on the first floor is well adapted to efficient bracing to secure the safety of the occupants and the minimum earthquake damage. From the second floor up the structure is of relatively low story heights and can be efficiently braced—by diagonal bracing when practical—to make a very rigid box of great weight and, in consequence, great inertia. The first story is about twice as high as the upper stories and has practically no spandrel walls, being reduced to skeleton piers with glass between. When braced with knees, we have a flexible support, allowing the ground and first floor to move relatively to the upper portion by bending the first story columns, and so transmitting but little of the ground vibration to the rigid mass above. Rear walls in the first story should be made of a non-elastic and weak material, such as

tile, so as to permit freedom of elastic movement.

An earthquake would leave a building of this type entirely or practically uninjured above the second floor; and the walls, partitions and piers in the first story would be damaged in proportion to the severity of the quake. The occupants would be inconvenienced but little, and the property damage would be largely confined to the first story, where it is most easily repaired.

Some calculations made on a building recently constructed in San Francisco indicate that a lateral movement of 2 in. or an amplitude of 4 in. could exist without stressing the steel under combined direct load and bending beyond 40,000 lb., which is near the elastic limit of the material. It is believed that the lateral movement at San Francisco in 1906 did not exceed  $\frac{3}{4}$  in.

If these figures are even approximately correct, I believe the method outlined above indicates the logical design for high buildings in an earthquake zone. I see no logic in doubling the wind stress in the hope that it may somehow do some good. It would be more sensible to decide upon a maximum relative displacement between the first and second, or possibly the third, stories, where the first story is low, of say, 1 to  $1\frac{1}{2}$  in., without exceeding the elastic limit for combined stresses, or for combined wind, live- and dead-loads according to the ordinance, whichever would be the greater.

In connection with minimizing the earthquake damage, it seems to me of great importance that the foundations, except in firm soil, should be thoroughly tied together, in order that there may be no relative movement and that the floor slabs generally should be of such thickness as absolutely to insure no distortion of the floor plan.

After all, good materials and good workmanship combined with common sense and broad-minded designing will insure satisfactory buildings under any reasonable conditions. We cannot expect ordinances alone to insure the best results. They are only needed to protect the public from ignorance, stupidity and rascality.

C. H. SNYDER.

## UTAH PLANS ROADS

The Utah State Road Commission has authorized the expenditure of approximately \$2,000,000, within the next two years, in connecting the various links of the state's east-west highways. During recent years the major part of road money has been expended on north-south highways.

Coast Rock & Gravel Company, operating a plant near Oroville, announces the purchase of a 25-ton locomotive crane to facilitate handling of rock in dredger piles. Arrangements are being completed, officials of the company report, for the purchase of a new gasoline locomotive to further increase production capacity, now running between 20 and 50 cars a day.
